ROCK VALLEY  COLLEGE

RockValleyCollege.edu

If you are or would like to be one of the following types of students at Rock Valley College (RVC) -

- Completed some college but new to RVC
- Returning RVC student (attended RVC previously and now coming back)
- Currently enrolled at another college, but planning to take one or more classes at RVC
- Already earned a college degree and planning to attend RVC
- Dual Credit or Early Admission (under 16 years)
- International students
- General Education Development (GED), English as Second Language (ESL)
- Community and Continuing Education

please click [here](#) to follow the steps to **GET STARTED** at RVC!

Welcome to Rock Valley College!

On behalf of the Board of Trustees, faculty, and staff, we take great pride in welcoming you during this very special year—the 50th anniversary of Rock Valley College. We look forward to continuing to serve and grow with our community, for another 50 years and beyond.

You are now a part of an extraordinary endeavor, the pursuit of higher education—whether you plan to earn a certificate or associate degree, or to gain increased knowledge and a more global perspective.

If you haven't already visited our beautiful Main Campus, I invite you to do so soon. Stop in the Student Center and meet with our Academic Advisors and Financial Aid professionals. They will be happy to assist you in developing the best path to meet your goals based on your specific needs and aspirations. We also have online tools like Student Planning, a feature that allows you to view your progress, search for new classes, plan your degree, and register for classes.

Rock Valley College's vision is to "make a difference through teaching, learning, and leading." We are committed to pursuing that vision every day, through our instruction, staff, programs, and facilities. We challenge, support, and inspire students to provide themselves with the education, skills, and training to improve their lives and our community. The quality of education and services you will receive at Rock Valley College is exceptional, and we are excited to see where you will take them.

We look forward to seeing you on campus soon!

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Mastroianni".

Mike Mastroianni
Rock Valley College President

CELEBRATING 50 YEARS

Join us in our year-long 50th Anniversary celebration of this historic year for Rock Valley College. As part of the celebration, please see more information about RVC's historical beginnings on pages 8, 9, 42, and 158 and also look for this "50th" icon throughout the catalog.

Watch for "50th Fridays" through December 18, 2015, as the College is sharing RVC facts and photos from over the years on the RVC blog: RVCInsider.com.

RVC SOCIAL MEDIA IN 2015

Also, follow us on all of our social media platforms as we will be posting unique content across all media throughout the year!

We encourage you to use **#RVC50** to share your memories and photos with us on social media all year long.

ROCK VALLEY  COLLEGE

3301 N. Mulford Road, Rockford, IL 61114-5699 | (815) 921-7821 • (800) 973-7821 | RockValleyCollege.edu

Accreditation & Recognition

Rock Valley College is recognized by many national, regional, and state agencies. The college is accredited by The Higher Learning Commission (HLC) and is a member of the North Central Association of Colleges and Schools. Rock Valley is recognized by the Illinois Board of Higher Education and by the Illinois Community College Board (ICCB).

Vision

As its community's college, Rock Valley College makes a difference through teaching, learning, and leading.

Mission

Rock Valley College is an educational leader in providing quality, accessible, lifelong learning opportunities, cultural enrichment, and support for economic and technological development.

The College accomplishes its mission by providing the highest quality programs and services to:

- Prepare students for successful transfer, competitive employment, professional and personal growth
- Foster innovative, collaborative relationships to advance a seamless educational system, an appreciation of the arts, economic, and technical development
- Provide leadership in developing a nurturing culture that values learning, honors and respects each individual, and uses resources responsibly

Core Values

Learner-Centered Community

The College is dedicated to providing lifelong learning opportunities that foster student success.

Mutual Respect

At all times, the College upholds the dignity of each individual by being ethical, respectful, fair, and courteous in our communication and actions.

Excellence

By setting high expectations, the College promotes excellence in teaching and learning. We are service centered and hold ourselves and each other accountable.

Diversity

The College promotes, celebrates, and accepts diversity, including cultural and ethnic diversity, diversity of thought, and diverse views of others.

Collaboration

The College values working together and with the community in innovative, enriching partnerships.

Innovation

The College anticipates change and explores creative approaches to address the future.

Public Trust

The College honors the trust placed in us by the public and upholds it through quality of service, integrity of actions, and efficient use of resources.

General Education Statement of Philosophy

The General Education Program at Rock Valley College is designed to develop the knowledge, skills, and habits reflected in the lives of educated persons and basic to all professions so that RVC students are capable of leading rewarding and responsible lives as productive, global citizens. The General Education Program offers varied opportunities for students "to develop the breadth of knowledge and the expressive skills essential to more complex and in-depth learning throughout life" (adapted from the Illinois Articulation Initiative, 2000). With this philosophy as our focus, our general education courses are designed to help students achieve the following learning outcomes.

Institutional Student Learning Outcomes

Rock Valley College students will demonstrate the following skills and characteristics:

- **Analytic Reasoning:** Students will form logical inferences, judgments, or conclusions from facts or premises related to topics encountered in the classroom, workplace, and daily life.
- **Communication:** Students will exchange ideas effectively in a variety of settings.
- **Global Awareness and Responsibility:** Students will develop the knowledge and skills required to responsibly interact with social and natural communities, both locally and globally.
- **Personal Responsibility:** Students will accept responsibility for their personal and professional wellness and development, positioning themselves for life-long learning.

Details about how students demonstrate these learning outcomes can be found at:

RockValleyCollege.edu/StudentLearningOutcomes.

Catalog Disclaimer

The information in this catalog is subject to change without prior notice or obligation. It is the student's responsibility to be aware of the information in this catalog and to keep informed as additions and corrections are announced.

Sexual & Other Harassment Policy

Rock Valley College is committed to providing an educational environment that is free from all forms of harassment as defined and otherwise prohibited by state and federal law. It is the policy of Rock Valley College that sexual harassment or any other form of harassment of a student by another student, an employee, or a third party, is prohibited and will not be tolerated. Any student or employee who is found after appropriate investigation to have violated this policy will be subject to disciplinary action, up to and including expulsion or termination.

Students who feel they have been a victim of harassment of any type, by another student, an employee, or third party, may contact:

Rock Valley College

Rock Valley College Foundation

Established in 1979, the Rock Valley College Foundation is a 501(c)(3) non-profit corporation responsible for encouraging and administering private gifts to enhance Rock Valley College's ability to serve the public. The Foundation recognizes that college funds are limited and supplemental private gifts are needed to provide rewarding, stimulating, and challenging educational experiences. Gifts to the Foundation either directly or indirectly improve the quality of educational instruction, provide better equipment and facilities, and make it possible for more students to obtain an education.

Since 1999, the Rock Valley College Foundation has raised more than \$12.8 million in cash and pledges for scholarships, grants to faculty and staff for innovative projects and programs outside the college budget, equipment, campus beautification, and capital projects. Of that over \$1.6 million has been awarded to students through the Foundation scholarship program. In addition, the Foundation has allocated over \$910,000 in grants to faculty and staff to enhance classroom instruction, experiential learning, and professional development for Rock Valley College instructors and staff.

The Foundation is governed by a board of directors comprised of dedicated community and business leaders, as well as alumni, who share the College's vision of providing unparalleled quality in education, career training, and professional development for residents of the Rock Valley College district. Through their contributions and support, they assist the College in fulfilling its role as a pace-setter in higher education for the greater Rockford region.

For more information about how any interested person can help the Rock Valley College Foundation provide excellence in higher education to our community, contact the:

ROCK VALLEY COLLEGE

History of Rock Valley College

For the last 50 years, Rock Valley College (RVC) has offered comprehensive educational opportunities in a broad range of subjects to tens of thousands of residents of its service district.

The Main Campus of the College is located on a 217-acre tract of land, at the corner of Mulford and Spring Brook Roads in northeast Rockford ("RVC Campus and Building Locations" maps - page 174).

BEGINNINGS | In 1964, a citizen's study committee concluded that there was a need for a junior college in northern Illinois. On October 10, 1964, voters from a majority of voting jurisdictions approved a referendum establishing "A Winnebago-Boone County Junior College."

In preparation for the referendum, Gene Horvath depicted ideas that are represented by the "symbol," which includes a small circle depicting the individual within the college environment.

The widening circles surrounding the individual represent and symbolize the College and the broadening community in mutual effort of growth industry development and community progress in which we study, work and live.

In more recent years, these circles have also been known to illustrate the vision of Rock Valley College as making a difference through teaching, learning, and leading.

In December 1964, 65 citizens came forward to run for seven seats on the first Board of Trustees. Elected were (pictured below, l-r): Vivian Hickey, Almeria "Toni" Roberts, Blanche Alden, Peter C. Kostantacos (founding father and the College's attorney for almost 50 years), Dean Olson, Thomas Wasson, William R. Williams, and

Robert Sechler. At the first official meeting in April 1965, the Board of Trustees chose executive dean of Chicago City Junior College, Clifford G. Erickson as the first president and chose Rock Valley College as a name. Erickson, along with the Board of Trustees, selected the former Spring Brook Farm owned by Dr. and Mrs. Rogers, on the northeast corner of Mulford and Spring Brook Roads, as the College's permanent home - the Main Campus.

OPENING DAY | "Opening Day" of classes began on September 29, 1965, at the National Guard Armory, one of the variety of Rockford locations used to accommodate classes during that first year, which also included the Naval Reserve Armory, YMCA, and Harlem High School on Windsor Road (in Loves Park, Illinois).

NOT-SO TEMPORARY BUILDINGS | The first buildings constructed on the Mulford Road property were wood frame buildings, which were to serve as temporary classrooms and facilities until the capital building program was completed. Constructed in the summer of 1966, these temp buildings were ready by the time classes started on

campus in the fall of 1966. Over the next 38 years, these buildings, known as Bldg. A, Bldg. B, and Bldg. C were sometimes referred to as "temp" buildings, but served well as headquarters for physical plant operations, business services, the printing shop, public safety [now the police department], human resources, and public relations

until 2003 when these buildings were razed. In 1966, remodeled buildings from Spring Brook Farm were home for the Student Center, Library, Registrar, and Community Education. Buildings that were part of the original Spring Brook Farm included the barn, Bldg. F; Bldg. G (Accounting); and farmhouse (Administration). The original farmhouse, barn, and Bldg. G remain today and are a visual link to the College's origins.

Plans for permanent buildings began in 1966. In 1967, following the passage of a referendum, the College brought in Ed Ware, a local architect, and Ernest J. Kump and Associates from California to develop the new campus. The rural gothic design that Rock Valley College is known for originated with Ernest J. Kump, who designed the Foothill College campus in California. The building materials included granite from the Midwest and California redwood.

THE BIRTH OF A CAMPUS | The groundbreaking for the permanent buildings on the Main Campus was held October 15, 1967. Voters approved a bond referendum, which provided one-fourth of the construction funds while the state of Illinois provided the remainder. The first three buildings constructed were the Boiler House, CLI, and CLII and were completed in 1969. The end of 1971 completed the construction of the Educational Resource Center, Student Center, and Physical Education Center. In all, the six-

building project took five years to complete. But when those shovels hit the dirt in 1967, the vision for the RVC we know today began to take shape.

Nearly 50 years later and after hundreds of thousands of students have passed through their doors, CLI and CLII are scheduled for major renovations over the next few years.

(continued on page 9)

History (continued from page 8)

JACOBS ERA BEGINS | When Rock Valley College's first president Cliff Erickson stepped down in 1968 after accepting a position in California, Robert Appel served for a short while. In late 1968, Rock Valley College found the man who would lead the College through its next quarter century: Dr. Karl J. Jacobs. He came from Michigan having spent a dozen years as an educator in community colleges there: first as professor of political science for eight years, then for a short time as a faculty union organizer, and finally as a vice president of Henry Ford Community College from 1965 to 1968.

Dr. Jacobs officially began as the second president of Rock Valley College on January 20, 1969 and served to 1997. During his tenure, multiple academic programs and building projects were formed to serve the region. Highly respected by local leaders, Dr. Jacobs sought to meet community needs through academic and career programs at Rock Valley College. Jacobs set out to build the college's image as the community's college, by instituting a community services division, expanding adult education, and establishing ties with the city's business and industrial sectors.

In 1971, RVC achieved recognition status with the North Central Accreditation group, which granted the college full tenure accreditation. In keeping with Dr. Jacob's goal of building relations between the College and the community, he pushed for a 1985 referendum to fund the construction of a technology center. The goal would be to provide high-tech manufacturing training to the local community that had been hit hard by the declining manufacturing market and had experienced a deep recession during the early 1980s. Dr. Jacobs was instrumental in the conception and implementation of the Technology Center building and its programs, opened in January 1988 complete with conference facilities and additional classroom space.

Throughout the 1980s, RVC expanded its liberal arts programs, built vocational training programs, and established a strong link with the area's high schools. Rock Valley College also established a full range of community education programs including GED and ESL education, as well as opportunities for the community to become involved in music, drama, and cultural events, and to continue their education. Examples of community education offerings were massage therapy for allied health personnel, a Whiz Kids' College, and classroom training in use of "the personal computer." RVC assumed more educational roles with each passing year.

Starlight Theatre (more on pages 42 and 162) was transformed in 1983 with a permanent seating shell, light booth, and stage as a result of community leader-led fundraising several years prior. Ultimately, the "Community Arts Center" became the Bengt Sjöstrom Theatre in honor of one of the major benefactors.

NEW CAMPUS LOCATIONS AND BUILDING PROGRAM INITIATED UNDER NEW PRESIDENT

| In 1997, RVC saw its first major change in 28 years, when President Jacobs retired. While looking for a new president, the Board of Trustees paid special attention to an individual who could lead the College into a new millennium. Dr. Roland "Chip" J. Chapdelaine was named as the College's third president, and quickly began to develop a new master plan for the College's infrastructure to guide the future growth of the campus, and to expand its academic programs and public services to further its standing as the community's college. Approved by the Board of Trustees in 1999, the plan looked 25 years into the future. Among the projects to be completed were impressive enhancements to the athletic fields, addition of a perimeter road to connect both sides of campus, Bengt Sjöstrom Theatre, and a new Support Services Building (SSB). Additionally, a renovation of the Student Center provided a "one-stop-shop" to registration, academic advising, and payment functions. These projects would enhance a campus already recognized as one of the most beautiful in the state.

The late 1990s saw the addition of state-of-the-art programs in dental hygiene, graphic arts technology, and mass communication.

This new leadership also brought an expansion of campus facilities, with the development of the Career Development Academy on Samuelson Road (the former Rockford Vo-Tech High School) and the renovation of Bell School Road Center, which has been home to the Center for Learning in Retirement for most of its 21-year existence. (The College has owned the Bell School Road Center, formerly Bell Grade School, since the early 1980s. Five classrooms are contained in this building, which was constructed in 1961 and expanded in 1967.) As well as the creation of new facilities, the College also embarked on a massive remodeling and upgrading of its computer and telephone infrastructure. In an effort to reach out to the community, RVC started offering classes at nine different locations, including the Burpee Museum, the Rockford Rescue Mission, and the Northwest Community Center.

In 2001, during a RVC Foundation campaign to raise money for major renovation projects for the College, the Foundation and College accepted gifts of \$1 million from Woodward Governor Co. (through the Woodward Charitable Trust, in honor of the family who founded them in 1870) and also \$1 million from Robert and Jan Stenstrom, of Stenstrom Companies Ltd. (a local industry leader since 1953, in General Contracting, Real Estate, Excavation & Blacktop, Petroleum Services). As part of the campaign, the College offered naming opportunities.

A ceremony on October 16, 2001 was held to rename the Samuelson Road Center - Stenstrom Center for Career Education (SCCE). A ceremony was held Tuesday, November 13, 2001 for the renaming of the Technology Center as the Woodward Technology Center (WTC).

ROCK
VALLEY
COLLEGE

GETTING STARTED

GETTING STARTED

Admission

*** See Catalog Addendum.

Admission Policy

Rock Valley College (RVC) has an "open door" admission policy and admits students who meet the criteria:

1. High school graduates or General Education Development (GED) earners. If you have earned a foreign high school credential, you must submit your High School Diploma to Educational Credential Evaluator (ECE) for evaluation. Please visit the Intercultural Student Services office or Records and Registration Department located on the second floor of the Student Center for more information.
2. Non-high school graduates age 18 years or older.
3. Transfer students from other colleges. Only credits earned from regionally accredited institutions will be accepted. No grade point average will be calculated on those credits accepted via transfer.
4. High school students age 16 or 17 who have written approval from the high school principal or counselor at the school where they have legal residence.
5. High school students under age 16 may be considered for enrollment in credit classes with the joint approval of the high school principal and RVC's High School Connections Transition Advisor. Students under 16 years old may enroll in non-credit classes; special permission is not required. For more information call (815) 921-4080.

New Students

1. See what RVC has to offer. Call us at (815) 921-4250 to arrange a visit to the Main Campus or check us out on the web at: RockValleyCollege.edu/ExploreRVC.
2. Submit an Enrollment Form to Admissions. Programs with limited enrollment that require additional application steps include Aviation Maintenance Technology, Nursing, Dental Hygiene, Surgical Technology, Licensed Practical Nursing, and Respiratory Care. Refer to the Career and Technical Education Programs section (page 44) for specific program admission details.
3. Apply for Financial Aid. See pages 17-18 for more information.
4. Submit original copies of high school and prior college transcripts. GED graduates should submit original certificates from the Regional Education Office. All documents should be submitted to Records and Registration.
5. Meet Placement Requirements. For more information, see page 14 or visit: RockValleyCollege.edu/PlacementTest.
6. Register for and attend an Educational Planning Session (EPS) (see page 14). All new RVC students are required to attend a session before they can register for classes. Sign up for a convenient time at: RockValleyCollege.edu/EPS or call (815) 921-4094.
7. All new students intending to earn a degree in Associate of Arts, Associate in Science, or Associate in Engineering Science, will be required to complete STU 100 (Planning for Success - page 155). It is recommended this requirement be completed during students' first academic semester. Students intending to earn an Associate in Applied Science degree or certificate are not required to complete STU 100, but are highly encouraged to do so.
8. Consider making an appointment to see an Academic Advisor to discuss course planning and academic goals. Call (815) 921-4100 to make an appointment.
9. Register for classes - RockValleyCollege.edu/OnlineServices.
10. Arrange payment by the deadline. Check for payment due dates at: RockValleyCollege.edu/Admission/Registration/DatesToKnow.
11. Rent or purchase books for your classes.

International Student Admission

Students who are in the United States (U.S.) on an F1 visa are considered international students. To enroll at the college, these students must:

1. Complete an RVC Enrollment Form for admission.
2. Submit proof of English language competency. ***See Catalog Addendum.
 - a. Minimum score of 79 internet based, 213 computer based, or 550 paper based on the Test of English as a Foreign Language (TOEFL) or an overall band score of 6.0 on the International English Language Testing System (IELTS)
 - b. A statement of completion of the 9th grade level at an ESL Language Center
 - c. If you are here in the U.S. as a foreign student with an F-1 or J-1 visa attending a U.S. high school or college, you will need to supply the transcript from that institution
3. Complete the Statement of Financial Support or proof of "live-in-guest" status*. Either form must be notarized.
4. Submit original transcripts of all high school and university work.
5. Complete steps 5-7 of new student process indicated to the left.
6. Complete steps 8-10 of the new student process by meeting directly with the International Student Services, Coordinator.
7. You are required to submit your High School Diploma to Educational Credential Evaluator (ECE) to have your transcript evaluated. This is required to be submitted with your application packet. Please visit the Intercultural Student Services office or Records and Registration Department located on the second floor of the Student Center for more information.

* Students with "live in guest," approval are eligible for in-district tuition rates and are subject to a non-negotiable \$500 International student fee assessed each term.

All documents must be submitted by the published deadlines to the Records and Registration Office. Please note: financial aid is not available to international students, and RVC does not provide on-campus housing. For questions about international student admission, contact (815) 921-4251. This school is authorized under federal law to enroll non-immigrant alien students.

Undocumented Student Admission - The Law In The State Of Illinois

An undocumented student refers to students who were born outside the United States, but have lived in the country for a significant portion of their lives, and who reside here with no documentation stating U.S. citizenship or legal residency.

House Bill 60-In-State Tuition for Undocumented Students (Signed into law as Public Act 093-0007) states that undocumented students in Illinois may receive in-state tuition if they meet the following conditions:

- Student resided with his or her parent or guardian while attending a public or private high school in Illinois.
- Student graduated from an Illinois high school or received the equivalent of a high school diploma in Illinois.
- Student attended an Illinois high school for at least three years as of the date of graduation from high school or received the equivalent of a high school diploma in Illinois.
- Student provides the community college with an affidavit* (oath made in writing) stating her/his intent to file an application to become permanent residents as soon as they are eligible.

Note: "The exact language from PA 93-007 supersedes the language included in this catalog."

Undocumented students are not eligible to apply for state and federal financial aid, but may be eligible for many private scholarships.

* Direct questions about international student admission to (815) 921-4251. This school is authorized under federal law to enroll non-immigrant alien students.

Admission (continued)

High School Connections (HSC), Dual Credit & Dual Enrollment & Articulated Credit

Rock Valley College offers opportunities for high school students to earn college credit at RVC or at district high schools:

1. **Dual Credit** (general): classes available at RVC or in area high schools.
2. **Advance Now** (formerly called *Career College*): dual credit career and technical programs offered in partnership with the Career Education Association of North Central Illinois (CEANCI).
3. **Running Start**: program for qualified high school students, in conjunction with participating high schools, for students to attend RVC full-time their junior and/or senior year.
 - **Running Start 2-year Program** is an **Associate degree completion** option - Students complete a High School Diploma and an Associate degree simultaneously during their junior and senior year.
 - **Running Start 1-year Program** is a **non-degree completion** option - Students enroll in general elective courses completed only during their senior year.
4. **Dual Enrollment** is also available to high school students, to receive college credit, while still in high school.
5. **Articulated Credit** is college credit earned for prior career and technical education courses completed at approved high schools.

For more information about these high school programs, please visit: RockValleyCollege.edu/HSCConnections, or call (815) 921-4080.

Returning Students

1. Review courses already taken and carefully review the **College Catalog** and **Online Schedule** available at: RockValleyCollege.edu/OnlineServices or RockValleyCollege.edu/Courses.
2. Students who have earned a college degree from an accredited university may request an Educational Planning Session (EPS) waiver, call (815) 921-4094.
3. Apply for Financial Aid (see page 17, for more information).
4. Consult with an Academic Advisor when selecting classes and setting academic goals, call (815) 921-4100.
5. If nearing graduation, submit an application for graduation to the Records and Registration Office.
6. Check registration dates at: RockValleyCollege.edu/Admission/Registration/DatesToKnow.
7. Register for classes.
8. Arrange payment by payment deadline. Check payment due dates at: RockValleyCollege.edu/Admission/Registration/DatesToKnow.

Transferring Credit To RVC

Students at Rock Valley College who have credits from another college and plan to earn a degree/certificate at RVC should submit an official transcript, in a sealed envelope from the issuing institution, to the Records and Registration Office, along with a transcript evaluation request form. The transcript evaluation form is available in the Records and Registration Office located on the second floor of the Student Center. Evaluations may take four- to six-weeks after receipt of all materials.

Criteria for evaluation of transferable credits:

- Transfer credit must be earned at a regionally accredited institution.
- Whenever possible, RVC course equivalents for 100 and 200 level credits are awarded. If that is not possible, up to 21 credits of electives may be granted.
- 300 level/junior level credits will transfer on a course by course basis once equivalency is determined.
- 400 level credits require permission from the appropriate dean if a potential equivalency is determined.
- Students may be required to provide course descriptions/syllabi to complete the transfer credit process. Elective credit may be re-evaluated by submitting a syllabus to the Records and Registration Office.
- RVC accepts "D" grades only if the overall GPA is 2.0. (Refer to course descriptions at the back of this catalog for minimum course grade requirements; additional information is provided in the degree requirements for the Associate of Arts and Associate in Science beginning on page 32, and in the degree/certificate requirements in the Career and Technical Education Programs beginning on page 44.)
- Transfer credit does not affect cumulative GPA at RVC.
- All new students intending to earn an Associate of Arts, Associate in Science, or Associate in Engineering Science, will be required to complete STU 100. It is recommended this requirement be completed during your first academic semester. Students intending to earn an Associate in Applied Science degree or certificate are not required to complete STU 100, but are highly encouraged to do so.
- RVC does not honor substitution and/or waivers made at another institution, unless approved by the appropriate Dean.
- Only degree/certificate required courses will be transferred in to a student's record. A maximum of 44 transfer credits will be applied. A minimum of 20 RVC credits are required to complete a RVC degree/certificate.
- Foreign transfer credit must be evaluated by Education Credential Evaluators (ECE), please go to: ECE.org.
- Military transfer credit may be awarded upon evaluation of the Joint Services Transcript. The Joint Services Transcript (JST) can be ordered at no cost to the student by going to the website - <https://jst.doded.mil>.

Four (4) Physical Education (FWS) credits will automatically be awarded to students who have completed basic training.

[Note: only three (3) FWS credits can be used towards degree completion.]

The evaluation of transfer credit may require course descriptions/syllabi to complete the transfer credit process. Course content must be equal to a Rock Valley College course in order to transfer in equivalent credits. Vocational elective credit may be awarded if Rock Valley College does not offer an equivalent course. [Note: Vocational elective credit cannot be used towards degree completion.]

GETTING STARTED

Admission (continued)

Admission Requirements For Transfer Degree Programs

Students pursuing a transfer degree (Associate of Arts, Associate in Science, or Associate in Engineering Science, must successfully complete specific high school or college courses as outlined in the Illinois Public Act 86-0954 (see High School Requirements below). A student who does not meet these requirements at the time of enrollment is provisionally admitted as a pre-baccalaureate transfer student. When course deficiencies have been completed, the student is reclassified as a baccalaureate transfer student.

High School Requirements

SUBJECT	YEARS	COURSES
English	4	Written and Oral Communication, Literature
Mathematics	3	Algebra I, Geometry, Algebra II, Trigonometry
Social Studies	3	History, Government
Science	3	Laboratory, Science
Electives	2	Foreign Language, Art, Music, or Vocational

Students with academic deficiencies are considered by RVC to have satisfied these deficiencies upon successful completion of 32 college level credits (courses numbered 100 or above with a minimum 2.0 GPA), which must include ENG 101, SPH 131, one Social Sciences course, one four-credit laboratory Science course, and one Mathematics course (MTH 115 or higher).

Placement Requirements

All new students interested in registering for credit courses are required to meet placement requirements by completing the placement test or by submitting ACT/SAT scores or college transcripts including AP and CLEP. All score reports and transcripts should be submitted to the Records and Registration Office for evaluation as soon as possible, (815) 921-4250.

Placement testing assesses a student's abilities in reading, English, and mathematics for the purpose of appropriate course placement. All testing is computer-based, untimed, and scores are immediately available.

More information about the placement test is available at: RockValleyCollege.edu/PlacementTest and in the Testing Center, (815) 921-2380.

ACT/SAT scores may be submitted for possible placement test waivers if submitted for evaluation within three (3) years of the original test date.

Post-secondary transcripts/degrees from institutions accredited by recognized regional agencies may be submitted for possible placement test waivers or exemptions based on evaluation.

Testing accommodations for students with disabilities must be approved by the Office of Disability Support Services (DSS) at least one (1) week prior to testing in order to arrange appropriate services, (815) 921-2371.

Students in Developmental Reading courses are limited to a specific list of college level courses until they complete the reading series. A complete list of course options for students enrolled in any Developmental Reading Course is available at: RockValleyCollege.edu/ReadingCourseOptions.

First Year Experience (FYE)

1. All new students are required to attend an **Educational Planning Session (EPS)** before they can register for credit courses. The EPS focuses on necessary information about the transition into RVC, academic expectations and responsibilities, advising and registering for classes. Register online at: RockValleyCollege.edu/EPS or call (815) 921-4094.
2. New students are encouraged to attend a "New Student Welcome Event" before their first semester. This event will include campus event tours, mock classrooms, and a chance to meet faculty, staff, and students. Invitations will be sent to new students, or call (815) 921-4094.

For more information, contact the First Year Experience Office at (815) 921-4094.

SCENIC MAIN CAMPUS

Connecting the two sides of the Main Campus, the scenic bridge spans Spring Creek and houses the College's most recognized landmark - the clock on the bridge.

The classic Alumni Clock stands watch as students, faculty, and visitors pass by. Its plaque reads: 25 Years, 1964-1989, donated by the RVC Foundation, the Student Commission, and Private Donors.

ROCK VALLEY COLLEGE

Join us in the Rock Valley College year-long 50th Anniversary celebration - check out "50th Fridays" on the RVC blog: RVCInsider.com and use **#RVC50** to share your memories and photos with us on social media all year long.

Records & Registration

In order to register for classes, students must have completed an Enrollment Information Form for Admission, attended an Educational Planning Session (EPS), and completed testing requirements. Dates, times, and methods for registration are listed at: RockValleyCollege.edu/Admission/Registration/DatesToKnow. Students who have been limited in their enrollment for academic reasons may appeal to the appropriate dean. The Records and Registration Office is located on the second floor of the Student Center on the Main Campus.

Auditing A Class

Students who wish to audit a course without receiving credit must visit the Records and Registration Office. Auditing students pay full tuition and fees – see Tuition and Fees located on the RVC website: RockValleyCollege.edu/Tuition.

Changes may be made from credit to audit, or vice versa, only during the open registration period. Audits are not allowed for non-credit courses.

Academic Load

Full-time students: Students enrolled in twelve (12) semester hours of course work or more during the **fall, spring, or summer terms** shall be considered full-time. The summer term consists of summer session I and summer session II. The total amount of semester hours taken in summer I and summer II will determine the enrollment classification for the summer term. The recommended maximum academic load during fall or spring semesters is 18 credit hours, during Summer Session I is six (6) credit hours, and Summer Session II is nine (9) credit hours; registration for any additional hours must be approved by the Provost/Chief Academic Officer of Academic Affairs.

- A petition for academic overload is required and can be obtained in the Academic and Transfer Advising Office, on the second floor of the Student Center on the Main Campus.

Part-time students: Students enrolled in one to eleven (1-11) semester hours of course work during the **fall, spring, or summer terms** shall be considered part-time. **Students enrolled in less than six (6) semester hours of course work during any term shall be considered less than half-time.**

Withdrawal From A Class

Rock Valley College reserves the right to administratively withdraw those students who are not actively pursuing the course. Students may also be withdrawn for emergency or disciplinary reasons or if they are enrolled in courses not consistent with placement testing and course prerequisites. Students are responsible for officially withdrawing from course(s) they are no longer attending. These types of withdrawals do not remove any financial obligations incurred for the course(s). The appropriate withdrawal forms are available at the Records and Registration Office. Course withdrawal is only available in person.

Students are encouraged to consult with their Instructor, Academic Advisor, and the Financial Aid Office if they are receiving aid, before withdrawing from a course. Withdrawal after the last day for tuition refunds date will result in a “W” grade on a student’s transcript. Deadlines for shorter-term courses may be found in the Records and Registration Office.

Grades of “W” (withdrawal) are not used in calculating the GPA or semester hours attempted but will count toward financial aid eligibility. No withdrawals are accepted after the deadline except in case of extenuating circumstances.

Students with extenuating circumstances (military activation, death of immediate family member, or serious medical condition) must submit an Enrollment Appeal to the Records and Registration Office by calling (815) 921-4250. Enrollment Appeal forms are available in the Records and Registration Office. All appeal forms must be accompanied by supporting documentation or the appeal will be denied. Submitting an appeal does not guarantee approval.

GETTING STARTED

Tuition & Fees

By registering for a course, students agree to pay the required tuition and fees for that course. Tuition is charged per semester hour for credit courses and varies depending upon residency. Tuition rates and fees are subject to change without prior notice.

Residency

Students enrolling at RVC are classified for the purpose of determining tuition and fee rates. Evidence of resident status is provided on each applicant via the Enrollment Information Form. Questions regarding classification should be directed to the Records and Registration Office at (815) 921-4250 or visit our website at RockValleyCollege.edu/Residency.

In-District Student

To be classified as a District 511 resident, students must have resided within the district for at least 30 days prior to the start of the semester. Students who have moved from an out-of-district or out-of-state residence to an in-district residence for reasons other than attending RVC are exempt from the 30-day requirement upon verification. Residency verification requires one of the following: an official signed lease or rental agreement, a current Illinois driver's license or State ID, a utility bill in the student's name, or a valid Illinois voter's registration card. A student living outside the district/state, but who is employed at least 35 hours per week within the district, must present a letter from the employer prior to each semester testifying to that fact in order to have out-of-district/state fees waived.

Note: Beginning with the 2013-2014 academic year, if a person is utilizing benefits under the federal Post-9/11 Veterans Educational Assistance Act of 2008 or any subsequent variation of that Act, then the board shall deem that person an in-district resident for tuition purposes.

International students may be considered in-district students if they:

1. graduated from a high school in the RVC district and hold a student visa or
2. have a sponsor who lives within the district and signs a form verifying sponsorship and guaranteeing payment of tuition, fees, and miscellaneous college charges.

Contact the Records and Registration Office at (815) 921-4250 with questions or visit our website at: RockValleyCollege.edu/Residency.

Out-Of-District Student

A student who has not established residency within Community College District 511, but is a resident of the state of Illinois, will be classified as out-of-district and charged the appropriate tuition. Out-of-district students who want to attain an approved occupational program degree or certificate offered only at RVC and not their own district community college should refer to "Cooperative Educational Agreements" on page 88.

Out-Of-State Students

Students whose legal residence is outside of Illinois are considered out-of-state students and charged the appropriate tuition. International students who are not citizens of the United States and do not meet the criteria listed above will be considered out-of-state students.

Tuition/Fees

For current tuition rates and specific class fees, refer to the RVC website at: RockValleyCollege.edu/Tuition.

Tuition For Senior Citizens (age 62 & over)

Students 62-64 years of age, prior to the start of the semester, who are residents of Rock Valley College District 511 qualify for a reduced tuition rate of \$25 per credit hour for credit courses only.

Students age 65 and over, prior to the start of the semester, who are district residents may attend credit classes tuition free.

All other fees will be assessed at a full rate for students in both age categories. The tuition reduction is not applicable for enrollment in non-credit seminars, classes, or programs.

Tuition Refund

Rock Valley College has determined students may receive a tuition refund upon dropping credit courses based on the following guidelines. In each case if the student drops courses by the specified date, all tuition and fees are refunded. There is no prorated schedule for tuition and fee refunds.

Tuition refund requests should be made to the Records and Registration Office during normal business hours. Refunds will be made according to the following schedule:

COURSE LENGTH	100% REFUND	NO REFUND
16- week course (fall-spring)	Before or during first 7 business days of semester	After the 7th business day of the semester*
4- to 15-week course	On or before 4th business day from start of class	After the 4th business day*
Less than 4-week course	On or before 3rd business day from start of class	After the 3rd business day*

*Saturdays are scheduled course days and are used in the calculation of business days.

The college reserves the right to make the final decision on all refunds.

- It is the student's responsibility to know the refund dates for their courses.
- Non-attendance does not constitute a drop in a course nor qualify students for a refund.
- Failure to drop a course properly may result in a failing grade.
- It is the student's responsibility to drop themselves from a course.
- No refunds will be granted when a student is dismissed or suspended from the college for disciplinary reasons.

Tuition Appeals

No tuition refund will be granted following the tuition refund date. If extenuating circumstances exist (i.e., military activation, death of immediate family member, or serious medical condition) a student may submit a Tuition Appeal with supporting documentation to the Records and Registration Office. A Tuition Appeal does not automatically result in a refund. Tuition Appeals may be submitted within the semester in which the student was enrolled in the course(s). Students who have received Financial Aid funding do not qualify for a tuition appeal refund; however, an enrollment appeal can be filed.

Tuition & Fees (continued)

Payment Information

There are two payment options available:

1. **Pay Online.** Log into your student services online account at: RockValleyCollege.edu/OnlineServices to pay in full or initiate a payment plan. Payment methods include credit (debit) cards (VISA, Mastercard, Discover, and American Express); or ACH (Automated Clearing House-electronic transfer) from a checking account. - OR -
2. **Visit the Payment Center** in the Student Center (second floor). Payment methods include cash, check, money order, or credit (debit) cards (VISA, Mastercard, Discover, and American Express).

All credit (debit) card payments will be charged an additional 2.5% non-refundable transaction fee.

Students who do not make their payment in full, have not been awarded financial aid, or have not signed up for the payment plan will have their classes cancelled for non-payment.

Tax Information: Prior year tax information (IRS tax form 1098T) will be available in Online Services at: RockValleyCollege.edu/OnlineServices by January 31st each year. Under Financial Information, click the "View My 1098T form" link and select the year. Student must have a social security number on file.

Cooperative Agreements & Tuition Chargebacks

Students in Rock Valley College's District 511 who wish to pursue occupational degree and certificate programs not available at RVC may do so by the following:

- **Cooperative agreements:** RVC has cooperative or joint agreements for a number of programs with neighboring community colleges. Through a cooperative agreement, District 511 residents may attend another community college at the other schools' in-district tuition rate. Applications for cooperative agreements are available in the Student Development Office, on the second floor of the Student Center. Refer to Cooperative Educational Agreements, page 88.
- **Chargebacks:** Resident students who want to pursue a certificate or occupational degree program not available through RVC or one of the cooperative agreements may apply for chargeback tuition if they plan to attend another public Illinois community college that offers that program. Applications for chargeback tuition must be obtained from the RVC Student Development Office prior to the first day of classes of the semester/quarter at the attending school. If approved, the student pays in-district rates for the college they are attending and RVC pays the difference between the in-district and out-of-district rate to the other institution. Chargebacks are available only for occupational programs resulting in a degree or certificate and not for individual courses. Repeated courses, prerequisite courses, and developmental courses are not funded by chargebacks.

For further information, guidelines, and applications for cooperative agreements or chargebacks, please call the Student Development Office to schedule an appointment at (815) 921-4281.

Note: A cooperative agreement supersedes a tuition chargeback. See the listing of Cooperative Educational Agreements on page 88.

Out-of-district students who want to enroll in a program at RVC under a cooperative agreement or chargeback should contact their own community college first to make initial application.

Financial Aid

Four basic types of financial aid are available to Rock Valley College students: grants, scholarships, loans, and student employment. For complete information about financial assistance, contact the Financial Aid Office at (815) 921-4150 or go to: RockValleyCollege.edu/StudentServices/FinancialAid to view the *RVC Financial Aid Handbook*.

Application Procedures

In order to determine eligibility for financial aid at Rock Valley College, students must complete the Free Application for Federal Student Aid (FAFSA). Students must apply for aid yearly, as soon as possible after January 1st for the upcoming fall/spring/summer semesters to ensure full consideration for all grants. Applications are considered on a date received basis. For "priority consideration" deadlines students should refer to the *RVC Financial Aid Handbook*.

Students are encouraged to file online at: fafsa.ed.gov. RVC's school code for FAFSA purposes is 001747.

Over 50% of the FAFSA applications received last year contained errors. To avoid lengthy delays in processing, please complete forms accurately. If you estimate your tax information, remember to go back and update your FAFSA when taxes are completed.

ACADEMIC STANDARDS OF PROGRESS FOR RECIPIENTS OF FINANCIAL AID:

In accordance with the U.S. Department of Education and state of Illinois regulations, Rock Valley College established Standards of Academic Progress applicable to all financial aid recipients. These standards apply to all students receiving federal and state funding, including veterans and students receiving student loans or federal/RVC work-study employment.

For a copy of the entire policy, students can contact the Financial Aid Office for the Financial Aid Handbook or view online at: RockValleyCollege.edu/StudentServices/FinancialAid.

Completion Rate Requirement: A student must achieve a 67% cumulative completion rate for all course work attempted at Rock Valley College. This applies whether or not the student previously received financial aid. In addition, the student must achieve a 67% cumulative completion rate for all course work attempted within a given semester.

- a. Credit hours completed are defined as completion of a course by the end of a given semester in which a student is enrolled and receiving a grade of A, B, C, D, or P.
- b. Credit hours attempted include all credit classes in which the student is enrolled after the last day to drop for refund. Course withdrawals after the last day to drop as well as courses with grades of "F" and "I" count as hours attempted for financial aid purposes.
- c. Audits, proficiency tests, and non-credit courses are not included in the total number of credit hours attempted.

Grade-Point Average (GPA) Requirement for 2015-2016:

A student must maintain a minimum GPA requirement or probation status in order to continue receiving financial aid.

GPA	0 - 1.49	1.5 - 1.99	2.0 - 4.0
Hours attempted 1-12	Probation	Probation	Satisfactory
Hours attempted 13-24	Unsatisfactory	Probation	Satisfactory
Hours attempted 25 +	Unsatisfactory	Unsatisfactory	Satisfactory

GETTING STARTED

Financial Aid (continued)

Maximum Timeframe Requirement

Student eligibility for financial aid at Rock Valley College is limited to 96 credit hours attempted, regardless of whether or not the student previously received financial aid.

Evaluation Requirement

At Rock Valley College, academic performance must be evaluated before a student can receive financial assistance. Academic performance is evaluated after each fall and spring semester. (The fall evaluation will include any summer courses in the overall completion rate.)

Developmental Course Requirements

While taking developmental courses (i.e., MTH 097) a student must also be enrolled in and attending an eligible 100 level class. Please note that Title IV funding is limited to a maximum of 30 developmental course credits.

Note: Financial Aid will only consider payment for a class repeated two times.

These requirements are subject to change and may be updated.

Scholarships

A variety of scholarships are available to Rock Valley College students through private funding sources and the Rock Valley College Foundation. Information about these opportunities and applications can be obtained through the Financial Aid Office or at: RockValleyCollege.edu/Scholarships.

Veterans Program

Students interested in Veterans Educational benefits, Illinois veterans benefits, and any other related programs should contact the Financial Aid Office. For more information, call (815) 921-4163 or visit: RockValleyCollege.edu/StudentServices/FinancialAid/VAbenefits.

Federal Refund Policy & Repayment Of Financial Aid

Students receiving Title IV funds (Federal Pell Grant, Federal SEOG, and Federal Student Loans) who withdraw and/or fail all classes will be subject to the Federal Return of Title IV Funds Policy. This policy states a student may retain only the amount of aid that they have earned. It is the student's responsibility to return any aid that was not earned and pay any tuition balance resulting from the refund(s).

Further details can be obtained from the Financial Aid Office or at: RockValleyCollege.edu/StudentServices/FinancialAid.

Helpful Websites Include:

- U.S. Department of Education, (800) 4 FED AID StudentAid.ed.gov

Students can obtain printed copies of *The Student Guide* from the U.S. Department of Education at: StudentAid.ed.gov.

Academic Policies & Procedures

Transcript Requests

In order to obtain a transcript from Rock Valley College, consent must be given through one of the following options; e-Scrip Safe, Rock Valley College Online Services, fax, mail or walk-in.

Note: Transcripts listing courses number 100 and above will be sent for each request. If you took courses numbered below 100 (remedial), Community and Continuing Education courses or Adult Education courses, you will need to specifically request inclusion of these records.

Transcripts of work completed at other institutions become a part of a student's record at Rock Valley College and are not released or copied for distribution. Copies must be obtained from the institution where the courses were completed.

All Financial and Academic obligations to Rock Valley College must be satisfied before transcripts will be released.

Visit our website, for detailed information, at: RockValleyCollege.edu/Transcripts or contact the Records and Registration Office at (815) 921-4250 with questions.

Financial Obligation Of The Student

Grade reports, transcripts, degrees/certificates, or other academic record information may be withheld from students who are in default on financial obligations. In such a case, students maintain the right to inspect and review their records. Information will only be released once the student's account has been cleared.

Updating Student Records

It is the responsibility of students to notify the Records and Registration Office of any change or correction to their name, address, telephone number, and/or any other information on their record. It is imperative that this information be kept current and accurate.

Repetition Of Courses

Only the grade of the final repetition will be computed in the student's grade point average (GPA), but all attempts will be listed on the transcript. If a student chooses to audit a course, it will not be considered a repeat or counted in the GPA. This does not apply to grades earned at other colleges. It is important to note that other colleges may count all grades for repeated courses when arriving at a GPA. It is the students' responsibility to acquaint themselves with the policy of the college(s) to which they plan to transfer.

Academic Policies & Procedures (continued)

Developmental Reading Course Requirement

Students assigned to RDG 080 (or RDG 096, RDG 099) must receive a grade of "C" or better in order to register for any courses other than basic skills courses. Any student enrolled in RDG 080 (RDG 096, RDG 099) who drops the class will be withdrawn from all classes. RDG 080 (RDG 096, RDG 099) may be repeated only one time.

Students in Developmental Reading courses are limited to a specific list of college level courses until they complete the reading series. A complete list of course options for student enrolled in any Developmental Reading Course is available at: RockValleyCollege.edu/ReadingCourseOptions.

Developmental Math Policies

If a student receives three (3) non-passing grades (D, F, or W) in a developmental math course within a five-year period, that student is not allowed to re-enroll for another math class at Rock Valley College without permission of the Dean of Mathematics.

Students placing into beginning algebra or lower must satisfy the geometry requirement prior to taking a college level class. Students must either take MTH 097 or complete a geometry waiver form or pass a competency test. For more information, please go to: RockValleyCollege.edu/Math.

Credit For Prior Experiences

1. Proficiency Examinations

Proficiency exams are given at Rock Valley College for specific courses in several divisions. Students who wish to receive credit by examination should contact the proper divisional chairperson or director for information about what is available. Students must submit a proficiency examination application for exams that meet their needs. The credit hour nonrefundable fee is 50% of the regular tuition rate for that semester; the receipt for this fee serves as admittance to the testing session. Credit will be recorded after successful completion of the exam, meeting the divisional requirements, and earning six (6) credit hours of 100 level or higher courses at RVC.

2. College Level Examination Program (CLEP)

The College Level Examination Program (CLEP) gives students an opportunity to demonstrate prior learning and to earn credit for that knowledge. A maximum of 47 credit hours may be earned through CLEP. Certain fees apply for taking CLEP exams at RVC. Credit awarded is based on CLEP score(s) earned and submission of official CLEP score report(s) to the Records and Registration Office for evaluation. CLEP credit is recorded on a student transcript after six (6) credit hours or more have been earned in 100 level or higher courses at RVC. English (ENG) and Math (MTH) credits will be added to a student transcript prior to earning six (6) credits for students currently enrolled in RVC credit classes.

To obtain more information about CLEP, visit: CLEP.CollegeBoard.org and RockValleyCollege.edu/CLEP or contact the Testing Center at (815) 921-2380.

3. Advanced Placement (AP)

Credit may be granted to students who have participated in the Advanced Placement (AP) program. Credit awarded is based on AP score(s) earned and submission of official AP score report(s) to the Records and Registration Office for evaluation. AP credit is recorded on a student transcript after six credit hours or more have been earned in 100 level or higher courses at RVC. English (ENG) and Math (MTH) credits will be added to a student transcript prior to earning six (6) credits for students currently enrolled in RVC credit classes.

To obtain more information about AP, see: APCentral.CollegeBoard.com and RockValleyCollege.edu/AP or contact the Testing Center at (815) 921-2380. Students who have participated in the AP program should also consider credit earning opportunities available through the College Level Examination Program (CLEP).

4. Professional Certificates & Federal Licenses

College credit is granted for specific professional certificates and/or federal-state licenses or certificates. Students should contact the RVC division in which they will be pursuing a degree or certificate for more information. Credit will be recorded on student transcripts when they earn at least six (6) credit hours at RVC.

5. Credit For Alternate Learning

College credit may be granted toward an Associate Degree for the following programs certified by the U.S. Department of Labor, Bureau of Apprenticeship and Training.

- **Aviation Maintenance Technology:** Federal Aviation Administration Mechanics Certificate (FAA 8060-1).
- **Early Childhood Education** (formerly Child Care and Development): Maximum three hours for Child Development Associate Credential (CDA).
- **Chrysler Institute:** Equivalent hours of college credit for successful completion.
- **Criminal Justice:** College course credit may be granted for successful completion of a state-approved full-time or part-time academy in law enforcement.
- **Fire Science:** College course credit may be granted for the successful completion of Office of the State Fire Marshal (OSFM) approved course programs (Illinois or Wisconsin), Illinois Fire Chiefs Association, National Fire Academy (NFA), Illinois Fire Service Institute (IFSI), Department of Defense, Emergency Medical Technician (National Registry), and Illinois Department of Public Health courses/certificates (Policy 209).
- **Office Occupations:** Maximum 12 hours college credit for successful completion of the Certified Professional Secretary Examination (CPS).
- **Production and Inventory Control:** Maximum of nine (9) hours of college credit for Production and Inventory Management (CPIM) designation.
- **Respiratory Care:** Respiratory Care program course credit may be granted for Certified Respiratory Therapist (CRT) Examination.

GETTING STARTED

Grading

Grade points at Rock Valley College are assigned on the following scale:

GRADE LEVEL	SIGNIFICANCE	GRADE-POINT
A	superior	4.0
B	good	3.0
C	average	2.0
D	poor	1.0
F	failure	0
W	withdrew/not completed	NA
T	credit by proficiency	NA
AU	audit*	NA
P	successful completion	NA
I	incomplete**	0

NA = not applicable

*Audit - Students may elect to audit a course (no credit, no grade points, not figured in grade point average). Audit status indicates that the student will attend the classes but will not receive credit. (A student must declare audit status before the first day of classes.)

**Incomplete - Upon prior arrangement and agreement with the course instructor and upon submission of the college's "incomplete grade agreement form" submitted by the instructor, an incomplete (I) indicator will be recorded on the student's record. An "I" will be issued at the discretion of the instructor when course requirements are not fulfilled by the end of the term only when the instructor believes that the reason the student cannot complete the course in a timely fashion is sufficiently serious to warrant the issuance of the "I" indicator.

The incomplete grade agreement is a contract made between the student and the instructor, and states specifically what the student must do to complete the course work. The course work must be completed within the specified time period, not to exceed 12 months from the end of the term in which the course was taken. Upon completion of the course work, the instructor will change the "I" indicator to the appropriate letter grade (A, B, C, D, or F). If the student does not complete the course work within this prescribed time period, a grade of "F" will be entered for the course.

Calculation Of Grade Point Averages

A grade point average (GPA) will be calculated at the conclusion of each semester. The GPA includes all A-B-C-D-F grades complete to date, except those courses in which the pass/fail system is used exclusively, or those courses in which the pass/fail option is selected, or courses numbered less than 100. If a course is repeated, only the grade of the final repetition will be computed in a student's GPA.

The GPA will be calculated based on a four point basis (F=0, D=1, C=2, B=3, and A=4) where the number of grade points for a specific letter grade is multiplied by the number of credit hours earned for that course. For instance, the number of credit hours in which the student earned an A is multiplied by four (4) then added to the number of credit hours in which the student earned a B multiplied by three (3), etc. Finally, the total grade points are divided by the total credit hours for which a student received an A, B, C, D, or F.

President's List & Dean's List

To be eligible for the President's List and Dean's List for a given semester, students must earn at least 12 credit hours of college course work which count toward a certificate or degree.

Students who meet the eligibility requirements and earn at least a 3.25 GPA will be named to the Dean's List (fall and spring semesters only). Students who meet the eligibility requirements and earn at least a 4.0 GPA will be named to the President's List (fall and spring semesters only).

Appeal Of A Capricious Final Grade

The following procedures are available only for review of alleged capricious grading, and not for review of the judgment of an instructor in assessing the quality of a student's work. Capricious grading is limited to one or more of the following:

- The assignment of a final course grade to a particular student on some basis other than performance in the course.
- The assignment of a final course grade to a particular student by a substantial departure from the instructor's standards announced during the term which are not uniformly applied to others in the class.

The assessment of the quality of the student's academic performance is solely and properly the professional responsibility of the RVC faculty. It is essential for the standards of the academic programs at RVC and the integrity of the degrees conferred that these professional judgments are not subject to pressures or interference from any source.

Process For Capricious Final Grade Appeal

A student who wishes to appeal a final course grade which he/she feels has been capriciously given should follow the steps below. Grades may be appealed no later than the beginning of the fourth week of the academic term or summer session which directly follows the term in which the grade involved was awarded.

- A student who wishes to appeal a capricious final grade must first meet with the faculty member to review the criteria applied in assigning that grade.
- After this initial review, if the problem is not resolved, the student may next appeal in writing to the faculty member's Dean. Once the appeal is read, the Dean will meet with the faculty member to review the criteria applied to the student's performance in assigning the capricious grade. When the faculty member and the Dean have reached a decision, the Dean will communicate that decision in writing to the student.
- If the problem is still not resolved, the student may appeal in writing to the Vice President of Liberal Arts & Sciences or Career & Technical Education of the College for further review. When the faculty member and the Vice President of Liberal Arts & Sciences or Vice President of Career & Technical Education have reached a decision, the Vice President of Liberal Arts & Sciences or Vice President of Career & Technical Education will communicate the decision in writing to the student.
- In the event the matter is not resolved, the student may file a petition with the Provost/Chief Academic Officer requesting a hearing by the Grade Review Committee. All decisions of this committee are final.

Grading (continued)

5. The Grade Review Committee (GRC) Process is as follows:

A student must submit in writing their request for a hearing to the Provost/Chief Academic Officer. The Provost/Chief Academic Officer, or designee, will convene the GRC within 30 business days from the request.

The committee will consist of an Dean (from outside the academic department) and two faculty members (one from the same academic discipline and the other from outside the academic discipline). All three voting members of the GRC will be selected by the Provost/Chief Academic Officer or designee. The Vice President of Student Development will facilitate the committee as a non-voting member.

- a. The Student will meet with the committee, individually, to present their appeal and any pertinent documentation.
- b. The faculty member, who assigned the final grade, will then independently meet with the committee and present the criteria they applied in assigning the final grade.
- c. The committee will reach a decision in closed session immediately following the hearing. The Vice President of Student Development will inform the student in writing regarding the decision of the committee, within five (5) business days. The decision of the Grade Review Committee is final.

Academic Forgiveness Criteria

Academic forgiveness is the one-time elimination of up to a maximum of 15 semester hours of "D" or "F" grades in courses numbered 100 or above received at Rock Valley College.

Academic forgiveness applies to the calculation of a grade point average (GPA) at RVC and does not result in the deletion of those grades from the transcript. RVC does not guarantee that a receiving transfer institution will honor RVC's Academic Forgiveness Policy.

To be eligible for academic forgiveness:

1. Students may petition for academic forgiveness for a maximum of 15 semester hours of "D" or "F" grades which have been earned in any 365-day period.
2. A period of 12 months must have elapsed between the date of the request for forgiveness and the end of the last semester in which the undesirable grades were earned.
3. Petitions shall include:
 - a. A list of those courses to be considered for academic forgiveness.
 - b. A statement which contains pertinent information regarding the receipt of the undesirable grades and an indication of serious intent to continue academic studies.
4. To be considered for academic forgiveness, a student must have completed a minimum of 12 credits of subsequent course work at a 2.0 GPA at RVC or another regionally accredited institution.
5. Academic forgiveness does not apply to courses which have been repeated and completed with grades of A, B, C, D, or F.
6. Special circumstances will be reviewed by the Provost/Chief Academic Officer.
7. It is recommended that students meet with an Academic Advisor to review courses that may be eligible for academic forgiveness.

Petitions/forms may be obtained from the Records and Registration Office. Eligible students may apply for consideration for academic forgiveness to the Provost/Chief Academic Officer.

GETTING STARTED

Graduation

Graduation Academic Honors

Graduates with a cumulative GPA of 3.25 to 3.74 will graduate with honors. Those with a cumulative GPA of 3.75 to 3.99 will graduate with high honors. Those with a cumulative GPA of 4.00 will graduate with highest honors.

Graduation Requirements

The general procedures for graduation are outlined below. Course requirements and other regulations are explained for each degree and major in the program section of this catalog.

Students should:

- Meet early and often with a counselor or advisor to plan a program of study and to ensure all requirements are met to graduate.
- Know and follow the requirements of the curriculum and the rules governing academic work. Counselors can help each student make wise decisions but the ultimate responsibility for meeting the requirements to graduate rests with each student.
- Have at least a minimum of 20 semester hours of residency.
- Must achieve a 2.0 (C) grade point average in all 100/200 level courses attempted at Rock Valley College.

Students will be certified for graduation only if they satisfy the requirements specified in the official College Catalog, according to the following:

A student may elect to follow degree requirements set forth in any subsequent catalog if the student completes a credit course during that catalog's effective dates. A new catalog becomes effective in the fall semester of the first year issued and remains in effect until the end of the summer session of the last year noted. Requirements may not be combined from different catalogs.

Earliest catalog to be used to determine eligibility for graduation:	To graduate on/before August 15 of the following years:
2009-2011	2016
2011-2013	2018
2013-2014	2020
2014-2015	2021

In the case of curriculum changes and the cancellation or withdrawal of courses, every effort will be made to substitute current course work to fulfill certificate or degree requirements. Course substitutions must be approved in writing by the appropriate academic chairperson, or dean. The student has the ultimate responsibility to fulfill the requirements for the certificate

or degree, to check the eligibility to take courses and to observe the academic rules governing the program.

The rules given apply only to requirements for certificates and degrees. All students are subject to the academic regulations stated in the most recent college catalog.

- **Transfers:** Students who complete any courses (including final ones) from another college, must submit official transcripts as soon as possible and submit a transcript evaluation request.
- **Timing:** Graduation requirements may be completed during any semester; however, if a program cannot be completed as planned, notify the Records Analyst immediately.
- **Application:** Students must submit an application for graduation approved by an Academic Advisor to the Records and Registration Office, located on the second floor of the Student Center, Main Campus.

Deadlines for application are:

March 1	- Spring
June 1	- Summer
October 1	- Fall

Note: Summer graduates planning to participate in the Commencement Ceremony must meet the spring application deadline.

Commencement Ceremony

Commencement is held once a year at the end of the spring semester. All students who will complete graduation requirements for the following degrees; A.A., A.S., A.E.S., A.A.S., and A.G.S. are eligible for participation in the Spring Commencement Ceremony. Students who expect to complete their degree at the end of the spring semester or summer immediately following, as well as those who completed their requirements the previous summer or fall semesters, are encouraged to participate. Students must submit an application for graduation to participate in the Commencement Ceremony (see above). These students will be sent additional information and notified about picking up their cap and gown during the spring semester. Students completing a certificate program will receive their certificate in the mail following the semester of completion. Certificate recipients do not participate in the Commencement Ceremony.

Second Degree Requirements

A student who has received or qualified for one Associate Degree from Rock Valley College may receive a second degree upon satisfactory completion of all graduation requirements for the second degree, including an additional 15 semester hours of residency. All specific course requirements for the second degree must be satisfied and at least 15 semester hours of credit, not applied to meet minimum requirements for the first degree, must be applicable toward the second degree.

A student who has received a degree from any other college accredited by a regional accrediting agency, such as the Higher Learning Commission (HLC), may receive a second degree from Rock Valley College upon satisfactory completion of all graduation requirements for the second degree, including a minimum of 20 semester hours of residency at Rock Valley College.

THE MACE is an ornamental staff carried aloft as a symbol of authority before a public official or a legislative body. In academic processions, the mace bearer immediately precedes the president of an institution, both entering and leaving the ceremony.

The mace is carried each year at RVC's May Commencement Ceremony by the College's grand marshal. This mace was carved by woodworker William C. Papke, a member of the College's staff, from a downed walnut tree found on the Main Campus grounds.

SC

STUDENT CENTER

STUDENT SERVICES

ROCK
VALLEY
COLLEGE

STUDENT SERVICES

Student Services

Most Student Services are located in the Student Center on the Main Campus, 3301 N. Mulford Road

Admissions/Student Information Center (815) 921-4250

Located: Student Center - first floor

The RVC Student Information Center provides information on campus locations, services, and activities, the Information Center provides services including:

- Getting Started
- Enrollment Form
- Student I.D. issued (photo I.D. and current class schedule required)
- Password resets
- Campus lost and found
- Vending refunds (three-day return policy)
- Campus Tours

The Admissions and Information Center also houses the Student Admissions Relations Team (START), a program where students serve the college by providing campus tours, serving on student panels, conducting presentations in the community, helping out in the office, and so much more. Student Ambassadors in this program have a unique opportunity to be a representative of the college while gaining leadership and professional skills. Although positions are initially volunteer, all paid positions are hired directly from the START volunteers. Volunteers earn points through their activities that can be redeemed to earn cool stuff. The more you serve, the more you earn. Contact the Information Center at the phone number above for more information.

Academic & Transfer Advising & Open Advising Lab (815) 921-4100

Located: Student Center - second floor

Academic and Transfer Advisors educate and provide quality services and opportunities that engage students in developing their personal growth and educational goals. You may schedule an appointment or visit the Open Advising Lab. For office hours and services, please visit us at: RockValleyCollege.edu/Advising.

Located: Stenstrom Center, Student Development Office Room 121 (4151 Samuelson Road) - please call (815) 921-4146 to schedule an appointment with an Academic & Transfer Advisor.

Career Services, Advising, & Placement (815) 921-4091

Located: Student Center - second floor

The Career Services, Advising, and Placement Office serves as a clearinghouse for off-campus part-time/full-time employment listings, internship opportunities, job search skills, career counseling, and general career information. Special attention is given to graduates in all phases of securing employment. Personality and career interest assessments are provided to help students obtain additional information about themselves. With an advisor's help, students are encouraged to use assessment results as indicators and a basis for planning and self-evaluation. Academic advising of all students pursuing Career and Technical Education degrees and certificates also takes place in this office. The following services are free to any individual who has taken a class at RVC:

- Internet based employment listings for part-time/full-time, professional, technical, skilled, unskilled, seasonal, and temporary employment, as well as internship opportunities
- Academic advising for students intending to complete an Associate in Applied Science degree or certificate
- Individual assistance with resume writing, cover letters, job search techniques, and interviewing
- Resume software and computers to produce professional looking resumes and cover letters

- One-on-one career counseling
- Assessments that assist with the career exploration process
- Internet access to research careers and job listings on our website: RVCjobs.com

Personal & Success Counseling (815) 921-4091

Located: Student Center - second floor

The Personal and Success Counseling Office provides students support in dealing with personal issues (stress, anxiety, depression, etc.) and to assist students in developing and reviewing academic success plans. Appointments can be made at the Personal and Success Counseling Office at (815) 921-4091.

Disability Support Services (DSS) (815) 921-2371

Located: Student Center - ground floor

Students who have a disability and need accommodations should contact the Disability Support Services (DSS) office as soon as possible to arrange for the appropriate services. During the initial consultation, the nature of the disability will be discussed, as well as what accommodations may be reasonable and appropriate. Reasonable accommodations may include: extended time for tests, course materials in alternate formats, sign language interpreters, assistance with note taking, assistive technology software and products, readers for tests, and Braille materials. Students who do not have documentation of a disability are still encouraged to contact the DSS office and may be provided resources on what documentation is needed and how to obtain it.

The DSS office is located on the ground floor, of the Student Center, and additional information can be accessed at: RockValleyCollege.edu/DisabilityServices.

Testing Center (815) 921-2380

Located: Student Center - ground floor

The Testing Center (Main Campus) is the central location for the professional administration of testing programs and services for students and community residents. Services include placement testing, make-up exams, exams for online/hybrid courses, testing accommodations for students with disabilities, College Level Examination Program (CLEP), and various certification exams. Community residents enrolled in post-secondary, distance/online programs at other institutions may also complete their course exams in the Testing Center. For more information, visit: RockValleyCollege.edu/Testing or call (815) 921-2380.

Located: Stenstrom Center, Student Development Office Room 121 (4151 Samuelson Road) - please call (815) 921-4146

Placement and make-up testing, as well as testing accommodations for students with disabilities.

Financial Aid (815) 921-4150

Located: Student Center - second floor

There are several types of financial aid available to Rock Valley College students: grants, scholarships, loans, and student employment. See page 17 and 18 in the "Getting Started Steps" section of this catalog. For more information, call (815) 921-4150 or visit: RockValleyCollege.edu/FinancialAid.

Intercultural Student Services (815) 921-4116

Located: Student Center - second floor

Intercultural Student Services (ISS) Office provides support for a variety of unique student populations. Success coaching, programs and special events are coordinated to support the diverse needs of international, multicultural, first generation, and student-athlete populations.

STUDENT SERVICES

Tutoring Services

Tutoring Center (815) 921-2370

Located: Student Center - ground floor

The Tutoring Center supports the academic development and enrichment of RVC students through free peer-to-peer tutoring. Most sessions are in small groups. Appointments are encouraged, but drop-in times are available for math classes. Students should bring their textbooks and class notes to the session.

Located: Stenstrom Center, Student Development Office

Room 121 (4151 Samuelson Road) - please call (815) 921-4146

to schedule Tutoring Services.

Located: Learning & Opportunity Center (303 N. Main Street)

For more Tutoring information, contact the LOC at: (815) 921-4290

The Writing Center (815) 921-2370

Located: inside the Tutoring Center

Free individual and small group consultations are provided for all RVC students. Help is available in developing, composing and revising your ideas and topics, planning and organizing your paper, editing, documenting and citing.

Hours vary. Please make an appointment, by calling (815) 921-2370.

The Math Lab

Located: Jacobs Center for Science & Math (JCSM) - ground floor, rooms 0210 & 0212

The Math Lab is staffed by faculty to serve all RVC math students. Computers are available for math-related use, including online homework. The Math Lab offers free drop-in tutoring, calculator assistance, and access to all RVC math textbooks and math DVDs. Find the current Math Lab hours and schedule online at: RockValleyCollege.edu/MathLab.

Bookstore (815) 921-1680

Located: Student Center - ground floor

The Barnes & Noble College Bookstore, on the Main Campus, offers book rentals, used and new textbooks, digital books, reference and general reading books, school supplies, backpacks, insignia clothing and gifts, and gift cards.

To rent or purchase textbooks and digital textbooks, students can shop in the Bookstore or go to: RockValleyCollege.edu/Bookstore, where they can have books shipped to their homes or held for pick up in the Bookstore. For academically priced software go to: ThinkEDU.com/BN.

PAYMENT METHODS include cash, check, credit/debit cards (VISA, Mastercard, Discover, and American Express) as well as Barnes & Noble gift cards and financial aid (check with the Financial Aid Office for eligibility, not available for online purchases).

BOOK RENTALS are due on the last weekday of finals. Check your receipt or in the Bookstore for the specific date.

BOOK BUYBACK, for fall and spring semesters, is finals week. Summer buyback dates vary.

BOOKSTORE HOURS for fall and spring semesters are:

Monday-Thursday 8:30am - 6:00pm

Friday 8:30am - 3:00pm

The Bookstore is CLOSED during Spring Break and when the College is closed.

Call (815) 921-1680 for updated information or visit the website: RockValleyCollege.edu/Bookstore for "buyback" dates, summer hours, extended hours, and hour changes due to holidays and breaks.

Library

Estelle M. Black Library (815) 921-4600

Located: Educational Resource Center (ERC) - first & second floor

The Estelle M. Black Library provides print and electronic resources, facilities, and equipment to students, faculty, staff, and community members to serve learning and research needs. Faculty librarians are available to assist users with the research process and to provide instruction in use of the online library catalog and the electronic databases available through the Library.

The Library provides access to a wide array of materials that support the instructional and research needs of its students and faculty. The Library's physical collection of over 100,000 items includes books, music CDs, DVDs, magazines, journals and newspapers. Over 90 research databases are available for locating magazines, newspapers, journals and other materials. Also available are: 39 computers for study and research, a 22-computer open lab, an audio visual viewing room, study rooms, Wi-Fi, color printer, and multifunction copier/scanner. Faculty librarians teach how to conduct effective library research in the Library Instruction Classroom. In addition, the Library provides "Course reserves" and an Interlibrary Loan Service.

For more information, contact the Library:

- Reference Desk (815) 921-4619
- Circulation Desk & call-in Renewals (815) 921-4615
- Interlibrary Loan (815) 921-4607
- Website RockValleyCollege.edu/Library
- Online Catalog <http://Library.rvc.cc.il.us>

Campus Technology

RVC Online Services (815) 921-4250

A wide variety of options are available at RockValleyCollege.edu/onlineservices. Students can register for classes, review their class schedule, search for available courses, pay their bill, review grades, review/request transcripts, review their financial aid status, update address information, and more. To access Online Services, students will need a student I.D. number (your "s" I.D. number) and password (setup during EPS).

For help with these services, students may call Admissions at (815) 921-4250. Online Services can be accessed by going to: <http://Online.RockValleyCollege.edu>.

RVC Student Password Policy

All new students will be setup with a username and password that will work for RVC resources RVC EAGLE, RVC Mail, Online Services and log on to RVC campus computers. If you forget your password and remember your answers to the security questions you can go to RockValleyCollege.edu/Password. However, if you do not remember the answers to your security questions you will be required to come to the Main Campus and present a photo I.D. to at the Information Desk in the Student Center. Passwords cannot be reset over the phone. It is the responsibility of all users of college IT systems to safeguard their passwords and their use of such systems. It is strongly recommended that students do not share their I.D. and password to adhere to RVC's Computer Use Policy.

STUDENT SERVICES

Campus Technology (continued)

RVC-Easy-Web-Internet

Rock Valley College's wireless network provides mobile Internet access for students, faculty, and staff from the wireless access points located throughout the college. Employees and students with network accounts access the Internet using Wi-Fi capable personal devices (tablets, phones, laptops). Log in using your browser and network account. Go to: RockValleyCollege.edu/StudentServices/wifi.cfm for instructions.

Please note: As an RVC student, you can install Microsoft Office 365 ProPlus for **FREE** on your personal computers and mobile devices. Office 365 ProPlus includes full versions of Word, Excel, PowerPoint, Outlook, and OneNote, and can be installed on up to five personally-owned PCs/Macs and up to five mobile devices, including iOS and Android devices. You will need your student I.D. number (your s#) and your network password. Go to: RockValleyCollege.edu/StudentServices/MicrosoftOffice.cfm for instructions.

EAGLE, E-Mail, & Conferencing System (815) 921-4646

The Learning Management System (LMS) used in courses at Rock Valley College is called EAGLE. It can be used to submit homework, to discuss course topics, to complete practice tests and for course related communication. Students can use the EAGLE mail interface to request help from their instructors or to discuss topics with other students enrolled in the same course.

The EAGLE Support office is located on the Main Campus, in the Educational Resource Center (ERC), on the second floor, outside the Library, in Room 2402 (on the CLII side of the building).

All students enrolled in RVC credit classes are given EAGLE Accounts. For more information, please visit our support site at: RockValleyCollege.edu/LMS.

RVC Mail (Gmail)

Rock Valley College has a student email system that allows students to interact not only with each other, but also allows campus offices to communicate information to students.

It is important for students to access their RVC Mail account every 24 hours in order to stay informed regarding:

- important dates
- course wait list information
- campus events.

Students may access this email system by logging onto <http://Mail.Student.RockValleyCollege.edu>.

All students enrolled in RVC credit courses are issued a free RVC Mail account. Technical Support for RVC Mail is located in the EAGLE Support area in ERC-2402.

The format for RVC mail is: first letter of first name+first letter of middle name+last name@Student.RockValleyCollege.edu.

Example -

John M. Smith would be JMSmith@Student.RockValleyCollege.edu.

MyRVC

One-click access to all of Rock Valley College's most used Web resources is available at RockValleyCollege.edu/MyRVC.

At "MyRVC" you will find links to:

- Online Services (see page 25)
- Password Policy (see page 25)
- EAGLE (see page 26)
- RVC Mail (see page 26)
- iTunes U
- College Catalog
- Online Schedule
- RVC Alerts (see page 29)

You can also access MyRVC from any page on the RVC website (RockValleyCollege.edu) by clicking on the "MyRVC" icon in the upper, right-hand corner.

Distance Learning - Online Classes & Hybrid Courses

Distance Learning: refers to education that takes place with the students and instructor in different locations. At Rock Valley College, the primary options for distance learning are online courses, and hybrid courses.

Online Courses: are offered via the Internet. The course materials, such as syllabi, assignments, lectures, writing prompts, and activities are all posted within EAGLE and are designed and controlled by the instructor. Students work on the course materials independently, reading the texts and lectures and completing assignments. Students also participate in class discussions and conferences online, both in real time (synchronous) and in a bulletin-board format (asynchronous). Students may take tests and submit assignments through EAGLE, but some instructors will require students to come to campus to complete their exams.

Hybrid Courses: combine traditional classroom instruction with online instruction. A hybrid course is an online course that requires students to also attend sessions on campus. The number and type of campus meetings vary from one course to another.

To see a list of available courses, go to Online Course Schedule at: RockValleyCollege.edu/Courses.

Information Technology (IT)

The Information Technology department has responsibility for designing, implementing, and maintaining Rock Valley College's voice, video, and data systems, for both academic and administrative purposes.

Computer Labs

RVC has many different computer labs used for classroom instruction. There are two labs that students can use outside of the formal classroom setting. All labs contain computers with Internet and EAGLE access, and standard software, as well as printers for student use.

There are computers available for student use on the Main Campus:

- **Educational Resource Center (ERC)**
Inside Library, first floor, in the "Information Commons" Area and Room 1308 (when a class is not in session)
- **Student Center (SC)**, first floor, in Room 1102*
- **Woodward Technology Center (WTC)**,
first floor, in Room 145*

Other RVC locations:

- **Learning & Opportunity Center (LOC)** - Rooms 102 & 103
For more information and hours, contact the LOC at (815) 921-4290
- **Stenstrom Center for Career Education (SCCE)** - Room 161
For more information and hours, contact the SCCE at (815) 921-4146

*A computer lab assistant or student worker is available, in both the Woodward Technology Center (WTC) and Student Center (SC) labs, to assist students by answering questions and assisting with computer functions.

Computer Use Policy

All Rock Valley College computer hardware and software may be used only in accordance with established rules and procedures. It is the responsibility of all users of the Rock Valley College computer systems to adhere to the "Acceptable Use of RVC Information Technology Systems Procedure" for use of RVC Information Technology resources as outlined. See the complete policy posted at: RockValleyCollege.edu/About/Terms.cfm.

Athletics

Department (815) 921-3800

Rock Valley College is a member of the National Junior College Athletic Association (NJCAA) which governs eligibility and competition.

Freshman eligibility: Must be a high school graduate or equivalent; during semester of competition, must be enrolled for at least 12 semester hours of credit leading to a degree or certificate; at end of first full-time semester, must have passed at least 12 semester hours of credit with a 2.0 GPA or better.

To remain eligible for a second season: Must have passed 24 semester hours of credit with at least a 2.0 GPA; must not have completed two seasons of intercollegiate competition in any single sport.

Other circumstances: Transfer students, part-time students, and students with college credits, who have never participated in intercollegiate athletics, should contact the Athletic Director.

Physical exams and medical forms, are required each year, before competing on a sports team.

INTERCOLLEGIATE SPORTS Ten teams of men's and women's intercollegiate sports are offered at RVC. The Golden Eagles compete in NJCAA Division III in men's and women's basketball, men's and women's soccer, and men's and women's tennis, women's softball and volleyball, and men's baseball and golf. Many of the teams have enjoyed national prominence in recent years. RVC's rich athletic history includes nearly 150 All-Americans and 13 national championships.

Nickname: Golden Eagles

Colors: Navy Blue & Gold

Sports Teams:	MEN	WOMEN
	Baseball	Basketball
	Basketball	Soccer
	Golf	Softball
	Soccer	Tennis
	Tennis	Volleyball

International Education & Study Abroad Opportunities

**EFFECTIVE JULY 1, 2015,
STUDY ABROAD OPPORTUNITIES
ARE NO LONGER OFFERED
THROUGH ROCK VALLEY COLLEGE.**

**Contact the Intercultural
Student Services (ISS) Office** (815) 921-4116

Located: Student Center - second floor

RVC is committed to providing its students with cultural diversity experiences. To further this aspect of the RVC mission, the College requires that students seeking the A.A., A.S., or A.E.S. degrees complete at least one selected course in Non-Western culture. RVC provides opportunities for its students to study abroad by connecting students with a Study Abroad Office at a regional community college.

All credits earned in these study-abroad programs are posted to the students' Rock Valley College transcripts as RVC credits. All courses available at all sites contribute toward earning A.A., A.S., or A.A.S. degrees, and will transfer to most four-year institutions.

Conference: N4C (North Central Community College Conference)

- College of DuPage
- Joliet Junior College
- Madison College
- Milwaukee Area Technical College
- Triton College
- William Rainey Harper College
- Wright College

SCHOOL SPIRIT THROUGH THE YEARS

Though Rock Valley College has always remained "golden," its other school color has changed over the past 50 years, as well as its mascot. The companion to the constant yellow/gold hue has run from maroon to brown* to today's navy blue**. The RVC mascot started its life as a noble figure, the Trojan. As RVC continued to transform, so did the RVC mascot: into a soaring, tenacious Golden Eagle, who today is known familiarly as Arvee.

COLORS

• Arvee the Eagle

YEARS

Until 1972
1972-1995
1995-present
1995-2014
2014-present

*In June 1972, at an RVC Board of Trustees Meeting, Rock Valley College's school colors were changed from maroon and gold to brown and yellow in keeping with the College's rural setting.

**In 1995, administrators made the decision to change the school colors to navy and gold (coincidentally, Dr. Karl Jacobs alma mater, University of Michigan) and the mascot to a golden eagle (perhaps because Triton College in River Grove, a part of our athletic conference, also had a Trojan mascot).

STUDENT SERVICES

STUDENT ENGAGEMENT

Rock Valley College is committed to helping its students be successful. To this end, the college provides a variety of activities and services for students. Please review the following to become familiar with how we can help students meet their goals.

Student Life (815) 921-4186

Student Life Mission Statement: Student Life exists to connect, engage, and develop Rock Valley College students in a supportive environment through positive leadership, and community building opportunities, while serving as a bridge to their future accomplishments.

Did you know that the more involved college students are in the academic and social aspects of campus life, they benefit more in terms of learning and personal development? Student Life is here to help you enhance your academic experience with various opportunities to get and stay engaged outside of the classroom. Our office is located on the first floor of the Student Center and while at Rock Valley College, we encourage you to:

THINK CREATE LEAD

OrgSync

Your link to what is happening at RVC.

Visit our web page at: OrgSync.com/Login/Rock-Valley-College, where you can:

- View events
- Meet other students
- Join a student organization
- Create a profile on OrgSync

Student Government Association (SGA) (815) 921-4184

Purpose Statement:

"To support and advocate for the students at Rock Valley College through service, leadership and civic engagement."

The Student Government Association (SGA) is a body of students elected by their peers to serve as their voice on campus, to address student needs and interests on matters of the college and community. SGA promotes students involvement and seeks to improve their general welfare.

Campus Activities Board (CAB) (815) 921-4184

Purpose Statement:

"To provide educational and fun activities in order to produce an atmosphere of community at Rock Valley College."

The Campus Activities Board (CAB) is comprised of students (officers and members) who are in charge of making sure that the campus comes alive with fun, exciting, diverse, quality entertainment and enrichment all year long. Bands, magicians, comedians, poets, speakers, hypnotists and game shows - if you

can name it, chances are it has been here or will be in the near future! Follow the brightly colored posters with the CAB logo to attend and participate in all that the board has planned for the community at Rock Valley College.

Student Clubs & Organizations (815) 921-4183

One of the easiest ways to get and stay involved is to join an organization on campus. There are over 30 organizations to choose from. Joining one is as easy as stopping by Student Life, giving us a call or visiting our **OrgSync** website. You can start a brand new club in just a few easy steps. It's just that simple.

For a list of current active student clubs and organizations:

- RockValleyCollege.edu/Clubs

Phi Theta Kappa

Phi Theta Kappa, the official honor society of two-year colleges, serves to recognize and encourage the academic achievement of two-year college students and provide opportunities for individual growth and development through academic, leadership, and service programming.

Rock Valley College's Phi Theta Kappa chapter is called Omicron Eta and inducts about 100 students each fall and spring semester. In order to be inducted, students must have completed at least 12 college credits and have earned a minimum of a 3.5 cumulative GPA. Moreover, students must be enrolled at RVC during the semester they are inducted. In addition to being the honor society, Omicron Eta is an active student club on campus and is open to all RVC students. For more information, visit: PTK.org or RockValleyCollege.edu/Life/PTK.cfm.

Student Volunteer Incentive Program (VIP) (815) 921-4186

The purpose of the Student Life Volunteer Incentive Program (VIP) is to encourage students to get involved through service. Students who participate in volunteer service opportunities on- and off-campus can redeem their hours for various incentives provided by Student Life. For more information, contact the Student Life main office.

Student Lounge on the Main Campus (815) 921-4183

The lounge is located on the first floor of the Student Center (SC), across from the Computer Lab. It includes comfy seating with a big screen TV, your favorite magazines, and more. We also host spur-of-the-moment activities to promote community and free discussion. It's a great place to hang out with other students when in-between classes or grabbing a bite to eat. It is also available for reservation as are the HUB, and the Student Life Organizations Room.

Student Life at the Stenstrom Center & Learning & Opportunity Center

Students at the Stenstrom Center (SCCE) and the Learning and Opportunity Center (LOC) enjoy a wide range of student activities, clubs, and student lounge areas. Some of the annually scheduled events are: Welcome Week, Hispanic Heritage Month, Escape From Finals, Black History Month, and Women's History Month.

STUDENT SERVICES

RVC Alerts

Students are encouraged to sign up for "RVC Alerts" to be notified of **emergencies, campus closings, or other important announcements**, by clicking on RVC's homepage button:

- Choose to be notified via:
 - phone call
 - text message
 - and/or e-mail
- To register go to: RockValleyCollege.edu/Alert
- Be sure to read the Frequently Asked Questions (FAQs) and then click "Sign-Up" to register.
- Students will log-in using their **student I.D. number** and **network password**.
- You can also choose to receive non-emergency messages regarding financial aid, registration dates, and payment deadlines.

RVC Police Department

Non-Emergency (815) 921-4350

Emergency (815) 654-4357

Website: RockValleyCollege.edu/RVCPD.

RVC Police Officers are on Campus - 24 Hours a Day, Seven Days A Week (24/7/365)

RVC's Police Department is dedicated to assuring the safety of all members of the campus community (authorized by 110 ILCS 805/3-42.1). All RVC police officers have the same authority as city police officers and county sheriffs, including power to arrest on site and on warrants. The officers enforce all laws of the state of Illinois, city of Rockford, and regulations of the College.

Services include, but are not limited to, the following:

- Emergency first aid
- Investigation of criminal offenses
- Delivery of emergency messages
- Campus key control
- Parking and traffic control
- Special events security
- Fire and safety inspections
- Vehicle assistance
- "Safe Walk" Program

All students and visitors are required to observe traffic regulations established by the college. Copies of the regulations are available from the RVC Police Department Office, whose main office is located in the Support Services Building (SSB), on the Main Campus.

The speed limit on all of our campuses is 20 mph and is enforced by radar.

Rights & Responsibilities

The RVC campuses are a collegiate society with rules and regulations that respect and protect the rights of both individuals and the campus community. The following policies and procedures establish both the rights and the responsibilities of Rock Valley College students. Students are expected to know and adhere to RVC policies, regulations, rules and the *Student Code of Conduct* which are available in the *RVC Student Handbook*.

A complete copy of each policy or procedure is available in the *RVC Student Handbook*. This catalog should not be construed as constituting a contract between the college and any person. The College reserves the right to modify its policies.

The *Student Code of Conduct* is available in the *RVC Student Handbook*. The *RVC Student Handbook* is available on the RVC website, and in Dean of Student's Office.

Academic Honesty

The faculty and administration expect that RVC students are enrolled in courses as serious and honorable scholars. Furthermore, students are expected to do their own original work, except when collaboration on projects is directed by faculty as part of the course or specific assignment. Students are expected to observe the commonly accepted standards of academic honesty at all times. Students who commit any of the forms of academic dishonesty (plagiarism, cheating by copying, dishonest collaboration, or fabrication) as outlined in the *Academic Honesty Standards and Procedures* found in the *Student Handbook* are subject to penalties and sanctions.

Attendance Requirement

Students are expected to attend every class meeting. There is no College policy permitting absences. Each faculty member will decide when and how absences affect grades.

Campus Security Report

This report includes statistics for the previous three years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by Rock Valley College; and on public property within, or immediately adjacent to and accessible from, the campus. The report also includes institutional policies concerning campus security, such as alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, domestic violence, stalking, dating violence, and other matters. The complete report is available at: RockValleyCollege.edu/CampusSecurityReport.

Individuals may also request a paper copy of this report by contacting the RVC Police Department (RVCPD) at (815) 921-4350 or by visiting the department in the Support Services Building (SSB).

Children On Campus

For the safety of children on campus, children may not accompany students to class, tutoring or testing sessions. Also, children may not be left unattended on the campus grounds, whether in College buildings, extension centers, or at any College event.

Discipline Procedures

The Rock Valley College Dean of Student's Office has the right to impose disciplinary sanctions and/or corrective actions for a student found responsible of violating the RVC student code of conduct, College regulations, and/or College policies. Students may also be subject to civil or criminal penalties as appropriate.

STUDENT SERVICES

Rights & Responsibilities (continued)

Drug Free Schools & Communities Amendment Act

Rock Valley College complies with the Federal Drug-Free and Communities Act as articulated in the Education Department General Administrative Regulations (EDGAR) Part 86. RVC students receive an annual notice that outlines; standards of conduct, possible legal sanctions and penalties, statements of health risks associated with Alcohol or Drug Abuse, Prevention programs available, and college disciplinary sanctions for violations of standards of conduct. The College seeks to improve the campus atmosphere by eliminating drugs and alcohol on the campus, except where liquor permits have been procured or alcohol is utilized for instructional purposes.

Family Educational Rights & Privacy Act (FERPA)

The following notice and information is given by Rock Valley College, District 511, to advise students of their rights under the Family Educational Rights and Privacy Act of 1974 (The Act). Rock Valley College has implemented policies and procedures implementing the Act.

The Act established the right of students to inspect and review their educational records; provides that personally identifiable information will not, with certain exceptions, be disclosed without the student's written permission; provides for guidelines for correction of inaccurate or misleading data through informal or formal hearings; grants students the right to file complaints with the Family Compliance Office concerning failures of the College to comply with the Act; and makes provisions for notice to the students concerning those rights.

Students who wish to review their education records must complete the appropriate form and submit it to the Registrar. Students will be notified in writing of the date and time they may review the records.

The following student data is hereby designated as Directory Information and such information may be disclosed or released by the College for any purpose and at its discretion: student name, dates of attendance, part-time/full-time enrollment status, degrees/certificates earned, awards received, officially recognized activities, weights and heights of members of athletic teams, and student e-mail addresses. To have directory information withheld, the student must give written notice to the Registrar by the tenth day of each semester for which the student is enrolled.

A student may give permission to a parent, guardian, or other individual to review their record. A FERPA waiver form is available in the Records and Registration office. Contact the Registrar at (815) 921-4267 for FERPA related questions.

Procedure For Resolution Of Student Complaints

Students may encounter problems during their course of study at RVC that may require review by appropriate administrative or academic personnel. The College has established procedures. Questions or guidance regarding these procedures should be directed to the Dean of Student's Office, (815) 921-4284. The procedures are also available in the *Student Handbook*.

Registered Sex Offender List

The Rock Valley College Police Department (RVCPD) maintains a registered sex offender list, which identifies all known registered sex offenders who are currently enrolled as students or employees at Rock Valley College. Illinois state law requires all institutions of higher education to make registered sex offender information available to anyone who requests it. This registered sex offender list is available for viewing at the Rock Valley College Police Department, located in the Support Services Building (SSB), the Information Center on the first floor of the Student Center, Learning Opportunity Center (LOC) student services, and Stenstrom Center (SCCE) at the RVC Police Department. Registered sex offenders who fail to register their status as a student or employee at an institution of higher education are in violation of the Sex Offender Registration Act, which is a class 3 felony, and may be arrested. In addition to registering with RVC Police Department, registered sex offenders must also meet with the Dean of Students or designee prior to the beginning of each semester they enroll.

Section 504 and ADA

In accordance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973, students have the right to request reasonable accommodations and to receive fair treatment within the educational system of Rock Valley College. The College is committed to resolving disagreements regarding recommended accommodations.

If you feel that you have been unfairly or improperly treated due to a disability, you should first express concern with the appropriate faculty/staff member in an informal manner. Any such complaint must be presented within thirty (30) business days of the occurrence giving rise to the complaint. If the matter is not resolved, the student may contact the Director of Disability Support Services (DSS) at (815) 921-2356 to clarify rights, policies, and procedures for both parties. If the complaint is still not resolved after the informal discussion, the student may appeal in writing within ten (10) days after the informal discussion, to the ADA/504 Compliance Officer, Dean of Student's, at (815) 921-4268 for an investigation. A response will be provided to the student within thirty (30) business days.

Student Assembly Policy

Although students are welcome to gather to express and discuss ideas, all such assemblies must be held in accordance with the policy on student assembly. This information is available in the *Student Handbook*.

Student Right-To-Know Information

Student Right to Know refers to federally-mandated public disclosure of specified consumer statistics of institutional effectiveness. The Student Right to Know and Campus Security Act (P.L. 101-542) requires higher education institutions receiving federal financial assistance to provide prospective and current students with the following information to help them make informed decisions about the educational benefits available: Graduation, Transfer, and Retention Rates, Campus Security, and other consumer information. A complete list is available on the RVC web page: RockValleyCollege.edu/StudentRightToKnow.

TRANSFER DEGREES

TRANSFER DEGREES

Transfer Degrees

Rock Valley College offers a wide variety of courses specifically designed for transfer. The keys to successful transfer are to start planning immediately and to select coursework carefully. The Associate of Arts (A.A.), the Associate in Science (A.S.), and the Associate in Engineering Science (A.E.S.) degrees are intended for students planning to transfer to a college or university for a baccalaureate degree. However, since requirements can vary from one institution to another, it is recommended that students meet regularly with an academic advisor as well as verify information with the transfer institution.

The Planning for Success and IAI/RVC General Education Core Curriculum information, beginning on page 33, provides additional educational planning information. Academic advisors are available to help students develop an individual education plan. Also, students should consult an academic advisor or program coordinator regarding the growing transfer possibilities with the Associate in Applied Science (A.A.S.) degrees.

Associate of Arts Degree (A.A. - RVC curriculum #1000)

This degree is for students who plan to major in liberal arts disciplines such as art, criminal justice, education, English, foreign language, geography, history, music, philosophy, political science, psychology, sociology, and speech. It can also be used for transfer business majors such as accounting, business administration, finance, and human resources.

Associate in Science Degree (A.S. - RVC curriculum #1700)

This degree is for students who plan to major in science-related disciplines such as biology, chemistry, geology, mathematics, medicine, medical technology, pharmacy, occupational and physical therapy, physics, and veterinary medicine.

Associate in Engineering Science (A.E.S. - RVC curriculum #1775)

This degree is designed to provide students a transition to a four-year baccalaureate engineering degree program. Students who complete the A.E.S. degree can transfer to an engineering program to complete a Bachelor of Science degree depending upon the requirements of the transfer institution. Students may need to complete additional engineering prerequisites at the transfer school.

Planning For Success

Transfer Planning

By carefully constructing an educational plan, students can select Rock Valley College courses for transfer to a variety of four-year colleges and universities. When a student has selected a transfer school, it is important that the student review that institution's specific admission and course requirements. Transfer information can be obtained in the Academic and Transfer Advising Office.

STU 100 - Planning for Success

The STU 100 - Planning for Success course is required for all new students intending to pursue an A.A., A.S., or A.E.S. degree prior to the student earning 30 credits. This one credit course is transferable to a 4-year college/university and will apply towards graduation at RVC.

Although recommended for students seeking an Associate in Applied Science (A.A.S.) degree or for certificate-seeking students, it is not a requirement.

Specific Requirements for A.A. & A.S. Degrees

Rock Valley College, like most other Illinois community colleges, has additional, specific degree requirements for the Associate of Arts transfer degree, and other requirements for the Associate in Science transfer degree; these are described in detail beginning on page 35 of this catalog.

Majors & Elective Courses

At Rock Valley College, 16-20 elective credits for the Associate of Arts (A.A.) degree and 12 credits for the Associate in Science (A.S.) degree may be used by students to explore a particular field of study or major. Students should schedule an appointment to meet with an advisor to discuss course selection. Students should also consult: iTransfer.org for up-to-date listings of Rock Valley College courses which will count in the majors at other Illinois colleges and universities.

Diversity & Non-Western Culture Courses

Some transfer institutions require a diversity or Non-Western course in their general education requirements. Students are encouraged to complete any diversity or Non-Western culture courses required by their intended transfer institution as part of their general education core at Rock Valley College.

The Illinois Articulation Initiative (IAI)

Rock Valley College is a participant in the Illinois Articulation Initiative (IAI), a statewide articulation effort to help Illinois college students transfer credit more easily between more than 100 participating Illinois colleges and universities. One of the main features of the IAI is the General Education Core Curriculum (GECC) which is a list of general education courses that have been articulated statewide and will be accepted for transfer by all participating colleges and universities in Illinois.

Completion of the GECC at any participating institution in Illinois assures transferring students that general education requirements for an Associate of Arts or Associate in Science have been satisfied upon transfer to another participating institution. Students who wish to transfer to four-year colleges and universities are advised to complete an Associate Degree.

Students who have 30 semester credits of college level coursework can transfer to an IAI participating institution and have the option of completing the institution's lower-division general education requirements, or complete the IAI GECC. The receiving institution may require transfer students to complete institution-wide and/or mission related graduation requirements beyond the scope of the IAI GECC.

The IAI is a powerful tool for students. General and detailed information about the IAI as well as the most current list of participating schools can be found online at: iTransfer.org.

General Education Core Curriculum (GECC)

The requirements for an Associate Degree (A.A. or A.S.) at Rock Valley College consist of a minimum of 64 credit hours taken from three components:

1. General education core
2. Additional degree requirements
3. Baccalaureate-oriented courses taken in the major/minor, and electives

The IAI GECC of 37-41 credits consist of courses that colleges and universities consider essential for students' success in college and life. The GECC requires study in the following areas:

Communications	9 credits
Mathematics	3-6 credits
Physical and Life Sciences	7-8 credits
Humanities and Fine Arts	9 credits
Social Sciences	9 credits

Selecting the IAI General Education Courses

Students will find a concise listing of General Education Core Curriculum course requirements for the A.A. and A.S. degrees beginning on page 34. Students should also consult a Rock Valley College academic advisor for assistance in making correct course selections. In addition, they should consult: iTransfer.org for accurate updates on these requirements.

RVC Education Guarantee Program

University Transfer Guarantee

Rock Valley College guarantees that courses approved for transfer to another college will be honored either as program requirements or electives. If transfer courses are not accepted after all provisions of the University Transfer Credit Guarantee are followed, the college will allow the student to take additional Rock Valley College courses up to the number of credits not transferred without charge for tuition and fees.

EACH STUDENT IS RESPONSIBLE FOR GRADUATION REQUIREMENTS:

- Complete a minimum of 64 credit hours of 100 level courses or above that also meet the requirements of the General Education Core Curriculum.
- Achieve a 2.0 (C) GPA in all 100/200 level courses attempted at Rock Valley College.
- Meet residency requirements by earning a minimum of 20 semester hours of 100/200 level at Rock Valley College.

Students must submit an application for graduation approved by an Academic Advisor to the Records and Registration Office, on second floor of Student Center, by the published dates of the semester intended to graduate.

March 1 - Last day to apply for **Spring** graduation
June 1 - Last day to apply for **Summer** graduation
October 1 - Last day to apply for **Fall** graduation

ROCK VALLEY COLLEGE

Join us in the Rock Valley College year-long 50th Anniversary celebration - check out "50th Fridays" on the RVC blog: RVCInsider.com and use **#RVC50** to share your memories and photos with us on social media all year long.

TRANSFER DEGREES

Planning for Success – Education Plan

Requirements for:

- Associate of Arts Degree (A.A.)
- Associate in Science Degree (A.S.)

Total Hours Required for each degree: 64 credits

KEY: # = Non-Western Culture (one 3-credit course required)

1. GENERAL EDUCATION CORE CURRICULUM (GECC) (37-41 CREDIT HOURS TOTAL)

COMMUNICATIONS

9 credits

Students whose first semester of postsecondary education is after Summer 1999 must earn grades of "C" or higher in ENG 101 and 103.

— @ ENG 101	Composition I	3
— @ ENG 103	Composition II	3
— SPH 131	Fundamentals of Communications	3

@ = Must earn minimum of "C"

HUMANITIES / FINE ARTS

9 credits

Note: To fulfill the IAI GECC Humanities and Fine Arts requirement, students should select a minimum of three courses, selecting at least one from the Humanities and one from the Fine Arts. Interdisciplinary courses encompassing both the Humanities and the Fine Arts may be used for either category.

Humanities:

— FRN 204	Intermediate French II	3
— GRM 204	Intermediate German II	3
— LIT 139	Mythology	3
— LIT 140	Bible as Literature	3
— LIT 142	Exploring Literature: Poetry	3
— LIT 143	Exploring Literature: Drama	3
— LIT 144	Exploring Literature: Fiction	3
— LIT 201	American Lit: Colonial to Civil War	3
— LIT 202	American Lit: Civil War to Present	3
— LIT 205	British Literature - Beginning to 1800	3
— LIT 206	British Literature - 1800 to Present	3
— LIT 210	Woman's Literature: The Early Years to 1800	3
— LIT 211	Woman's Literature: 1800 to Present	3
— LIT 241	Shakespeare	3
— LIT 243	Western Literature to 1800	3
— LIT 244	Western Literature Since 1800	3
# LIT 251	Non-Western Literature Before 1800	3
# LIT 252	Non-Western Literature Since 1800	3
# LIT 260	Contemporary African Literature	3
— PHL 150	Introduction to Philosophy	3
# PHL 151	Introduction to Non-Western Philosophy	3
— PHL 154	Introduction to Religion	3
# PHL 155	World Religions	3
— PHL 156	Religion in American Society	3
— PHL 157	Foundational Religious Texts	3
— PHL 255	Logic	3
— PHL 256	Contemporary Moral Issues	3
— PHL 260	Philosophy of Religion	3
— SPN 204	Intermediate Spanish II	3

Fine Arts:

— ART 131	Introduction to the Visual Arts	3
# ART 141	Introduction to Nonwestern Visual Art	3
— ART 251	History of Art I	3
— ART 252	History of Art II	3
— ART 253	History of Art III	3
— COM 251	Film History and Appreciation	3
— COM 252	International History of Film	3
— HUM 117	Ethnic Traditions in American Theatre	3
— HUM 210	Cultural Expression Gender in Visual & Performing Arts	3
— LIT 141	Film as Literature	3
— MUS 102	Introduction to Music Literature	3
— MUS 104	Introduction to American Music	3
# MUS 106	Introduction to Non-Western Music	3
— MUS 251	Music Literature I	3
— MUS 252	Music Literature II	3
— MUS 253	Music Literature III	3
— THE 133	Introduction to Theatre	3

Interdisciplinary Humanities & Fine Arts:

Interdisciplinary humanities courses listed below may be used for either Humanities or Fine Arts credit.

— HUM 111	Introduction to Humanities I	3
— HUM 112	Introduction to Humanities II	3
— HUM 114	Introduction to Humanities III	3
# HUM 120	Hispanic Caribbean Cultural Expression	3
— HUM 121	U.S. Latino/Latina Cultural Expression	3
— HUM 122	Spanish Cultural Expression	3
# HUM 125	Introduction to Non-Western Humanities	3
— HUM 211	War & West: Humanities Thru Middle Ages	3
— HUM 212	War & West: Humanities: Renaissance to Present	3

PHYSICAL & LIFE SCIENCES

7-8 credits

Note: Select at least one Life Science and one Physical Science course. At least one of the two courses must have a lab.

Life Sciences:

— BIO 100	Introductory to Human Biology	3
— BIO 103	Introductory Life Sciences	3
— BIO 104	Introductory Life Sciences Lab	1
— BIO 106	Introductory Environmental Life Science	3
— BIO 107	Introductory Environmental Life Science Lab	1
— BIO 113	Plants and Society	4
— BIO 140	Introduction to Evolution	3
— BIO 150	Microbes & Society	3
— BIO 162	Human Heredity	3
— BIO 201	Fundamentals of Biology I	4
— BIO 202	Fundamentals of Biology II	4

Physical Sciences:

— AST 202	Introduction to Astronomy	4
— ATS 105	Introduction to Atmospheric Science	4
— CHM 105	Chemistry and Society	4
— CHM 110	General, Organic & BioChemistry I	4
— CHM 120	General Chemistry I	4
— GEL 101	Introduction to Geology	4
— GEL 103	Fossils and Earth History	4
— GEL 107	Geology of the Solar System	3
— GEL 206	Environmental Geology	3
— PGE 100	Physical Geography	3
— PGE 102	Physical Geography w/ Lab	4
— PGE 240	Global Climate Change	3
— PHY 201	Mechanics and Heat	5
— PHY 215	Mechanics, Wave Motion & Thermodynamics	5

TRANSFER DEGREES

MATHEMATICS**3-6 credits**

Note: For students seeking state certification as elementary teachers, both MTH 216 and 217 must be satisfactorily completed to fulfill the three-hour mathematics requirement.

—	MTH 115	General Education Math	3
—	MTH 135	Calculus I	5
—	MTH 160	Topics from Finite Math	3
—	MTH 211	Calculus for Business/Social Sciences	4
—	MTH 217	Math for Elementary Teachers II	3
—	MTH 220	Elements of Statistics	3
—	MTH 235	Calculus II	4
—	MTH 236	Calculus III	4

SOCIAL & BEHAVIORAL SCIENCES**9 credits**

Note: Select courses from at least two areas.

Anthropology:

—	ANP 102	Introduction to Physical Anthropology	3
—	# ANP 103	Introduction to Cultural Anthropology	3

Economics:

—	ECO 101	Introduction to Economics	3
—	ECO 110	Principles of Macroeconomics	3
—	ECO 111	Principles of Microeconomics	3

Geography:

—	# GEO 130	World Regional Geography	3
---	-----------	--------------------------------	---

History:

—	HST 140	History of Western Civilization I	3
—	HST 141	History of Western Civilization II	3
—	HST 142	History of the U.S. to 1865	3
—	HST 143	History of the U.S. since 1865	3
—	# HST 151	African History Survey to 1600	3
—	# HST 152	African History Survey since 1600	3
—	# HST 162	History of Latin American I	3
—	# HST 163	History of Latin American II	3
—	# HST 172	History of the Middle East I	3
—	# HST 173	History of the Middle East II	3
—	# HST 182	History of Eastern Civilization to 1500	3
—	# HST 183	History of Eastern Civilization since 1500	3
—	# HST 192	History of the World until 1750	3
—	# HST 193	History of the World since 1750	3

Political Science:

—	PSC 160	American National Government	3
—	PSC 161	State and Local Government	3
—	# PSC 269	International Relations	3

Psychology:

—	PSY 170	General Psychology	3
—	PSY 225	Child Development	3
—	PSY 270	Life-Span Developmental Psychology	3
—	PSY 275	Social Psychology	3

Sociology:

—	SOC 190	Introduction to Sociology	3
—	SOC 290	Social Problems	3
—	# SOC 295	Racial and Ethnic Relations	3
—	SOC 298	Sociology of Sex and Gender	3
—	SOC 299	Marriage and the Family	3

2. ADDITIONAL DEGREE REQUIREMENTS TO BE COMPLETED**a. For the Associate of Arts Degree, students need to complete the following:**

- **Humanities and Fine Arts – 3 credits**

(additional for a total of 12)

Select from: Any course listed as an IAI approved humanities or fine arts course and/or ART 246; FRN, GRM, SPN; PHL; LIT; HUM 115, or 250.

- **Social and Behavioral Sciences – 3 credits**

(additional for a total of 12)

Select from: Any course listed as an IAI approved social and behavioral science course and/or ANP, ECO, EDU 224, GEO, HST, PSC, PSY, or SOC.

- **Non-Western Culture – one 3-credit course**

Select from: Any course listed as an IAI approved Non-Western Culture. Course is indicated by (#); or SPH 202.

- **STU 100 – Planning for Success – one credit**

- **Electives – 16-20 additional credits****

**** Note:** ELECTIVES FOR A.A. DEGREE COMPLETION

The electives taken at RVC may serve as prerequisites for majors at baccalaureate institutions. Students should meet with an academic advisor to verify course selection based on major and transfer institution. Students should also check with the college or university they plan to transfer to and confirm course selection. Students are responsible for knowing the specific requirements of the institution they are considering for transfer and should consult with those institutions directly.

b. For the Associate in Science Degree, students need to complete the following:

- **Mathematics** (additional credits for a total of 8)

Select from: Any course listed as an IAI approved mathematics course and/or any other math course (MTH) numbered 100 or above.

Note: If needed, it is strongly recommended that students complete all calculus courses at the same institution.

- **Physical and Life Sciences** (additional credits for a total of 16)

Two courses with labs from the same discipline

(Example: Two BIO'S or two CHM's)

Select from: Any course listed as an IAI GECC approved Life or Physical Science course and/or any course from AST, ATS, BIO, CHM, GEL, PGE, or PHY.

- **Non-Western Culture – one 3-credit course**

Select from: Any course listed as an IAI approved Non-Western Culture. Course is indicated by (#); or SPH 202.

- **STU 100 – Planning for Success – one credit**

- **Electives – 12 additional credits****

**** Note:** ELECTIVES FOR A.S. DEGREE COMPLETION

The electives taken at RVC may serve as prerequisites for majors at baccalaureate institutions. Students should meet with an academic advisor to verify course selection based on major and transfer institution. Students should also check with the college or university they plan to transfer to and confirm course selection. Students are responsible for knowing the specific requirements of the institution they are considering for transfer and should consult with those institutions directly.

Please see further information about the IAI at: iTransfer.org.

Disclaimer: This information is only a tool that will be updated periodically. Please check with Academic and Transfer Advising Office for updates.

TRANSFER DEGREES

Associate in Engineering Science (A.E.S.) Degree **#1775**

Degree Conferred: Associate in Engineering Science (A.E.S.)
65 credits

Program Contact: Business/CIS/Engineering and Technology
(815) 921-3101

Program Overview:

The Associate in Engineering Science Degree is designed to provide graduates with transfer credits to a baccalaureate engineering degree program. The degree supports A.E.S. graduates' ability to complete a Bachelor of Science (B.S.) Degree depending in large part on the requirements of the four-year institution. The student should identify his/her engineering major and target institution as soon as possible. Students who are unsure of a major in engineering may wish to pursue an Associate in Science (A.S.) Degree. Although students completing an A.S. Degree can complete all of the general education requirements at Rock Valley College, they may be required by the program prerequisites at the transfer school to take three years to complete the baccalaureate engineering program.

I. College Requirements

- Semester Hours: A minimum of 65 credit hours completed as specified in the following sections.
- Grade-Point: A minimum cumulative grade-point average of 2.0 ("C" average) in all course work taken.
- A "C" or better in each engineering specialty course and elective.

II. General Education Requirements

The completion of the AES degree does not fulfill all general requirements of the Illinois Articulation Initiative (IAI) General Education Core Curriculum. Consequently, students must complete the remainder of their general education requirements at the institution to which they transfer. Given the rigor associated with most four-year engineering programs, this program helps to provide students with more balanced semester course loads during their junior and senior years.

A.E.S. General Education Core Requirements **35 credits**

Note: Completion of the A.E.S. degree does not complete the IAI GECC. Students will also need to complete general education credits at the transfer institution.

A.E.S. Communications **9 credits**

ENG 101	Composition I	3
ENG 103	Composition II	3
SPH 131	Fundamentals of Communication	3

A.E.S. Mathematics **13 credits**

MTH 135	Calculus with Analytic Geometry I	5
MTH 235	Calculus with Analytic Geometry II	4
MTH 236	Calculus with Analytic Geometry III	4

A.E.S. Physical Science **4 credits**

CHM 120	General Chemistry I	4
---------	---------------------	---

A.E.S. Social and Behavioral Sciences/ Humanities and Fine Arts **9 credits**

Students are encouraged to complete a two-course sequence in the same discipline in either the Social and Behavioral Sciences or the Humanities and Fine Arts categories.

(Please see page 34 for complete list of IAI-approved General Education Core Curriculum courses for these areas.)

IMPORTANT: students are required to select one course that emphasizes Non-Western culture (# after course listing = Non-Western course).

Students planning on majoring in Industrial Engineering are required to take:

ECO 111 Principles of Economics: Micro..... 3

(Note: ECO 111 - Principles of Economics: Micro, 3, is permissible, but not required, for all other engineering majors.)

III. A.E.S. Engineering Major Courses **20 Credits**

A.E.S. Engineering and Technology **2 credits**

EGR 101	Introduction to Engineering	2
---------	-----------------------------	---

A.E.S. Additional Math Requirement **3 credits**

MTH 240	Differential Equations	3
---------	------------------------	---

A.E.S. Calculus-based Physics **10 credits**

PHY 215	Mechanics, Wave Motion, & Thermodynamic	5
PHY 225	Electricity, Magnetism, Light, & Modern Physics	5

A.E.S. Computer Programming **4 credits**

MTH 164	The Computer in Mathematics C/C++, or,	
CIS 276	Computer Programming in C/C++	4

(Note: Students in Electrical Engineering are advised to take MTH 164, or combination of MTH 120 / MTH 125, if MTH 132 was not completed. If CIS 276 is taken by an EE student, an additional 11 credits of Engineering Electives is required.)

A.E.S. Required Elective **1 credit**

STU 100	Planning for Success	1
---------	----------------------	---

IV. A.E.S. Engineering Electives **10 Credits**

The selection of the appropriate elective engineering courses to meet the elective requirement will depend on the student's desired major/engineering discipline and the specific requirements of the intended transfer institution. Electives should be determined in consultation with an engineering advisor.

The abbreviations given in the table below indicate the primary engineering disciplines from which the students may select a major field; the elective courses listed below appropriate to that discipline are marked with this abbreviation.

- Civil Engineering (CE)..... 13 credits
- Electrical/Computer Engineering (EE)..... 11 credits
- Industrial Engineering (IE)..... 12 credits
- Chemical Engineering (ChE)..... 12 credits
- Mechanical Engineering (ME)..... 13 credits

Course	Course Title	Credits	Engineering Discipline
EGR 135	Engineering Graphics	4	CE ME EE
EGR 206*	Statics	3	CE IE ME EE
EGR 207*	Dynamics	3	CE IE ME
EGR 221*	Elementary Mechanics of Deformable Bodies	3	CE IE ME
EGR 231*	Engineering Circuit Analysis	4	EE CE IE ME
EGR 250	Digital Electronics	4	EE
ECO 111	Principles of Economics: Micro	3	IE
CIS 276*	Computer Programming in C/C++	4	EE
CHM 130	General Chemistry II	4	ChE
CHM 220	Organic Chemistry I	5	ChE
CHM 230	Organic Chemistry II	5	ChE

*These courses have specific course prerequisites that are not shown above and may require additional credit hours to be taken by the student.

Associate in Science Degree with Emphasis in Agriculture

Degree Conferred: Associate in Science

Contact: Sciences Division, (815) 921-3471

Program Overview:

The Associate in Science Degree with an emphasis in Agriculture will prepare students for transfer to a university to complete a bachelor's degree in preparation for a career in the fields of agriculture and consumer science. Students interested in agricultural production, marketing and merchandising, research and development, or public policy can find a career in agriculture.

Through a partnership with the University of Illinois' College of Agricultural, Consumer, and Environmental Sciences (ACES), Rock Valley College is a partner in a collaborative initiative known as ACES ACCESS. Students will take four introductory agricultural science courses (one per semester for four semesters) taught by University of Illinois professors. The four courses will be offered through the University of Illinois Urbana-Champaign by an online delivery method. **Travel to the University of Illinois Urbana-Champaign for one- or two-lab sessions at the agricultural lab facility will be required within the semester.** All other course requirements will be completed online through Rock Valley College.

Students completing an A.S. degree with an emphasis in Agriculture will be prepared to transfer to one of four participating universities: University of Illinois Urbana-Champaign, Southern Illinois University, Illinois State University, and Western Illinois University.

Students who transfer to one of these universities will have opportunities to specialize in a wide variety of agricultural fields, including, but not limited to:

- Agricultural and Biological Engineering
- Agricultural and Consumer Economics
- Agricultural and Environmental Communications
- Education
- Animal Science
- Crop Science
- Food Science and Human Nutrition
- Horticulture
- Human Development and Family Studies
- Natural Resources and Environmental Sciences
- Technical Systems Management

TRANSFER DEGREES

Transferring

About Transferring

Students who earn the Associate of Arts or Associate in Science (A.A. or A.S.) degrees at Rock Valley College before transferring may be granted junior standing by many baccalaureate institutions considering the general education requirements are completed. Transfer students should check early with their transfer institutions and advisors to ensure they are meeting ALL requirements specific to each individual institution. A few colleges/universities may do a course-by-course examination of work from Rock Valley College, and could expect students to complete some general education courses at their institution. Students should work together with Academic and Transfer Advisors, Career Services, or Career & Technical Education Faculty along with transfer institutions to build a transfer degree program appropriate for them. As a general rule, earning an A.A. or A.S. degree is an excellent strategy for transfer.

Students who decide to transfer to another college in Illinois before they earn an A.A. or A.S. degree will find that IAI-approved courses will be accepted by most baccalaureate institutions. Transferring without completing the general education core curriculum may mean that students must complete the general education requirements at the four-year institution.

Transferring from RVC

The Academic and Transfer Advising Office at Rock Valley College offers information about transferring to baccalaureate institutions. For successful transfer, the following guidelines are recommended for all students who plan to transfer:

1. **Investigate** possible career paths at the Career Services, Advising, and Placement Office at (815) 921-4091, through labor market information and career interest surveys.
2. **Plan** RVC course selection with general education and introductory transfer courses in mind. The Academic and Transfer Advising Office, (815) 921-4100, can assist in course selection. Transfer guides for many baccalaureate institutions are available. Because transfer requirements change frequently, verify all transfer information directly with the college/university.
3. **Review** examples of transfer program course guides available in various department offices and/or on the College website.
4. **Visit** the Academic and Transfer Advising Office, (815) 921-4100, to see available resources: internet access, college-career search programs, applications, college catalogs, and more.
5. **Research** possible colleges/universities' academic programs, entrance requirements, costs, deadlines for applications and transcript submission, and housing requirements.
6. **Study.** Since admittance to a college/university is based in part on the Rock Valley College grade point average (GPA) - it pays to study. Many students are competing for limited seats in popular areas of study; your GPA can either limit or broaden career options.
7. **Visit** campuses as time and resources permit. Virtual tours are available on the Internet. Many college representatives also come to campus for college night and throughout the year. The college visit schedule is available at the Academic and Transfer Advising Office web page.
8. **Apply** for graduation at Records and Registration at the beginning of the last semester at Rock Valley College. Even students who are not planning to attend the graduation ceremony need to apply for graduation.
9. When applying, **send** the RVC transcript to the transfer institution via Online Services at: RockValleyCollege.edu/OnlineServices. Request transcript to be sent after each semester a grade is posted at RVC.

*** See Catalog Addendum for more information about Transfer Agreements.

Baccalaureate Completion/Transfer Agreements

In addition to the Illinois Articulation Initiative (IAI) with the state universities for students who complete transfer degrees at Rock Valley College, the college also has written agreements with several baccalaureate completion institutions. It is the transfer students' responsibility to ensure that all course requirements are met by communicating with the chosen four-year institution prior to transferring. Students may also contact these institutions for more information about how they can finish their degree without leaving the Rock Valley College district.

Call the Academic and Transfer Advising Office at (815) 921-4100 for more information.

General Studies Degree

Requirements for the Associate in General Studies Degree (A.G.S. - RVC curriculum #0100)

The Associate in General Studies degree is designed primarily for students who have chosen to pursue a broad general program rather than a specific occupational-oriented or baccalaureate-oriented program. THIS DEGREE IS NOT DESIGNED TO TRANSFER to a four-year institution and general education requirements do not meet IAI General Education Core Curriculum guidelines.

It is an individualized program, permitting flexibility in the selection of courses. Students will qualify for the Associate in General Studies degree when they have satisfied the following requirements:

1. **Enter into a contract with an academic advisor establishing an individualized program.** This contract will include the following points agreed upon by the student and their counselor and approved by the Vice President of Academic Affairs.
 - a. **A general education component which must include:**
 - ENG 101 and SPH 131.
 - A mathematics course numbered 100 or above.
 - A social sciences course numbered 100 or above.
 - A humanities course numbered 100 or above (as defined in the A.A. degree humanities requirement).
 - A science course numbered 100 or above.
 - Career requirement (1-3 semester credits). Students must complete one course from the following electives:
 - STU 101 (Career Planning),
 - BUS 101 (Introduction to Business),
 - BUS 105 (Consumer Economics and Personal Finance),
 - CIS 102 (Introduction to Computers and Information Systems).
 - b. **A minimum of 15 semester credits in one of the following areas of concentration:**
 - Business - all courses in the Business Division.
 - Composition and Literature - all courses numbered 100 to 299.
 - Computers and Information Systems - all courses.
 - Humanities - all courses in Art, Music, Literature, Philosophy, THE 133, HUM 111, HUM 112, HUM 114, and SPH 202.
 - Life/Physical Sciences - all courses in the Life and Physical Sciences departments.
 - Mathematics - all Mathematics courses numbered 100 to 299.
 - Modern Languages - all Modern Language courses.
 - Physical Education - all 200 level courses (FWS).
 - Health and Service Careers - all courses in the Allied Health or the Human Services Division.
 - Social Sciences - all courses in the Social Sciences and Humanities Division.
 - Technology - all courses in the Technology Division.
 - Technical - all courses in the Technical Programs Division.
2. Complete all provisions of the contract. Once the agreement has been defined, it cannot be changed without the approval of an Academic Advisor and the Vice President of Liberal Arts and Sciences.
3. Earn a minimum of 12 semester credits at Rock Valley College in fall and spring semesters or summer sessions following the term in which the student entered into the contract.
4. Earn a minimum of 64 semester credits in courses numbered 100 through 299 (excluding certificate-level courses so indicated under "Course Descriptions") with a grade point average of at least 2.0.
5. Successful completion of 20 semester credits at Rock Valley College. Students may earn a maximum of three semester credits in physical education activity classes (FWS 100-199) toward the Associate in General Studies Degree.

History (continued from page 9)

ROCK VALLEY COLLEGE

Between 2001-2003, the Starlight Theatre's Bengt Sjostrom Theatre (BST) was transformed architecturally with a design by Jeanne Gang Associates. The construction and design resulted in international

recognition. An important enhancement for an outdoor theatre, Gang designed a roof that can be opened as audiences look up at the night sky, and closed during inclement weather. A constellation-themed ticket and control booth and versatile stage house made BST truly unique and moved Rock Valley College into the forefront of leadership for community arts and entertainment.

RVC Mulford campus shown (above) in 2003 with construction underway to Starlight Theatre and the Support Services Building (SSB), opened in Fall 2003.

RVC BOARD CHOOSES NEXT PRESIDENTS | At the end of 2003, the Rock Valley College Board of Trustees unanimously voiced a need for a change in presidential leadership.

With Dr. Chapdelaine's departure, the Board hired an interim president, Dr. John Anderson, who had previously served as interim president of Blackhawk College in Moline, Illinois. During his tenure, Anderson oversaw the visit by the Higher Learning Commission of the North Central Association leading to Rock Valley College receiving a 10-year accreditation.

As the fifth president of Rock Valley College (November 9, 2004), Dr. Jack J. Becherer was a seasoned administrator with a background in student development at Moraine Valley College in Palos Hills, Illinois and president at Wanatchee Valley College in eastern Washington state. He continued the RVC vision of teaching, learning, and leading. A student success model was developed and ambitious enrollment management plans

sought to encourage high school seniors to consider Rock Valley College as a viable start to a rewarding college experience. Dr. Becherer and RVC established and continued to seek opportunities to partner with local businesses and the community to offer students the training that leads to good jobs and provides the region a stronger workforce.

The Student Center update as a "one-stop-shop" in October 2003 and an addition of 9,000 sq. ft. to house the campus bookstore and a multipurpose

room - the Atrium in January 2005 were major improvements. Central to the entire campus, the Student Center Atrium offers a 180° view of campus. The Student Center is enjoyed by students and the public who attend a variety of assemblies and events in this venue.

In 2007, after the complete renovation of the Educational Resource Center's library and a "front door to the community" added, the

College library was named in honor of Estelle M. Black. A generous donation made by business women mentored by her, resulted in a ceremony on August 7, 2007. Mrs. Black was a founding employee of the RVC Library, Assistant Director of the Rockford Public Library for 19 years, and a leader in professional and civic organizations both locally and nationally.

In 2009, the College completed a 16-month renovation of the Physical

Education Center (PEC) to better accommodate growing classes and students with disabilities. Through careful planning of materials and a green-build philosophy, the College was awarded gold level LEED status (Leadership in Energy and Environmental Design) - the first project of its kind in the Rockford area at the time.

In 2009, the new Science and Math building was named Karl J. Jacobs Center for Science and Math (JCSM) in honor of RVC's longest serving president.

The grand opening was held August 16, 2011. The 106,000 square foot building allows RVC to increase course offerings in science and math for transfer and career programs. The first educational building constructed on campus since 1986, this new state-of-the-art facility includes multiple science labs, resource labs, and fourteen classrooms. Numerous innovative sustainable technologies were incorporated into the building and RVC received its second LEED Gold certification for its design.

CAREER & TECHNICAL EDUCATION PROGRAMS

CAREER & TECHNICAL EDUCATION PROGRAMS

Career & Technical Education Programs -

A.A.S. Degrees

Rock Valley College has developed career and technical programs in response to employment needs of the College's district. All of the career programs have been developed in cooperation with program advisory committees. Upon successful completion of a career program, students will receive an Associate in Applied Science (A.A.S.) degree or a Certificate. These programs are not designed for transfer to a four-year institution. While many of the career and technical courses do transfer, if transferring to a four-year college or university is your goal, please consult with your Academic Advisor, the Dean, or Academic Chair of the career program.

Requirements for the Associate in Applied Science (A.A.S.) Degree

The Associate in Applied Science Degree is awarded to students who successfully complete a career and technical education curriculum. Attainment of this degree is evidence that the student possesses the competence for entry-level employment in their field of study. An Associate in Applied Science Degree usually requires two years for full-time students. Part-time students may complete the degree over a longer period of time.

All technical curricula leading to the Associate in Applied Science Degree have both specific program and general education core course requirements. The general education requirements will include a minimum of 15 semester credit hours.

Requirements for all A.A.S. Degrees include:

1. Completion of one of the career education curriculums listed in this catalog (beginning on page 47), including a minimum of 64 semester credits. Courses numbered from 100 through 299 can be used toward the 64 semester credits.
2. A maximum of three (3) semester credits may be earned in Fitness, Wellness, and Sport physical education activity classes (numbered 100-199).
3. A minimum grade point average (GPA) of 2.0 ("C" average on a 4.0 scale).
4. Since the Summer of 1999, students must receive grades of "C" or better in ENG 101 and ENG 103 (if ENG 103 is required for the program). A grade of "C" or better is also required if a student completes MGT 170 (formerly ENG 105).
5. Successful completion of at least 20 semester credits at RVC.

Requirements for Certificates

Career education certificate programs are developed and offered in areas where job-entry training and educational requirements usually can be met in less than two years. These short-term programs are excellent options for the student who is interested in quickly gaining skills for employment.

A number of certificates are offered either as part of career education degree programs or stand-alone certificates. Requirements for a certificate include the following:

1. For certificates with less than 30 credit hours, a minimum grade of "C" is required in each course required in the certificate.
2. For certificates of 30 or greater credit hours, a minimum cumulative grade point average of 2.0 ("C" on a 4.0 scale) is required.

3. Substitution of appropriate, approved courses may be made in certificates to a maximum of one-fourth of the credit hours in the respective certificate.

Upon successful completion of the requirements for a specific certificate, an application for the certificate must be completed at the Records and Registration Office.

Perkins Programs of Study & Career Clusters

Rock Valley College, in partnership with the Illinois State Board of Education and the Illinois Community College Board, has adopted the national Career Cluster Framework. This initiative complements other state level efforts to enhance workforce and career development. Career Clusters are groups of occupations and industries that have in common a set of foundational knowledge and skills. There are 16 nationally recognized clusters and within are multiple Career Pathways. For more information about the Career Clusters initiative visit: CareerTech.org.

Career Education Guarantee

Rock Valley College guarantees that career education graduates will perform competently in positions for which their degrees or certificates are intended. An employer who perceives that a Rock Valley College graduate does not possess appropriate entry-level skills encompassed in the degree or certificate curriculum, and can specify such deficiencies, may request that the student be permitted to retake a specific course of courses up to nine credit hours without additional tuition and fee charges.

ROCK VALLEY COLLEGE

Join us in the Rock Valley College year-long 50th Anniversary celebration - check out "50th Fridays" on the RVC blog: RVCInsider.com and use #RVC50 to share your memories and photos with us on social media all year long.

CAREER & TECHNICAL EDUCATION PROGRAMS

Accounting

Accounting (ATG)

#2000

Degree Conferred: Associate in Applied Science - 65 credits

Program Contact: Division of Business/
Computers & Information Systems,
(815) 921-3101
RockValleyCollege.edu/Accounting

Program Overview:

Graduates of this program will play a central role in the financial life of a business or client. They will learn to assemble, identify, record, and interpret financial information in private and public accounting. Students who decide to go on to pursue a bachelor's degree will find other opportunities available in a wide range of fields.

Work & Employment:

Graduates of this program are prepared to assume positions such as accounting technician, accounting assistant, accounting clerk, or bookkeeper.

Transfer Opportunities:

Graduates of this Accounting degree have limited transfer options. Students are advised to contact the institution to which they plan to transfer to ensure course transfer credit availability. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the Business program.

Certificates Available:

- Accounting/Income Tax Fundamentals
- Professional Bookkeeper

CAREER & TECHNICAL EDUCATION PROGRAMS

Automotive Service Careers

Automotive Service Technology (ATM)

#7100

Degree Conferred: Associate in Applied Science - 66 credits

Program Contact: Division of Technical Programs,
(815) 921-3000
RockValleyCollege.edu/ATM

Program Overview:

Graduates of the Automotive Service Technology (ATM) Program are prepared to assume positions in the automotive industry as entry-level technicians. Students become adept in all aspects of the automobile, including electrical/electronics, engine repair, engine performance, heating/AC, suspension, brakes, and transmissions. Those with a 3.0 GPA should be able to pass the industry-recommended ASE tests to enhance employability.

Work & Employment:

Successful graduates who become ASE-certified can move into positions as journeymen technicians. Technician training can lead to other career paths such as service managers, parts managers, jobber salespersons, insurance adjusters, and shop operators.

Transfer Opportunities:

Graduates of this Automotive degree have limited transfer options. Students are advised to contact the institution to which they plan to transfer to ensure course transfer credit availability. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the Automotive Service Program.

Certificates Available:

- Automotive Electrical
- Automotive Technician
- Automotive Engine
- Automotive Transmission
- Automotive Engine Performance
- Automotive Heating & Air Conditioning
- Automotive Suspension & Brakes

*Students are expected to furnish their own tool kits for class. This will be discussed during the first class session.

Automotive Core

Course Requirements

Required for both options 51 credits

ATM 105	Introduction to Brake and Chassis Systems	3
ATM 106	Introduction to Automotive Electrical Systems and Powertrains	3
ATM 107	Automotive Electronic Fundamentals	4
ATM 114	Brakes	4
ATM 140	Engine Diagnosis and Repair	6
ATM 203	Heating and Air-conditioning Systems	4
ATM 221	Steering and Suspension	4
ATM 222	Manual Transmission/Transaxles	4
ATM 223	Automotive Electrical Circuits	4
ATM 242	Automatic Transmission/Transaxles	5
ATM 228	Engine Performance I	5
ATM 229	Engine Performance II	5

OPTION A:

Automotive Service Technician

If students are interested in pursuing the Automotive Service Technician option in this program, they should take the following General Education courses:

General Education

Course Requirements 15 credits

ENG 101	Composition I	3
ENG 103	Composition II, or,	
MGT 170	Business Communications, or,	
ENG 110	Introductory Technical Writing, or,	
SPH 131	Fundamentals of Communication	3
MTH 115	General Education Mathematics, or,	
MTH 120	College Algebra	3
CIS 102	Introduction to Computers & Information Systems	3
ATM 236	Advanced Computers/Controls Systems	3

OPTION B:

Automotive Management

If students are interested in pursuing the Automotive Management option in this program, they should take the following General Education and Business courses. Students must complete 15 credit hours from the following:

General Education

Course Requirements 12 credits

ENG 101	Composition	3
ENG 103	Composition II, or,	
MGT 170	Business Communications, or,	
ENG 110	Introductory Technical Writing, or,	
SPH 131	Fundamentals of Communication	3
BUS 101	Introduction to Business	3
ATM 236	Advanced Computers/Controls Systems	3

Electives: 3 credits

Select 3 credits from the following:

ATG 106	Introduction to Accounting Debits and Credits	1
ATG 107	Introduction to Accounting Special Journals	1
ATG 110	Financial Accounting	4
MGT 270	Principles of Management	3
MTH 120	College Algebra	3

Note: Other General Education courses may be acceptable with the approval of the Technical Programs Dean.

CAREER & TECHNICAL EDUCATION PROGRAMS

Aviation Maintenance Technology

Aviation Maintenance Technology (AVM)

#7200

Degree Conferred: Associate in Applied Science - 82 credits

Program Contact: Aviation Maintenance Technology Program,
(815) 921-3016
Division of Technical Programs Office,
(815) 921-3000 or
RockValleyCollege.edu/Aviation

Program Overview:

Federally-licensed graduates of the Aviation Maintenance Technology (AVM) Program are prepared to assume positions as airline or general aviation engine and/or airframe mechanics. The program is certified to provide approved instruction leading to FAA Airframe and Powerplant certificate examinations. Currently, 2,000 hours of instruction are offered in the areas of airframe and powerplant, which translates to 11 months of instruction in each year of the two-year program.

Work & Employment:

In addition to the general aviation engine and/or airframe mechanic, graduates have also found work in other job-related areas, such as sheet metal construction and repair, reciprocating and turbine engine repair and overhaul, engine accessory overhaul and repair, air conditioning systems, welding, hydraulics, pneumatics, and electrical systems maintenance.

Transfer Opportunities:

The program provides the first two years of a baccalaureate program for those who wish to pursue a four-year degree. Graduates also receive preferential admission status when they apply to the B.S. in Aviation Management or Aviation Technologies programs at Northern Illinois University, Southern Illinois University and Embry-Riddle Aeronautical University. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the Aviation program.

Previous College Credit:

The RVC/AVM program does not accept transfer credits for aviation courses completed at any other institution.

Industry Certifications (if applicable):

Upon successful completion of the AVM program, students have the opportunity to take the Federal examinations to earn an FAA Airframe Technician and Powerplant Technician license.

Applying for the Program:

A special application is required for admission to the program. Students are urged to apply as soon as possible prior to the fall term in which they wish to enroll. Contact the program office for an application.

Certificates Available:

- Aviation Maintenance
- Airframe Technician
- Powerplant Technician

KEY PROGRAMS TAKE FLIGHT

Two programs still offered at RVC today began at off-site locations in 1968 when the Automotive Service Technology Program opened in Belvidere and the Aviation Maintenance Technology Program opened at the Rockford Airport.

46 years later, RVC broke ground on its new Aviation Maintenance facility at the Chicago-Rockford International Airport. The 40,000 sq. ft. facility will have four classrooms, four labs, and an aircraft hangar. The new facility will open in Fall 2015 at 6045 Cessna Drive.

ROCK VALLEY COLLEGE

Join us in the Rock Valley College year-long 50th Anniversary celebration - check out "50th Fridays" on the RVC blog: RVCInsider.com and use **#RVC50** to share your memories and photos with us on social media all year long.

CAREER & TECHNICAL EDUCATION PROGRAMS

Building Construction Careers

Building Construction Management (BCM)

#7000

Degree Conferred: Associate in Applied Science - 65 credits

Program Contact: Division of Engineering and Technology,
(815) 921-3101
RockValleyCollege.edu/BCM

Program Overview:

Graduates of the Building Construction Management (BCM) Program organize, lead, and manage the resources, materials, and the processes related to building construction, both commercial and residential.

Work & Employment:

Graduates work in such jobs as estimators, detailers, surveying technicians, and in construction sales. With additional experience, successful graduates can advance to field engineering assistant, construction or maintenance supervisor, building inspector, or contractor.

Transfer Opportunities:

Graduates of the program have the option to transfer their degree to various four-year universities to pursue a B.S. in Construction Management. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the BCM program.

CAREER & TECHNICAL EDUCATION PROGRAMS

Building Construction Careers (continued)

Sustainable Building Science (SBS)

#7050

Degree Conferred: Associate in Applied Science - 64 credits

Program Contact: Division of Engineering and Technology,
(815) 921-3101
RockValleyCollege.edu/Engineering

Program Overview:

Graduates of this program organize, lead, and manage the process related to Building Construction by promoting sound building practices with emphasis on energy conservation, human comfort, and responsible resource management.

Work & Employment:

Graduates work in such jobs as sustainability coordinator, energy auditor, envelope professional, or resource manager. With additional experience, successful graduates can advance to LEED professional, project engineer, building inspector, construction or maintenance supervisor, or green building contractor.

Transfer Opportunities:

Graduates of the program have the option to transfer their degree to various four-year universities to pursue a B.S. in Construction Management or Sustainability. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the SBS program.

Sustainable Building Science

Course Requirements 46 credits

Elective Course 3 credits

BCM Elective course or, other General Education courses approved by the BCM Academic Chair.

BCM - Electives:

BCM 168	Construction Internship	1-6
BCM 195	Construction Surveying I	3
BCM 218	Construction Surveying II	3
BCM 237	Architectural CAD Drafting II	3
BCM 250	Special Topics in Building Construction	3
BCM 258	Case Study in Construction Management	3

CERTIFICATE:

Sustainable Construction/7051 15 credits

BCM 117	Construction Materials & Methods	3
BCM 120	Mechanical Systems	3
BCM 268	Home Performance & Energy Auditing	3
BCM 278	Green Building Fundamentals	3
EET 105	Introduction to Sustainable Energy	3

Second A.A.S. Degree Requirements for either the BCM or SBS A.A.S Degrees (15 credits):

The course requirements for the Building Construction Management and the Sustainable Building Science degree programs are very similar. Therefore, obtaining a second degree is an exciting option for many graduates. Specifically, a graduate of the BCM program may desire to obtain a second degree in SBS. **Fundamentally, a minimum of 15 additional credits must be taken.**

A GRADUATE OF THE BCM PROGRAM (7000) WHO DESIRES TO ALSO RECEIVE A SBS (7050) DEGREE MUST TAKE:

BCM 268	Home Performance & Energy Auditing	3
BCM 278	Green Building Fundamentals	3
EET 105	Introduction to Sustainable Energy	3
BCM	Elective	3
BCM	Elective	3

(This means an BCM graduate must take an additional 15 credits to receive a second degree in SBS.)

A GRADUATE OF THE SBS PROGRAM (7050) WHO DESIRES TO ALSO RECEIVE A BCM (7000) DEGREE MUST TAKE:

BCM 195	Construction Surveying I	3
BCM 237	Architectural CAD Drafting II	3
ATG 106	Accounting Debits & Credits	1
ATG 107	Accounting Special Journals	1
BCM	Elective	3
BCM	Elective	3
BCM 298	Independent Study	1

(This means an SBS graduate must take an additional 15 credits to receive a second degree in BCM.)

Students are required to contact the BCM Academic Chair, (815)921-3101, for more information about obtaining a second degree in this field.

A prerequisite or corequisite may be required for some courses.

Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Business Administration

Business Administration (BUS) #2100

Degree Conferred: Associate in Applied Science - 65 credits

Program Contact: Division of Business /
Computers & Information Systems,
(815) 921-3101
RockValleyCollege.edu/BusinessAdmin

Program Overview:

Graduates of the Business Administration Program will have acquired knowledge and skills of business and leadership which can be applied to entry level jobs. Additionally, graduates of the business program will have the knowledge and skills required to meet the criteria of success for the RVC Student Learning Outcomes.

General Business: Graduates will have acquired a broad knowledge and skill of business and an overview of all general business concepts. Students who choose this focus will be prepared to work in a variety of business positions.

Management: Graduates will have acquired a broad base of business knowledge and skills, management techniques, and leadership skills. Students who choose this focus will be prepared for entry level supervisory positions in a variety of leadership positions.

Marketing: Graduates will learn about the various career paths available in marketing and learn the concepts behind the development of products, pricing, promotion, and distribution. Students who choose this focus will be prepared to work in a variety of entry-level marketing positions in business.

Entrepreneurship: Graduates will learn how the Entrepreneurship Program provides students an understanding of the many facets of entrepreneurship. Students will learn the process of identifying a business opportunity and developing an organization to establish a new venture. The curriculum will provide students with the proper tools to evaluate the feasibility of a new venture and to identify the available resources for assisting an entrepreneur during the start-up phase of the business. Students taking entrepreneurial courses will become a motivated and valued employee, captain, leader, owner, or manager that understands how to take a problem and turn it into an opportunity. Students will experience the ABC's of starting and managing your own business. Students recognize and understand the difference between a good idea and a real business opportunity. Students investigate and experience the basics of starting a company creates both value and experience that will be used throughout your career, despite the area of interest.

Work & Employment:

Graduates of this program are prepared to assume entry level positions or advance their current position in management, marketing, sales, purchasing, finance, and human relations among other areas. In addition, students are encouraged to explore opportunities to transfer and pursue a bachelor degree in Entrepreneurship. The Rock Valley College Business Program has several articulation agreements in place which allow students to transfer credit towards a bachelor degree program. Please make an appointment with an Academic Advisor, the Business/CIS Dean, or Business Academic Chair to discuss appropriate plans of study for transfer options.

Business Administration

Course Requirements 38 credits

ATG 110	Financial Accounting	4
BUS 101	Introduction to Business	3
BUS 103	Business Mathematics, or,	
BUS 223	Business Statistics	3
BUS 200	Legal Environment in Business, or,	
BUS 201	Business Law	3
BUS 203	Economics for Business	3
BUS 279	Principles of Finance	3
BUS 282	International Business	3
BUS 298	Global Small Business Incubator	3
MGT 270	Principles of Management	3
MKT 260	Principles of Marketing	3
MKT 288	Customer Relations	3
PCI 106	Microcomputer Applications/Windows	4

CHOOSE APPROPRIATE OPTION 9 credits

OPTION A: General Business 9 credits

BUS 105	Consumer Economics & Personal Finance	3
BUS 170	Introduction to Organizational Behavior	3
Electives	3

Any Business Division course with prefix ATG, BUS, MGT, MKT, OFF, or PCI.

OPTION B: Management 9 credits

Note: This option requires BUS 223 Business Statistics instead of BUS 103 Business Mathematics.

BUS 170	Introduction to Organizational Behavior	3
MGT 271	Human Resource Management	3
MGT 274	Leadership	3

OPTION C: Marketing 9 credits

MKT 265	Salesmanship	3
MKT 266	Principles of Advertising	3
Electives	3

Any Business Division course with prefix ATG, BUS, MGT, MKT, OFF, or PCI.

OPTION D: Entrepreneurship 9 credits

BUS 130	Entrepreneurship: Principles	3
BUS 131	Entrepreneurship: Planning	3
BUS 230	Entrepreneurship: Capstone	3

OPTION E: Specialized Management or Marketing 9 credits

To meet the needs of a special situation, the Business/CIS Dean will work with the student to design a specialized curriculum. All courses applied to this option must have the prior approval of the Business/CIS Dean.

CAREER & TECHNICAL EDUCATION PROGRAMS

Business Administration (continued)

General Education

Course Requirements 18 credits

Required Courses 12 credits

CIS 102	Introduction to Computer Systems	3
ENG 101	Composition I	3
MGT 170	Business Communications	3
SPH 131	Fundamentals of Communication.....	3

Electives 6 credits

Students must select courses with at least two different prefixes in the IAI General Education Core Curriculum areas.

(Example: ART, BIO, ECO, ENG, MTH, SOC, etc.) to fulfill general education elective requirements.

Business Program Elective Courses:

BUS 295	Independent Study in Business Administration	1-6
BUS 296	Special Topics in Business Administration	1-4
MGT 281	Women in Management	3
MGT 282	Independent Study in Management	1-3
MGT 283	Internship in Business Management	1-6
MKT 281	International Marketing	3
MKT 293	Internship - Marketing	1-3
MKT 295	Independent Study in Marketing	1-3

CERTIFICATES:

Certificates may be awarded in several areas of business. Certificates are for students who wish to concentrate on specific areas of interest by taking a few courses targeted at those interests. The certificates demonstrate to employers that skills have been acquired in particular areas of practice.

Business Fundamentals/2114 29 credits

This certificate is designed for students who are interested in focused course work in business fundamentals. Students will be able to demonstrate to employers a general understanding in the basic areas of business.

ATG 110	Financial Accounting	4
BUS 101	Introduction to Business	3
BUS 103	Business Mathematics, or,	
BUS 223	Business Statistics	3
BUS 170	Introduction to Organizational Behavior	3
BUS 200	Legal Environment in Business, or,	
BUS 201	Business Law	3
MGT 270	Principles of Management	3
MKT 260	Principles of Marketing	3
PCI 106	Microcomputer Applications/Windows Based	4
MGT 170	Business Communications	3

Management/2511 29 credits

This certificate in management is intended for individuals who wish to develop or enhance skills in management and supervision. It offers students the course work required to receive fundamental management skills and prepare students who are interested in mid-to-upper level supervision positions.

ATG 110	Financial Accounting	4
BUS 101	Introduction to Business	3
MGT 270	Principles of Management	3
MGT 274	Leadership	3
MKT 260	Principles of Marketing	3
MKT 288	Customer Relations	3
PCI 106	Microcomputer Applications/Windows Based	4
MGT 170	Business Communications	3

Students must select one of the following courses for 3 credits:

BUS 170	Introduction to Organizational Behavior	3
MGT 271	Human Resource Management	3
MGT 283	Internship in Business Management	3

Marketing/2211 21 credits

This certificate is for students who are interested in marketing and want to acquire specific skills in the areas of sales, advertising and customer relations.

BUS 101	Introduction to Business	3
MKT 260	Principles of Marketing	3
MKT 265	Salesmanship	3
MKT 266	Principles of Advertising	3
MKT 288	Customer Relations	3
MGT 170	Business Communications	3
SPH 131	Fundamentals of Communication	3

Entrepreneurship/2105 29 credits

This certificate is for students who are interested in starting a new business venture and want to acquire specific skills in entrepreneurial activities.

ATG 110	Financial Accounting	4
BUS 130	Entrepreneurship: Principles	3
MGT 270	Principles of Management	3
BUS 131	Entrepreneurship: Planning	3
BUS 230	Entrepreneurship: Capstone	3
MKT 260	Principles of Marketing*	3
MKT 288	Customer Relations	3
PCI 106	Microcomputer Applications/Windows Based	4
MGT 170	Business Communications	3

(*MGT 274 can replace MKT 260 with Chair approval)

A prerequisite or corequisite may be required for some courses. Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Computer Careers

Computers & Information Systems (CIS) #2700

Degree Conferred: Associate in Applied Science - 64 credits

Program Contact: Division of Business/
Computers & Information Systems (CIS)
Engineering and Technology (EAT),
(815) 921-3101
RockValleyCollege.edu/CIS

Program Overview:

Graduates of the Computers and Information Systems (CIS) Program learn the complexities of computer software, hardware, and programming processes to enable them to be successful in the workplace. For those who decide to pursue a bachelor's degree, the Computers and Information Systems (CIS) Program offers courses that can be successfully transferred to baccalaureate institutions. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the CIS program.

The Business/CIS/EAT Division also offers degrees in Website development and networking. For information on these other A.A.S. degrees, please see the Web Programming & Design, Cisco Networking, or Data Assurance and IT Security programs elsewhere in this A.A.S. degree section of the catalog.

Work & Employment:

Although many graduates of the program begin work as entry-level programmers, opportunities are also available as a programmer/analyst, technical support specialist, PC specialist, operations specialist, and in database support.

Industry Certifications (if applicable):

Course work prepares students for the Java Programmer Level 1 Certification.

Certificates Available:

- C/C++ Programming
- Visual Basic Programming

CIS Core Requirements 33 credits

CIS 102	Introduction to Computers and Information Systems	3
CIS 170	Programming Logic & Design	3
CIS 180	Introduction to Visual Basic Programming	4
CIS 240	Introduction to Java Programming	4
CIS 254	Database Programming	4
CIS 276	Introduction to C/C++ Programming, or,	
CIS 279	Visual C# Programming	4
PCT 110	Network Essentials	3
WEB 101	Programming Related to the Internet	4
WEB 102	Advanced Programming Related to the Internet	4

General Education

Course Requirements 15 credits

ENG 101	Composition I	3
ENG 103	Composition II, or,	
MGT 170	Business Communications, or,	
ENG 110	Introductory Technical Writing	3
SPH 131	Fundamentals of Communication	3
MTH 120	College Algebra, or,	
MTH 160	Topics from Finite Mathematics, or,	
MTH 220	Elements of Statistics	3
BUS 170	Introduction to Organizational Behavior, or,	
PSY 170	General Psychology, or,	
SOC 190	Introduction to Sociology	3

CIS Electives 16 credits

With the approval of the CIS Academic Chair, select courses from the following list:

CIS 241	Advanced Java Programming	4
CIS 245	Programming Android for Mobile Devices.....	4
CIS 277	Advanced C/C++ Programming	4
CIS 280	Programming iOS Apple Mobile Devices	4
PCT 270	Introduction to UNIX/Linux	3
WEB 233	Web Programming using Client-Side Scripting	4
WEB 234	PHP Programming.....	4

CERTIFICATES:

C/C++ Programming/2735 15 credits

CIS 170	Programming Logic & Design	3
CIS 276	Introduction to C/C++ Programming	4
CIS 277	Advanced C/C++ Programming	4
CIS 279	Visual C# Programming.....	4

Visual Basic Programming/2745 15 credits

CIS 170	Programming Logic & Design	3
CIS 180	Introduction to Visual Basic Programming	4
CIS 181	Advanced Visual Basic Programming	4
CIS 184	Visual Basic Programming III	4

A prerequisite or corequisite may be required for some courses.

Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Computer Careers (continued)

Personal Computer Technical Specialist - PCT

The Personal Computer Technical Specialist area describes a series of specialized computer-related degree programs in some of the most in-demand career fields. They include:

1. Cisco Networking A.A.S. (also has three certificate-level programs) and
2. Data Assurance and IT Security A.A.S. (also has three certificate-level programs).
3. Web Programming and Design A.A.S. (also has two certificate-level programs).

For information on these A.A.S. degrees and certificates, please see program information elsewhere in the Career & Technical Education section.

CISCO Networking #3750

Degree Conferred: Associate in Applied Science – 64 credits

Program Contact: Division of Business /
Computers & Information Systems,
(815) 921-3101
RockValleyCollege.edu/CISCO

Program Overview:

Graduates of the program are prepared to obtain Cisco's CCNA certification. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the CIS program.

Work & Employment:

Successful graduates have found work as network support specialists, software support specialists, network administrators, system administration, and network specialists among others.

Industry Certifications:

Graduates of this program are prepared to obtain any, or all, of the following certifications:

- **Cisco:** CCENT, CCNA, CCNP
- **CompTIA:** A+, Security+, Network+
- **Microsoft:** Microsoft Certified Technology Specialist (MCTS)

Certificates Available:

- Cisco Networking
- Cisco Advanced Networking
- Microsoft Server Administration

Cisco Networking Specialist
Course Requirements 49 credits

Cisco Networking
Core Requirements 10 credits

CIS 102	Introduction to Computers & Information Systems	3
WEB 101	Programming Related to the Internet	4
PCT 270	Introduction to Unix/Linux	3

Cisco Networking Electives 10 credits

With the approval of the CIS Academic Chair, select courses with any of the following prefixes: CIS, PCT, or WEB.

Cisco Networking Specialization 29 credits

CIS 276	Introduction to C/C++ Programming	4
EET 100	Introduction to Electronics	3
PCT 112	Windows Server Fundamentals	3
PCT 120	Cisco Networking I	4
PCT 122	Cisco Networking II	4
PCT 124	Cisco Networking III	4
PCT 126	Cisco Networking IV	4
PCT 262	Computer Service and Repair	3

General Education
Course Requirements 15 credits

ENG 101	Composition I	3
ENG 103	Composition II, or,	
MGT 170	Business Communication, or,	
ENG 110	Introductory Technical Writing	3
SPH 131	Fundamentals of Communications	3
MTH 120	College Algebra, or	
MTH 160	Topics from Finite Mathematics, or,	
MTH 220	Elements of Statistics	3
BUS 170	Introduction to Organizational Behavior, or,	
PSY 170	General Psychology, or,	
SOC 190	Introduction to Sociology	3

CERTIFICATES:

Cisco Networking/3720 19 credits

CIS 102	Introduction to Computers & Information Systems	3
PCT 120	Cisco Networking I	4
PCT 122	Cisco Networking II	4
PCT 124	Cisco Networking III	4
PCT 126	Cisco Networking IV	4

Cisco Advanced Networking/3721 12 credits

PCT 220	Advanced Routing	4
PCT 224	Advanced Switching	4
PCT 226	Troubleshooting	4

Microsoft Server Admin. Certificate/3725 9 credits

PCT 111	Microsoft Active Directory	3
PCT 112	Window Server Fundamentals	3
PCT 113	Microsoft Windows Infrastructure	3

*A prerequisite or corequisite may be required for some courses.
Refer to the course descriptions section in this catalog for more information.*

CAREER & TECHNICAL EDUCATION PROGRAMS

Computer Careers (continued)

Data Assurance & IT Security

#3775

Degree Conferred: Associate in Applied Science - 64 credits

Program Contact: Division of Business /
Computers & Information Systems,
(815) 921-3101
RockValleyCollege.edu/ITSecurity

Program Overview:

Graduates of the Data Assurance & IT Security Program are prepared for a career in computer network and Internet security. Responsibilities include developing information security strategies, performing analyses, installing security software, monitoring network traffic, and developing emergency plans.

Work & Employment:

With the increased concern over computer security issues, employers are looking for people with skills in this area. Graduates secure jobs such as security specialists, network specialists, security technicians, security support specialists, and security assistants. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the CIS program.

Industry Certifications:

Graduates of this program are prepared to obtain any, or all, of the following certifications:

- **Cisco:** CCENT, CCNA, CCNP
- **CompTIA:** A+, Security+, Network+
- **Microsoft:** Microsoft Certified Technology Specialist (MCTS)

Certificates Available:

- Voice Over IP
- Cisco CCNA Security Certificate
- Cisco CCNP Security Certificate

Data Assurance & IT Security

Course Requirements 49 credits

Data Assurance & IT Security Core Courses 10 credits

CIS 102	Introduction to Computers & Information Systems	3
WEB 101	Programming Related to the Internet	4
PCT 270	Introduction to Unix/Linux	3

Data Assurance & IT Security Electives 10 credits

With the approval of the CIS Academic Chair, select courses with any of the following prefixes: CIS, PCT, or WEB.

CAREER & TECHNICAL EDUCATION PROGRAMS

Criminal Justice

Criminal Justice (CRM)

#7800

Degree Conferred: Associate in Applied Science – 66 credits

Limited Transferability

Program Contact: Division of Social Sciences / Humanities /
and Fitness, Wellness, and Sport,
(815) 921-3317
RockValleyCollege.edu/CriminalJustice

Program Overview:

Graduates of the Criminal Justice (CRM) Program meet the minimum educational requirements necessary to complete for sworn positions at most local and state law enforcement agencies as well as, private security firms. With experience and additional training or education, there are opportunities for graduates to advance into areas of specialization and management.

Work & Employment:

Opportunities include positions in law enforcement, crime prevention, probation, corrections, court records, communications/dispatch, and security/loss prevention.

More about the Program:

It is important for students to consider their career goals when they begin course work in the Criminal Justice Program. Since the degree is also designed for limited transfer to select four-year schools, future educational plans should be considered when building course schedules. Some students have career and academic plans that are more directed towards transfer to a four-year school to earn a Bachelor's degree in a Criminal Justice related field. For these students, completion of RVC's Criminal Justice A.A.S. degree may not be the best choice. Instead, these students should consider completion of an Associate of Arts degree at Rock Valley College, using selected transferable courses from the CRM curriculum as electives toward the degree. Courses from the Criminal Justice A.A.S. curriculum that are transferable to a four-year degree are indicated with the symbol "+" in the program curriculum description that follows.

For more information about the Criminal Justice Program, contact an Academic Advisor or the Division of Social Sciences and Humanities (815) 921-3317.

Criminal Justice

Course Requirements **42 credits**

Core Requirements – 24 credits

CRM 105	Police Report Writing	3
+CRM 120	Criminal Investigation	3
CRM 125	Criminal Procedure and Civil Rights	3
CRM 127	Ethics in Law Enforcement	3
+CRM 225	Juvenile Procedures	3
CRM 281	Rules of Evidence	3
CRM 282	Interviews and Interrogations	3
+CIS 102	Introduction to Computers & Information Systems	3

Electives – Select 18 credits from the following:

+CRM 101	Introduction to Criminal Justice	3
CRM 102	Introduction to Probation and Parole	3
CRM 103	Introduction to Corrections	3
CRM 104	Introduction to Private Security	3
+CRM 210	Criminal Law	3
CRM 260	Police Organization and Administration	3
CRM 271	Patrol Procedures	3
CRM 283	Special Topics in Police Science	3
CRM 291	Internship	1-6

General Education

Course Requirements **24 credits**

ENG 101	Composition I	3
SPH 201	Interpersonal Communications	3
PSC 160	American National Government	3
PSC 161	State and Local Government	3
PSY 170	General Psychology	3
SOC 190	Introduction to Sociology	3
SOC 291	Criminology	3
FWS 265	Personal Fitness and Wellness	3

+ – CRM Program courses that are typically accepted for transfer.

A prerequisite or corequisite may be required for some courses.

Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Dental Hygiene

Dental Hygiene (DNT)

#5100

Degree Conferred: Associate in Applied Science – 81 credits

Limited Transferability

Program Contact: Dental Hygiene Program Office,
(815) 921-3235
RockValleyCollege.edu/DentalHygiene

Program Mission Statement:

The RVC Dental Hygiene Program is committed to providing the highest quality education while fostering a learning environment that develops critical thinking and problem solving skills. The Program prepares students to be ethically responsible and clinically competent to enter the workforce as an entry-level dental hygienist. The Program offers an Associate in Applied Science degree with a curriculum facilitating transition toward a Baccalaureate degree. The Program strives to address the oral health needs of a diverse community by providing quality dental hygiene care in a cost-efficient manner.

Program Overview:

Graduates of this program have acquired skills to provide care that supports optimal oral health, including educational, clinical and therapeutic services. Skills are mastered through classroom, laboratory and clinical experiences to provide well-rounded career preparation.

Work & Employment:

A career in dental hygiene offers opportunities in multiple settings. Registered Dental Hygienists are part of a dental health team. Dental hygienists work in private and corporate dental offices, where they provide treatment and services that help to prevent oral disease such as dental caries and periodontal disease and educate the client about maintenance of optimal oral health. They also work in hospitals, nursing homes, extended care facilities, schools, correctional facilities, health maintenance organizations and higher education institutions where they serve as faculty members.

Professional Credential and Program Accreditation:

Graduates are eligible to take two board exams that lead to state licensure. The program is fully accredited by the Commission on Dental Accreditation (CODA) under the auspices of the American Dental Association (ADA).

Admission to the Program:

Admission is selective and competitive. All required documents must be submitted to the Dental Hygiene Program office on or before February 15th to be reviewed for admission for the fall semester. The Dental Hygiene Program holds information sessions that cover prerequisites and other important admission information. Attendance of a session is required to receive an application packet for the program.

For details on scheduling to attend an information session, call the Dental Hygiene Program office at (815) 921-3235. Please see the RVC website (RockValleyCollege.edu/DentalHygiene) for additional Dental Hygiene Program admission policies.

Prerequisite Courses:

The following courses or equivalencies must be completed before starting this program.

1. **Mathematics requirement:** Minimum Math requirement of MTH 092-Beginning Algebra Part II with minimum grade of C or higher.
2. **Biology requirement:** BIO 281/282-Human Anatomy and Physiology I/II, or equivalent, with minimum grade of C or higher.
3. **Chemistry requirement:** CHM 110/210-General, Organic and Biochemistry I/II, or CHM 120-General Chemistry I, or equivalent Chemistry course with lab.
4. **Communications requirement:** ENG 101-Composition I, or equivalent.

PROGRAM OF STUDY - TOTAL CREDIT HOURS 81

General Education Course Requirements 27

ENG 103	Composition II	3
BIO 281	Human Anatomy and Physiology I.....	4
BIO 282	Human Anatomy and Physiology II	4
BIO 274	Microbiology.....	4
SPH 131	Fundamentals of Communication	3
PSY 170	General Psychology	3
SOC 190	Introduction to Sociology	3
Elective	Humanities / Fine Arts (IAI)	3

Dental Hygiene Course Requirements 54

TERM I, FALL 13 credits

DNT 102	Preventive Dental Hygiene	1
DNT 104	Dental Anatomy, Histology and Embryology.....	3
DNT 106	Head and Neck Anatomy.....	3
DNT 108	Pre-Clinical Dental Hygiene.....	4
DNT 110	Nutrition and BioChemistry	2

TERM II, SPRING 14 credits

DNT 112	Clinical Dental Hygiene I	2
DNT 113	Dental Hygiene Theory I.....	1
DNT 114	General and Oral Pathology	3
DNT 115	Dental Hygiene Lab I	1
DNT 116	Dental Radiology Theory.....	2
DNT 117	Dental Radiology Lab.....	1
DNT 118	Dental Pharmacology	2
DNT 120	Introduction to Periodontics I	2

TERM III, SUMMER 6 credits

DNT 210	Dental Materials Theory	2
DNT 211	Dental Materials Lab	1
DNT 212	Clinical Interim	2
DNT 213	Introduction to Dental Hygiene Research	1

TERM IV, FALL 15 credits

DNT 214	Periodontics II	2
DNT 215	Pain Management in Dental Hygiene Practice	3
DNT 216	Clinical Dental Hygiene II	4
DNT 217	Dental Hygiene Theory II	1
DNT 218	Dental Ethics, Jurisprudence & Practice Management	2
DNT 220	Community Dental Health.....	2
DNT 221	Community Dental Health Practicum	1

TERM V, SPRING 6 credits

DNT 224	Clinical Dental Hygiene III	4
DNT 225	Dental Hygiene Theory III.....	2

Cooperative community colleges are: Blackhawk Technical College, Elgin Community College, Kishwaukee College, Highland Community College, Illinois Valley Community College, McHenry County College, and Sauk Valley Community College.

A prerequisite or corequisite may be required for some courses.

Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Early Childhood Education

Early Childhood Education (ECE)

#5500

Degree Conferred: Associate in Applied Science - 65 credits

Program Contact: Early Childhood Education Chair,
(815) 921-3378
RockValleyCollege.edu/ECE

Program Overview:

Graduates of the Early Childhood Education (ECE) Program are well-versed in child development, developmentally appropriate practices, discipline techniques, and other integral facets of early childhood education. Students will be prepared to direct or teach at a day care center or preschool.

Enrollment in courses requires weekly field assignments as well as a complete medical examination, TB skin test, State background checks, and three (3) written references.

Work & Employment:

Opportunities exist in home-based care, day care centers, nursery schools, preschools, private homes, and at before or after-school programs. While the program is not preparation for state certification, courses may transfer to four-year schools, where certification can be earned to teach ages birth through third grade. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the ECE program.

Early Childhood Education

Course Requirements 41 credits

ECE 100	The Child Care Worker, or,	
ECE 200	Introduction to Early Childhood Education	3
ECE 101	The Developing Child	5
ECE 103	Nutrition and Health of the Young Child	2
ECE 104	Large Muscle Development	2
ECE 105	Developing Techniques for Working with the Young Child	3
ECE 106	Music for the Young Child	3
ECE 107	Science for the Young Child	2
ECE 108	Art for the Young Child	3
ECE 201	Language Development	3
ECE 202	Family-Community Relationships and Resources	3
ECE 113	Infant & Toddler Curriculum (3), or,	
ECE 203	Curriculum Planning for the Young Child	3
ECE 204	Internship-Child Care	4
ECE 205	Organization and Supervision of Early Childhood Facilities	3
ECE 206	Mathematics for the Young Child	2

General Education

Course Requirements 24 credits

BIO	Elective	3
ENG 101	Composition I	3
PSY 170	General Psychology	3
EDU 244	Students with Disabilities in Schools	3
PSY 270	Life-Span Developmental Psychology, or,	
SOC 190	Introduction to Sociology	3
SOC 299	Marriage and the Family, or	
EDU 202	Children's Literature	3
SPH 131	Fundamentals of Communication	3
Elective:	Select 3 credits from the following course prefixes/Divisions	3
	CIS, HUM, Social Sciences, Mathematics, or Science electives.	

CERTIFICATES:

Early Childhood Educator/5501 35 credits

ECE 100	The Child Care Worker, or,	
ECE 200	Introduction to Early Childhood Education	3
ECE 101	The Developing Child	5
ECE 103	Nutrition and Health of the Young Child	2

CAREER & TECHNICAL EDUCATION PROGRAMS

Electronic Engineering Technology

Electronic Engineering Technology (EET)

#8400

Degree Conferred: Associate in Applied Science – 66 credits

Program Contact: Division of Engineering and Technology,
(815) 921-3101
RockValleyCollege.edu/EET

Program Overview:

Graduates of the Electronic Engineering Technology (EET) Program have the necessary skills to use electronic test equipment to make measurements, understand electrical schematics and blueprints, analyze electronic circuits and understand fundamental design concepts, relate the principles of electrical circuits to hydraulic circuits and pneumatics. The graduates are ready to support manufacturing, design test equipment, produce and test products, and to assist in product development.

Work & Employment:

Successful graduates secure positions as test equipment designers, quality assurance and reliability specialists, sales and service professionals, control system technicians, medical equipment experts, or as part of a manufacturing support team.

Industry Certifications (if applicable):

Students can be prepared to take an Electronics Technicians Association, International certification examination; or the Fanuc certification.

Hands-On Learning:

Most EET classes include a hands-on laboratory component taught by instructors with industrial experience. You will learn how to use electronic test equipment like oscilloscopes, function generators, and digital multimeters.

Transfer Opportunities:

Graduates have the option to pursue a baccalaureate from Northern Illinois University and other select universities. Graduates of this Electronic Engineering and Technology degree have limited transfer options. Students are advised to contact the institution to which they plan to transfer to ensure course transfer credit availability. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the EET program.

Certificates Available:

- Electronics Certificate
- Basic Electronics Certificate

Electronic Engineering

Course Requirements 50 credits

Core Requirements 44 credits

EET 125	Electronic Fabrications Skills	2
EET 135	Digital Electronics	4
EET 141	DC/AC Circuits and Electronics I	4
EET 142	DC/AC Circuits and Electronics II	4
EET 240	DC/AC Circuits and Electronics III	4
EET 251	Microcontrollers and Interfacing	4
EET 254	Robotics and Automated Systems	3
EET 282	Capstone Project	3
EET 298	EET Seminar	3
MET 133	Graphics/SolidWorks™ CAD	3
MET 100	Introductory CAD and Print Reading	3
MET 146	Hydraulics, Pneumatics, and PLCs	3
MET 162	Applied Physics	4

Electives: Select 6 credits from the following 6 credits

EET 105	Intro to Sustainable Energy	3
EET 168	Electronic Engineering Technology Internship	1-6
EET 219	Fundamentals of Electric Motors and Controls	4
EET 239	Programmable Logic Controllers (PLCs)	3
EET 242	Sensors, Transducers, and Signal Conditioning	3
EET 245	Control Systems	3
EET 261	Advanced Microcontrollers	3
EET 275	Wireless Electronics	3
EET 285	Introduction to Digital Signal Processing	3
EET 299	Special Topics in Electronic Engineering Technology	1-6

General Education

Course Requirements 16 credits

Required General Education 9 credits

ENG 101	Composition I	3
ENG 110	Technical Writing, or,	
SPH 131	Fundamentals of Communication	3
MTH 125	Plane Trigonometry (3), or,	
MTH 132	Precalculus Mathematics (5), or,	
MTH 100	Technical Mathematics (5)	3

General Education Electives 7 credits

Science Electives (4):

Select 4 credits from the following list of courses 4 credits

PHY 201	Mechanics and Heat	4
CHM 105	Chemistry and Society	4
CHM 120	General Chemistry I	4
BIO 103	Introductory Life Science (3), and,	
BIO 104	Introductory Life Science Laboratory (1)	4
BIO 106	Environmental Science (3), and,	
BIO 107	Environmental Science Lab (1)	4

Liberal Arts Elective (3):

Select 3 credits from the following General Education Core Curriculum (GECC)/IAI approved areas 3 credits

(Example: ART, ECO, ENG, HUM, LIT, MUS, PHL, SOC, etc., see GECC list on page 34.)

CAREER & TECHNICAL EDUCATION PROGRAMS

Electronic Engineering Technology (continued)

CERTIFICATES:

Electronics Certificate EET/8401 50 credits

EET 125	Electronic Fabrication Skills	2
EET 135	Digital Electronics	4
EET 141	DC/AC Circuits and Electronics I	4
EET 142	DC/AC Circuits and Electronics II	4

EET 142	DC/AC Circuits and Electronics II	4
MET 111	CNC Machining	3
MET 100	Introductory CAD and Print Reading	3
MET 146	Hydraulics, Pneumatics, and PLCs	3
MET 162	Applied Physics	4

A prerequisite or corequisite may be required for some courses.
Refer to the course descriptions section in this catalog for more information.

Second A.A.S. Degree Requirements for either the EET or SES A.A.S Degrees (15 credits):

The course requirements for the Electronic Engineering Technology and the Sustainable Energy Science degree programs are very similar. Therefore, obtaining a second degree is an exciting option for many graduates. Specifically, a graduate of the EET program may desire to obtain a second degree in SES.

Fundamentally, a minimum of 15 additional credits must be taken.

A graduate of the EET program (8400) who desires to also receive an SES program degree (8600) must take:

EET 105	Introduction to Sustainable Energy Concepts (could have been used as an EET elective previously)	3
CHM 105	Chemistry and Society, or,	
CHM 120	General Chemistry I (could have been used as an EET elective previously)	4
EET 107	Introduction to Codes and Standards	3
EET 168	Electronic Engineering Technology Internship	2
EET 190	Sustainable Electrical Energy Generation	3
EET 277	Geothermal, Solar Heating & Lighting	3

(This means an EET graduate must take between 15 to 18 additional credits to receive a second degree in SES.)

A graduate of the SES program (8600) who desires to also receive an EET program degree (8400) must take:

EET 125	Electronic Fabrications Skills	2
MET 111	CNC Machine Setup / Operation / Programming	3
MET 146	Hydraulics, Pneumatics and PLCs	3
EET 254	Robotics & Automated Systems	3
EET	Elective	4

(This means an SES graduate must take 15 additional credits to receive a second degree in EET.)

Students are advised to contact the Division of Engineering and Technology, (815) 921-3101 for more information about obtaining a second degree in this field.

A prerequisite or corequisite may be required for some courses.
Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Fire Science

Fire Science (FRE)

#7500

Degree Conferred: Associate in Applied Science – 64 credits

Limited Transferability

Program Contact: Division of Allied Health (815) 921-3200
or program coordinator (815) 921-3256
RockValleyCollege.edu/Fire Science

Program Overview:

Graduates of Rock Valley College's Fire Science program are prepared to enter a career in the fire service or expand their current fire service profession options. Students will gain knowledge in a wide variety of subjects including Fire Suppression, Building Construction, Rescue Practices, Hazardous Materials, Fire Prevention, Emergency Medical Services, and Fire Service Management. The Fire Science Program at RVC offers two learning opportunities for students:

- **Non-Internship Sequence Option A:** Intended for firefighters who wish to expand their knowledge base and enhance current skills for personal growth and/or advancement while earning a degree.
- **Internship Sequence Option B:** Aimed at college students with no previous firefighting experience. This option prepares students for an entry level position on a fire department; instruction includes classroom lecture, practical firefighter training, and an internship with an area fire department.

Work & Employment:

Graduates have secured positions in; firefighting, fire protection and prevention, fire service instruction, dispatch/communications, fire equipment and manufacturing sales, emergency medical services, and volunteer fire protection. With additional training, graduates may enter into a variety of fire service specialty fields such as fire inspection and fire investigation.

More about the Program:

Illinois currently allows for educational points for those applicants who possess an A.A.S. degree in Fire Science. While most fire departments follow standard hiring practices, each fire department may have specific requirements and/or practices. Interested students should consult with the Fire Service Coordinator or an Academic Advisor.

Transfer Opportunities:

Graduates of this program may transfer to Northern Illinois University's (NIU's) College of Health & Human Services to pursue the Bachelor of General Studies (B.G.S.). Students are advised to contact the NIU's College of Health and Human Services at (815) 753-1891 for further information.

Certificates Available:

- Basic Operations Firefighter
- Foundation of the Fire Service
- Fire Officer I
- Fire Officer II
- Emergency Medical Technician

Fire Science Core Requirements 18 credit hours

All students, regardless of whether they are going to follow **Sequence A** or **Sequence B** must meet these core course requirements for the degree.

FRE 101	Introduction to Fire Protection	3
FRE 102	Fire Apparatus Engineer	3
FRE 103	Hazardous Materials Operations	3
FRE 118	Building Construction for Fire Protection	3
FRE 206	Management I	3
FRE 208	Fire Prevention Principles	3

Sequence A: Non-Internship Option

Intended for fire service personnel

FRE 207	Management II	3
FRE 216	Tactics and Strategy I	3
FRE 218	Instructor I	3

Electives: 12 credit hours of Fire Science

Sequence B: Internship Option

Intended for traditional college students

FRE 180	Essentials of Firefighting I	3
FRE 181	Essentials of Firefighting II	3
FRE 182	Essentials of Firefighting III	3
FRE 240	Fire Protection Internship	3

Electives: 9 credit hours of Fire Science

Fire Science Electives

FRE 106	Rescue Practices	3
FRE 112	Vehicle/Machinery Rescue Operations	3
FRE 210	Fire Investigation	3
FRE 217	Tactics and Strategy II	3
FRE 219	Instructor II	3
FRE 220	Management III	3
FRE 223	Emergency Medical Technician	9
FRE 225	Management IV	3

CAREER & TECHNICAL EDUCATION PROGRAMS

Fitness, Wellness, & Sport

Fitness, Wellness, & Sport (FWS) #9000

Degree Conferred: Associate in Applied Science - 64 credits

Program Contact: Division of Social Sciences / Humanities /
and Fitness, Wellness, and Sport,
(815) 921-3317
RockValleyCollege.edu/FWS

The Fitness, Wellness, and Sport (FWS) degree in Exercise Science or Sport Management provides students with the educational and practical experiences needed to obtain employment in sport, recreation, exercise, or fitness organizations. All students learn about the psychological, sociological and historical aspects of sport and exercise. Students interested in the Exercise Science option complete coursework focusing on the scientific aspects of human performance. Students interested in the Sport Management option complete coursework focusing on the business, marketing, promotions, programming and facilities aspects of sport and exercise. The A.A.S. degree in FWS can be completed in as little as two years.

Work & Employment:

Students who pursue a degree in FWS will have the necessary knowledge and skills to obtain an entry-level position in sport, recreation, exercise, or fitness organizations. Exercise Science students may seek employment as personal fitness trainers, sports performance trainers, group exercise instructors, or fitness technicians. Sport Management students may seek employment in sport or recreation management, programming, facilities, marketing, sales or maintenance.

Transfer Opportunities:

Graduates of the program have the option to transfer their degree to various universities to pursue a bachelor degree in Kinesiology, Exercise/Sport Science, Sport Management, or other related fields in order to enhance their earnings potential. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the FWS program.

Practicum Experiences:

Students who pursue a degree in FWS will have the opportunity to complete a variety of job shadowing experiences with any of the following professional agencies - Rockford Riverhawks, Rockford Icehogs, Rockford Convention & Visitors Bureau, Rockford Park District, Rockford Boys & Girls Club, YMCA of Rock River Valley, and NorthPointe Wellness.

Certificates also Available:

The FWS certificates in Personal Training and Coaching Education provide students with the educational and practical experiences needed to prepare for certification as qualified personal trainers or athletic coaches. In many cases, either of these certifications may be required by an employer. Most of the courses required for the certificates also apply toward the FWS degree options, giving students several options to meet their educational and career goals. Each 24-credit hour certificate can be completed in as little as three consecutive semesters.

The Personal Training Certificate prepares students to successfully complete the National Strength & Conditioning Association's Certified Personal Trainer (NSCA-CPT) exam or other national personal training certifications. The RVC Personal Training certificate program is an approved NSCA-CPT Education Recognition Program, which provides students with discounted certification exam fees. Students will complete an internship training RVC employees under the direct supervision of FWS staff. Personal Training Certificate students may seek employment as a personal trainer in private health clubs, public fitness centers, college/university fitness centers or personal fitness studios.

The Coaching Education Certificate helps students obtain the American Sport Education Program's (ASEP) coaching certification. The ASEP coaching certification is required by the Illinois High School Association (IHSA) for high school varsity coaches who are not certified teachers. The RVC Coaching Education certificate program is an approved IHSA coaching education classroom certification program. Students will complete an internship with the athletic department of one of the following local organizations - Rockford School District 205, Harlem High School, Belvidere and Belvidere North High Schools, Rockford Boys & Girls Clubs, or an approved program of the student's choice. Coaching Education Certificate students may seek employment as an assistant or head coach at all levels between youth sports and high school varsity sports.

How to apply to the Program:

Apply online at RockValleyCollege.edu/FWS or contact the FWS department at (815) 921-3804, for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Fluid Power Technology

Fluid Power Technology (FLD)

#7611

Certificate: 3 credits

Program Contact: Division of Technical Programs,
(815) 921-3000
RockValleyCollege.edu/FluidPower

Program Overview:

Graduates of this three-credit certificate program are prepared in the basic areas of hydraulics and pneumatics technology. Fluid power technicians are adept in the operation, maintenance, repair, and testing of fluid power equipment or components in factory settings.

Work & Employment:

Fluid Power opportunities exist in industry as well as in agriculture, aerospace, biomedical, and construction trades.

Fluid Power Certificate Requirements 3 credits
FLD 100 Introduction to Fluid Power 3

*A prerequisite or corequisite may be required for some courses.

CAREER & TECHNICAL EDUCATION PROGRAMS

Graphic Arts Technology (GAT) Career Programs

Degree Conferred: Associate in Applied Science - 67 credits

Program Contact: Division of Technical Programs,
(815) 921-3000
RockValleyCollege.edu/GAT

Program Overview:

Students in the program are prepared for a variety of jobs in the printing and publishing industry and related fields of graphic arts. The graphic arts industry is a major employer in Illinois and according to the Printing Industry of Illinois/Indiana, in the metro Chicago area. The Graphic Arts Technology Program focuses on developing students with a well-rounded education encompassing both the creative and technical aspects of the industry with a focus on the digital production techniques that are changing the world of media delivery.

OPTION A:

Graphic Arts Technology #8200

Degree Conferred: Associate in Applied Science - 67 credits

Program Contact: Division of Technical Programs,
(815) 921-3000
RockValleyCollege.edu/GAT

Program Overview:

Practical learning experiences are offered in areas of design, layout and typography, production processes, variable data manipulation, estimating, and screen printing. Students gain in-depth experience working with text and images, page layout, specifying paper and ink selection, process color and Pantone spot colors, job estimating and business practices, and offset press operation, as well as binding and finishing choices.

Work & Employment:

Program graduates secure jobs in desktop publishing, electronic imaging, press operations, sales and customer service. Skills taught can also be useful for professionals in marketing, and in-house communication. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the GAT program.

Graphic Arts Technology

Core Requirements	28 credits
GAT 101 Introduction to Graphic Arts	4
GAT 110 Introduction to Photoshop	2
GAT 115 Introduction to Illustrator	2
GAT 178 Fundamentals of Desktop Publishing	3
GAT 190 Image Generation and Output	2
GAT 215 Advanced Illustrator	2
GAT 220 Advanced Photoshop	3
GAT 241 Intermediate Desktop Publishing	4
GAT 242 Advanced Desktop Publishing	3
GAT 255 Color System Management	3

General Education

Course Requirements	16 credits
ENG 101 Composition I	3

CAREER & TECHNICAL EDUCATION PROGRAMS

GAT Career Programs (continued)

OPTION B:

Graphic Design

#8225

Degree Conferred: Associate in Applied Science - 67 credits

Program Contact: Division of Technical Programs,
(815) 921-3000
RockValleyCollege.edu/GAT

Program Overview:

In the Graphic Design Program, you will study the concepts of drawing and design, typography, color theory, print processes, digital photography, illustration, page layout, marketing and advertising. In addition, you will learn to work within budget and time constraints, prepare electronic files for printing, choose appropriate printing and paper supplies, interpret and evaluate criticism of design and present a creative rationale to a client.

Work & Employment:

The Graphic Design Program prepares students for entry-level positions such as graphic designer, graphic artist or production artist. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the GAT program.

Graphic Design

Core Requirements	28 credits
GAT 101 Introduction to Graphic Arts	4
GAT 110 Introduction to Photoshop	2
GAT 115 Introduction to Illustrator	2

Cross Media Production

#8250

Degree Conferred: Associate in Applied Science - 67 credits

Program Contact: Division of Technical Programs,
(815) 921-3000
RockValleyCollege.edu/GAT

Program Overview:

The current trend in printing and publishing companies across the nation is to integrate the use of the one-dimensional medium of print with other multi-dimensional forms of communication. The Cross Media Production course of study involves not only developing graphics and publishing pieces, but also web and television design.

Work & Employment:

The Cross Media Production Program of study prepares students for entry-level jobs creating print, marketing, web, and special effects images for printing, marketing and film companies. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the GAT program.

Cross Media Production

Core Requirements	28 credits

CAREER & TECHNICAL EDUCATION PROGRAMS

Manufacturing Engineering Technology

Manufacturing Engineering Technology (MET)

#8800

Degree Conferred: Associate in Applied Science - 65 credits

Program Contact: Division of Engineering and Technology,
(815) 921-3101
RockValleyCollege.edu/MET

Program Overview:

Today's manufacturing is impacted by global competition forcing the need to accelerate product design and development. Graduates of this program are prepared for interdisciplinary careers in high-tech manufacturing and industrial technology. The areas of emphasis are modern design methods, production, and continuous improvement techniques.

Work & Employment:

In addition to the areas of product design, 3-D CAD modeling, process planning, production scheduling, quality technician, and CNC programming and operation, a graduate of this degree may assume responsibilities in automated production, technical sales, and problem solving in many other areas of today's dynamic world of manufacturing.

Important Information:

Graduates of this program are qualified and encouraged to pursue the Society of Manufacturing Engineers (SME) Certified Manufacturing Technologist (CMfgT) certification.

Transfer Opportunities:

Graduates may transfer with articulated credit to select universities. Students are advised to contact the institution to which they plan to transfer to ensure course transfer credit availability. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the MET program.

Manufacturing Engineering Technology

Core Course Requirements 44 credits

MET 110	Manufacturing Processes I	3
MET 111	CNC Machine Setup / Operation / Programming	3
MET 243	Continuous Improvement in Manufacturing	3
MET 100	Introductory CAD and Print Reading	3
MET 105	Materials and Processes	3
MET 133	Graphics / SolidWorks CAD I	3
MET 146	Hydraulics, Pneumatics, and PLCs	3
MET 162	Applied Physics	4
MET 217	Statics	3
MET 218	Strength of Materials	3
EET 141	DC/AC Circuits & Electronics I	4
EET 254	Robotics and Automated Systems	3
MET 106	Metrology	3
MET 249	Manufacturing Capstone Project	3

Students must select one of the two following areas of emphasis 6 credits

1. Mechanical Design

MET 220	Mechanisms	3
MET 221	Machine Design	3

- OR -

2. Automated Production

MET 226	CNC / CAM Operations I	3
MET 247	Manufacturing Methods, Process Planning and Systems	3

Course Requirements 15 credits

ENG 101	Composition I	3
ENG 103	Composition II, or,	
ENG 110	Introductory Technical Writing	3
MTH 100	Technical Mathematics (5), or,	
MTH 125	Plane Trigonometry (3), or,	
MTH 132	Pre-calculus Mathematics (5)	3
MTH XXX	Mathematics Elective	3
SPH 131	Fundamentals of Communication	3

CERTIFICATES:

CAD #8810 15 credits

MET 110	Manufacturing Processes I	3
MET 100	Introductory CAD and Print Reading	3
MET 108	Computer Drafting using AutoCAD	3
MET 133	Graphics / SolidWorks CAD I	3
MET 233	Graphics / SolidWorks CAD II, or,	
MET 118	Intermediate AutoCAD - Production Drafting	3

CNC #8820 21 credits

MET 106	Metrology	3
MET 110	Manufacturing Processes I	3
MET 111	CNC Machine Setup/Operation/Programming	3
MET 100	Introductory CAD and Print Reading	3
MET 133	Graphics / SolidWorks CAD I	3
MET 226	CNC / CAM Operations I	3
MET 240	CNC / CAM Operations II	3

Basic Quality #8830 18 credits

MET 110	Manufacturing Processes I	3
MET 100	Introductory CAD and Print Reading	3
MET 102	Methods of Statistical Process Control (SPC)	3
MET 106	Metrology	3
MET 243	Continuous Improvement in Manufacturing	3
MET 237	Design of Experiments (4), or,	
MTH 220	Elements of Statistics (3)	3

Certified Manufacturing Associate #8840 12 credits

MET 110	Manufacturing Processes I	3
MET 100	Introductory CAD and Print Reading	3
MET 106	Metrology	3
MET 111	CNC Machine Setup/Operations/Programming	3

A prerequisite or corequisite may be required for some courses.

Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Mass Communication Career Program

Media Production Specialist (COM)

#3950

Certificate: 31 credits

Program Contact: Division of Mass Communication,
(815) 921-3360
RockValleyCollege.edu/MassCom

Program Overview:

Graduates of this 31-credit Certificate Program are prepared to produce a wide range of media projects including multi-format television programs, commercials, public service announcements, short films, and high-quality audio products.

Work & Employment:

Certificate graduates can secure jobs such as a Cinematographer, Director, Producer, Editor, Sound Engineer, Videographer, and a variety of other crew positions.

Transfer Opportunities:

Most of the courses in this certificate program have IAI transfer codes which will aid the student if they decide to pursue an Associate of Arts (A.A.) degree or a four-year degree. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the Media Production Specialist certificate program.

Media Production**Certificate Requirements 31 Credits**

COM 130	Introduction to Mass Communication	3
COM 140	Writing for Multi-Media	3
COM 156	Audio Production I	3
COM 157	Video Production I	3
COM 251	Film History and Appreciation	3
COM 252	International History of Film	3
COM 256	Advanced Audio Production	3
COM 257	Advanced Video Production	3
COM 260	Advanced Post Production	3
COM 296	Documentary Video Production, or,	
COM 297	Motion Picture Production	3
COM 298	Mass Communication Internship	1

A prerequisite or corequisite may be required for some courses.

Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Nursing Programs

***See updated information in the Catalog Addendum.

Nursing / A.A.S. Degree (ADN) #5400

Degree Conferred: Associate in Applied Science - 70 Credits

ADN Program Length: 4 semesters core nursing

Limited Transfer & Limited Enrollment

Nursing Program Contact: (815) 921-3261
RockValleyCollege.edu/Nursing

Program Overview:

The Associate Degree Nursing (ADN) Program prepares graduates to work as entry-level registered professional nurses in a variety of health care settings, including acute care facilities, long-term care and many specialty related health care facilities. According to the standards of the Illinois Nurse Practice Act, classes, labs and clinical experiences are integrated into the program. Supervision by credentialed nursing faculty allows students to develop and practice safe, competent entry level nursing skills. The professional registered nurse program is highly competitive. It is recommended that as many general education credits as possible are completed before beginning the nursing curriculum. Meeting minimum criteria for admission does not guarantee acceptance into the program. The Nursing Program reserves the right to make final decisions based upon the qualifications of the applicant pool for each admission cycle.

Information:

Prospective nursing students are required to attend a Nursing Information Session. Contact the Nursing Program Office for dates and times.

Advisement:

Meet with an academic advisor to develop an academic plan.

Application:

- ADN application due before March 15th (fall admission) and due before August 1st (spring admission).
- Transfer College applicants should submit all college transcripts at time of RVC enrollment to the RVC Records Office with intent to apply to the Nursing Program.

Pre-Admission Tests:

- TEAS Test: Notification by letter of eligibility to test
- Study resources can be assessed at: ATITesting.com.

Admission criteria (in-district applicants are qualified):

Minimum overall prerequisite GPA of 2.75:

- BIO 185 or BIO 281/282 (within the past five years)
- BIO 274 (within the past five years)
- CHM 110
- PSY 170

ADN/Bridge: Proficient or higher ATI TEAS score

Background Check:

Current Certified Nursing Assistant/Healthcare Worker Registry with NO disqualifying convictions (Illinois Department of Public Health) or current LPN license.

Essential Abilities:

RVC Student Nurse Handbook (most recent edition).

Licensure:

Subject to Illinois Nurse Practice Act regarding professional conduct -

- Program courses completed with a minimum grade of "C" 80% or better
- Completion of state application
- Criminal background check subject to Illinois Board of Nursing
- Eligible to take the NCLEX-RN examination

Fees:

Physical exam, titers/immunizations, Mantoux test, uniform, licensure application, fingerprint background check and NCLEX-RN subject to change.

Clinical:

Experiences require travel to facilities in the college region.

Program Standards:

All nursing courses, require a "C" to pass. Students who do not earn a "C" or better will remediate by course repetition. No more than one NRS course may be repeated.

Transfer Opportunities:

Graduates of this Nursing degree have transfer options. Students are advised to contact the institution to which they plan to transfer to ensure course transfer credit availability. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the Nursing program.

Associate Degree Nursing Core Courses 46 credits

Nursing Programs (continued)

LPN Bridge Program

Purpose:	The LPN Bridge program is for LPN's to pursue the A.A.S. in Nursing
Program Length:	3 semesters
Application Deadline:	October 15 (for spring admission)
Nursing Program Contact:	(815) 921-3261
For More Information:	RockValleyCollege.edu/Courses/Programs/Nursing/LPN.cfm

Program Overview:

The LPN Bridge program is an articulation between the knowledge and skills that a Licensed Practical Nurse has acquired and the scope of practice of the Registered Nurse. This Program is for LPN's who are self-starters with excellent learning skills and current clinical knowledge. Eligibility is based upon prior satisfactory completion of a recognized Practical Nursing Program within the past five years or current nursing practice for those who graduated more than five years ago. **ADN program requirements must be met to qualify for admission.** The Nursing Program reserves the

right to make final admission decisions based upon the qualifications of the applicant pool for each admission cycle. It is recommended that as many general education credits as possible are completed before beginning the nursing curriculum. LPN's who meet admission criteria and successfully complete the LPN Bridge courses will be eligible to continue in the ADN Program. After the Bridge semester the student completes the second year nursing courses over the next two semesters. LPN's receive credit for nursing courses (additional nursing credits) from the ADN Program after satisfactory completion of NRS 223 or NRS 228 with a minimum "C" 80% grade.

Requirements LPN Bridge to ADN Program

BIO 185	Foundations of Anatomy and Physiology	5
(or 8 credits BIO 281/282)*		
PSY 170	General Psychology*	3
BIO 274	Microbiology*	4
ENG 101	Composition I*	3
FWS 237	Nutrition for Optimum Living*	3

Bridge Semester Level II

NRS 108	Pathophysiology - Altered Health Concepts	3
NRS 207	Pharmacology for Nursing Care	2
NRS 210	Transition to ADN Nursing	3

*Indicates required general education courses.

****After May 1, 2015, the Practical Nursing Certificate (LPN) Program #5404 (below) will no longer accept applications. The LPN program is being discontinued with the 2015-2016 students being the final graduates.**

Practical Nursing Certificate (LPN)** #5404

Certificate:	41 credits
Program Length:	3 semesters
Limited Transfer & Limited Enrollment	
Nursing Program Contact:	(815) 921-3261 RockValleyCollege.edu/LPN

Program Overview:

The Practical Nursing (LPN) Certificate Program prepares graduates to work as entry-level practical nurses in a variety of health care settings, including long-term care and other community health facilities. Classes, labs, and clinical experiences are integrated into the program. Supervision by credentialed nursing faculty allows students to develop and practice safe, competent entry level nursing skills. The Practical Nursing Program is competitive. Meeting minimum criteria for admission does not guarantee acceptance into the program. The Nursing Program reserves the right to make final decisions based upon the qualifications of the applicant pool each year.

Information/ Advisement:

Prospective nursing students are required to attend a Nursing Information Session. Contact the Nursing Program Office for dates and times. Meeting with an academic advisor to develop an academic plan is recommended.

Application:

The PN application is due before May 1st for fall admission.

Pre-Admission Test:

The TEAS Test is required; notification of eligibility to test will be by letter. Study resources available at: ATltesting.com.

Admission Criteria (in-district applicants are qualified):

Minimum overall prerequisite GPA of 2.75:

- BIO 185 or BIO 281/282 and BIO 274 (within the past five years)
- CHM 110
- PSY 170

Background Check:

Current Certified Nursing Assistant/ Healthcare Worker Registry with NO disqualifying convictions (Illinois Department of Public Health)

Essential Abilities: RVC Student Nurse Handbook (most recent edition)

Licensure:

Subject to Illinois Nurse Practice Act regarding professional conduct

- Program courses completed with a minimum grade of "C" 80% or better
- Completion of state application
- Criminal background check subject to Illinois Board of Nursing
- Eligible to take the NCLEX-PN examination

Fees:

Physical exam, titers/immunizations, Mantoux test, uniform, licensure application, fingerprint background check, and NCLEX-PN subject to change.

Clinical:

Experiences require travel to facilities in region.

Program Standards:

All practical nursing courses, both theory and clinical, require a "C" to pass. Students who do not earn a "C" or better will remediate by course repetition. No more than one PNU course may be repeated.

Requirements for LPN Program	5
BIO 185 Foundations of Anatomy and Physiology	5

Practical Nursing Core Requirements	27 credits
--	-------------------

First Semester - Fall

PNU 103	Practical Nursing: Fundamentals	7
PNU 107	Basic Principles of Pharmacology for Nursing	1

Second Semester - Spring

PNU 120	Nursing Throughout the Lifespan: Mental Health	1
PNU 140	Nursing Throughout the Lifespan: Conception Through Adolescence	6
PNU 160	Nursing Throughout the Lifespan: Young Adult Through Middle Adult	6

Third Semester - Summer

PNU 201	Nursing Throughout the Lifespan: Geriatric	6
---------	--	---

General Education

CAREER & TECHNICAL EDUCATION PROGRAMS

Nursing Programs (continued)

Nursing Aide Certificate (CNA)

#5411

Certificate: 7 credits**Program Length:** 8 weeks or one semester**Limited Transfer & Limited Enrollment****Nursing Program Contact:** (815) 921-3264
RockValleyCollege.edu/CNA**Program Overview:**

The Nursing Aide Certificate Program prepares students to enter the health care workforce and a pathway to allied health and nursing careers. A flexible program of schedule options includes morning, afternoon, or evening sessions. Mandatory health requirements must be met. Students who complete the program with a grade of "C" or better are eligible for the Nurse Aide Training Competency Evaluation. The program has a mandatory requirement of 80 hours of theory in the classroom and 40 hours of clinical experience in a long-term care facility. Classroom, skill labs, and clinical attendance are required. This course is a prerequisite for both the Practical Nursing Certificate and the A.A.S. Degree in Nursing.

Policies/Procedures:

Students applying to health professions programs must provide a valid social security number in order to be screened for placement on the Illinois Health Care Worker Background Check Registry. Students must be listed on this registry in order to be eligible to complete required clinical training. Students who fail to demonstrate a positive background check will be denied admission to any health professions program. A valid social security number is also needed to apply for licensing/certification exams.

Placement Testing: RockValleyCollege.edu/PlacementTest**Educational Planning Session (EPS):** RockValleyCollege.edu/EPS**Background Check:**

Students will complete a criminal background check upon registering for the program. The Illinois Health Care Worker Background Check Registry process requires a valid social security number, fingerprint, and photo ID in order to be eligible to complete required clinical placement. It is possible that a student's criminal background will prevent participation in the program.

Essential Abilities:

RVC Student Nurse Assistant Handbook most recent edition.

Certification:

Pass standardized state exam and skill validations.

Fees:

Physical exam, Mantoux test, uniform and state exam fees subject to change, and fingerprinting fee.

Clinical:

Experiences require travel to facilities in the college region.

Nursing Aide Course Requirement

NAD 101 Nursing Aide 7 credits

**DID SOMEONE CALL A NURSE?**

RVC's first nursing class of students, who began their journey when the program started in 1967, graduated in the spring of 1969. 18 students received their Associate in Science degree at the 1969 commencement ceremony. The Nursing Program remains a strong and vital program at RVC with hundreds of students graduating from the program throughout its history.

ROCK VALLEY COLLEGE

Join us in the Rock Valley College year-long 50th Anniversary celebration - check out "50th Fridays" on the RVC blog: RVCInsider.com and use **#RVC50** to share your memories and photos with us on social media all year long.

CAREER & TECHNICAL EDUCATION PROGRAMS

Office Professional

Office Professional (OFF)

#2600

The Office Professional Program prepares students for work in office environments where knowledge of office procedures, software/hardware, administrative, and interpersonal skills are required to perform duties.

Graduates of this program exhibit strong communication, interpersonal skills; they are flexible and professional. In addition they possess excellent keyboarding, document formatting skills, and advanced software application skills. Graduates completing this program may be expected to supervise clerical staff.

Degree Conferred: Associate in Applied Science - 65 credits

Program Contact: Division of Business/
Computers & Information Systems,
(815) 921-3101
RockValleyCollege.edu/OfficePro

Program Overview:

The Office Professional Program allows students to focus on one of four areas of office administration: General office, medical office, legal office, or office software application professionals. Under the guidance of the Dean of Business/CIS or Academic Chair, students will be able to tailor a program that meets their unique needs. Students can also meet with an Academic Advisor to develop an academic plan.

General Office Professional:

The efficiency of any organization depends in part upon office professionals who are at the center of communications within the business. They process and transmit information to the staff and other organizations. Graduates of this Program will learn a wide range of skills using the latest computer technology.

Medical Office Professional:

Graduates of this Program are prepared for jobs in an insurance or healthcare office. Job responsibilities vary, and may include appointment scheduling, medical and general document preparation, meeting and event planning, handling receivables, and transcription.

Legal Office Professional:

Graduates of this Program typically perform administrative work in law firms. Areas in which they could become involved include bankruptcy, business and corporate litigation, criminal, divorce, and family law, wills, trusts, and estates, government law, trademarks and copyright law, personal injury and property damage, probate, real estate, and workers' compensation.

Work & Employment:

Graduates from the Program find jobs as administrative assistants, administrative secretaries, and office assistants in a variety of office settings.

CAREER & TECHNICAL EDUCATION PROGRAMS

***See updated information in the Catalog Addendum.

Phlebotomy Technician

**[New program beginning
2015-2016]**

Phlebotomy Technician (ICCB approval pending)

#5605

Certificate:	11 credits
Program Length:	Two semesters - 16 weeks & 8 weeks
Phlebotomy Program Contact:	(815) 921-3208 RockValleyCollege.edu/Phlebotomy

Program Overview:

The phlebotomist is an integral part of the healthcare team. This professional will obtain blood specimens in a prompt and efficient manner. This individual must be proficiently trained to maintain high standards to ensure quality and safety in all aspects of specimen collection.

The Phlebotomy Technician Program involves teaching of techniques for the purpose of obtaining blood samples by venipuncture and dermal capillary procedures. Medical and Laboratory terminology, anatomy of the circulatory systems, interpersonal communication, laboratory safety, legal guidelines and professional skills will be covered. Upon successful completion of the two portions of this 24-week program, the student will have entry-level employment skills and meet all requirements to qualify for the American Society for Clinical Pathology (ASCP) examination.

The first portion of this Program will consist of 16 weeks of classroom lecture and lab skill demonstration. The second portion of this program will consist of eight weeks where the student will be assigned 120 hours at a medical practicum site to obtain practical experience and record 100 venipunctures and dermal punctures to meet the competency requirements.

Work & Employment:

This program prepares students for a career in Health Science Fields. The program is also beneficial for Nursing students, Certified Nursing Assistants, and Medical Assistants.

Upon successful completion of the program, the student will have the qualifications to work as an entry-level phlebotomist in a medical office, drawing center, or hospital setting.

Program Requirements:

- Students must achieve a minimum passing grade of "C" (2.0) in both lecture and laboratory portions of the Phlebotomy Technician (PLB 101) and Medical Terminology (HLT 110) in order to qualify for the clinical portion of this program.
- Diploma - a graduate of a recognized or accredited secondary school at the time of enrollment or has completed the G.E.D as required by the Commission on Accreditation of Allied Health Education Programs (CAAHEP).
- Must be 18 years of age or older prior to being assigned to a clinical rotation.
- Current CPR Certification
- Physical exam (12 months), Proof of current vaccines, active titers, and negative two-step TB test results (forms in *RVC Student Phlebotomy Handbook*). Needed for admission to the program.
- Criminal Background and Drug Test: to be completed on Admission.
- Students must score at college-level reading or completed RDG 099 with a C or higher to begin program. Completion of one of the following Reading Tests: College Assessment Test or ACT Exam.
- Currently enrolled in or have completed HLT 110 with a passing grade of "C" or better.
- Students are responsible for transportation to and from clinical affiliates.
- Students are responsible for securing their own NAVY BLUE medical scrub uniform and RVC Phlebotomy program patch according to program requirements for clinical rotations.
- Proof of liability insurance and medical insurance coverage.
- Completed and signed agreement forms (*RVC Student Phlebotomy Handbook*) prior to clinical rotation assignment.

Phlebotomy Course Requirements:

HLT 110	Medical Terminology	2 credits
PLB 101	Phlebotomy	5 credits
PLB 102	Phlebotomy - Clinical	4 credits

CAREER & TECHNICAL EDUCATION PROGRAMS

Respiratory Care Program

Respiratory Care Program (RSP)

#5200

Degree Conferred: Associate in Applied Science - 71 credits

Limited Transferability

Program Contact: Division of Allied Health,
(815) 921-3200, or,
Program Chair,
(815) 921-3220
RockValleyCollege.edu/RespiratoryCare

Program Overview:

Respiratory Care is an allied health profession that focuses on the care of patients with cardiopulmonary (heart and lung) problems. The graduates of the Rock Valley College program are prepared to work locally and nationally. As highly skilled and knowledgeable Registered Respiratory Therapists (RRT), they are vital parts of the health care team. RRT's actively work to deliver direct patient care with physicians, nurses, and other allied health professionals. This includes patient assessment to help guide the treatment, care, education, and rehabilitation of the patient. RRT's also provide therapeutic treatment and diagnostic (test) measurement of the cardio-pulmonary system. RRT's are trained to blend human relations skills with technical and scientific knowledge in order to give the best direct patient care possible. Skills are mastered through classroom, laboratory, and clinical experiences.

Work & Employment:

Graduates of the program generally work in hospitals, assuming staff respiratory therapist positions or specializing in critical care or diagnostic areas. Other opportunities exist in the home care settings or through advancement into management or educational positions and rehab. A video titled "Life and Breath" can be viewed at: AARC.org/Career.

Transfer Opportunities:

Graduates of this program may transfer to Northern Illinois University's (NIU's) College of Health & Human Services to pursue the Bachelor of General Studies (B.G.S.). Students are advised to contact the NIU's College of Health and Human Services at (815) 753-1891 for further information.

Professional Credential & Program Accreditation:

Graduates of the program are eligible to sit for the credential of Registered Respiratory Therapist (RRT).

- This national exam is administered through the National Board for Respiratory Care (NBRC) at: NBRC.org.
- The program has continuing accreditation from the Commission on Accreditation of Respiratory Care (Co-ARC) at: CoARC.com.
- The professional organization for Respiratory Therapists is the American Association for Respiratory Care (AARC) at: AARC.org.
- The program belongs to a chapter of The Lambda Beta Society, a National Honor Society for the Profession of Respiratory Care.

Admission Policies:

To be considered for admission the applicant must:

1. Meet all college admission requirements.
2. Be a high school graduate or have completed the GED.
3. Chemistry requirement: One semester of college-level chemistry (with a lab). At RVC, it would be CHM 105 or CHM 110 (recommended) or higher level.
4. BIO 185 - Anatomy and Physiology with minimum grade of "C". BIO 185 requires BIO 100 or BIO 103 and CHM 105 or CHM 110, with minimum grades of "C", and must be taken within the last five years. (Other colleges' Biology course prerequisites may be different than RVC.) **Note:** BIO 281 - Human Anatomy and Physiology I and BIO 282 - Human Anatomy and Physiology II may be substituted for BIO 185. Both BIO 281 and BIO 282 must be completed.
5. HLT 110 - Medical Terminology with a minimum grade of "C".
6. Math requirement: Minimum Math requirement for the Respiratory Care program is MTH 092 - Beginning Algebra, at the college level. To meet biology and chemistry's prerequisites at RVC, MTH 094 or higher level math with a minimum grade of "C" is required. (Other colleges' Math course prerequisites may be different than RVC.)
7. Grade Point Average: A minimum GPA of 2.0 (on a 4.0 scale) is required of all college course work completed for college credit.

Admission Procedure:

Admission is selective and competitive. All required documents must be submitted to the Respiratory Care Program Office on or before January 20th to be reviewed for admission for the fall term. The Respiratory Care Program holds information sessions that cover prerequisites and other important admission information. Attendance of a session is required to receive an application packet for the program. For details on scheduling to attend an information session, call the Respiratory Care Program office at (815) 921-3200.

Criminal Background Check & Drug Testing:

Students will undergo a criminal background check and drug testing upon admission to the program. It is possible that a student's criminal background and/or a positive drug test will prevent participation in hospital clinical practice and program completion.

Standard for Progression in the Program:

Students are required to earn at least a minimum grade of "C" in each course in the Respiratory Care Program of study. Failure to do so will prevent a student from taking later courses in the program and from graduating.

CAREER & TECHNICAL EDUCATION PROGRAMS

Surgical Technology Certificate

Surgical Technology Program (SRG)

#5405

Certificate: 40 credits

Program Contact: Division of Allied Health,
(815) 921-3200, or,
Program Coordinator,
(815) 921-3205, or,
RockValleyCollege.edu/SurgTech

Program Overview:

Surgical Technologists must have knowledge of the anatomy, instrumentation and procedures needed to prepare the operating room and equipment being used for surgery, are responsible for creating and maintaining the sterile environment in the operating room, and will also assist in other aspects of the surgical arena. The program features classroom, laboratory and clinical experiences that prepare students to assume an important role with surgical teams at entry-level.

Work & Employment:

Graduates are employed in hospital operating rooms, delivery rooms, emergency departments, ambulatory surgical centers, Medical travel agencies, physician offices, dental offices, central sterilizing departments, and also animal clinics and hospitals. With additional specialized education and training, graduates can become Surgical Assistants, Program Directors, Instructors, and Surgical/Medical Sales Representatives.

Professional Credential & Program Accreditation:

Graduates are eligible to become Certified Surgical Technologists (CST). Students will sit for the National Certification Examination through the National Board of Surgical Technology and Surgical Assisting (NBSTSA) prior to graduation. The Program is governed by the Association of Surgical Technology (AST) and is fully accredited by the Commission on Accreditation of Allied Health Programs (CAAHEP).

Admission to the Program:

Admission is selective and competitive. The Grade Point Average (GPA) from any College where a (prerequisite) course is used to fulfill the Program requirements will be combined and averaged for an Overall GPA. The Overall GPA and strength in the sciences is of great consideration in the selection process. Healthcare experience considered but is not required.

Core Curriculum developed by the Association of Surgical Technology (AST/CCST 6th edition).

Admissions Policies (enrollment capacity 20)

Requirements for application and admission:

1. A graduate of a recognized or accredited secondary school at the time of enrollment or complete the GED as required by the Commission on Accreditation of Allied Health Education Programs (CAAHEP).
2. Admission to Rock Valley College according to college policies governing full-time students.
3. **Biology/Chemistry requirement:** One semester of college level chemistry (with a lab). At RVC it would be CHM 105 or CHM 110 (recommended) or a higher level.
BIO 185 requires BIO 100 or BIO 103, and CHM 105 or CHM 110, with a C or better to have been taken within the last 5 years.
BIO 274 requires BIO 100, 103, 150, 201, or 205 and CHM 105 or CHM 110, or higher CHM, with a C or better to have been taken within the last 5 years.
Note: other colleges' Biology course prerequisites may be different than RVC.
4. **Math requirement:** Minimum Math requirement for the Surgical Technology Program is MTH 092 - Beginning Algebra Part II.
To meet the biology and chemistry prerequisites at RVC - MTH 094-Intermediate Algebra Part II or higher level math, with a minimum grade of "C," is required. **Note:** other colleges' Math course prerequisites may be different than RVC.
5. **Grade Point Average:** A minimum GPA of 2.0 (on a 4.0 scale) is required of all college course work completed for college credit. Program admission is limited, therefore admission is selective and very competitive.
6. Concurrent hospital clinical practice also necessitates that students meet the following requirements:
 - a. Be in good health as certified by a physician licensed to practice medicine in all its branches, and complete in full the medical examination and immunization form provided.
 - b. Possibly submit to further laboratory tests as requested.
 - c. Have current Adult, Infant, and Child CPR certification.
 - d. Have personal health insurance.
 - e. Meet the Essential Abilities Standards of Performance
7. Students must be admitted to Rock Valley College and math and chemistry must be completed to be reviewed for admission to the program. All General Education Course Requirements must be completed, with a minimum grade of "C", before enrollment in the Surgical Technology (SRG) Program courses
8. Qualified applicants who are residents of Rock Valley College District 511 or who reside in a district that has a cooperative agreement with Rock Valley College will be admitted first. Out-of-district applicants will be admitted only if the Surgical Technology class has not been filled and all qualified in-district or cooperating community college applicants have been accepted.

CAREER & TECHNICAL EDUCATION PROGRAMS

Surgical Technology Certificate (continued)

Admissions Procedures:

- The following records must be sent directly to the Allied Health division office:
 - High school transcripts or GED scores.
 - Previous college transcripts (other than RVC).
- Applicants are required to complete a separate application for admission to the Surgical Technology Program, hereafter referred to as the Surgical Technology application.
- The Surgical Technology application must be filed before April 15th, prior to the fall term a student hopes to enter the program. Only completed applications are processed. Completed applications include:
 - Chemistry grade(s)
 - Math grade(s)
- Students will be notified of their admission status prior to June 15th.
- Applicants not selected one year are individually responsible for reactivating and updating their application in subsequent years.

Criminal Background Check & Drug Testing:

Students will undergo a criminal background check and drug testing upon admission to the program. It is possible that a student's criminal background and/or a positive drug test will prevent participation in hospital clinical practice and program completion.

Standard for Progression in the Program:

Students are required to earn at least a minimum grade of "C" in each theory/clinical course, along with the AST standard of 120 documented cases verified as completed, with a total of 80 First Scrub cases. Failure to do so will prevent a student from graduating. (See table below.)

Surgical Technology**Course Requirements 26 credits**

SRG 101	Surgical Technology I Central Service Principles and Practice	4
SRG 102	Surgical Technology II Principles and Practice	6
SRG 103	Surgical Technology III Principles and Practice Specialty	5
SRG 104	Surgical Technology IV Principles and Practice Specialty	5
SRG 105	Surgical Technology V Internship	4

Computers & Information Systems (CIS)/
and Engineering and Technology (EAT),
(815) 921-3101
RockValleyCollege.edu/SES

Program Overview:

Graduates of the Sustainable Energy Systems (SES) Program have a broad understanding of energy efficiency and conservation, comprehensive energy and electrical-load audits, alternative electrical energy generation using photovoltaics, wind turbines, fuel cells, and microhydro. They also understand how active and passive solar technology (including geothermal systems) can be used to produce air conditioning via heat pumps and radiant floor heating. They comprehend solar hot water heating systems as well as tankless hot water heating. Graduates understand the importance of codes, standards, and permits as well as fees, financing, and payback. They also have the necessary skills to use electronic test equipment to make measurements, understand electrical schematics and blueprints, analyze electronic circuits and understand fundamental design concepts. The graduates are ready to work in alternative energy product and service development, testing and alternative energy product certifications with an emphasis on the electrical and electronic systems. The SES program helps prepare you to take the Alternative Energy Integrator Certification examinations offered by the Electronics Technicians Association, International.

Work & Employment:

Successful graduates secure positions as sustainable energy system designers and consultants, sales and service professionals, or as part of an alternative energy hybrid system integration support team. Areas of employment as electronics technicians to support a wide variety of manufacturing and service needs are also included in career selections.

Hands-On Learning:

EET (SES) classes include alternative energy trainers and systems to give students a more complete grasp of concepts. Several field trips are required to look at installed systems. Internships to obtain actual working experience are required. EET classes include a hands-on laboratory component taught by instructors with industrial experience. You will learn how to use electronic test equipment like oscilloscopes, function generators, and digital multimeters.

Transfer Opportunities:

Graduates have the option to pursue a baccalaureate degree from Northern Illinois University and other select universities. Graduates of this Sustainable Energy Systems degree have limited transfer options. Students are advised to contact the institution to which they plan to transfer to ensure course transfer credit availability. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the SES program.

Certificates Available:

- Sustainable Energy System Certificate
- Basic Sustainable Energy Systems

Sustainable Energy Systems

Core Requirements **50 Credits**

SES

Core Requirements **47 Credits**

EET 105	Introduction to Sustainable Energy Concepts.....	3
EET 107	Introduction to Codes and Standards	3
EET 135	Digital Electronics.....	4
EET 141	DC/AC Circuits and Electronics I	4
EET 142	DC/AC Circuits and Electronics II	4
EET 168	Electronic Engineering Technology Internship	2
EET 190	Sustainable Electrical Energy Generation	3
EET 240	DC/AC Circuits and Electronics III	4
EET 251	Microcontrollers and Interfacing	4
EET 277	Geothermal, Solar Heating and Lighting	3
EET 282	Capstone Project	3
EET 298	EET Seminar	3
MET 100	Introductory CAD and Print Reading	3
MET 162	Applied Physics	4

Electives: Select 3 credits from the following **3 Credits**

EET 168	Electronic Engineering Technology Internship	1-3
EET 219	Fundamentals of Electric Motors and Controls	3
EET 231	Transform Circuit Analysis	4
EET 239	Programmable Logic Controllers (PLCs)	3
EET 242	Sensors, Transducers, and Signal Conditioning	3
EET 245	Control Systems	3
EET 261	Advanced Microcontrollers	3
EET 265	Audio Electronic Systems	3
EET 275	Wireless Electronics	3
EET 285	Introduction to Digital Signal Processing.....	3
EET 299	Special Topics in Electronic Engineering Technology	1-6
EGR 101	Introduction to Engineering	2

General Education

Course Requirements **16 credits**

ENG 101	Composition I	3
ENG 110	Technical Writing, or,	
SPH 131	Fundamentals of Communication	3
MTH 125	Plane Trigonometry (3), or,	
MTH 132	Precalculus Mathematics (5), or,	
MTH 100	Technical Mathematics (5)	3-5

General Education

Science Requirement:

Select 4 credits from the following:

CHM 105	Chemistry and Society, or,	
CHM 120	General Chemistry I	4

General Education Elective:

Select 3 credits from the IAI General Education Core Curriculum (GECC)

Example: ART, ECO, ENG, SOC, etc. 3

CAREER & TECHNICAL EDUCATION PROGRAMS

Sustainable Energy Systems (continued)

CERTIFICATES:

Sustainable Energy Systems

Certificate SES/8601	50 credits
EET 105	Introduction to Sustainable Energy..... 3

Second A.A.S. Degree Requirements for either the EET or SES A.A.S Degrees (15 credits):

The course requirements for the Electronic Engineering Technology and the Sustainable Energy Science degree programs are very similar. Therefore, obtaining a second degree is an exciting option for many graduates. Specifically, a graduate of the EET program may desire to obtain a second degree in SES.

Fundamentally, a minimum of 15 additional credits must be taken.

A graduate of the EET program (8400) who desires to also receive an SES program degree (8600) must take:

EET 105	Introduction to Sustainable Energy Concepts (could have been used as an EET elective previously)..... 3
	(could have been used as an EET elective previously)
CHM 105	Chemistry and Society, or,
CHM 120	General Chemistry I (could have been used as an EET elective previously)..... 4
EET 107	Introduction to Codes and Standards 3
EET 168	Electronic Engineering Technology Internship 2
EET 190	Sustainable Electrical Energy Generation 3
EET 277	Geothermal, Solar Heating & Lighting 3

(This means an EET graduate must take between 15 to 18 additional credits to receive a second degree in SES.)

A graduate of the SES program (8600) who desires to also receive an EET program degree (8400) must take:

EET 125	Electronic Fabrications Skills 2
MET 111	CNC Machine Setup / Operation / Programming 3
MET 146	Hydraulics, Pneumatics and PLCs 3
EET 254	Robotics & Automated Systems 3
EET	Elective 4

(This means an SES graduate must take 15 additional credits to receive a second degree in EET.)

Students are advised to contact the Division of Engineering and Technology, (815) 921-3101 for more information about obtaining a second degree in this field.

A prerequisite or corequisite may be required for some courses.

Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Web Programming & Design

Web Programming & Design (WEB)

#3900

Degree Conferred: Associate in Applied Science - 64 Credits

Program Contact: Division of Business /
Computers & Information Systems,
(815) 921-3101
RockValleyCollege.edu/WebDesign

The Business/Computers & Information Systems Division also offers degrees in programming and networking. For information on these A.A.S. degrees, please see the Computer and Information Systems and the Personal Computer Technical Specialist programs elsewhere in this catalog.

Program Overview:

Graduates of this program are prepared for a career in Website programming and support. Thus, students will not only be able to design Web pages, but apply technical specifications to bring them to life.

Work & Employment:

Graduates of this program often work as Web programmers, Web programmer assistants, Web server systems administrators, Web designers, or Web media developers. Students should also consult with an Academic Advisor, the Dean, or Academic Chair of the Web program.

Industry Certifications:

Students obtaining this degree will be better prepared to take the following certifications: WOW, ZEND, PHP Certification, Magento Certification, and the W3C certification.

CIS Division

Course Requirements 40 credits

ATG 110	Financial Accounting	4
BUS 101	Introduction to Business	3
CIS 102	Introduction to Computers & Information Systems	3
CIS 276	Introduction to C/C++ Programming	4
CIS 254	Database Programming	4
PCT 110	Network Essentials	3
WEB 101	Programming Related to the Internet	4
WEB 102	Advanced Programming Related to the Internet	4
WEB 111	Introduction to Multimedia	3
WEB 233	Web Programming Using Client-Side Scripting	4
WEB 234	PHP Programming, or,	
WEB 235	Web Programming Using Server-Side Scripting	4

Electives 9 credits

With the approval of the CIS Academic Chair, select from the following courses:

CIS 180	Introduction to Visual Basic Programming	4
CIS 240	Introduction to Java Programming	4
CIS 245	Programming Android for Mobile Devices	4
CIS 280	Programming iOS Apple Mobile Devices	4
GAT 110	Introduction to Photoshop	2
GAT 115	Introduction to Illustrator	2
WEB 225	Digital Photography	3
WEB 231	Web Design and Production	4
WEB 234	PHP Programming	4
WEB 235	Web Programming Using Server-Side Scripting	4
WEB 290	Special Topics in Web Program & Design	1-6
WEB 291	Internship/Field Experience	1-6

General Education

Course Requirements 15 credits

ENG 101	Composition I	3
ENG 103	Composition II, or,	
MGT 170	Business Communications, or,	
ENG 110	Introductory Technical Writing	3
SPH 131	Fundamentals of Communication	3
MTH 120	College Algebra, or,	
MTH 160	Topics from Finite Mathematics, or,	
MTH 220	Elements of Statistics	3
BUS 170	Introduction to Organizational Behavior, or,	
PSY 170	General Psychology, or,	
SOC 190	Introduction to Sociology	3

CERTIFICATES

Web Development Certificate/3901 16 credits

WEB 101	Programming Related to the Internet	4
WEB 102	Advanced Programming Related to the Internet	4
CIS 254	Database Programming	4
WEB 234	PHP Programming, or,	
WEB 235	Web Programming Using Server-Side Scripting	4

Web Design Certificate/3902 14 credits

WEB 101	Programming Related to the Internet	4
WEB 102	Advanced Programming Related to the Internet	4
WEB 111	Introduction to Multimedia	3
WEB 225	Digital Photography	3

A prerequisite or corequisite may be required for some courses.

Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Welding Certificates

Welding Certificate (WLD)

#8218

Certificate: 24 credits**Program Contact:** Division of Technical Programs,
(815) 921-3000
RockValleyCollege.edu/Welding**Program Overview:**

Graduates are adept in the various welding types, including gas, shielded metal arc (STICK), metal inert gas (MIG), flux core, and tungsten inert gas (TIG) welding. Welding certification can be acquired in one or more welding processes.

Work & Employment:

In today's metalworking industry, welding is rapidly becoming the most commonly used method of joining metals. Opportunities exist in the steel fabrication, plumbing and pipefitting, construction, automotive, nuclear, and sheet metal industries, as well as in facilities maintenance.

*Students are required to furnish their own personal protective equipment.

Welding**Certificate Requirements 24 credits**

WLD 100 Introduction to Welding	3
WLD 150 Blueprint Reading for Welders	3
WLD 152 Arithmetic for Welders	3
WLD 153 Arc Welding: Flat	3
WLD 154 Arc Welding: Vertical	3
WLD 155 Arc Welding: Horizontal	3
WLD 156 Arc Welding: Overhead	3

Select one course from the following:

WLD 157 M.I.G. Welding	3
WLD 158 T.I.G. Welding	3
WLD 159 Arc Welding: Bellhole/Pipe	3
WLD 161 Arc Welding: Arkansas/Pipe	3
WLD 175 Certification Qualification	3
WLD 181 Special Topics Welding	1-3
WLD 182 Internship in Welding Technology	1-6
WLD 180 Independent Study in Welding	1-5

Assembly Line Welder Certificate (WLD)

#8210

Certificate: 12 credits**Program Contact:** Division of Technical Programs,
(815) 921-3000
RockValleyCollege.edu/Welding**Program Overview:**

The Assembly Line Welder Certificate will provide students with instruction in each of the most common welding processes currently used in the industry (e.g., Arc/Stick, Shielded Metal Arc Welding; MIG, metal inert gas; TIG, tungsten inert gas; and Oxyfuel, gas welding and cutting), as well as instruction in welding safety. Students who complete the certificate will be prepared for entry level positions within the manufacturing industry as an assembly line welder.

Work & Employment:

Upon completion, the certificate will provide a basic credential to students for employment into the manufacturing welding field as an assembly line welder.

*Students are required to furnish their own personal protective equipment.

Assembly Line Welder**Requirements/8210 12 credits**

WLD 100 Introduction to Welding	3
WLD 153 Arc Welding Flat	3
WLD 155 Arc Welding Horizontal	3
WLD 157 MIG Welding	3

A prerequisite or corequisite may be required for some courses.

Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Apprenticeship Programs

Electrician

Apprenticeship (ELC)

#9900

Degree Conferred: Associate in Applied Science - 64 credits

Transferable Degree

Program Contact: Division of Technical Programs,
(815) 921-3003
RockValleyCollege.edu/Electrician

Program Overview:

The Electrician Apprentice (ELC) Program consists of a series of technical core courses covering the required classroom-related instruction for people who wish to become journeyman electrical workers. The program requires a minimum of 800 hours of related instruction and 8,000 hours of on-the-job training.

Work & Employment:

Those who successfully complete the Electrician Apprentice Program are employed as residential or commercial wiremen, linemen, and/or advanced journeypersons.

Cooperative Partners Involved:

Both the National Electrical Contractors Association and the International Brotherhood of Electrical Workers recognize, sponsor, and support this program to provide the highly-skilled workforce necessary to meet customer needs and ensure job satisfaction for electrical workers.

Applying for the Program:

Students interested in applying for the Program need to go through a selection process established by the JATC Local Union 364. For more information, call the Technical Programs Office at (815) 921-3003.

Electrician Apprenticeship Certificate

Course Requirements 49 credits

ELC 120	Introduction to Apprenticeship	4
ELC 121	Electrical Theory and Code	4
ELC 122	Lighting and Transformers	4
ELC 123	Motors and Wiring Systems	4
ELC 125	Safe Electrical Work Practices	1
ELC 140	The Labor Movement 1865-1980	1
ELC 141	The Labor Movement 1975-Present	1
ELC 142	Labor Movement, Present & Future	1
ELC 243	Alternating Current	4
ELC 244	Electronics Circuitry	4
ELC 245	Motor Control	4
ELC 246	Power Controls	4
ELC 247	Advanced Studies I	4
ELC 248	Advanced Studies II	4
ELC 249	Electrician Internship I	1
WLD 180	Independent Study in Welding	2
WLD 181	Special Topics In Welding	2

General Education

Course Requirements 15 credits

ENG 101	Composition I	3
ENG 103	Composition II, or, Introductory Technical Writing	3
SPH 131	Fundamentals of Communication	3
BUS 170	Introduction to Organizational Behavior	3
ELC 130	OSHA 30 and Disaster Response	3

CERTIFICATE:

Electrician Apprenticeship/9913

Course Requirements 42 credits

ELC 120	Introduction to Apprenticeship	4
ELC 121	Electrical Theory and Code	4
ELC 122	Lighting and Transformers	4
ELC 123	Motors and Wiring Systems	4
ELC 243	Alternating Current	4
ELC 244	Electronics Circuitry	4
ELC 245	Motor Control	4
ELC 246	Power Controls	4
ELC 247	Advanced Studies I	4
ELC 248	Advanced Studies II	4
WLD 180	Independent Study in Welding	2

A prerequisite or corequisite may be required for some courses.

Refer to the course descriptions section in this catalog for more information.

Sheet Metal

Apprenticeship (APT)

#9918

Degree Conferred: Apprenticeship - 40 credits

RockValleyCollege.edu/Courses/sheetmetalapprenticeship.cfm

Program Contact: Division of Technical Programs,
(815) 921-3003

Apprentices in this Program are trained to assemble, install, and repair sheet metal products. They work on air conditioning, heating, and ventilation systems. Those trained in this field learn to read job orders and blueprints. From that, they are able to select the correct metal and shape it over the proper form using solder and welding techniques. This is a five-year program.

Applying for the Program:

Students interested in applying for the Program need to go through a selection process established by the JATC Local Union 219.

For more information, call the Technical Programs Office at (815) 921-3003.

APT 180	Introduction to Apprenticeship	4
APT 181	Mathematics and Processes I	4
APT 182	Mathematics and Processes II	4
APT 183	Mathematics and Processes III	4
APT 280	Blueprints and Patterns I	4
APT 281	Blueprints and Patterns II	4
APT 282	Advanced Systems I	4
APT 283	Advanced Systems II	4
APT 284	Advanced Studies I	4
APT 285	Advanced Studies II	4

A prerequisite or corequisite may be required for some courses.

Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Apprenticeship Programs (continued)

Tool & Die / Precision Machinist Apprenticeship Certificate

#9919

Degree Conferred: Certificate - 30 credits

Program Contact: Division of Technical Programs,
(815) 921-3003
RockValleyCollege.edu/Machinist

The tool and die maker/precision machinist apprentice makes the devices used by machinists for mass-produced parts. Tool and die makers are among the most skilled of all machinery workers. Apprentices learn to make the gauges and measuring devices in manufacturing precision metal parts. They are also taught to construct metal forms used to shape metal stamping and forging operations. This is a four-year program.

Year One

APT 190	Mathematics for Machine Technology	3
APT 194	Blueprint Interpretation	3

Year Two

APT 289	Metal Cutting Applications	3
MET 106	Metrology	3
MET 105	Materials and Processes	3

Year Three

MET 111	CNC Machine Setup/Operation/Programming	3
MET 226	CNC/CAM Operations I	3

Year Four

MET 108	Computer Drafting Using AutoCAD	3
WLD 100	Introduction to Welding	3
MET 133	Graphics, SolidWorks™ and CAD I	3

A prerequisite or corequisite may be required for some courses.
Refer to the course descriptions section in this catalog for more information.

CAREER & TECHNICAL EDUCATION PROGRAMS

Cooperative Educational Agreements

Rock Valley College participates in a cooperating agreement with several Illinois community colleges. This agreement is regulated by the ICCB and is designed to provide expanded educational opportunities. For A.A.S. degrees and certificate programs not offered by Rock Valley College, students may obtain a cooperative agreement to attend another Illinois community college that offers the program. The cooperative agreement does not guarantee admission, rather it permits out-of-district fees to be waived, allowing the student to obtain the A.A.S. degree or certificate for in-district rates. The cooperating college will issue all degrees or certificates for successful completion of the individual program.

Prerequisite course requirements may be taken at the home institution or at the receiving institution. There may be special circumstances associated with programs that have competitive enrollment. These individual cases may be reviewed by the Student Development Office.

For further information about Cooperative Agreements or Chargeback agreements, please call the Student Development Office at (815) 921-4281 or stop by Student Center Room 2134 on the Main Campus.

Rock Valley College participates in the **"Comprehensive Agreement Regarding the Expansion of Educational Resources" (C.A.R.E.E.R.)**. This cooperative agreement includes the following Illinois institutions:

- Black Hawk College
- Carl Sandburg College
- Danville Community College
- Elgin Community College
- Heartland Community College
- Highland Community College
- Illinois Central College
- Illinois Valley Community College
- John Wood Community College
- Joliet Junior College
- Kankakee Community College
- Kaskaskia College
- Kishwaukee College
- Lake Land College
- Lewis and Clark Community College
- Lincoln Land Community College
- McHenry County College
- Moraine Valley Community College
- Morton College
- Prairie State College
- Rend Lake College
- Richland Community College
- Sauk Valley Community College
- Spoon River College
- South Suburban College
- Southwestern Illinois College

Rock Valley College also has individual **Cooperative Educational Agreements** with the following Illinois institutions that are not included in C.A.R.E.E.R. agreement: Harper College, Oakton Community College, and Parkland College.

Harper College

1200 West Algonquin Road
Palatine, IL 60067-7398
(847) 925-6000

- Cardiac Technology (A.A.S.)
- Cardiographic Technology Certificate
- Culinary Arts:
Culinary Arts Certificate
- Bread and Pastry Arts Certificate
- Diagnostic Medical Sonography
(A.A.S. and Certificate)
- Paralegal Studies
(A.A.S. and Certificate)

Oakton Community College

1600 East Golf Road
Des Plaines, IL 60016
(847) 635-1600

- Facilities Management and Engineering
(A.A.S. and Certificates)
- Health Information Technology
(A.A.S. and Certificates)
- Medical Laboratory Technology (A.A.S.)
- Physical Therapist Assistant (A.A.S.)

Parkland College

2400 West Bradley Avenue
Champaign, IL 61821-1899
(217) 351-2200

- Communication Technology (A.A.S.)
- Radio-TV/Video (A.A.S.)

Rock Valley College has a cooperative educational agreement with Blackhawk Technical College in Janesville, Wisconsin for the following programs:

Blackhawk Technical College

6064 Prairie Road, P.O. Box 5009
Janesville, WI 53547
(608) 758-6900

- Culinary Arts
- Diagnostic Medical Sonography
and Vascular
- Diesel and Heavy Equipment
Technician
- Electric Power Distribution
- Electromechanical Technician
- Horticulture/Landscape Technician
- Human Resource Management
- HVAC/R
- Laboratory Technician Assistant
- Mechanical Design Technology
- Physical Therapist Assistant
(2 seats for qualified students)
- Radiography
(2 seats for qualified students)

ROCK
VALLEY
COLLEGE

COURSE DESCRIPTIONS

COURSE DESCRIPTIONS

Course Descriptions

Rock Valley College's courses on the following pages were approved by the Illinois Community College Board (ICCB).

Course Numbering System

Course descriptions are listed by prefix and include the course number, course title, prerequisites and corequisites, and content description. The Illinois Articulation Initiative (IAI) Code is listed where appropriate, followed by the number that indicates whether the course is Baccalaureate / Transfer (1.1), Career-Technical (1.2), or Developmental (1.4). Following the description of the course is the number of semester hours of credit, followed by the number of lecture hours and the number of lab hours. **Note:** not all courses are offered every year. These classifications are according to the master course file of the Illinois Community College Board.

Illinois Articulation Initiative (IAI) General Education Core Curriculum (GECC) and IAI Majors Codes:

To assist students with identifying qualifying general education core courses (GECC), the following coding system will appear below the course number and title in the IAI field. If the course does not have an assigned IAI number it will appear as: "IAI: None."

IAI GECC DISCIPLINE	IAI PREFIX
Communications	IAI: C
Social and Behavioral Sciences	IAI: S
Humanities	IAI: H
Fine Arts	IAI: F
Interdisciplinary Hum/Fine Arts	IAI: HF
Mathematics	IAI: M
Physical Science	IAI: P
Life Sciences	IAI: L

Non-Western Culture Course: The "N" in the IAI code field is for courses designed specifically to examine aspects of human diversity from a non-U.S./non-European perspective.

Other letters that are used at the end of course numbers include:

D - Courses designed specifically to examine aspects of human diversity within the United States.

L - Designates laboratory courses.

R - Designates research paper courses.

IAI Majors Courses: IAI has its own individual course numbering sequence for the Illinois Baccalaureate Majors' Recommendations.

Here is an example of an **IAI Majors course -**

IAI: CHM911 - General Chemistry I.

In IAI Majors there are only 2 parts of the course numbering system: the abbreviation (i.e., CHM) and the number (i.e., 911) which is a part of the unique numbering system adopted for the IAI process. The abbreviation indicates the field the course exists within. For more information about major fields and their corresponding abbreviations please go to: iTransfer.org.

Prerequisites: Many course descriptions state that a prerequisite is necessary for enrollment in such a course. Students are advised that enrolling in a course without satisfying the prerequisite may result in the student being withdrawn from such course at the request of the instructor. Refer carefully to catalog course descriptions.

If a course meets for a shorter or longer period than a 15-week semester, the lecture and laboratory hours are adjusted so that the total number of hours will be the same as the total for a 15-week semester.

Only degree-level courses numbered from 100 through 299 will meet degree requirements. Credit earned in courses numbered below 100 and above 299, and in select certificate-level courses, will not count toward any Rock Valley College degree.

Listed below is an alphabetized list of instructional disciplines followed by a subject (course) prefix/course abbreviation.

COURSE DESCRIPTIONS

Accounting**ATG****ATG 106 -
Introduction to Accounting Debits
and Credits**

IAI: None

1.1

Introduction to Accounting Debits and Credit teaches the theory of double entry accounting, which utilizes both a debit and credit part for every business transaction. Recording transactions in the general journal, posting transactions to the general ledger, and the preparing of the work sheet and preparation of the income statement, capital statement, and balance sheet will be covered.

Prerequisite: None

Credit: 1 semester hour

Lecture: 1

Lab: 0

**ATG 107 -
Introduction to
Accounting Special Journals**

IAI: None

1.1

Introduction to Accounting Special Journals is a continuation of Accounting 106, Debits and Credits. The course demonstrates the use of the special journals to save time and effort by grouping similar transactions and by division of labor. Special journals studied include the Combined Journal, Sales Journal, Purchases Journal, Cash Receipts Journal, and Cash Payments Journal. Posting procedures and special ledgers will also be covered.

Prerequisite: ATG 106

Credit: 1 semester hour

Lecture: 1

Lab: 0

**ATG 110 -
Financial Accounting**

IAI: BUS 903

1.1

Financial Accounting presents accounting as an information system that produces summary financial statements, primarily for users external to a business or other enterprise. Students study the forms of business organization and the common transactions entered into by businesses. The emphasis is on understanding and applying basic accounting principles and other concepts that guide the reporting of the effect of transactions and other economic events on the financial condition and operating results of a business. How to analyze and interpret historical financial statements, as well, and the limitations of using these in making forward-looking business decisions is included. The primary content emphasis will be accounting for current assets and liabilities, long-term assets and liabilities, stockholder equity, corporations' cash flow statements, and financial statement analyses.

Prerequisite: MTH 092 or MTH 096A or MTH 096S.

Concurrent registration is not acceptable.

Credit: 4 semester hours

Lecture: 4

Lab: 0

**ATG 111 -
Managerial Accounting**

IAI: BUS 904

1.1

Managerial Accounting presents accounting as a system of producing information for internal use in managing business. The course emphasizes the identification, accumulation, and interpretation of information for planning, controlling, and evaluating the performance of the separate components of a business. Included is the identification and measurement of the costs of producing goods or services and how to analyze and control these costs. Decision models commonly used in making specific short- and long-term business decisions also are included.

Prerequisite: ATG 110 with a grade of "C" or higher.

Credit: 4 semester hours

Lecture: 4

Lab: 0

**ATG 120 -
Microcomputer Spreadsheet
Application in Accounting**

IAI: None

1.2

Microcomputer Spreadsheet Application in Accounting concentrates on the utilization of a computer spreadsheet software program to solve accounting problems and to report accounting information. Current software available for the IBM-compatible microcomputer will be used.

Prerequisite: ATG 110; or ATG 106 and ATG 107

Credit: 2 semester hours

Lecture: 1

Lab: 2

**ATG 123 -
General Ledger Software
Applications in Accounting**

IAI: None

1.2

General Ledger Software Applications in Accounting concentrates on the utilization of a computer general ledger software program to solve accounting problems, and to report accounting information. The payroll function is introduced including current regulations. Current commercial software available for the IBM-compatible micro computer will be used.

Prerequisite: ATG 110, and CIS 102 or CIS 202.

Credit: 2 semester hours

Lecture: 1

Lab: 2

**ATG 210 -
Cost Accounting**

IAI: None

1.1

Cost Accounting studies the nature of costs and relevant accounting data for purposes of improving decision-making. The determination of product costs, budgets and standards, and capital budgeting are among the topics studied. This course is a core curriculum requirement for an A.A.S. degree in accounting.

Prerequisite: ATG 111 with a grade of "C" or higher.

Credit: 4 semester hours

Lecture: 4

Lab: 0

**ATG 215 -
Intermediate Accounting I**

IAI: None

1.1

Intermediate Accounting I is an in-depth analysis of accounting principles related to the preparation of general-purpose financial statements for external users of accounting information. The efforts of accounting organizations such as the FASB (Financial Accounting Standards Board), the APB (Accounting Principles Board), and the AICPA (American Institute of Certified Public Accountants) are reflected in the material. Issues covered include those related to the Balance Sheet, Statement of Retained Earnings, Income Statement and Statement of Cash Flows. Representative areas of accounting include, but are not limited to, cash, receivables, inventories, and property, plant, and equipment. This course is a core course requirement for an A.A.S. degree in accounting. (Offered fall semester only.)

Prerequisite: ATG 111 with a grade of "C" or higher.

Credit: 4 semester hours

Lecture: 4

Lab: 0

**ATG 216 -
Intermediate Accounting II**

IAI: None

1.1

Intermediate Accounting II is a continuation of the in-depth analysis of accounting principles related to the preparation of general-purpose financial statements for external users of accounting information, which started in ATG 215. Representative areas of accounting include, but are not limited to, liabilities, including long-term debt, stockholders equity, earnings per share, revenue recognition, accounting for income taxes, accounting for leases, accounting for pensions, and the statement of cash flows. This is a requirement of financial accounting option of the A.A.S. degree in accounting.

(Offered in spring semester.)

Prerequisite: ATG 215

Credit: 3 semester hours

Lecture: 3

Lab: 0

**ATG 218 -
Federal Income Tax**

IAI: None

1.2

Federal Income Tax is a course where emphasis is placed on federal income taxes for the individual. The course covers both the practical preparation of income tax returns and the theoretical understanding of the law. Subjects covered include taxation of non-business individuals, proprietary business operations, and gains/losses from the sale of various types of property. The federal income taxation of partnerships and corporations will also be introduced. This course is a core curriculum requirement for an A.A.S. degree in accounting. Offered in Fall term only.

Prerequisite: ATG 110 or consent of instructor.

Credit: 4 semester hours

Lecture: 4

Lab: 0

COURSE DESCRIPTIONS

**ATG 220 -
Fraud Detection and Deterrence**

IAI: None 1.2
 Fraud examination will cover the principle and methodology of fraud detection and deterrence. The course includes such topics as skimming, cash larceny, check tampering, register disbursement schemes, billing schemes, payroll and expense reimbursement schemes, non-cash misappropriations, corruption, accounting principles and fraud, fraudulent financial statements, and interviewing witnesses.
 Offered in Spring term only.
 Prerequisite: ATG 110
 Credit: 3 semester hours
 Lecture: 3 Lab: 0

**ATG 291 -
Internship Accounting**

IAI: None 1.2
 Internship Accounting enables the student to work part-time as an accounting intern in a business organization, educational institution, or government agency. This will be done under the supervision of a college accounting faculty member. It is the student's responsibility to secure this part-time or full-time position, and approval must be obtained from the college faculty member. The number of work hours is variable.
 Prerequisite: 30 semester hours of credit in the accounting curriculum.
 Credit: 1-6 semester hours
 Lecture: 0 Lab: 5-30

**ATG 295 -
Independent Study in Accounting**

IAI: None 1.2
 Independent Study in Accounting enables the student to conduct an individual project based on a special area of interest in accounting. Course requirements are based on a special area of interest in accounting. Course requirements are based on the nature of the project undertaken.
 Prerequisite: None
 Credit: 1-6 semester hours
 Lecture: 1-6 Lab: 0

**ATG 298 -
Accounting Capstone**

IAI: None 1.2
 The Accounting Capstone course will reinforce concepts learned throughout the accounting program by applying accounting knowledge and skills to problems and cases. Students will have the option to take the national certification exam and obtain their Certified Bookkeeper Certificate upon completion of the course.
 Prerequisite: This course is to be taken the final semester prior to graduation. At least 18 credit hours of ATG courses must be completed with a "C" or higher or consent of instructor.
 Credit: 4 semester hours
 Lecture: 4 Lab: 0

Agriculture**AGR 106 -
Introduction to Animal Science**

IAI: AG 902 1.1
 Introduction to Animal Science is a survey course that will provide a firm biological and natural sciences background to students for understanding the principles important to the raising and management of livestock and companion animals. Students will have the opportunity to learn from animal industry leaders. The course is team taught to incorporate Animal Sciences instructors who are specialists in their subject matter areas. Specific sections will provide students with a basic understanding of how animals are raised and managed, with emphasis on new technological applications to animal production. Students interested in the area of Animal Sciences can pursue careers in areas such as Animal Business, Animal Management (behaviorist, nutritionist), Companion Animal areas (recreational/breeding), laboratory animal sciences, food animal sciences (meat sciences and production of higher quality animals for food sources), Biotechnology, and Pre-Vet Medicine, Vet Technician, and Regulatory Affairs for Government.
 (This course is offered through an agreement with the University of Illinois ACES program.)
 Prerequisite: None
 Credit: 4 semester hours
 Lecture: 4 Lab: 0

**AGR 110 -
Introduction to Soil Science**

IAI: AG 904 (approval pending) 1.1
 Introduction to Soil Science explores the chemical, physical and biological properties of soils; the origin, classification, and distribution of soils and their influence on people and food production; the management and conservation of soils; and the environmental impact of soil use.
 (This course is offered through an agreement with the University of Illinois ACES program.)
 Prerequisite: None
 Credit: 4 semester hours
 Lecture: 4 Lab: 0

**AGR 115 -
Introduction to Crop Science**

IAI: AG 903 (approval pending) 1.1
 Introduction to Crop Science is designed to introduce students to the basic principles of plant growth, including human and environmental influences and the theoretical and practical application of agronomic principles to crop production.
Note: This course will be taught online using the Learning Management System of Elluminate from the University of Illinois Urbana-Champaign. There will be two Saturday on-site lab days required at the laboratory facilities at the University of Illinois Urbana-Champaign during the semester that will be scheduled in advance for students.
 Prerequisite: None; Recommended completion of BIO 103.
 Credits: 4 semester hours
 Lecture: 3 Lab: 2

AGR**AGR 118 -
Introduction to Horticulture**

IAI: AG 905 1.1
 Introduction to Horticulture is designed to offer the student a general introduction to the principles of plant growth and development as they apply to the wide range of horticultural crops and the industries related to production, marketing, and utilization of horticultural crops.
 (This course is offered through an agreement with the University of Illinois ACES program.)
 Prerequisite: None
 Credit: 4 semester hours
 Lecture: 4 Lab: 0

Anthropology**ANP****ANP 102 -
Introduction to Physical Anthropology and Archaeology**

IAI: S1 902 1.1
 This course is an introduction to the principles of evolution and the origin of people and their culture. It includes the study of people as a member of the order of primates, fossil people, prehistoric archaeology, and the beginnings of early civilizations, race, and racism.
 Prerequisite: None
 Credit: 3 semester hours
 Lecture: 3 Lab: 0

**ANP 103 -
Introduction to
Cultural Anthropology**

IAI: S1 901N 1.1
 This course is a basic survey of the principles of cultural anthropology including the concept of culture and its various aspects. Language, economics, kinship, religion, and art are included. Some attention is also given to distinctive theoretical approaches and to problems of culture change.
 Prerequisite: None
 Credit: 3 semester hours
 Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

Apprenticeship - Sheet Metal Workers APT

Rock Valley College, in cooperation with the Sheet Metal Workers Joint Apprenticeship Committee, sponsors related apprenticeship classroom training. Admission to the Sheet Metal Workers Apprenticeship program is determined by the joint apprenticeship committee. Students who wish to be considered for an apprenticeship should apply to the Sheet Metal Workers organization listed on page 86.

APT 180 - Introduction to Apprenticeship

IAI: None 1.2
The Introduction to Apprenticeship course covers the historical development of apprenticeship, the local program, and the technology of the sheet metal industry. There also will be in-depth study of layout and pattern development.
Prerequisite: None
Credit: 4 semester hours
Lecture: 3 Lab: 3.5

APT 181 - Mathematics and Processes I

IAI: None 1.2
The Mathematics and Processes I course is the study of mathematics, materials, and various field operations. Safety on the job will also be covered. Drafting techniques will be introduced.
Prerequisite: APT 180
Credit: 4 semester hours
Lecture: 3 Lab: 3.5

APT 182 - Mathematics and Processes II

IAI: None 1.2
The Mathematics and Processes II course covers mathematics, materials, layout and pattern development, field installation and drafting.
Prerequisite: APT 181
Credit: 4 semester hours
Lecture: 3 Lab: 3.5

APT 183 - Mathematics and Processes III

IAI: None 1.2
The Mathematics and Processes III course covers mathematics for sheet metal workers, as well as architectural sheet metal, welding, residential heating, and air conditioning.
Prerequisite: APT 182
Credit: 4 semester hours
Lecture: 3 Lab: 3.5

APT 280 - Blueprints and Patterns I

IAI: None 1.2
The Blueprints and Patterns I course is a study of layout and pattern development along with materials and mathematics. Shop work and service functions are also included in this course.
Prerequisite: APT 183
Credit: 4 semester hours
Lecture: 3 Lab: 3.5

APT 281 - Blueprints and Patterns II

IAI: None 1.2
The Blueprints and Patterns II course studies blueprint reading, blowpipe, safety, plastics and fiberglass and food and beverage dispensing equipment.
Prerequisite: APT 280
Credit: 4 semester hours
Lecture: 3 Lab: 3.5

APT 282 - Advanced Systems I

IAI: None 1.2
The Advanced Systems I course is a study of the layout and pattern development, shop work, and field installation of advanced systems. Advanced welding techniques will also be studied.
Prerequisite: APT 281
Credit: 4 semester hours
Lecture: 3 Lab: 3.5

APT 283 - Advanced Systems II

IAI: None 1.2
The Advanced Systems II course studies residential heating and air conditioning, food service and beverage dispensing equipment, sign work, and supervision. Architectural sheet metal and advanced blueprint reading are also covered.
Prerequisite: APT 282
Credit: 4 semester hours
Lecture: 3 Lab: 3.5

APT 284 - Advanced Studies I

IAI: None 1.2
The Advanced Studies I course covers advanced welding and cutting. The course includes SMAW, MIG, and TIG welding, plus gas cutting and welding safety. The course also covers an in-depth study of service techniques.
Prerequisite: APT 283
Credit: 4 semester hours
Lecture: 3 Lab: 3.5

APT 285 - Advanced Studies II

IAI: None 1.2
The Advanced Studies II course covers the procedures for air balancing (T.B.A.), service work (HVAC) and hoisting and rigging, plus the use of various air balancing instruments. The writing of project reports for engineers on the job will also be covered. The reports include information on duct traverse, air flow, air quantities and fan performance.
Prerequisite: APT 284
Credit: 4 semester hours
Lecture: 3 Lab: 3.5

Apprenticeship - Tool and Die/ Precision Machinist APT

Rock Valley College, in cooperation with the Rock River Valley Tooling and Machining Association, sponsors related apprenticeship classroom training. Admission to the Tool and Die/Precision Machinist Apprenticeship program is determined by the Rock River Valley Tooling and Machining Association. Students who wish to be considered for an apprenticeship should apply to the Rock River Valley Tooling and Machining Association organization listed on page 87.

Apprenticeship training is available in the specific categories of die maker, tool maker, mold maker, header die maker, precision machinist, and machine repair. For a list of all of the required classes for this program, please refer to page 87.

APT 190 - Mathematics for Machine Technology I

IAI: None 1.2
The Mathematics for Machine Technology I course covers whole numbers, fractions, decimals, fractions, powers and roots, and percents. English and metric units of measure are used with precision measuring equipment, and formulas and equations with metalworking related subjects. Related metalworking subjects are also covered.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 2

APT 194 - Blueprint Interpretation

IAI: None 1.2
The Blueprint Interpretation course will teach the student to interpret various types of three-view drawings, how to read tolerance information, and how to interpret dual system dimensioning and tolerances. Includes the metric system of dimensioning and ISO symbols which includes a comprehensive study of the application of geometric dimensioning and tolerancing techniques. This will use the ANSI/ASME Y10.5-M standards.
Prerequisite: APT 190
Credit: 3 semester hours
Lecture: 2 Lab: 2

APT 289 - Metal Cutting Applications

IAI: None 1.2
The Metal Cutting Applications course will teach students metal cutting applications with various types of cutting tools. Topics covered will be materials, machinability of materials, tool materials, turning, boring, milling, grooving, threading and drilling. Students will learn how to select proper tooling based on material specifications and blueprint specifications.
Prerequisite: APT 194
Credit: 3 semester hours
Lecture: 2 Lab: 2

COURSE DESCRIPTIONS

**Apprenticeship -
Electricians****ELC**

Rock Valley College, in cooperation with the Electricians Joint Apprenticeship Training Committee (JATC), sponsors related apprenticeship classroom training. Admission to the Electricians Apprenticeship program is determined by the joint apprenticeship committee. Students who wish to be considered for an apprenticeship should apply to the Electricians organization listed on page 86.

**ELC 120 -
Introduction to Apprenticeship**

IAI: None 1.2
The Introduction to Apprenticeship class includes a historical study of apprenticeship, local apprenticeship, the electrical industry, and its future. Students will study mathematics, safety and job information on tools, materials, circuits, and good housekeeping.
Prerequisite: None
Credit: 4 semester hours
Lecture: 3 Lab: 2

**ELC 121 -
Electrical Theory and Code**

IAI: None 1.2
The Electrical Theory and Code course includes electrical theory in structure of matter, Ohm's law, circuits, resistance, magnetism, AC and DC, and circuit calculations. The electrical code is introduced, with emphasis on definitions, wiring methods, grounding and over-current protection. Blueprint reading is also covered.
Prerequisite: ELC 120
Credit: 4 semester hours
Lecture: 3 Lab: 2

**ELC 122 -
Lighting and Transformers**

IAI: None 1.2
The Lighting and Transformers course covers general lighting, safety, installation requirements and code studies, incandescent lamps, fluorescent lamps and ballasts, and circuit calculation. Students learn inductance to better understand transformers and motors. Transformer principles are covered in addition to types, single-phase, and three-phase connections.
Prerequisite: ELC 121
Credit: 4 semester hours
Lecture: 3 Lab: 2

**ELC 123 -
Motors and Wiring Systems**

IAI: None 1.2
The Motors and Wiring Systems course emphasizes the principles of AC motors. Types of AC motors taught are split-phase, capacitor, repulsion, shaded-pole, universal, and three-phase motors. Wiring systems of less than 400 volts, 480/277 volts, three-phase delta, blueprint reading, and wiring systems for distribution are also covered.
Prerequisite: ELC 122
Credit: 4 semester hours
Lecture: 3 Lab: 2

**ELC 125 -
Safe Electrical Work Practices**

IAI: None 1.2
Safe Electrical Work Practices is designed to encourage safe work practices in the electrician's field. The curriculum is based on the NFPA 70E, which is used by employers to help them comply with the Occupational Safety and Health Administration (OSHA) requirements. Among the topics covered are achieving a safe work environment, the use of protective equipment and clothing, and the history of electrical safety culture.
Prerequisite: ELC 120
Credit: 1 semester hour
Lecture: 1.0 Lab: 0

**ELC 130 -
OSHA 30 and Disaster Response**

IAI: None 1.2
OSHA 30 and Disaster Response is designed to provide students an awareness of the safety and health hazards that disaster site workers may encounter as well as the personal protective equipment and proper documentation procedures that may be used to mitigate the hazards. Participates will support the use of an Incidental Command System through the safe performance of their job responsibilities. Students will be made aware of the effects of traumatic incident stress that can result from working conditions and learn measures to reduce this stress.
Prerequisites: ELC 120
Credit: 3 semester hours
Lecture: 3 Lab: 0

**ELC 140 -
The Labor Movement 1865-1980**

IAI: None 1.2
The Labor Movement 1865-1980 course is designed to give the student a basic understanding of the rise of the American labor movement. Among the topics covered are the change from an agricultural society to the Industrial Revolution, the role of labor in the post-Civil War westward expansion, the need for industrial production during the two World Wars and the Great Depression, and the PATCO air traffic controllers strike.
Prerequisites: ELC 120
Credit: 1 semester hour
Lecture: 1 Lab: 0

**ELC 141 -
The Labor Movement 1975-Present**

IAI: None 1.2
The Labor Movement 1975-Present course is designed to give the student a general understanding of the state of the American labor movement over the last thirty years. Among the topics covered are the shifts in the American political arena concerning labor, the decline in private sector manufacturing unions after the PATCO air traffic controllers strike, the politicization of OSHA and the NLRB, and recent attacks on public sector unions.
Prerequisites: ELC 140
Credit: 1 semester hour
Lecture: 1 Lab: 0

**ELC 142 -
Labor Movement, Present & Future**

IAI: None 1.2
Labor Movement, Present & Future is designed to give the student a broad understanding of the current state of the American labor movement, and examines possible future developments based on present trends. The effect of increased cooperation with labor organizations in other nations is also discussed. Among the topics covered will be the rise of public sector union membership, lessons from the Occupy Movement, fast food workers' strikes, the movement for a living wage, and global cooperation of trade unions.
Prerequisites: ELC 141
Credit: 1 semester hour
Lecture: 1 Lab: 0

**ELC 243 -
Alternating Current**

IAI: None 1.2
The Alternating Current course is a review of alternating current with emphasis on inductance, grounding studies, inductance reactance, capacitive reactance and mathematics for AC circuits. Included also are AC series and parallel circuits, plus power factor correction and problems.
Prerequisite: ELC 123
Credit: 4 semester hours
Lecture: 3 Lab: 2

**ELC 244 -
Electronics Circuitry**

IAI: None 1.2
The Electronics Circuitry course focuses on basic electronics concepts, basic rectifiers, filter circuits and power supplies, and amplifier circuits. Also covered are audio amplifiers, time delays and relays, and controls.
Prerequisite: ELC 243
Credit: 4 semester hours
Lecture: 3 Lab: 2

**ELC 245 -
Motor Control**

IAI: None 1.2
The Motor Control course includes starting protective controls, starters and relays, blueprint reading, job and reverse circuits, sequence control circuits, circuit analysis, and trouble shooting.
Prerequisite: ELC 244
Credit: 4 semester hours
Lecture: 3 Lab: 2

**ELC 246 -
Power Controls**

IAI: None 1.2
The Power Controls course includes power controls, control of DC motors, process control, air conditioning and refrigeration, welding control, instrumentation, static control basic concept and logic circuits, and static control application of elements. Also included is a review of code and static control circuit analysis.
Prerequisite: ELC 245
Credit: 4 semester hours
Lecture: 3 Lab: 2

COURSE DESCRIPTIONS

**ELC 247 -
Advanced Studies I**

IAI: None 1.2
The Advanced Studies I course begins the fifth year of Electricians Apprenticeship. The main focus of this course is advanced studies in electronics, codeology, and code design blueprints.
Prerequisite: ELC 246
Credit: 4 semester hours
Lecture: 3 Lab: 2

**ELC 248 -
Advanced Studies II**

IAI: None 1.2
The Advanced Studies II course is the final class of this program. Students will receive advanced and in-depth instruction in three areas: programmable controllers, blueprints, and air conditioning controls.
Prerequisite: ELC 247
Credit: 4 semester hours
Lecture: 3 Lab: 2

**ELC 249 -
Electrician Internship I**

IAI: None 1.2
The Electrician Internship course has been developed and established as the on-the-job component of the Electrician Apprenticeship program, consisting of work relating to the wiring of residential, commercial, industrial, and/or specialized electrical systems. All of the on-the-job work-related activities will be performed under the direct supervision of a journeyworker. Students may repeat this course one time.
Prerequisite: ELC 121
Credit: 1 semester hour
Lecture: 0 Lab: 5

**ELC 299 -
Special Topics in Apprenticeship**

IAI: None 1.2
Special Topics in Apprenticeship is designed to meet the needs and interests of prospective Electrician Apprentices as well as certificate completers of the program. Course requirements will be based on the topics under study and the curriculum that is presented. This course will allow additional structured classroom and/or distance learning opportunities.
Prerequisite: ELC 120 and ELC 121
Credit: 1-3 semester hours
Lecture: 1-3 Lab: 0

Art**ART 101 -
Drawing and Composition I**

IAI: None 1.1
Drawing and Composition I is an introduction to fundamental techniques and concepts of representational and expressive drawing within a variety of media. Emphasis is on object representation, spatial illusion, and the organization of structural relationships in two-dimensional space.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 4

**ART 102 -
Drawing and Composition II**

IAI: None 1.1
Drawing and Composition II is a continuation of ART 101 with greater emphasis on skill in handling materials, exploration of technique, organization of composition, and further development of awareness toward individual concept, theory, choice, process, and change. The interpretation of form and composition in two-dimensional space is reinforced.
Prerequisite: ART 101 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 4

**ART 103 -
Design I**

IAI: None 1.1
Design I is a study of basic artistic expression in two-dimensional design. Studio problems investigate the theoretical principles of composition, form, value, color, balance, pattern and texture.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 4

**ART 104 -
Color Theory**

IAI: None 1.1
Color Theory is a study of the formal and expressive properties of color based upon the theories of Itten and Albers. Studio problems investigate color compositions using the theoretical principles of color design.
Prerequisite: ART 103 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 4

**ART 111 -
Painting I**

IAI: None 1.1
Painting I is an introduction to the painting medium and its creative procedures in approaches to individual problem-solving. Included are materials and techniques of the medium along with various subjective problems involving form, color, and composition, utilizing criticism and aesthetics.
Prerequisite: ART 102
Credit: 3 semester hours
Lecture: 2 Lab: 4

ART**ART 115 -
Introduction to Commercial Art**

IAI: None 1.1
Introduction to Commercial Art is a study in the layout of photo-ready art for reproduction used in commercial art. Topics include: typography, symbols, illustration, and photography. Students are introduced to page layout, illustration, and photo manipulation software on computer. The class is a studio class and will visit an advertising agency, a print shop and photographic studio.
Prerequisite: None
Credit: 4 semester hours
Lecture: 2 Lab: 4

**ART 121 -
Ceramics I**

IAI: None 1.1
Ceramics I is an introduction to the fundamental techniques and concepts of the ceramic arts. The emphasis of this class is the exploration of the ceramic medium as a material for creative expression. Functional and sculptural aspects of the medium will be considered through assignments incorporating hand building, wheel throwing, surface treatments and glazing techniques.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 4

**ART 122 -
Ceramics II**

IAI: None 1.1
Ceramics II is a continuation of Ceramics I. The processes, techniques and aesthetic concepts in the ceramic media are further developed and intensified. Emphasis is placed on individual exploration in either hand building and/or wheel-thrown work by furthering personal awareness of form, content, and design.
Prerequisite: ART 121 or equivalent.
Credit: 3 semester hours
Lecture: 2 Lab: 4

**ART 131 -
Introduction to Visual Arts**

IAI: F2 900 1.1
Introduction to Visual Arts is a study of aesthetic concepts and their expression in the great art of all periods through the means of lecture, audio-visual aids, and museum visits. This class is intended for students not majoring in studio art.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

**ART 141 -
Introduction to Non-Western
Visual Art**

IAI: F2 903N 1.1
Introduction to Non-Western Visual Art is a study of the cultural and aesthetic values of the Oriental, the Native American, the African and Oceanic peoples of the world. Through an exposure to the artistic products of Non-Western peoples, students gain a more international appreciation of aesthetics, and the sociological, spiritual and political content in visual art. The class is taught through slide lectures, video tapes, and field trips. Introduction to Non-Western Visual Art is a Non-Western humanities credit class.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**ART 201 -
Life Drawing**

IAI: None 1.1
Life Drawing is a figurative approach which emphasizes drawing and composition from the structure, proportions and movement of the human model through contour, gesture, and representational and expressive exercises in a variety of media.
Prerequisite: ART 102 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 4

**ART 203 -
Design II**

IAI: None 1.1
Design II covers three-dimensional design. Sculptural works are constructed in a variety of media to explore problems of volume and space relationships. (Offered spring semester.)
Prerequisite: ART 103 or consent of instructor.
Credit: 3 semester hours
Lecture: 0 Lab: 6

**ART 212 -
Painting II**

IAI: None 1.1
Painting II continues the processes, techniques and ideas begun in Painting I by developing and intensifying individual direction in the painting media, with further exploration through critiques and discussions for individual comprehension of aesthetic awareness.
Prerequisite: ART 111
Credit: 3 semester hours
Lecture: 2 Lab: 4

**ART 215 -
Intaglio Printmaking**

IAI: None 1.1
Intaglio Printmaking is an introduction to traditional and contemporary techniques with an emphasis on image development, proper Intaglio printing techniques, and creative experimentation. Appropriate instruction in the health and safety issues relative to the methods and materials of the course will also be stressed.
Prerequisite: ART 101 and 103, or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 4

**ART 216 -
Relief Printmaking**

IAI: None 1.1
Relief Printmaking is an exploration of traditional and contemporary techniques, with an emphasis on image development, proper Relief printing techniques, and creative experimentation. Appropriate instruction in the health and safety issues relative to the methods and materials of the course will also be stressed. Three hours of studio time is required each week in addition to the lecture and laboratory hours.
Prerequisite: ART 101 and 103, or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 4

**ART 246 -
Art History Through Travel**

IAI: None 1.1
Art History Through Travel is a study of the major monuments in architecture, painting, and sculpture from Paleolithic times to the present in world art. Instruction is based upon pre-departure topical lectures and foreign travel to major historical sites and museum collections. Specialized in-depth studies of related cultures (e.g., Greece and Italy, Egypt and Israel, Spain and Morocco, India and Nepal, Indonesia and Malaysia, Mexico and Central America) will periodically be offered. The lectures and travel itinerary vary from year to year.
This course can be taken four times for credit.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**ART 251 -
History of Art I**

IAI: F2 901 1.1
History of Art I is a study of the major monuments in architecture, painting, and sculpture from Paleolithic time to the Byzantine and Islamic eras.
This course is primarily for art majors.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**ART 252 -
History of Art II**

IAI: F2 902 1.1
History of ART II is a study of the major monuments in architecture, painting, and sculpture from the medieval period to the 18th century. This course is primarily for art majors.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**ART 253 -
History of Art III**

IAI: F2 902 1.1
History of Art III is a study of the major monuments in architecture, painting, and sculpture from the romantic period to the contemporary period.
This course is primarily for art majors.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**ART 283 -
Art in the Elementary Schools**

IAI: None 1.1
Art in the Elementary Schools is an introduction to art education at the primary school level with emphasis on various approaches to art education, art activities in the classroom, methods of display, and evaluation.
This course is intended for educators.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 2

**ART 299 -
Advanced Art Projects**

IAI: None 1.1
Advanced Art Projects are studies for advanced art students to concentrate in an area of interest. ART 299 may not be used to provide a substitution for an approved catalog course, nor will it fulfill specific general education requirements toward the A.A./A.S. degrees. Students must receive approval from the Dean of Social Sciences & Humanities and the VP of Liberal Arts and Sciences.*
Prerequisite: 2.5 minimum GPA for 15 college level credit hours.
Credit: 1-4 semester hours
Lecture: 1 Lab: 2-6
*May be repeated three times for credit.

Astronomy**AST****AST 202 -
Introduction to Astronomy**

IAI: P1 906L 1.1
Introduction to Astronomy is a broad survey of modern astronomy examining the solar and stellar systems. Topics discussed range from an overview of the structure and motion of comets, asteroids, and the planets and their natural satellites, to an examination of our present understanding of the nature, origin and evolution of the sun, stars, galaxies, and special objects. The laboratory provides an opportunity to learn about lenses and mirrors, construction and use of telescopes, how to make measurements, and how to read star charts and locate objects in the heavens. AST 202 is suitable for science and non-science students.
Prerequisite: Sufficiently high placement test score; or completion of MTH 092, or MTH 096A or MTH 096S, with a grade of "C" or better; or equivalent.
Credit: 4 semester hours
Lecture: 3 Lab: 3

COURSE DESCRIPTIONS

Atmospheric Science **ATS****ATS 105 -
Introduction to Atmospheric Science**

IAI: P1 905L 1.7

Introduction to Atmospheric Science is an in-depth examination of the Earth's weather and climate. The course covers a broad range of topics including the origin, composition, and structure of the atmosphere; the formation of clouds and precipitation; the formation of organized weather systems; weather prediction; air pollution; climates; and atmospheric optics. This course fulfills laboratory science requirements for students both inside and outside the curriculum.

Prerequisite: Sufficiently high placement test score, or completion of MTH 092, MTH 096A or MTH 096S with a grade of "C" or better, or equivalent.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**Automotive Service
Technology** **ATM****ATM 105 -
Introduction to Brake
and Chassis Systems**

IAI: None 1.2

The Introduction to Brake and Chassis Systems course offers the student an introduction to automotive brake and steering/suspension systems. Theory and operation of these systems is covered. Students will complete basic service procedures on brake and steering/suspension systems to prepare them for initial employment in the automotive service industry and further training in the Automotive Service Technology program. Safety in the use of automotive tools, equipment and chemicals is also covered.

Corequisite: Completion of or concurrent enrollment with ATM 106 and ATM 140.

Credit: 3 semester hours

Lecture: 1

Lab: 4

**ATM 106 -
Introduction to Automotive Electrical
Systems and Powertrains**

IAI: None 1.2

The Introduction to Automotive Electrical Systems and Powertrains course offers the student an introduction to automotive electrical and engine/transmission systems. Theory and operation of these systems is covered. Students will complete basic service procedures on electrical and engine/transmission systems to prepare them for initial employment in the automotive service industry and further training in the Automotive Service Technology program. Safety in the use of automotive tools, equipment and chemicals is also covered.

Corequisite: Completion or concurrent enrollment with ATM 105 and ATM 140.

Credit: 3 semester hours

Lecture: 1

Lab: 4

**ATM 107 -
Automotive Electronic
Fundamentals**

IAI: None 1.2

Automotive Electronic Fundamentals is a continuation of ATM 106 (Introduction to Automotive Electrical Systems and Powertrains). This class will emphasize electrical and electronic theory and analysis and introduce students to solid-state electronic components and systems. Students will determine circuit types and analyze both mathematically and with a digital multimeter.

Prerequisite: ATM 105, ATM 106, or consent of instructor.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**ATM 114 -
Brakes**

IAI: None 1.2

The Brakes course continues the student's studies of automotive brake systems. This course covers in depth diagnosis, service, and repair procedures of base brake systems and anti-lock brake systems. Live work will be performed on customer vehicles in a real-world shop environment.

Prerequisite: ATM 105, ATM 106, or consent of instructor.

Credit: 4 semester hours

Lecture: 2

Lab: 4

**ATM 140 -
Engine Diagnosis and Repair**

IAI: None 1.2

The Engine Diagnosis and Repair course provides basic information on gasoline engine theory, construction, systems, and diagnosis. This information will be applied to mechanical testing and repair procedures for the entire engine. The school provides late model engines for disassembly and reassembly.

Corequisite: Completion of or concurrent enrollment with ATM 105 and ATM 106, or consent of instructor.

Credit: 6 semester hours

Lecture: 4

Lab: 4

**ATM 203 -
Heating and Air Conditioning Systems**

IAI: None 1.2

The Heating and Air-Conditioning Systems course is a lecture-laboratory course designed to train the student in theory, construction, installation, diagnosis, and proper servicing of all types of automotive heating and air conditioning systems. Emphasis is on safety procedures, practical application, and refrigerant recycling to protect the environment.

Prerequisite: ATM 106 and ATM 107, or consent of instructor.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**ATM 221 -
Steering and Suspension**

IAI: None 1.2

The Steering and Suspension course continues the student's studies of automotive steering and suspension systems. This course covers in-depth diagnosis, service, and repair procedures of steering and suspension systems, and electronic suspension and steering. Live work will be performed on customer vehicles in a real-world shop environment.

Prerequisite: ATM 105 and ATM 106, or consent of instructor.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**ATM 222 -
Manual Transmissions/Transaxles**

IAI: None 1.2

The Manual Transmission/Transaxles course provides training and hands-on experience in diagnosis, service and repair of manual transmissions, transaxles, clutches, drive shafts, CV joints and half shafts, and 4-wheel drive systems.

Prerequisite: ATM 105 and ATM 106, or consent of instructor.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**ATM 223 -
Automotive Electrical Circuits**

IAI: None 1.2

The Automotive Electrical Circuits course is a course designed in diagnosis and repair of automotive electrical circuits and diagnosis of automotive electronic circuitry. Emphasis will be on accessory circuits and components.

Prerequisite: ATM, 105, ATM 106, ATM 107, or consent of instructor.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**ATM 228 -
Engine Performance I**

IAI: None 1.2

The Engine Performance I course is designed to provide instruction and experience in the theory of operation, diagnosis, and service of solid state, computer-controlled, and distributorless ignition systems. It is designed to provide instruction and experience in the theory of operation, diagnosis, and service of automotive fuel systems and their related sub-systems. This course covers related emission systems and usage of ignition scopes, digital analyzers, scan tools, and other hand held equipment.

Prerequisite: ATM 105, ATM 106, ATM 140, or consent of instructor.

Credit: 5 semester hours

Lecture: 3

Lab: 5

COURSE DESCRIPTIONS

**ATM 229 -
Engine Performance II**

IAI: None

1.2

The Engine Performance II course is a continuation of Engine Performance I. This course is designed to analyze, diagnose, and test second generation ignition, fuel, and On-board Diagnostic II (OBDII) computer systems. Emphasis is placed on scan tool analysis and recording along with current graphing of fuel, ignition and sub-systems. Analysis will be performed by the usage of aftermarket and manufacturers' scan tools and digital storage scopes interfaced with induction current probes.

Prerequisite: ATM 105, ATM 106, ATM 140, and ATM 228, or consent of instructor.

Credit: 5 semester hours

Lecture: 3

Lab: 5

**ATM 236 -
Advanced Computers/Controls
Systems**

IAI: None

1.2

The Advanced Computers/Controls Systems course is a lecture-laboratory course designed to increase the student's level of knowledge of automotive computer-controlled systems. Topics include in-depth analysis and testing of OBDII, ABS, theft deterrent systems, body electrical systems, and data communications networks. Analysis will be performed using digital meters, oscilloscopes, PC interfacing software, and other hand held equipment.

Prerequisite: ATM 105, ATM 106, ATM 107, ATM 140, and ATM 228, or consent of instructor.

Credit: 3 semester hours

Lecture: 1

Lab: 4

**ATM 242 -
Automatic Transmissions/Transaxles**

IAI: None

1.2

Automatic Transmissions/Transaxles is a lecture-laboratory course designed to increase the student's level of knowledge of automotive automatic transmissions. The course covers theory of operation, diagnosis and repair of modern automatic transmissions. On vehicle diagnosis and service of automatic transmission hydraulics and electronics is covered. Students will disassemble and reassemble automatic transmissions and verify proper operation on the transmission dynamometer.

Prerequisite: ATM 105, ATM 106, ATM 107, ATM 223, and ATM 228 with a passing grade or consent of the instructor.

Credit: 5 semester hours

Lecture: 3

Lab: 5

**ATM 290 -
Special Topics**

IAI: None

1.2

The Special Topics course is designed to satisfy topics of special interest in a particular area of automotive. Topics will vary from semester to semester. Students may repeat this course up to a maximum of six credit hours.

Prerequisite: None.

Credit: 1-6 semester hours

Lecture: 1-6

Lab: 0

**Aviation Maintenance
Technology**

AVM

**AVM 101 -
Materials and Processes**

IAI: None

1.2

The Materials and Processes course consists of theory and practice in nondestructive testing methods, basic heat treating, aircraft hardware and materials, inspection and checking of welds. Special stress will be on the fabrication of flexible and rigid lines.

Corequisite: Completion of or concurrent enrollment with AVM 103 and AVM 105.

Credit: 3 semester hours

Lecture: 2.5

Lab: 2.5

**AVM 102 -
Basic Electricity**

IAI: None

1.2

The Basic Electricity course is oriented to the aircraft system. This includes capacitance, inductance, calculating and measuring electrical power, current, resistance, continuity, and leakages. Reading schematic diagrams is emphasized. A study is also made of acid and alkaline batteries.

Prerequisite: AVM 101 or consent of instructor.

Credit: 3 semester hours

Lecture: 2

Lab: 3

**AVM 103 -
Aviation Mathematics and Physics**

IAI: None

1.2

The Aviation Mathematics and Physics course is geared to the needs of the aviation maintenance technician. This includes extracting roots, raising numbers to a given power, and computing the areas and volumes of geometrical shapes. Also included is solving ratio, percentage, and proportion problems. Algebraic operations in the use of positive and negative numbers is stressed. The physics material will offer the principles of simple machines, sound, fluid, and heat dynamics.

Corequisite: Completion of or concurrent enrollment with AVM 101 and AVM 105.

Credit: 2 semester hours

Lecture: 1

Lab: 2

**AVM 104 -
Records and Publications**

IAI: None

1.2

The Records and Publications course includes record keeping and reference to current maintenance publications. Students will be required to write descriptions of aircraft condition and work performed, as well as complete required maintenance forms, records, and inspection reports. Students will also learn to select and use FAA, manufacturers' data sheets, and Federal Aviation Regulations. Students will be able to read and interpret technical data and understand the mechanic's privileges and limitations.

Prerequisite: AVM 101 or consent of instructor.

Credit: 3 semester hours

Lecture: 2.5

Lab: 2.5

**AVM 105 -
Aircraft Drawing -
Weight and Balance**

IAI: None

1.2

The Aircraft Drawing course is designed to make use of drawings, symbols, and schematic diagrams. Students will use blueprint information, charts, and graphs. Also covered is the weighing of aircraft with the completion of weight and balance checks and the recording of data.

Corequisite: Completion of or concurrent enrollment with AVM 101 and AVM 103.

Credit: 3 semester hours

Lecture: 2.5

Lab: 2.5

**AVM 106 -
Cleaning and Corrosion Control**

IAI: None

1.2

The Cleaning and Corrosion Control course covers detection, identification and treatment of corrosion on aircraft structures. Corrosion prevention strategy and phenomenon theory will be investigated.

Prerequisite: AVM 104 or consent of instructor.

Credit: 3 semester hours

Lecture: 2.5

Lab: 2.5

**AVM 160 -
Fuel and Lubrication Systems**

IAI: None

1.2

The Fuel and Lubrication Systems course covers the identification and selection of aircraft fuels, lubricants, and their systems as they apply to specific operating conditions and other utility requirements. Included is a detailed study of carburetion and fuel injection methods as they serve the complex fuel metering demands of modern aircraft powerplants.

Prerequisite: AVM 162 or consent of instructor.

Credit: 6 semester hours

Lecture: 5

Lab: 5

**AVM 161 -
Engine Support Systems**

IAI: None

1.2

The Engine Support Systems course is a theoretical and practical approach to the systems that coordinate the powerplant. They are engine instruments, fire protection, induction and supercharging, cooling, and exhaust systems. Inspections of these systems will be stressed.

Prerequisite: AVM 160 or consent of instructor.

Credit: 3 semester hours

Lecture: 2

Lab: 3

**AVM 162 -
Basic Powerplants**

IAI: None

1.2

The Basic Powerplants course is a study of each engine part in theoretical and practical detail. Students will disassemble an aircraft engine and determine dimensional compliance with overhaul specifications while using precision instruments and gauges. The engine will be reassembled to operational standards. Students will be supervised in the operation of assorted types of reciprocating engines early in the course for orientation purposes.

Prerequisite: AVM 106 and AVM 247, or consent of instructor.

Credit: 6 semester hours

Lecture: 5

Lab: 5

COURSE DESCRIPTIONS

**AVM 163 -
Ignition Systems**

IAI: None

1.2

The Ignition Systems course is a complete study of high and low tension systems for reciprocating and turbine engines. Magnetos will be treated in detail. Special emphasis will be placed on switches, harnesses and spark plugs with related troubleshooting under operational conditions.

Prerequisite: AVM 162 or consent of instructor.

Credit: 3 semester hours

Lecture: 3

Lab: 2

**AVM 164 -
Advanced Powerplants**

IAI: None

1.2

The Advanced Powerplants course is a theoretical and practical approach to servicing, repair, overhaul, and operation of reciprocating and turbine engines with stress on developing troubleshooting skills. Theory and operation of induction, cooling, and exhaust systems for reciprocating and turbine engines will be covered. Removal and installation of engines and components and control rigging will be practiced.

Prerequisite: AVM 162 or consent of instructor.

Credit: 6 semester hours

Lecture: 5

Lab: 5

**AVM 165 -
Engine Electrical Systems**

IAI: None

1.2

The Engine Electrical Systems course consists of theory and practice in the repair and testing of engine electrical components including starters, generators, alternators and their regulating devices, switches, controls, wiring and circuit protection methods.

Prerequisite: AVM 160 or consent of instructor.

Credit: 2 semester hours

Lecture: 1

Lab: 2

**AVM 166 -
Propeller Systems**

IAI: None

1.2

The Propeller Systems course covers the theory and practice of propeller installation and removal, inspection, servicing and repair of fixed pitch, constant speed, full feathering propellers and their governing systems.

Prerequisite: AVM 160 or consent of instructor.

Credit: 3 semester hours

Lecture: 2.5

Lab: 2.5

**AVM 241 -
Aircraft Finishing and Covering**

IAI: None

1.2

The Aircraft Finishing and Covering course presents procedures concerning the interior and exterior structure of airframes as they apply to various finishing methods. Emphasis will center on application of trim, letters, touch up paint and dope, inspection of finishes and identification of defects. An introduction to fabric-covering, plastics, honeycomb, laminated structures, bonded structures, interiors, doors and windows will also be covered.

Prerequisite: AVM 106 or consent of instructor.

Credit: 3 semester hours

Lecture: 2.5

Lab: 2.5

**AVM 242 -
Cabin Atmosphere Control Systems**

IAI: None

1.2

The Cabin Atmosphere Control Systems course covers the inspection, checking, troubleshooting, service and repair of heating, cooling, air conditioning, pressurization, and oxygen systems.

Prerequisite: AVM 246 or consent of instructor.

Credit: 2 semester hours

Lecture: 1

Lab: 2

**AVM 243 -
Aircraft Welding**

IAI: None

1.2

The Aircraft Welding course is a theoretical and practical approach to the methods of aircraft fabrication and repair by gas, arc, and heliarc welding. To be covered is the welding of steel, magnesium, titanium, and aluminum, the soldering of stainless steel and brass; brazing, and the fabrication of tubular structures.

Prerequisite: AVM 246 or consent of instructor.

Credit: 1 semester hour

Lecture: 1

Lab: 1

**AVM 244 -
Aircraft Auxiliary Systems**

IAI: None

1.2

The Aircraft Auxiliary Systems course covers the inspection, checking, troubleshooting, servicing, and repair of aircraft position and warning, ice and rain control, and fire protection systems.

Prerequisite: AVM 246 or consent of instructor.

Credit: 1 semester hour

Lecture: 1

Lab: 1

**AVM 245 -
Aircraft Electrical Systems**

IAI: None

1.2

The Aircraft Electrical Systems course is designed to familiarize students with the installation, checking, troubleshooting, servicing, and repair of aircraft electrical systems and components.

Prerequisite: AVM 102 or consent of instructor.

Credit: 3 semester hours

Lecture: 2.5

Lab: 2.5

**AVM 246 -
Aircraft Instruments and
Communication Systems**

IAI: None

1.2

The Aircraft Instruments and Communication Systems course is designed to give students a basic understanding of installation, inspection, checking, servicing, and repair of aircraft instrument, communication and navigation systems.

Prerequisite: AVM 104 or consent of instructor.

Credit: 2 semester hours

Lecture: 1

Lab: 2

**AVM 247 -
Aircraft Metal Structures**

IAI: None

1.2

The Aircraft Metal Structures course covers the inspection, installation, repair, checking, servicing, and fabrication of sheet metal.

Prerequisite: AVM 250 or consent of instructor.

Credit: 6 semester hours

Lecture: 5

Lab: 5

**AVM 248 -
Hydraulic and Pneumatic Control
Systems**

IAI: None

1.2

The Hydraulic and Pneumatic Control Systems course covers the repair, inspection, checking, servicing, and troubleshooting of hydraulic and pneumatic systems.

Also covered is the identification and selection of hydraulic lubricants.

Corequisite: Completion of or concurrent enrollment with AVM 249 and AVM 250.

Credit: 3 semester hours

Lecture: 2.5

Lab: 2.5

**AVM 249 -
Aircraft Fuel Systems**

IAI: None

1.2

The Aircraft Fuel Systems course explains checking, inspection, repair, troubleshooting, servicing, management, transfer, and defueling of fuel systems. To be included are fuel pump, pressure fueling, components, fluid quantity, pressure and temperature warning systems.

Corequisite: Completion of or concurrent enrollment with AVM 248 and AVM 250.

Credit: 1 semester hour

Lecture: 1

Lab: 1

**AVM 250 -
Assembly and Rigging**

IAI: None

1.2

The Assembly and Rigging course provides practical knowledge in rigging alignment, assembly, balancing, and jacking of aircraft.

Corequisite: Completion of or concurrent enrollment with AVM 248 and AVM 249.

Credit: 3 semester hours

Lecture: 2.5

Lab: 2.5

**AVM 251 -
Landing Gears Systems**

IAI: None

1.2

The Landing Gears Systems course includes the inspection, checking, servicing and repair of landing gear, retraction systems, shock struts, brakes, wheels, tires and steering systems.

Prerequisite: AVM 250 or consent of instructor.

Credit: 3 semester hours

Lecture: 2.5

Lab: 2.5

**AVM 252 -
Airframe Inspection**

IAI: None

1.2

The Airframe Inspection course covers the performance of airframe conformity and airworthiness inspection procedures.

Prerequisite: AVM 246 or consent of instructor.

Credit: 2 semester hours

Lecture: 2

Lab: 1

**AVM 285 -
Independent Study**

IAI: None

1.2

The Independent Study course is for the aviation maintenance technology student who wishes to take their oral and practical FAA exams at Rock Valley College. A repeat of this course, up to six credits, is permissible.

Prerequisite: None

Credit: 1-6 semester hours

Lecture: 1-6

Lab: 0

COURSE DESCRIPTIONS

**AVM 290 -
Special Topics**

IAI: None 1.2
The Special Topics course is designed to satisfy topics of special interest in a particular area of aviation. Topics will vary from semester to semester. Students may repeat this course up to a maximum of six credit hours.
Prerequisite: None
Credit: 1-6 semester hours
Lecture: 1-6 Lab: 0

Biology**BIO****BIO 100 -
Introductory Human Biology**

IAI: L1 904 1.1
Introduction to Human Biology is intended to equip Liberal Arts majors having limited or no science background with knowledge of major biological concepts including cellular biology, molecular biology, human structure and function, genetics, evolution and heredity using humans as the study organism. Emphasis will be placed on human health and disease, as well as lifestyle choices that impact human health. Credit will not be counted toward graduation if taken after any college anatomy course. (Recommended for students pursuing an Allied Health track.)
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BIO 103 -
Introductory Life Science**

IAI: L1 900 1.1
Introductory Life Science is designed as an introductory life science course for liberal arts majors or other students interested in a survey of biological principles. Topics covered range from the cell and the theory of evolution to genetic engineering. Credit for BIO 103 will not be counted toward graduation if students have previous credit for BIO 162, BIO 201, or BIO 205. Recommended that BIO 104 be taken in same semester as BIO 103. (Recommended for students pursuing an Allied Health track.)
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BIO 104 -
Introductory Life Science Laboratory**

IAI: L1 900L 1.1
Introductory Life Science Laboratory is intended as a laboratory experience to complement BIO 103. Students meet two hours each week and explore basic biological concepts through hands-on exercises and online laboratories. Credit for BIO 104 will not be counted toward graduation if students have previous credit for BIO 201 or BIO 205. Recommended that students take BIO 103 and 104 in the same semester. (Recommended for students pursuing an Allied Health track.)
Prerequisite: This course is limited to students currently enrolled in BIO 103 or who have completed BIO 103 or its equivalent.
Credit: 1 semester hour
Lecture: 0 Lab: 2

**BIO 106 -
Environmental Science**

IAI: L1 905 1.1
Environmental Science is designed as an introductory life science course for liberal arts majors or other students interested in environmental issues. Topics covered include ecology, pollution, and other environmental issues, with emphasis on current events and possible future solutions.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BIO 107 -
Environmental Science Laboratory**

IAI: L1 905L 1.1
Environmental Science Laboratory is intended as a laboratory experience to complement BIO 106. Students meet two hours each week and explore environmental science topics through hands-on exercises, videos, field experiences, and computer activities. Recommended that students take BIO 106 and 107 in the same semester.
Prerequisite: This course is limited to students currently enrolled in BIO 106 or who have completed BIO 106 or its equivalent.
Credit: 1 semester hour
Lecture: 0 Lab: 2

**BIO 113 -
Plants and Society**

IAI: L1 901L 1.1
Plants and Society is a laboratory-based introductory life science course for liberal arts majors or other students interested in a survey of biological principles using plants as the study organism. Course concepts include cell and molecular biology, plant structure and function, plant genetics and heredity, evolution, ecology, and the inter-relationships between plants and humans.
Prerequisite: None
Credit: 4 semester hours
Lecture: 3 Lab: 3

**BIO 137 -
Tropical Marine Biology**

IAI: None 1.1
Tropical Marine Biology is an elective field experience class with animal and plant identification in a tropical region. Emphasis is on marine organisms with identification by common name. There is also an orientation to the culture of the country visited. Methods of study include lectures, field trips, wading in tide pools, and snorkeling at coral reefs. Saturday orientations are held in late fall with an eight- to ten-day field trip during winter intersession offered in alternate years.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 2

**BIO 140 -
Introduction to Evolution**

IAI: L1 907 1.1
Introduction to Evolution is designed to introduce liberal arts majors or other students to the major principles of evolutionary biology. The course will include a history of evolutionary thought and will work through the fundamental concepts of geological evolution and its impact on life, the origins and history of life, mechanisms of evolution, and evolutionary genetics. Although the emphasis will be on major concepts, the course will also provide some understanding of the methods used in evolutionary investigations.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BIO 150 -
Microbes and Society**

IAI: L1 903 1.1
Microbes and Society is designed for liberal arts majors or other students who wish to learn more about microbes. This class emphasizes scientific enquiry through selected concepts in biology such as organization, function, heredity, evolution, and ecology using microbes as the study organism. Topics may include a survey of microorganisms, the role of microorganisms in health and disease, ecological and economic roles of microbes and the role of microorganisms in biotechnology.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BIO 162 -
Human Heredity**

IAI: L1 906 1.1
Human Heredity is designed for liberal arts majors or other students who want to learn more about the principles of human heredity, population genetics, and recent discoveries in genetics including mapping of the human genome and genetic technology. The ethical issues raised due to advances in human heredity will also be examined. Credit for BIO 162 will not be counted toward graduation if students have previous credit for BIO 103.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BIO 164 -
Field Ecology**

IAI: None 1.1
Field Ecology integrates concepts of ecology, natural history, and environmental science using both lecture and field experiences. Emphasis will be placed on scientific inquiry skills through the identification of native flora and fauna and analysis of the influence of human activities, weather, soil and geologic forces on the ecological zones visited.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 2

COURSE DESCRIPTIONS

**BIO 171 -
Biology of Human Disease**

IAI: None 1.1
Biology of Human Disease is designed for the general student who wishes to learn more about diseases affecting the human body, their causes, transmission, prevention and treatment. Topics include viral diseases, sexually transmitted diseases, AIDS, and cancer.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

***See update in Catalog Addendum

**BIO 185 -
Foundations of Anatomy and Physiology**

IAI: None 1.1
Foundations of Anatomy and Physiology is intended for students in pre-nursing, pre-respiratory therapy, pre-radiology, physical education, or other fields requiring only one semester of Anatomy and Physiology. This course undertakes a systems-approach, comprehensive study of the human body. Lab emphasizes the interrelationships between structure and function. Credit for BIO 185 will not be counted towards graduation if students have credit in BIO 281 and BIO 282.
Prerequisite: CHM 105 or CHM 110; and either BIO 100 or BIO 103 with a "C" or better (recommend in the past 5 years).
Credit: 5 semester hours
Lecture: 4 Lab: 2

BIO 201 - *See update in Catalog
Fundamentals of Biology I Addendum**

IAI: LI 910L, BIO 910 1.1
Fundamentals of Biology I is the first of two courses required for life science and pre-professional majors such as pre-medicine, pre-dentistry, pre-pharmacy, and pre-veterinary medicine. This course provides an introduction to fundamental processes of organisms at the cellular and molecular level of organization. Course topics include biochemistry, cell structure and function, cellular metabolism, genetic information flow, and theory of inheritance. Credit for BIO 201 will not be counted toward graduation if students have previous credit for BIO 103 or BIO 205.
Prerequisite: None; Recommend completion of CHM 120, or equivalent.
Credit: 4 semester hours
Lecture: 3 Lab: 3

**BIO 202 -
Fundamentals of Biology II**

IAI: LI 910L, BIO 910 1.1
Fundamentals of Biology II is the second of two courses required for life science and pre-professional majors such as pre-medicine, pre-dentistry, pre-pharmacy, and pre-veterinary medicine. This course provides an introduction to higher levels of biological organization from the organism to the ecosystem. Course topics include organismal diversity, mechanisms of micro- and macro-evolution, behavioral ecology, and the dynamics and organization of populations, communities and ecosystems.
Prerequisite: BIO 201 with a "C" or better.
Credit: 4 semester hours
Lecture: 3 Lab: 3

**BIO 210 -
Introductory Field Botany**

IAI: None 1.1
Introductory Field Botany entails recognition of the major plant communities in the Northern Illinois area. Lecture and lab involve ecological study of the dominant plants in these communities, plant identification, plant form and function. Two-thirds of the time is spent in the field.
Prerequisite: None
Credit: 4 semester hours
Lecture: 2 Lab: 4
***See update in Catalog Addendum

**BIO 274 -
Microbiology**

IAI: None 1.1
Microbiology is a foundation course for students pursuing a variety of biological and medical professions, as well as other interested students. Emphasis is on the broad principles of microbiology, illustrating the interrelationships between microorganisms, their environments, and humans.
Prerequisite: CHM 105, CHM 110, or higher CHM course; and either BIO 100, 103, 150, 201, or 205 with a "C" or better (recommended within the last 5 years)
Credit: 4 semester hours
Lecture: 2 Lab: 4

**BIO 281 -
Human Anatomy and Physiology I**

IAI: None 1.1
Human Anatomy and Physiology I is designed for students pursuing admission to four-year nursing and other Allied Health programs. This in depth course covers approximately half the body systems, including cytology, histology, and the integumentary, skeletal, muscular and nervous systems. Laboratory exercises provide hands-on study through the use of prepared materials, cadavers, histological preparations, and computer simulations.
Prerequisite: CHM 120 or CHM 210 and either BIO 100, BIO 103, BIO 201, or BIO 205 with a "C" or better (recommend within last 5 years).
Credit: 4 semester hours
Lecture: 3 Lab: 3

**BIO 282 -
Human Anatomy and Physiology II**

IAI: None 1.1
Human Anatomy and Physiology II is a companion course to BIO 281 - Anatomy and Physiology I. Anatomy and Physiology II covers the remaining body systems including endocrine, circulatory, lymphatic, respiratory, digestive, urinary, endocrine and reproductive, as well as, fluid and electrolyte balance, and acid base balance.
Prerequisite: BIO 281
Credit: 4 semester hours
Lecture: 3 Lab: 3

**BIO 290 -
Applied Research in Biology**

IAI: None 1.1
Applied Research in Biology provides elective credit for serving as an intern in a field research environment. Students will learn about research methods, use of laboratory equipment, and the role of the research team.
Prerequisite: Permission of instructor.
Credit: 3 semester hours
Lecture: 0 Lab: 5-15

**Building Construction
Management****BCM****BCM 100 -
Introduction to
Construction Management**

IAI: None 1.2
Introduction to Construction Management will expose the students to the principles of basic construction management. A wide range of construction and project management topics will be discussed, including Contracts and Specifications, Estimating, Planning, Scheduling, Blueprint Reading, Material Management, Partnering and Team Building, Quality Management, and Safety. The class will utilize a case study approach to understand the many facets of Construction Management.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BCM 104 -
Construction Blueprint Reading**

IAI: None 1.2
Construction Blueprint Reading is an introductory survey course that relates the fundamental blueprint concepts to the actual processes of construction. Emphasis is on developing a broad knowledge in reading construction blueprint symbolization and terminology used in the residential and commercial construction industry. This course covers wood frame, concrete and steel frame structures. Students will perform basic estimating take-off functions and learn how to obtain information from a variety of schedules and resources.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 2

**BCM 117 -
Construction Materials & Methods**

IAI: None 1.2
Construction Materials and Methods is a course that surveys several manufactured products used in the residential and light commercial construction industry. Emphasis is placed on the understanding of the specific properties of materials to best help predict the performance of the material. Fundamental construction methods and techniques of these structural framing members are discussed with each material group. Sustainability and energy efficient concepts are also discussed with each material. Subjects covered include wood, concrete and steel.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

**BCM 120 -
Mechanical Systems**

IAI: None 1.2
Mechanical Systems is course that introduces the basic systems used in both residential and light commercial construction. HVAC, plumbing and electrical systems are discussed with application to basic functions, design and efficiency. Environmentally sustainable systems used in LEED/Green Building projects are presented and discussed as alternatives.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BCM 125 -
Construction Safety**

IAI: None 1.2
Construction Safety presents a comprehensive review of safety and health standards for the construction industry as required by the Occupational Safety and Health Administration & Department of Labor. An OSHA certification card is issued upon successful completion of this course.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BCM 137 -
Architectural CAD Drafting I**

IAI: None 1.2
Architectural CAD Drafting I presents the fundamental principles designed to allow the student to learn to communicate effectively in the graphic language. This course introduces the concepts and applications of CAD drafting techniques commonly used to produce "Working Drawings" of construction projects. A partial set of residential working drawings constitutes the major student project.
Prerequisite: BCM 104 or recent drafting experience
Credit: 3 semester hours
Lecture: 2 Lab: 2

**BCM 168 -
Construction Internship**

IAI: None 1.2
Construction Internship requires a supervised experience in a building construction project using a cooperative training plan agreed to by the instructor, participating firm and the student. The student must submit an application to the program Chair prior to mid-term of the previous semester and requires consent of the instructor or Associate Dean. Variable and repeatable credit (two repeats allowed) may be earned up to six hours.
Prerequisite: Current enrollment in the Building Construction Management curriculum; completion of at least 15 credits in BCM courses.
Credit: 1-6 semester hours
Lecture: 0 Lab: 5-30

**BCM 195 -
Construction Surveying I**

IAI: None 1.2
Construction Surveying I includes the fundamentals of plane surveying and the use of surveying equipment. The course is designed to emphasize the construction related aspects of surveying and includes the development of skills necessary to accurately record field notes. The measuring of distances, theory and practice of leveling as well as traversing are studied in coordinated classroom and field laboratory assignments.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 2

**BCM 218 -
Construction Surveying II**

IAI: None 1.2
Construction Surveying II is an advanced surveying course for construction technicians. Major concepts covered are triangulation, construction computations, coordinate systems, land surveying and engineering surveying. The students will use a Total Station in the field to collect data and interface CAD software to generate drawings and maps.
Prerequisite: BCM 195 and MTH 100, MTH 132, or MTH 125
Credit: 3 semester hours
Lecture: 2 Lab: 2

**BCM 219 -
Statics and Strength of Materials
for Building Construction**

IAI: None 1.2
Statics and Strength of Materials for Building Construction provides the analysis of real force systems by the application of equilibrium to rigid bodies and simple structures. This course is a study of stresses and deformations produced by external forces under various loading conditions and specifically applied to building construction technology.
Prerequisite: MTH 100, MTH 132 or MTH 125, or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**BCM 237 -
Architectural CAD Drafting II**

IAI: None 1.2
Architectural CAD Drafting II expands on the concepts studied in BCM 137, therefore, an introductory knowledge of computer aided drafting is assumed. Emphasis will be placed on using CAD in a business/work environment. Techniques for utilizing CAD as a tool for efficiently communicating architectural drawings in a 2-D and 3-D environment will be introduced. General techniques, practices, and standards used in the architectural/engineering/drafting disciplines will be emphasized.
Prerequisite: BCM 137 or consent of the instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**BCM 239 -
Wood Frame Structures**

IAI: None 1.2
Wood Frame Structures presents the fundamental principles designed to allow the student to communicate effectively in the graphic language concerning wood structural components. The student will be introduced to structural wood framing techniques. Emphasis is placed upon primary structural members and their relative position within the residential and light commercial construction projects. Sustainable and energy efficiency design concepts are presented and discussed for their environmental benefit. Structural framing plans and details, drawn on the CAD system, are typical required lab projects.
Prerequisite: BCM 117 & BCM 137
Credit: 3 semester hours
Lecture: 2 Lab: 2

**BCM 250 -
Special Topics in Building
Construction**

IAI: None 1.2
Special Topics in Building Construction explores specific applications, skills, or interest in building construction technology. A special topic requires: adequate and available materials on a specific construction related issue, a comprehensive course outline, instructor expertise, student and community interest, and ability to increase skills and/or knowledge in building construction technology. Variable and repeatable credit up to six credit hours may be earned.
Prerequisite: Determined by the special topic and consent of instructor.
Credit: 1-6 semester hours
Lecture: 0 Lab: 0-4

**BCM 251 -
Codes, Contracts, and Specifications**

IAI: None 1.2
Codes, Contracts, and Specifications; introduces the student to the various forms of the construction industry's legal documentation. Various types of building codes, construction contracts and project specifications are reviewed in this course. Other construction administration topics are also discussed in class, examples include: bonding, arbitration, job bidding and job qualifying requirements and LEED/Green Building documentation. American Institute of Architects (AIA) contracts documents and the International Building Codes are discussed in detail. A student case study of a current construction project constitutes a major project.
Prerequisite: BCM 104 or consent of instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

**BCM 258 -
Case Study in Construction
Management**

IAI: None 1.2

Case Study in Construction Management is a cooperative class with the architects and contractors who are under contract for large construction projects that are being built. The focus of this class is to better understand the construction processes by observing an ongoing project. Due to the fact that construction projects are several semesters in duration, students will be involved in phases of construction that are taking place during the particular semester in which the student is enrolled in the class. Students will attend construction meetings and interact with the owner, architects and contractors. The class will conduct project "walk-throughs" on a regular basis. Students can repeat this course once (for a total of two times, six credits).

Prerequisite: BCM 104 and consent of the instructor

Credit: 3 semester hours

Lecture: 2 *Lab:* 2

**BCM 260 -
Construction Estimating**

IAI: None 1.2

Construction Estimating introduces the concepts of preparing detailed construction cost estimates, including the four major components: Material, Labor, Overhead and Profit. A systematic approach to quantity surveys is emphasized. Students will complete an estimate of a residential construction project.

Prerequisite: BCM 104

Credit: 3 semester hours

Lecture: 2 *Lab:* 2

**BCM 268 -
Home Performance and Energy
Auditing**

IAI: None 1.2

Home Performance and Energy Auditing course provides insight into how residential structures perform and how their inhabitants are effected during the heating and cooling of the conditioned living space. The student will develop the ability to identify and evaluate energy cost saving measures in a structure through the use of science and technology; apply that knowledge to recommending or implementing cost saving measures through the use of sound building practices. Students will also learn to evaluate building performance through diagnostic testing.

Prerequisite: BCM 104 and BCM 117, or instructor consent.

Credit: 3 semester hours

Lecture: 2 *Lab:* 2

**BCM 270 -
Construction Job Scheduling**

IAI: None 1.2

Construction Job Scheduling introduces the concepts necessary to communicate effectively in construction job scheduling. The student is introduced to the concepts of critical path and PERT method. Actual schedules are produced both manually and on the computer. Microsoft Project software is utilized for all computer applications.

Prerequisite: BCM 104 and BCM 239

Credit: 3 semester hours

Lecture: 2 *Lab:* 2

**BCM 278 -
Green Building Fundamentals**

IAI: None 1.2

Green Building Fundamentals is a course that focuses on the critical components of sustainable design and green building. Emphasis is placed on environmental implication, market trends, economic and social factors. Information will be presented on how to become a LEED Accredited Professional and how to prepare for the Green Associate Exam. Out of the classroom activities will be coordinated with the local chapter of the United States Green Building Council (USGBC).

Prerequisite: BCM 117, BCM 120 and BCM 239 or consent of the instructor.

Credit: 3 semester hours

Lecture: 3 *Lab:* 0

**BCM 298 -
Independent Study**

IAI: None 1.2

Independent Study encourages individual projects or research of special interest to Building Construction Management.

The student must submit an application to the program Chair prior to mid-term of the previous semester for a specific topic in cooperation with a qualified instructor. Approval of the topic and study plan by the instructor and the program Chair or Dean is required. Variable and repeatable credit may be earned up to six hours.

Prerequisite: Current enrollment in the Building Construction Management curriculum, and completion of at least 15 credits in BCM courses, and sophomore class standing.

Credit: 1-6 semester hours

Lecture: 0 *Lab:* 5-30

Business**BUS****BUS 101 -
Introduction to Business**

IAI: None 1.1

Introduction to Business introduces business functions, operations, and organization. The course includes forms of business ownership, management, finance, business ethics, human relations, labor-management, and marketing.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3 *Lab:* 0

**BUS 103 -
Business Mathematics**

IAI: None 1.2

Business Mathematics develops skill in handling the mathematics of business transactions as a businessperson and a consumer. After a review of the fundamental processes, problems are covered which involve percentage, markup, discounts, interest, taxation, bank reconciliation, payroll, insurance, index numbers, stocks and bonds.

Prerequisite: MTH 091 & MTH 092 with a grade of "C" or higher.

Credit: 3 semester hours *Lecture:* 3 *Lab:* 0

**BUS 105 -
Consumer Economics and Personal
Finance**

IAI: None 1.1

Consumer Economics and Personal Finance studies the personal, social, and political aspects of consumer roles. Among the topics discussed are consumer rights and responsibilities, consumer law, consumer decision-making, purchase decisions in various product and service categories, budgeting, taxes, macro-economic policy and inflation, borrowing, saving and investing.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3 *Lab:* 0

BUS 130 - *See update in Catalog Addendum****Entrepreneurship Principles**

IAI: None 1.2

Entrepreneurship Principles examines the various skills and habits essential for a successful entrepreneurial venture. Real world case studies will provide opportunities to analyze why certain businesses fail while others succeed. Students will also encounter exposure to a variety of entrepreneurship ventures through lectures and live experiences that support growth in problem recognition, and solution development, and the exploration of career options.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3 *Lab:* 0

BUS 131 - *See update in Catalog Addendum****Entrepreneurship Planning**

IAI: None 1.2

Entrepreneurship Planning examines how demographics, creativity, innovation, technology, and social changes create business opportunities. This course investigates the skills required to analyze appropriate business opportunities based on personal strengths and abilities; as well as the influences of professional and financial goals. This course demonstrates the process involved in developing a marketing strategy for an entrepreneurial business plan. This course will also introduce the ethical and social responsibility aspects of entrepreneurial ventures.

Prerequisite: BUS 130

Credit: 3 semester hours

Lecture: 3 *Lab:* 0

COURSE DESCRIPTIONS

**BUS 170 -
Introduction to
Organizational Behavior**

IAI: None 1.2
Introduction to Organizational Behavior is an introduction to the theories and concepts of human behavior and organizations. Foundations of behavior of individuals and groups and organizational structure are studied. Application of these theories and concepts of management issues are discussed.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BUS 200 -
Legal Environment in Business**

IAI: None 1.1
Legal Environment in Business is a study of the legal and social environment of business, with emphases on business ethics and corporate social responsibilities. Areas of concentration include governmental regulation of business, securities law, consumer protection law, labor law and employment law.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BUS 201 -
Business Law**

IAI: None 1.1
Business Law is an introduction to the legal system as it affects business activity. Areas of concentration include formation and nature of contracts, the agency relationships, and the Uniform Commercial Code, Law of Sales, and Commercial Paper.
Prerequisite: BUS 101
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BUS 203 -
Economics for Business**

IAI: None 1.1
Economics for Business is a basic survey course in economics focusing on conceptual understanding of basic economic principles and their application to practical analysis rather than mathematical interpretations. Areas of concentration include economic decision-making, price determination, goals and problems of the macro economy, the role of government in the macro-economy and markets, monetary theory, costs of production, competition and market structure, and labor issues.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BUS 223 -
Business Statistics**

IAI: BUS 901 1.1
Business Statistics addresses the basic concepts of statistical analysis used in business decision-making, including the use of probability to deal with uncertainty. The student will analyze and work out simple problems and will be able to recognize the application of different statistical techniques, interpret the results of analyses, and recognize instances in which statistical techniques have been misused. Statistical concepts and techniques covered include measures of location, measures of variability, sampling distributions, interval estimation, hypothesis testing, variance analysis, and simple linear regression.
Prerequisite: one of the following Math courses - MTH 120, 132, 135, 160, 211, or 220 with a grade of "C" or higher; or consent of instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BUS 230 -
Entrepreneurship Capstone**

IAI: None 1.2
Entrepreneurship Capstone is designed to develop student competency in business research instrumental for constructing a solid business plan. The course focuses on developing these skills by expanding feasibility studies and implementing the detailed business plan. Students will defend concepts through presentations and local competitions. The learning environment provides a dynamic, interactive experience that combines the classroom with experiential learning.
Prerequisite: BUS 131 or consent of instructor
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BUS 272 -
Internship in Business Administration**

IAI: None 1.2
Internship in Business Administration recognizes that participation in a work setting can provide a significant educational experience beyond what can be accomplished in a formal classroom. This course provides supervised occupational experience in business administration. The student will identify an area of career emphasis which should relate to the student's intended career objective. A training plan will be developed by the student, the faculty coordinator, and the cooperating employment supervisor. The internship site is to be arranged by the student. A maximum of six semester hours of credit can be earned in this course or a combination of this course and an independent study course.
Prerequisite: Completion of 30 semester hours of credit in the Business Administration curriculum at Rock Valley College.
Credit: 1-6 semester hours
Lecture: 0 Lab: 5-30

**BUS 279 -
Principles of Finance**

IAI: None 1.2
Principles of Finance is an introduction of financial techniques used in management decisions. The course emphasizes the basic principles of finance including the process, institutions, markets, and instruments involved in the transfer of money among individuals, businesses and governments.
Prerequisite: MTH 096A or MTH 096S or MTH 094 with a grade of "C" or higher, and ATG 110.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BUS 282 -
International Business**

IAI: None 1.2
International Business examines why international business takes place, what advantages accrue to firms operating internationally, what makes international business different from purely domestic operations, and how these operations relate to a country's overall international economic position.
Prerequisite: BUS 101
Credit: 3 semester hours
Lecture: 3 Lab: 0

**BUS 295 -
Independent Study in
Business Administration**

IAI: None 1.2
Independent Study in Business Administration is designed for the student who desires to conduct an individual project or research based on personal goals and objectives in an area of special interest in business. Course requirements are based on the nature of the subject under study. A maximum of six semester hours of credit can be earned in this course or a combination of this course and an internship course.
This course may be repeated three times.
Prerequisite: Enrollment in the general business curriculum, completion of 30 semester hours of credit at Rock Valley College and consent of the instructor or Dean.
Credit: 1-6 semester hours
Lecture: 1-6 Lab: 0

**BUS 296 -
Special Topics in
Business Administration**

IAI: None 1.2
Special Topics in Business Administration provides an overview of the many facets involved in managing and organizing today's nonprofit organization. This course will assume a realistic posture of the many and various functions involved in obtaining managerial success in a non-profit organization.
Course may be repeated three times.
Prerequisite: None
Credit: 1-4 semester hours
Lecture: 1-4 Lab: 0

COURSE DESCRIPTIONS

**BUS 298 -
Global Small Business Incubator**

IAI: None

1.2

The Global Small Business Incubator is a multidisciplinary capstone course which allows for the real-time application of small business planning, strategic management, accounting, finance, operations, sales, marketing, supply chain management, and international business theory. Students through collaborative action-learning will develop an understanding of management, entrepreneurship, and business practices that are ethically, socially, and globally responsible.

Prerequisite: 15 credit hours from any of the following disciplines: Business (BUS), Management (MGT), Marketing (MKT), and/or Accounting (ATG).

Credit: 3 semester hours

Lecture: 2

Lab: 2

Chemistry**CHM****CHM 099 -
Introductory Chemistry**

IAI: None

1.4

Introductory Chemistry is designed for the student who has not had high school chemistry or who wishes a basic review of high school chemistry. The course provides an introduction to the concepts, principles and calculations of general inorganic chemistry. The intent of this course is to ensure a more seamless and successful transition to a transferable, college-level chemistry course. Credit for CHM 099 will not be counted toward graduation.

Prerequisite: MTH 092 or MTH 096A or MTH 096S, or equivalent, with a grade of "C" or higher.

Credit: 3 semester hours

Lecture: 2

Lab: 2

**CHM 105 -
Chemistry and Society**

IAI: P1 903L

1.1

Chemistry and Society is designed for a student pursuing a non-science associates degree and is seeking a chemistry course to satisfy the Physical Science General Education requirements for an Associate of Arts (A.A.) degree. This course provides a broad background in general chemistry principles and examines the influence of chemistry on society through studies on topical subject areas in chemistry such as energy, environmental or health issues. This course is not intended for science or engineering majors. Credit will not be counted toward graduation if a student also completes General Chemistry I (CHM 120). Recent high school chemistry or CHM 099 within the last five years is highly recommended before taking this course.

Prerequisite: High school chemistry with a grade of "C" or better (recommended); MTH 094 or MTH 096A or MTH 096S or equivalent, with a grade of "C" or higher.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**CHM 110 -
General, Organic and Biochemistry I**

IAI: P1 902L

1.1

General, Organic and Biochemistry I is designed for the Allied Health students who require introductory organic chemistry as part of their program of study. This course is the first semester of a two-semester sequence, and provides an introduction to the principles and fundamentals of general chemistry upon which organic chemistry is based. Topics covered include measurements; states, compositions, and properties of matter; atomic structure and chemical bonding; chemical reactions, chemical equations and calculations of formula mass and moles; solutions; acid-base equilibria and nuclear chemistry. This course will satisfy the General Education Physical Science requirement for an Associate of Arts (A.A.) degree.

Prerequisite: CHM 099 or high school chemistry (recently taken) with a grade of "C" or better; MTH 094 or MTH 096S, or equivalent, with a grade of "C" or higher.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**CHM 120 -
General Chemistry I**

IAI: P1 902L, CHM 911

1.1

General Chemistry I is the first semester of a college-level two-semester sequence in the study of the fundamental principles and concepts of chemistry with emphasis on such topics as stoichiometry; atomic structure; chemical periodicity; chemical bonding and structure; chemical reactions; gases; acids, bases, and salts, and thermochemistry.

Laboratory time is devoted to experiments illustrating the above. CHM 120 is generally required for science majors and engineers, and satisfies part of the General Education Physical Science requirement for an Associates in Science (A.S.) degree.

Prerequisite: Sufficiently comprehensive high school chemistry course (recently taken), or with a grade of "C" or better; MTH 120 or MTH 132, or equivalent, with a grade of "C" or higher.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**CHM 130 -
General Chemistry II**

IAI: CHM 912

1.1

General Chemistry II is the second semester continuation of CHM 120 with emphasis on such topics as intermolecular forces, solutions, kinetics, chemical equilibrium, acid-based equilibria, liquids, thermodynamics, electrochemistry, and oxidation-reduction chemistry. Laboratory time is devoted to experiments illustrating the above topics and qualitative analysis of selected cations and anions. CHM 130 is generally required for science majors and engineers, and is a prerequisite for Organic Chemistry I (CHM 220).

Prerequisite: CHM 120 with a grade of "C" or higher.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**CHM 210 -
General, Organic and Biochemistry II**

IAI: None

1.1

General, Organic and Biochemistry II is the second semester continuation of CHM 110, and focuses on the organic and biochemical nature of compounds. Topics include organic nomenclature, structure, physical properties, reactions and synthesis of major organic functional groups. In addition, this course provides an introduction to biochemical topics such as carbohydrates, lipids, proteins, nucleic acids and their subsequent metabolism. This course may be a requirement for some Allied Health programs.

Prerequisite: CHM 110 with a grade of "C" or higher.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**CHM 220 -
Organic Chemistry I**

IAI: CHM 913

1.1

Organic Chemistry I is designed for science majors and pre-professional students.

It presents the chemistry of alkanes, cycloalkanes, alkyl halides, alkenes, alkynes, alcohols, thiols, ketone, aldehydes, and ethers, with emphasis on structure and bonding, preparation, reactions, stereochemistry, and reaction mechanisms of these and related compounds. Laboratory emphasizes basic techniques used in synthesis and qualitative analysis of organic compounds including instrumentation.

Prerequisite: CHM 130 with a grade of "C" or higher.

Credit: 5 semester hours

Lecture: 3

Lab: 4

**CHM 230 -
Organic Chemistry II**

IAI: CHM 914

1.1

Organic Chemistry II is a continuation of CHM 220

and is designed for science majors and pre-professional students. It presents the chemistry of aromatic systems, carbonyl compounds, carboxylic acids and their derivatives, amines, coupling reactions, and biomolecules. This study includes spectroscopy, methods of preparation, reactions and reaction mechanisms of these and related compounds. Laboratory emphasizes basic techniques used in synthesis and qualitative analysis, including instrumentation.

Prerequisite: CHM 220 with a grade of "C" or higher.

Credit: 5 semester hours

Lecture: 3

Lab: 4

Communication

COURSE DESCRIPTIONS

**Computers and
Information Systems****CIS****CIS 102 -
Introduction to Computers and
Information Systems***IAI: None*

1.2

Introduction to Computers and Information Systems surveys the uses of computers in business, industry and the home. This course introduces computer concepts, principles, and terminology. A number of hands-on computer experiences are provided, including using word processing, spreadsheets, presentation, and database software. Credit will not be given for both CIS 102 and CIS 202.

*Prerequisite: None**Credit: 3 semester hours**Lecture: 3**Lab: 0***CIS 117 -
Windows Command Line
Programming***IAI: None*

1.2

Windows/DOS Command Line Programming is a hands-on approach to operating personal computers. An overview of the microcomputer system will be covered including the keyboard, monitor, system unit, printers, and auxiliary storage. Hands-on practice will be emphasized with a considerable portion of the course taking place at the computer. No previous knowledge of computers is required.

*Prerequisite: Keyboard proficiency**Credit: 2 semester hours**Lecture: 2**Lab: 0***CIS 120 -
Introduction to Microsoft Word***IAI: None*

1.2

Introduction to Microsoft Word will present the basics of word processing along with such features as creating, formatting, editing, saving, and printing a document.

The techniques required for changing fonts and point sizes, setting and deleting tabs, creating headers, footers, footnotes, and using editing tools such as the spell checker will be taught.

*Prerequisite: Keyboard proficiency or equivalent experience.**Credit: 1 semester hour**Lecture: 1**Lab: 0***CIS 121 -
Introduction to Excel***IAI: None*

1.2

Introduction to Excel will demonstrate the use of basic topics including spreadsheet design, formulas, functions, and graphing. The use of this package will be presented in a business problem-solving setting.

*Prerequisite: Keyboard proficiency or equivalent experience.**Credit: 1 semester hour**Lecture: 1**Lab: 0***CIS 124 -
Introduction to PowerPoint***IAI: None*

1.2

Introduction to PowerPoint will present the basics needed to create, edit, and enhance presentations. Drawings, clip art, color schemes, charts, and text will be used to teach the creation of notes, handouts, outlines, and presentation slides.

*Prerequisite: Keyboard proficiency or equivalent experience.**Credit: 1 semester hour**Lecture: 1**Lab: 0***CIS 130 -
Introduction to Access***IAI: None*

1.2

Introduction to Access is designed to teach the student the features available in Microsoft Access. The topics of creating a database, storing, sorting, and retrieving data, and querying a database will be covered. The student will learn about database management as well as the creation of forms, reports, and labels for information presentation.

*Prerequisite: Keyboard proficiency**Credit: 2 semester hours**Lecture: 2**Lab: 0***CIS 170 -
Programming Logic & Design***IAI: None*

1.2

Programming Logic & Design introduces computer programming and problem solving in a structured program logic environment.

It introduces key programming concepts, including structure, decision making, looping, arrays, and files, and enforces good style, modern conventions, and logical thinking.

Students will also be introduced to object-oriented programming techniques and events. Students should take this course at the same time as they take their first programming class.

*Prerequisite: None**Credit: 3 semester hours**Lecture: 3**Lab: 0***CIS 180 -
Introduction to Visual Basic
Programming***IAI: None*

1.2

Introduction to Visual Basic Programming is an introductory course that is designed for students and professionals with little or no Visual Basic or Windows programming experience. The student will learn the BASIC language syntax, event-driven programming, and how to put together a complete Visual Basic Application. Topics such as Windows programming standards and conventions, database programming, array processing, controls, properties, methods and events will be discussed.

*Prerequisite: CIS 102; MTH 092 or MTH 096A or MTH 096S with a C or higher.**Corequisite: CIS 170**Credit: 4 semester hours**Lecture: 3**Lab: 2***CIS 181 -
Advanced Visual Basic Programming***IAI: None*

1.2

CIS 181, along with CIS 184, covers topics useful in preparing to take the Microsoft Certification examination in VB.NET. It builds on topics introduced in CIS 180, such as OOP concepts related to the functionality of .NET, as well as collections, arrays and database programming; and introduces additional controls useful for Windows programming. CIS 181 also teaches students how to create user-defined classes, how to program using the Windows file system, how to create MDI applications and how to deploy desktop applications.

*Prerequisite: CIS 180**Credit: 4 semester hours**Lecture: 3**Lab: 2***CIS 182 -
Programming Visual Basic
for Applications***IAI: None*

1.2

Programming Visual Basic for Applications is a course designed for experienced programmers and CIS majors interested in Visual Basic programming throughout the Microsoft Office Suite. Areas of study will include Word, Excel, Access, and PowerPoint. Students will be encouraged to create a project related to their own job/interests to incorporate design principles and VBA.

*Prerequisite: PCI 106 and PCI 206 or CIS 130**Credit: 4 semester hours**Lecture: 3**Lab: 2***CIS 184 -
Visual Basic Programming III***IAI: None*

1.2

CIS 184 along with CIS 181 covers topics useful in preparing for the Microsoft Certification examination in VB.NET. This course builds on topics introduced in CIS 181, such as OOP concepts related to the functionality of .NET, as well as database programming. Additionally, it includes user-defined controls, drawing and the use of graphics with .NET, plus topics related to web applications and deployment of web applications.

*Prerequisite: CIS 181**Credit: 4 semester hours**Lecture: 3**Lab: 2*

COURSE DESCRIPTIONS

**CIS 240 -
Introduction to JAVA Programming**

IAI: None 1.2

Introduction to Java Programming is a course designed to introduce the student to Java software development. Students will write platform-independent, object-oriented code for conventional applications and for Internet- and Intranet-based applets. Topics covered may include fundamental programming principles, concepts and practices; console user interfaces (CUI) and graphical user interfaces (GUI); multimedia (images, animation, and audio); object oriented programming, arrays, basic containers, text processing, inheritance, polymorphism, exception processing, and recursion. A number of programming assignments will be given to enable the student to build real-world Java applications.

Prerequisite: CIS 102

Recommended: CIS 170, CIS 276

Credit: 4 semester hours

Lecture: 3

Lab: 2

**CIS 241 -
Advanced Java Programming**

IAI: None 1.2

The second in a sequence of Java programming courses. Covers OOPs design and implementation of advanced Java programming; abstract data types, inheritance polymorphism, dynamic binding, abstract classes, interfaces; data structures (files, sets, heaps, lists, stacks, queues, trees, graphs); recursion. String and text programming; searching and sorting algorithms; JDBC database programming; GUI programming; concurrency and networking; and web programming. Students should complete BOTH CIS 240 and CIS 241 at RVC before transferring to a four-year degree granting school.

Prerequisite: CIS 240

Credit: 4 semester hours

Lecture: 3

Lab: 2

**CIS 245 -
Programming Android for
Mobile Devices**

IAI: None 1.2

Programming Android for Mobile Devices introduces the programming of simple Android mobile device applications. This course provides an overview of the Java language, and an introduction to the Android operating system and to Android application development. By the end of the course, the student will have a firm foundation in Android programming and usage.

Prerequisite: CIS 240

Credit: 4 semester hours

Lecture: 3

Lab: 2

**CIS 254 -
Database Programming**

IAI: None 1.2

Database Programming introduces the student to the concept of database processing. Physical representation, modeling and commercial systems are covered. Each student will have the opportunity to write programs using desktop, workstation and server software. Client/server applications will be presented. The course will use a modern database system such as Oracle or MS SQL.

Prerequisite: CIS 180 or CIS 276

Credit: 4 semester hours

Lecture: 3

Lab: 2

**CIS 276 -
Introduction to C/C++ Programming**

IAI: CS 911 1.2

Introduction to C/C++ Programming provides the student with an introduction to programming using the C/C++ programming language. This course is suitable for students with little or no programming background. C/C++ is an object-oriented programming language that will be used in this course to teach control structures: sequence, selection, iteration, to teach structured program design, programming style, documentation, modular design, code reusability, and program testing.

Prerequisite or Corequisite: CIS 102 or consent of instructor. Students pursuing the Computer & Info Systems A.A.S. degree should also take CIS 170 Programming Logic & Design.

Credit: 4 semester hours

Lecture: 3

Lab: 2

**CIS 277 -
Advanced C/C++ Programming**

IAI: CS 912 1.2

Advanced C/C++ Programming is a continuation of CIS 276 - Introduction to C/C++ Programming. This course emphasizes the concepts, principles and practices of object-oriented programming and of data structures. Typical topics include classes, data abstraction, encapsulation, inheritance, polymorphism, information hiding, software reusability, overloading, vectors, lists, queue, stacks and STL.

Prerequisite: CIS 276

Credit: 4 semester hours

Lecture: 3

Lab: 2

**CIS 279 -
Visual C# Programming**

IAI: None 1.2

Visual C# Programming emphasizes event-driven programming. Typical topics include design principles and practices, object-oriented and procedural development, GUI design and implementation, data files and database connectivity, graphical resources, software project management, multithreading and multitasking.

Prerequisite or corequisite: CIS 102 and CIS 170, or consent of instructor.

Credit: 4 semester hours

Lecture: 3

Lab: 2

**CIS 280 -
Programming iOS Apple Mobile
Devices**

IAI: None 1.2

Programming iOS Apple mobile devices introduces the concept of programming simple iOS mobile device applications using Cocoa (application development environment) and Objective C. Students will learn basic Objective C concepts, iPad programming basics, and use the SDK environment on Apple Macintosh computers with OS X as a development platform. Design concepts and programming tools will be integrated with an emphasis on developing and deploying iPad applications.

Prerequisite: None

Credits: 4 semester hours

Lecture: 3

Lab: 2

**CIS 290 -
Special Topics in Computers
and Information Systems**

IAI: None 1.2

Special Topics in Computers and Information Systems is a study of advanced topics in computer science. The student will study selected topics of current practices in computer information and support systems for business and industry. Students will also participate in one or more projects involving the project life cycle: analysis, design, coding, testing/debugging, implementation, and maintenance. Programming may be required. Exact course requirements are based on the nature of the topics under study.

Prerequisite: Consult the RVC class schedule at: RockValleyCollege.edu/Courses to determine prerequisites and other requirements.

Credit: 1-6 semester hours

Lecture: 1-6

Lab: 1-6

**CIS 291 -
Internship - Field Project**

IAI: None 1.2

Internship - Field Project requires individual assignments at Rock Valley College or in a carefully selected local data processing installation. The primary purpose of this course is to give the student an in-depth study of a practical data processing application or subject.

Prerequisite: Successful completion of a sufficient number of courses to permit the student to perform a useful service to the host company; active pursuit of a Computers and Information Systems degree program; permit slip signed by division Dean. This course may be repeated to a maximum of six credits.

Credit: 1-6 semester hours

Lecture: 0

Lab: 1-6

COURSE DESCRIPTIONS

Criminal Justice**CRM****CRM 101 -
Introduction to Criminal Justice**

IAI: None

1.2

Introduction to Criminal Justice is open to all students and covers philosophy and history of law enforcement; crime and police problems; organization and jurisdiction of local, state, and federal law enforcement agencies; and a survey of professional career opportunities and their corresponding required qualifications.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 102 -
Introduction to Probation and Parole**

IAI: None

1.2

Introduction to Probation and Parole is designed to acquaint the student with the functions, procedures and objectives of probation and parole systems. Emphasis will be placed on developing the students' understanding of the role of probation and parole in the criminal justice system.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 103 -
Introduction to Corrections**

IAI: CRJ 911

1.2

Introduction to Corrections provides for the opportunity to study the history of corrections in society, as well as the philosophical goals of the corrections system as a means to deter crime. The course will also focus on contemporary issues in the field of corrections, including such topics as jail standards and the application of the Americans with Disabilities Act in the jail/prison systems.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 104 -
Introduction to Private Security**

IAI: None

1.2

Introduction to Private Security is designed as an introductory overview of the field, for either supervisors or security officers. The general emphasis of this course is in the areas of personnel and property conservation. Areas covered will include legal boundaries, human relations, interviews and interrogation, accident prevention, fire hazards, and traffic control. The role of "loss prevention officers" will also be discussed.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 105 -
Police Report Writing**

IAI: None

1.2

Police Report Writing includes specialized training for law enforcement and private security personnel. The course includes a review of basic vocabulary, grammar and written organization skills. Thereafter, the course will center on the methods of writing reports in various components of the criminal justice system; emphasis will be on law enforcement narrative report writing. Students will use the field notes, forms, and narrative and description procedures of area law enforcement agencies.

Prerequisite: ENG 101

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 120 -
Criminal Investigation**

IAI: None

1.2

Criminal Investigation covers the basics of criminal investigation, including crime scene search and recording; collection and preservation of physical evidence; scientific aids; sources of information; interviews and interrogations; follow-up investigations and case preparation.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 125 -
Criminal Procedure and Civil Rights**

IAI: None

1.2

Criminal Procedure and Civil Rights covers the rights and privileges of individuals and groups. The emphasis is on current decisions, which govern the actions of law enforcement officers.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 127 -
Ethics in Law Enforcement**

IAI: None

1.2

Ethics in Law Enforcement will introduce the student to the ethical principles that apply to those entering law enforcement and related career paths. Specific examples of police corruption in the United States will be examined. Students will be exposed to contemporary ethical standards, which govern the conduct of individuals entering these fields.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 210 -
Criminal Law**

IAI: None

1.1

Criminal Law covers the reasons for criminal laws; their source and function in today's society. The course then focuses on the structure, definitions, and most frequently used sections of the penal code and other criminal statutes. Additionally, the course will study criminal law as it pertains to local jurisdictions. The classifications of crimes and the nature of crimes will also be discussed.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 225 -
Juvenile Procedures**

IAI: None

1.2

Juvenile Procedures covers the position law enforcement agencies have in juvenile and delinquency control, organization and functions of related juvenile agencies, the laws governing the handling of juvenile offenders, and the application of those laws. Also included is a brief resume of the juvenile court and its jurisdiction.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 260 -
Police Organization and Administration**

IAI: None

1.2

Police Organization and Administration is designed to give students a knowledge of the principles and practice involved in the organization and administration of law enforcement agencies. Special emphasis will be on management, planning, problems in division of work assignments, specialization, internal communication and budgeting.

Prerequisite: CRM 101 or consent of instructor.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 271 -
Patrol Procedures**

IAI: None

1.2

Patrol Procedures will expose students to the patrol function of law enforcement. Emphasis will be placed on the techniques and procedures necessary to successfully investigate such incidents as crashes, domestic disputes, high-risk vehicle stops and other law enforcement calls for service.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**CRM 281 -
Rules of Evidence**

IAI: None

1.2

Rules of Evidence covers the importance of evidence collected and preserved by law enforcement officers. Subjects such as judicial evidence, proof, laws of evidence, degree of certainty, kinds and types of evidence, relevancy and irrelevancy, materiality and immateriality, competency and incompetency will be covered. The course also covers the admissibility of evidence and confessions.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

COURSE DESCRIPTIONS

CRM 282 – Interviews and Interrogations

IAI: None

1.2

Interviews and Interrogations is designed to help the student understand the purpose and importance of proper interviews/interrogations as well as the methods of interviewing/interrogating. Assessment of the verbal and non-verbal communication in the interview/interrogation process will be stressed. Students will learn the philosophy of interviews and interrogations, how to compose and ask questions, and what to avoid in interviews and interrogations.

Prerequisite: CRM 101 or consent of instructor.

Credit: 3 semester hours

Lecture: 3

Lab: 0

CRM 283 – Special Topics in Police Science

IAI: None

1.2

Special Topics in Police Science is designed to meet the needs or interests of the prospective police applicant as well as the veteran officer. Course requirements are based on the topics under study. This course may be repeated three times.

Prerequisite: None

Credit: 1-4 semester hours

Lecture: 1-4

Lab: 0

CRM 291 – Internship

IAI: None

1.2

Internship provides for observation and limited participation in law enforcement or related agencies. Consent of program coordinator and agency is required. 75 hours of internship is required for each hour of credit.

Prerequisite: Successful completion of 12 credits in the criminal justice curriculum.

May be repeated up to three times, for a total of six credits maximum.

Credit: 1-6 semester hours

Lecture: 1

Lab: 5-30

Dental Hygiene**DNT****DNT 102 – Preventive Dental Hygiene**

IAI: None

1.2

Preventive Dental Hygiene provides an introduction to the causes and prevention of the two most common dental diseases: dental caries and periodontal disease. Students learn to assess client needs and to provide education that will help the client to maintain or enhance oral health.

Prerequisite: BIO 282, ENG 101, and admission into the Dental Hygiene program.

Corequisite: DNT 104, 106, 108, 110

Credit: 1 semester hour

Lecture: 1

Lab: 0

DNT 104 – Dental Anatomy, Histology, and Embryology

IAI: None

1.2

Dental Anatomy, Histology and Embryology introduces the students to terminology relating to anatomic structures of the oral cavity. Special emphasis is placed on the teeth and root morphology of both primary and permanent teeth and occlusal classification.

Prerequisite: BIO 282, ENG 101, and admission into the Dental Hygiene program.

Corequisite: DNT 102, 106, 108, 110

Credit: 3 semester hours

Lecture: 3

Lab: 0

DNT 106 – Head and Neck Anatomy

IAI: None

1.2

Head and Neck Anatomy will provide the students with an introduction to human histology and orofacial embryology. The course includes special emphasis of the anatomy of the tissues of the oral cavity, head and neck, with detailed study of the skeletal, muscular, glandular, circulatory, nervous and epithelial structures.

Prerequisite: BIO 282, ENG 101, and admission into the Dental Hygiene program.

Corequisite: DNT 102, 104, 108, 110

Credit: 3 semester hours

Lecture: 3

Lab: 0

DNT 108 – Preclinical Dental Hygiene

IAI: None

1.2

Preclinical Dental Hygiene provides students with the scientific principles of dental hygiene practice with emphasis on data collection, client assessment, oral health education, and basic instrumentation. Practice of infection control standards and regulations are an integral component.

Prerequisite: BIO 282, ENG 101, and admission into the Dental Hygiene program.

Corequisite: DNT 102, 104, 106, 110

Credit: 2 semester hours

Lecture: 2

Lab: 6

DNT 110 – Nutrition and Biochemistry

IAI: None

1.2

Nutrition and Biochemistry will provide the student with an understanding of how to apply sound nutrition principles in assessing, diagnosing, planning, implementing, and evaluating total care of clients, and to help the student contribute to the nutritional well-being of clients.

Prerequisite: BIO 282, ENG 101, and admission into the Dental Hygiene program.

Corequisite: DNT 102, 104, 106, 108

Credit: 2 semester hours

Lecture: 2

Lab: 0

DNT 112 – Clinical Dental Hygiene I

IAI: None

1.2

Clinical Dental Hygiene I parallels DNT 113, Dental Hygiene Theory I. This course is a continuation of DNT 108, Preclinical Dental Hygiene. The course will provide clinical practice in fundamental dental hygiene instrumentation skills on community clients. This course emphasizes client assessment, application of dental hygiene care techniques, instrumentation, oral health products, client motivation and education techniques, and dental hygiene care planning.

Prerequisite: DNT 102, 104, 106, 108, 110

Corequisite: DNT 113, 114, 115, 116, 117, 118, 120

Credit: 2 semester hours

Lecture: 0

Lab: 8

DNT 113 – Dental Hygiene Theory I

IAI: None

1.2

Dental Hygiene Theory I parallels DNT 115 Dental Hygiene Lab I. Emphasis will be on the Dental Hygiene process of care and management of clients. Topics include desensitizing agents, ultrasonics, air polishers, intra-oral cameras, instrument sharpening, stains and polishing.

Prerequisite: DNT 102, 104, 106, 108, 110

Corequisite: DNT 112, 114, 115, 116, 117, 118, 120

Credit: 1 semester hour

Lecture: 1

Lab: 0

DNT 114 – General and Oral Pathology

IAI: None

1.2

General and Oral Pathology provides students with an introduction to the role of the dental hygienist in identifying and describing abnormal oral findings. The course focus is on the fundamentals of the general and oral pathological processes to better prepare the student to provide optimal oral healthcare.

Prerequisite: DNT 102, 104, 106, 108, 110, BIO 274

Corequisite: DNT 112, 113, 115, 116, 117, 118, 120

Credit: 3 semester hours

Lecture: 3

Lab: 0

DNT 115 – Dental Hygiene Lab I

IAI: None

1.2

Dental Hygiene Lab I parallels DNT 113 Dental Hygiene Theory I. Supervised practical application of theory includes: oral hygiene instruction, desensitizing agents, subgingival irrigation, fluoride treatment, ultrasonics, air polishers, intra-oral cameras, instrument sharpening, coronal polishing. New technologies that may enhance dental hygiene care will be explored. This lab will allow students to practice these skills in order to prepare the students for clinical application.

Prerequisite: DNT 102, 104, 106, 108, 110

Corequisite: DNT 112, 113, 114, 116, 117, 118, 120

Credit: 1 semester hour

Lecture: 0

Lab: 2

COURSE DESCRIPTIONS

**DNT 116 -
Dental Radiology Theory**

IAI: None 1.2
Dental Radiology Theory will provide the student with the theory and procedures for exposing and developing various dental films. Radiation physics, characteristics and radiation biology and protection will be addressed. Radiation equipment, dental film and processing, and Intra- and Extra-oral radiographic techniques along with radiographic interpretation will be emphasized.
Prerequisite: DNT 102, 104, 106, 108, 110, BIO 274
Corequisite: DNT 112, 113, 114, 115, 117, 118, 120
Credit: 2 semester hours
Lecture: 2 *Lab:* 0

**DNT 117 -
Dental Radiology Lab**

IAI: None 1.2
Dental Radiology Lab will provide the student with the procedures for exposing and developing various dental films, including extra and intra-oral techniques. Infection control and safety factors will be addressed. Film duplication, techniques for special needs clients and other supplemental techniques are included. Practical experience on manikins and selected clients is included.
Prerequisite: DNT 102, 104, 106, 108, 110, BIO 274
Corequisite: DNT 112, 113, 114, 115, 116, 118, 120
Credit: 1 semester hours
Lecture: 0 *Lab:* 3

**DNT 118 -
Dental Pharmacology**

IAI: None 1.2
Dental Pharmacology provides the student with knowledge of current drugs, including their pharmacologic effects, adverse reactions, indications and contraindications as they relate to patient medical history and dental hygiene treatment.
Prerequisite: DNT 102, 104, 106, 108, 110, BIO 274
Corequisite: DNT 112, 113, 114, 115, 116, 117, 120
Credit: 2 semester hours
Lecture: 2 *Lab:* 0

**DNT 120 -
Introduction to Periodontics I**

IAI: None 1.2
Introduction to Periodontics I will introduce the student to the fundamental theories of periodontics. The course reviews basic histology, etiology, clinical features, and treatment of periodontal infections; emphasizes diagnosis, treatment planning and management of periodontal patients.
Prerequisite: DNT 102, 104, 106, 108, 110, BIO 274
Corequisite: DNT 112, 113, 114, 115, 116, 117, 118
Credit: 2 semester hours
Lecture: 2 *Lab:* 0

**DNT 210 -
Dental Materials Theory**

IAI: None 1.2
Dental Materials Theory provides an introduction to the use of dental materials used in the practice of dentistry. This course will present the properties of amalgams, gypsum, impression materials, sealants and other dental materials. Students will be prepared to apply theory to manipulate various dental materials and to educate patients on proper maintenance of restorations.
Corequisite: DNT 112, 113, 114, 115, 116, 117, 118, 120
Corequisite: DNT 211, 212, 213
Credit: 2 semester hours
Lecture: 2 *Lab:* 0

**DNT 211 -
Dental Materials Lab**

IAI: None 1.2
Dental Materials Lab provides an introduction to the use of dental materials used in the practice of dentistry. It will include the manipulation of materials to increase the knowledge of dental materials and to prepare the student for clinical procedures to be performed on patients. Laboratory safety guidelines will be emphasized.
Corequisite: DNT 112, 113, 114, 115, 116, 117, 118, 120
Corequisite: DNT 210, 212, 213
Credit: 1 semester hours
Lecture: 0 *Lab:* 3

**DNT 212 -
Clinical Interim**

IAI: None 1.2
Clinical Interim provides the continuation of clinical practice and management in oral prophylaxis on the child, young adult and adult clients applying consistent infection control and client assessment and analysis. Preventive techniques and exposing of radiographs is also included.
Corequisite: DNT 112, 113, 114, 115, 116, 117, 118, 120
Corequisite: DNT 210, 211, 213
Credit: 2 semester hours
Lecture: 0 *Lab:* 6

**DNT 213 -
Introduction to Dental Hygiene Research**

IAI: None 1.2
Introduction to Dental Hygiene Research provides the fundamental skills to review and interpret dental scientific literature. The course includes an introduction to research methodologies and statistical analysis, and includes research on the Internet.
Corequisite: DNT 112, 113, 114, 115, 116, 117, 118, 120, ENG 103
Corequisite: DNT 210, 211, 212
Credit: 1 semester hour
Lecture: 1 *Lab:* 0

**DNT 214 -
Periodontics II**

IAI: None 1.2
Periodontics II is a continuation of DNT 120. Course content includes additional knowledge required to diagnose and treat periodontal diseases, clinical management of the periodontium and adjunctive therapies relevant to the maintenance of periodontal health. Emphasis is placed on the differential diagnosis and treatment of periodontal disease. Surgical and post-surgical topics will also be covered in the course.
Prerequisite: DNT 210, 211, 212, 213
Corequisite: DNT 215, 216, 217, 218, 220, 221
Credit: 2 semester hours
Lecture: 2 *Lab:* 0

**DNT 215 -
Pain Management in
Dental Hygiene Practice**

IAI: None 1.2
Pain Management in Dental Hygiene Practice is a continuation of DNT 212, 213, and parallels DNT 216. It will enable the student to complete comprehensive dental hygiene treatment utilizing pain management techniques.
Prerequisite: DNT 210, 211, 212, 213
Corequisite: DNT 214, 216, 217, 218, 220, 221
Credit: 3 semester hours
Lecture: 2 *Lab:* 2

**DNT 216 -
Clinical Dental Hygiene II**

IAI: None 1.2
Clinical Dental Hygiene II is a continuation of DNT 112, DNT 212 and coincides with course DNT 217. The course will provide clinical practice and management in oral prophylaxis on the adult and periodontally involved client. Periodontal and preventive techniques and exposing of radiographs are also included.
Prerequisite: DNT 210, 211, 212, 213
Corequisite: DNT 214, 215, 217, 218, 220, 221
Credit: 4 semester hours
Lecture: 0 *Lab:* 12

**DNT 217 -
Dental Hygiene Theory II**

IAI: None 1.2
Dental Hygiene Theory II parallels DNT 216 Clinical Dental Hygiene II. Topics include desensitizing agents, ultrasonics, air polishers, intra-oral cameras, and medical emergencies that may occur in the dental setting. In-depth discussion of these concepts and application of these skills will be practiced in order to prepare the student for clinical experiences.
Prerequisite: DNT 210, 211, 212, 213
Corequisite: DNT 214, 215, 216, 218, 220, 221
Credit: 1 semester hour
Lecture: 1 *Lab:* 0

COURSE DESCRIPTIONS

**DNT 218 -
Dental Ethics, Jurisprudence, and
Practice Management**

IAI: None 1.2
Dental Ethics, Jurisprudence, and Practice Management provides the student with the skills needed for successful clinic practice management. Emphasis is placed on professional relationships and the various roles dental hygienists encounter in the various dental specialties. The course focus also includes ethical and legal obligations by the dental professionals to the community and public it serves.
Prerequisite: DNT 210, 211, 212, 213
Corequisite: DNT 214, 215, 216, 217, 220, 221
Credit: 2 semester hours
Lecture: 2 Lab: 0

**DNT 220 -
Community Dental Health**

IAI: None 1.2
Community Dental Health focuses on the current concepts of community dental health, the dental hygienist's role in the prevention of dental problems, and the delivery of dental care to society. Students participate in community programs.
Prerequisite: DNT 210, 211, 212, 213
Corequisite: DNT 214, 215, 216, 217, 218, 221
Credit: 2 semester hours
Lecture: 2 Lab: 0

**DNT 221 -
Community Dental Health Practicum**

IAI: None 1.2
Community Dental Health Practicum is a companion course to DNT 220, Community Dental Health. Selected experiences are provided to assist in the delivery of oral health education and services in community settings. Emphasis is on health promotion, communication, collaboration, development and delivery of educational presentations.
Prerequisite: DNT 210, 211, 212, 213
Corequisite: DNT 214, 215, 216, 217, 218, 220
Credit: 1 semester hours
Lecture: 0 Lab: 3

**DNT 224 -
Clinical Dental Hygiene III**

IAI: None 1.2
Clinical Dental Hygiene III provides a continuation of DNT 216 and coincides with course DNT 225. This course will provide clinical practice and management in oral prophylaxis and periodontal therapy on the adult patient. Preventive techniques and exposing of radiographs are also included.
Prerequisite: DNT 214, 215, 216, 217, 218, 220, 221
Corequisite: DNT 225
Credit: 4 semester hours
Lecture: 0 Lab: 12

**DNT 225 -
Dental Hygiene Theory III**

IAI: None 1.2
Dental Hygiene Theory III provides the student with continued dental hygiene theory and background of DNT 216 and 217 and parallels clinical course DNT 224. Emphasis is placed on medically compromised and special needs clients, and dental specialties. The course also prepares students for licensure examinations and to transition into the role of a practicing dental hygienist, covering topics such as interviewing, resume writing, and conflict resolution.
Corequisite: DNT 214, 215, 216, 217, 218, 220, 221
Corequisite: DNT 224
Credit: 2 semester hours
Lecture: 2 Lab: 0

Drama

- See Theatre
- See Literature

**Early Childhood
Education****ECE****ECE 100 -
The Child Care Worker**

IAI: None 1.2
The Child Care Worker develops an understanding of the child care worker in relation to guiding the young child. Methods of analyzing programs and possible solutions are investigated as they relate to human behavior. A weekly two-hour field assignment is required.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**ECE 101 -
The Developing Child**

IAI: None 1.2
The Developing Child is an overview of the physical- motor, emotional, social and cognitive growth processes from the prenatal period through adolescence. This course is a prerequisite for all upper level Early Childhood Education courses.
Prerequisite: None
Credit: 5 semester hours
Lecture: 5 Lab: 0

**ECE 103 -
Nutrition and Health
of the Young Child**

IAI: None 1.2
Nutrition and Health of the Young Child includes the study of basic human nutrition, the nutritional value of food, relationship of food and food habits to nutrition, relationship of nutrition to biological development, safety, health and sanitary practices, regulations and agencies. (Offered fall semester.)
Prerequisite: Credit or concurrent registration in ECE 101.
Credit: 2 semester hours
Lecture: 2 Lab: 0

**ECE 104 -
Large Muscle Development**

IAI: None 1.2
Large Muscle Development provides an opportunity to plan and implement appropriate physical activities both indoors and outdoors for young children. (Offered spring semester.)
Prerequisite: Credit or concurrent registration in ECE 101.
Credit: 2 semester hours
Lecture: 2 Lab: 0

**ECE 105 -
Developing Techniques for Working
with the Young Child**

IAI: None 1.2
Developing Techniques for Working with the Young Child includes weekly participation experiences with groups of young children. Emphasis is on the child care worker's role in relation to young children. Weekly seminars will include discussion of guidance principles and techniques applied to children in group situations, leading toward the development of a personal philosophy of child guidance. A weekly five-hour field assignment is required. (Offered spring semester.)
Prerequisite: ECE 101
Credit: 3 semesters hours
Lecture: 2 Lab: 5

**ECE 106 -
Music for the Young Child**

IAI: None 1.2
Music for the Young Child will include a survey of the types of musical interests of young children, and a collection of songs and musical experiences for young children will be developed. Emphasis is given to methods which will encourage musical participation by the children. Weekly field assignments are required. (Offered fall semester.)
Prerequisite: Credit or concurrent registration in ECE 101.
Credit: 3 semesters hours
Lecture: 3 Lab: 0

**ECE 107 -
Science for the Young Child**

IAI: None 1.2
Science for the Young Child will focus on methods and planning activities for science with young children and will emphasize the guided exploration and experimentation of children in their world. Weekly field assignments are required. (Offered spring semester.)
Prerequisite: Credit or concurrent registration in ECE 101.
Credit: 2 semesters hours
Lecture: 2 Lab: 0

**ECE 108 -
Art for the Young Child**

IAI: None 1.2
Art for the Young Child introduces a wide variety of art media and activities suitable for use with young children with an emphasis on the value and importance of these enriching creative art experiences. Weekly field assignments are required. (Offered spring semester.)
Prerequisite: Credit or concurrent enrollment in ECE 101.
Credit: 3 semesters hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

ECE 113 -**Infant and Toddler Curriculum**

IAI: None 1.2
 Infant and Toddler Curriculum focuses on nurturing, care-giving methods; planning and implementing developmentally appropriate practices for infants and toddlers; and age-appropriate behavioral guidance techniques.
Prerequisite: None
Credit: 3
Lecture: 2 Lab: 2

ECE 200 -**Introduction to Early Childhood Education**

IAI: None 1.1
 Introduction to Early Childhood Education provides an introduction to the early childhood education profession with an emphasis on developmentally appropriate practices, professionalism and historical foundations of early education. An overview of program models, various types of early childhood programs, community resources, the family's role in education, diversity, contemporary trends and issues in programs for children ages birth through eight will be addressed. The course is appropriate for individuals seeking to work in a licensed childcare center facility, licensed home day care, or earn an advanced degree in Early Childhood Education for the purpose of working in a public or private school. 15 hours of field observations are required.
Prerequisite: None
Credit: 3
Lecture: 2 Lab: 2

ECE 201 -**Language Development**

IAI: None 1.2
 Language Development will focus on the structure and function of children's language, developmental process of language and its interrelationship and dependency upon other growth processes. Weekly field assignments are required. (Offered fall semester.)
Prerequisite: Credit or concurrent registration in ECE 101.
Credit: 3 semesters hours
Lecture: 3 Lab: 0

ECE 202 -**Family-Community Relationships and Resources**

IAI: None 1.2
 Family Community Relationships and Resources focuses on the child's understanding of his or her world as an individual and as a member of a larger community, and his or her relationship to it. Emphasis is on communication with parents, community leaders and resource people, and their influence on the child's development. Students are required to search out the resources of the community and compile an annotated list of the community resources. (Offered spring semester.)
Prerequisite: ECE 101
Credit: 3 semesters hours
Lecture: 3 Lab: 0

ECE 203 -**Curriculum Planning for the Young Child**

IAI: None 1.2
 Curriculum Planning for the Young Child is designed to enable the student to plan a developmentally appropriate curriculum for young children. Emphasis is on planning engaging activities that meet individual and group needs. (Offered fall semester.)
Prerequisite: ECE 101 and two of the following: ECE 103, 104, 106, 107, 108, 201 or 206 - concurrent enrollment is acceptable.
Credit: 3 semesters hours
Lecture: 3 Lab: 0

ECE 204 -**Internship - Child Care**

IAI: None 1.2
 Internship in Early Childhood Education provides an opportunity to plan and direct learning activities in a child care facility under the direct supervision of a DCFS qualified teacher as well as the college supervisor. Emphasis is on understanding the teacher's role as a member of a teaching team working with children and their families. Weekly meetings, full teaching duties and written assignments will be required. 240 contact hours are required.
Prerequisites: Credit in all ECE courses except 202 and 205. A minimum grade of "C" is required in all courses. Department permission is required, based on the Code of Ethics for the Department.
Credit: 4 semesters hours
Lecture: 1 Lab: 15

ECE 205 -**Organization and Supervision of Early Childhood Facilities**

IAI: None 1.2
 Organization and Supervision of Early Childhood Facilities provides study in the supervisory responsibilities involved in the administration of an early childhood facility. It also includes program planning and implementation, supervision principles, staff management, budget preparation, record keeping and evaluation procedures, governmental licensing and regulatory agencies. (Offered spring semester.)
Prerequisite: ECE 101
Credit: 3 semesters hours
Lecture: 3 Lab: 0

ECE 206 -**Mathematics for the Young Child**

IAI: None 1.2
 Mathematics for the Young Child includes planning and implementation of appropriate mathematical activities for young children. Field assignments will be required. (Offered fall semester.)
Prerequisite: Credit or concurrent registration in ECE 101.
Credit: 2 semesters hours
Lecture: 2 Lab: 0

ECE 207 -**Special Topics in Child Development**

IAI: None 1.2
 Special Topics in Child Development provides special instruction in the application of child care and development principles and skills to preschool and/or day-care situations. This course will be designed for the individual needs of Early Childhood Education majors. A maximum of four credits may be earned in this course.
Prerequisite: None
Credit: 1-4 semesters hours
Lecture: 1-4 Lab: 0

ECE 250 -**Independent Study in Child Care and Development**

IAI: None 1.2
 Independent Study in Child Care and Development is designed for the student who desires to conduct an individual project or research in an area of special interest based on personal goals and objectives. Course requirements are based on the nature of the subject under study. Repeat of this course for a total of three credits is permissible.
Prerequisite: Enrollment in the Early Childhood Education curriculum and consent of instructor or program coordinator.
Credit: 1-3 semesters hours
Lecture: 1-3 Lab: 0

Earth Science

- See Atmospheric Science
- See Geology
- See Physical Geography

Economics**ECO****ECO 101 -****Introduction to Economics**

IAI: S3 900 1.1
 This course is a general introduction to the nature and scope of economic analysis and its application to current issues. Topics covered include markets, competition, monopoly, inflation, unemployment and international economics.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

ECO 103 -**Contemporary Economic Issues**

IAI: None 1.1
 This course is an introduction to the application of economic analysis to current economic problems and the consideration of policy alternatives. The economic approach will be applied to such issues as poverty, crime, healthcare, the environment, unemployment and inflation.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

**ECO 110 -
Principles of Economics: Macro**

IAI: S3 901 1.1
This course is an introduction to national income determination, its relationship to unemployment, inflation, and economic growth, and public policy alternatives used to achieve national economic goals.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**ECO 111 -
Principles of Economics: Micro**

IAI: S3 902 1.1
This course is an introduction to product and resource pricing under various market conditions, and public policy alternatives for economic efficiency and equity in the marketplace.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

Education**EDU****EDU 202 -
Children's Literature**

IAI: None 1.1
Children's Literature is designed to introduce and examine the many genres of children's literature and its uses within a diverse elementary school setting. Students will be introduced to traditional and contemporary children's authors. Students will also consider methods of selecting and evaluating children's books. Group activities and ongoing reading of a variety of children's books is an integral part of this course. This course is designed for students entering the teaching profession and for individuals with an interest in this area.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**EDU 204 -
Introduction to Teaching Reading for
Elementary School Teachers**

IAI: None 1.1
This introductory course is designed to provide prospective teachers with a basic understanding of the reading process. This course introduces prospective teachers to various reading theories, trends in assessment and an array of instructional strategies for teaching reading in the elementary classroom.
Prerequisite: EDU 224 or consent of instructor
Credit: 3 semester hours
Lecture: 3 Lab: 0

**EDU 224 -
Introduction to Education**

IAI: None 1.1
Introduction to Education is an overview of the American Educational System as both a professional and public enterprise. Social, historical, and philosophical foundations give perspective to examination of current issues, policies, and trends in the field of education. These include cultural diversity, inclusion, organizations and structures, finance, curriculum and legislative/legal issues. Completion of 15 hours in a classroom setting, accompanied by proper documentation, and initiation of a standards-based portfolio is required for successful completion of this course.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**EDU 234 -
Introduction to Technology
for Teachers**

IAI: None 1.1
Introduction to Technology for Teachers covers basic technology used in learning in the P-12 classrooms with special emphasis on computer operations and concepts. The application of concepts and skills in making decisions concerning the social, ethical, and human issues related to technology and computing and the consequences of misuse is addressed. Course is designed for students entering the education profession.
Prerequisite: CIS 102 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**EDU 244 -
Students With Disabilities in Schools**

IAI: None 1.1
Students With Disabilities in Schools is a survey course that presents the historical, philosophical and legal foundations of special education, as well as an overview of the characteristics of individuals with disabilities, the programs that serve them under the Individuals With Disabilities Education Act, and the diversity of the populations of individuals with disabilities.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**EDU 245 -
Special Education Practicum**

IAI: None 1.1
Special Education Practicum is an opportunity for students entering education and special education majors to work directly in the local agencies and schools with diverse populations under the supervision of the college. Students are expected to spend 30 hours working with individuals with disabilities in community and/or school settings.
Prerequisite or Corequisite: EDU 244
Credit: 1 semester hour
Lecture: 0 Lab: 30

**EDU 274 -
Elementary School Practicum**

IAI: None 1.1
This course is an opportunity for all elementary or special education majors to work directly in the local schools under the supervision of the college and cooperating teacher. Completion of 50 hours in a classroom setting, accompanied by proper documentation, in addition to other course requirements is necessary for successful completion of this course. This course is required for those who wish to transfer PSY 270 and PSY 271 to Northern Illinois University School of Education. This course serves as the basis for the 100 pre-student teaching observation hours required by the State of Illinois.
Prerequisite: EDU 224 & PSY 271
Credit: 1 semester hour
Lecture: 0 Lab: 2

**Electronic Engineering
Technology****EET****EET 100 -
Introduction to Electronics**

IAI: None 1.2
Introduction to Electronics presents a series of lecture demonstrations on electronics theory and practical applications. The course attempts to develop student interest in electronics and provides a general survey of the electronics area of study. Students learn to apply electronics in daily life, perform basic calculations, and develop measurement skills. Laboratory activities include working with a digital multimeter and soldering on a printed circuit board. This is a general survey course for non-electronics majors only.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 2

**EET 105 -
Introduction to Sustainable Energy**

IAI: None 1.2
Introduction to Sustainable Energy describes force, work, energy, and power as related to alternative-energy systems. The fundamental operation of the electric power grid is described. The focus of this course is on small business and residential applications of distributed renewable-energy electrical-generation systems like small wind turbines, photovoltaic systems, and fuel cells. Geothermal systems and active/passive solar water heating that can reduce the consumption of electrical energy are also explained. Local, state, and national codes (e.g., the National Electric Code) are introduced. Other critical tasks such as performing site feasibility studies, energy audits, and developing energy-efficiency improvement measures are explained. This course helps you prepare for the Renewable Energy Systems Integrator in Training examination offered by the Electronics Technicians Association, International.
Prerequisites: MTH 094 or MTH 096S or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

COURSE DESCRIPTIONS

**EET 107 -
Introduction to Codes and Standards**

IAI: None 1.2

Introduction to Codes and Standards introduces you to the National Electric Code (NEC) and explains how this code relates to renewable energy systems - notably photovoltaics, small wind turbines, fuel cells, and other electrical-generation systems. The importance of other codes and standards at the national, state, and local levels is explained. This course helps you prepare for the Renewable Energy Integrator Certification examination by the Electronics Technicians Association, International.

Prerequisites: Credit or concurrent enrollment in EET 105 and EET 141, or consent of instructor.

Credit: 3 semester hours

Lecture: 2 *Lab:* 2

**EET 125 -
Electronic Fabrication Skills**

IAI: None 1.2

This laboratory course covers chassis wiring, cable assembly techniques, and proper handling precautions of the materials used in fabrication and repair of electronic equipment. Material Safety Data (MSD) sheets are explained. Proper hand tool usage and safety concepts are emphasized throughout the course. Surface Mount Technology projects will be constructed. Designing a Printed Circuit Board (PCBs) using CAD software is also covered.

Prerequisite: MTH 094 or MTH 096S

Credit: 2 semester hours

Lecture: 1 *Lab:* 3

**EET 135 -
Digital Electronics**

IAI: EGR 932 1.2

Digital Electronics introduces the theory and application of digital logic circuits. Topics include basic combinational logic with applications and basic sequential logic with applications. Examples are presented using discrete logic integrated circuits and programmable logic devices (PLD's). Electrical considerations related to digital logic circuits are also addressed.

Prerequisite: Credit or concurrent enrollment in EET 141 and MTH 100, or MTH 125, or MTH 132, or consent of instructor.

Credit: 4 semester hours

Lecture: 3 *Lab:* 2

**EET 141 -
DC/AC Circuits and Electronics I**

IAI: None 1.2

DC and AC Circuits and Electronics I develops techniques for circuit analysis and introduces electronic devices. Topics include: units and number notation, significant digits and rounding. Electrical charge, energy, current, voltage, resistance, and Ohm's law are studied. Electrical conductors and wire tables, fuses and circuit breakers, are covered. Voltage and current sources are defined. Solid-state physics, rectifier and zener diodes, thermistors, positive tempco resistors, and optoelectronic devices are presented. Kirchhoff's current and voltage laws including their application in the mesh and nodal analysis techniques are examined. The sine wave and diode application circuits are covered. Superposition, Thevenin's theorem, and Norton's theorem are used. Bipolar junction transistors are introduced including their use as amplifiers and switches. Capacitors, inductors, energy storage and transient analysis are included. Laboratory activities include learning to use the digital multimeter, DC power supplies, signal generators, and the oscilloscope. Laboratory activities also include using EDA (Electronic Design Automation) via Multisim. Laboratory documentation employing Microsoft Word and Excel is also explained.

Prerequisite: Credit or concurrent enrollment in MTH 120 (or MTH 100, MTH 125, or MTH 132) or consent of instructor.

Credit: 4 semester hours

Lecture: 3 *Lab:* 3

**EET 142 -
DC/AC Circuits and Electronics II**

IAI: None 1.2

DC/AC Circuits and Electronics II is a continuation of EET 141. The phasor concept is introduced including polar/rectangular conversions and phasor arithmetic. Reactance, impedance, susceptance, and admittance are covered. The universal amplifier model and decibels are used. BJT biasing and the common-emitter amplifier are studied. Field effect transistors are explained along with the common-source amplifier. The operational amplifier and its use as an inverting, non-inverting, and differential amplifier are covered. High- and low-pass filters are examined.

Prerequisite: EET 141 and MTH 100 or MTH 125 or MTH 132; or consent of instructor.

Credit: 4 semester hours

Lecture: 3 *Lab:* 3

**EET 168 -
Electronic Engineering Technology
Internship**

IAI: None 1.2

EET Internship requires a supervised experience in the field of electronic engineering technology using a cooperative training plan agreed to by the instructor, participating firm, and student. The student must submit an application to the instructor prior to mid-term of the previous semester and requires consent of the instructor or the Dean. Variable and repeatable credit up to 6 credit hours may be earned. To comply with Illinois Community College Board (ICCB) requirements, the number of clock hours spent at the firm must comply with the table below. The ICCB will permit 62.5 clock hours per credit for non-clinical internships. If EET 168 is taken for 2 credits, then we must document 125 clock hours for the experience.

Credits	Clock Hours	15 Weeks (Fall or Spring)	8 Weeks (Summer)
1	62.5	4.2 Hrs/Wk	7.9 Hrs/Wk
2	125	8.4 Hrs/Wk	15.7 Hrs/Wk
3	187.5	12.5 Hrs/Wk	23.5 Hrs/Wk
4	250	16.7 Hrs/Wk	31.3 Hrs/Wk
5	312.5	20.9 Hrs/Wk	39.1 Hrs/Wk
6	375	25 Hrs/Wk	46.9 Hrs/Wk

Prerequisite: Current enrollment in the Electronic Engineering Technology curriculum, completion of at least 20 credits in EET courses, and sophomore class standing.

Credit: 1-6 semester hours

Lecture: 0 *Lab:* See Table Above

**EET 190 -
Sustainable Electrical Energy
Generation**

IAI: None 1.2

Sustainable Electrical Energy Generation describes the operation of photovoltaic (PV) systems comprised of solar modules, batteries, battery chargers, and inverters to produce power-grid-quality ac voltage. Wind turbines are also studied including generators, alternators, rectification, inverters, and resistive loading during periods of light loading. Fuel cell characteristics, control and monitoring are also explored. The integration of these three technologies is also investigated. Microhydro generation of electrical power is introduced. Safety considerations and electrical codes are emphasized throughout the course. This course helps you prepare for the Renewable Energy Integrator Certification examination by the Electronics Technicians Association, International.

Prerequisites: EET 107; credit or concurrent enrollment in EET 142 and MET 162, or consent of instructor.

Credit: 3 semester hours

Lecture: 2 *Lab:* 2

COURSE DESCRIPTIONS

**EET 219 -
Electric Motors, Controls, and
Variable Speed Drives**

IAI: None 1.2
Electric motors, controls, and variable speed drives (VSD) provides a review of linear and rotational motion, and energy conversions. The basics of electromagnetism, DC motors and AC single-phase and polyphase motors are studied. NEMA motor classifications A, B, C, and D are explained. Power electronic switches are covered including thyristors and IGBTs. The block diagram of the variable speed drive is studied and the synchronized rectifier stage, DC link, inverter stage, and protective functions are studied. The basic characteristics of PID control are covered and its application to variable speed drives. The variable speed drives offered by various manufacturers including Danfoss, Schneider, an Eaton Cutler-Hammer are contrasted.
Prerequisite: Credit in EET 240 and MET 162 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**EET 239 -
Programmable Logic Controllers
(PLCs)**

IAI: None 1.2
Programmable Logic Controllers (PLCs) introduces the application and programming of powerful and flexible devices for industrial control systems. Topics include: ladder logic, PLC programming, program documentation, and PLC input/output requirements. Laboratory exercises include hands-on work with a small PLC system to complete PLC projects.
Prerequisite: EET 135 and EET 142; or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**EET 240 -
DC/AC Circuits and Electronics III**

IAI: None 1.2
DC/AC Circuits and Electronics III is a continuation of EET 142. The use of phasors to describe ac circuits is used for impedance and admittance calculations. The frequency response of an amplifier system is described. Active filters are introduced. Negative feedback and frequency compensation to avoid oscillations are explored. Sinusoidal oscillators are examined. AC power topics including true power, reactive power, apparent power, and power factor correction are covered. Class A, AB, and D power amplifiers are studied. Solid-state power switches are described. Linear and switching dc power supplies are studied. Electronic Design Automation is used extensively to simulate the circuits constructed in the laboratory. Laboratory activities include using oscilloscopes and signal generators. Students will be expected to use Microsoft Word and Excel to prepare their laboratory reports.
Prerequisite: EET 142 or consent of instructor.
Credit: 4 semester hours
Lecture: 3 Lab: 3

**EET 242 -
Sensors, Transducers, and Signal -
Conditioning**

IAI: None 1.2
Sensors, Transducers, and Signal-Conditioning presents all of the components found in a modern instrumentation system including sensors and transducers, signal conditioning, data collection and display. Sensors for various physical quantities are discussed, including: temperature, pressure, strain, acceleration, and displacement. Laboratory activities are coordinated with the lecture topics.
Prerequisite: MET 162 and EET 240; or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**EET 245 -
Control Systems**

IAI: None 1.2
Control Systems introduces basic industrial control systems. Topics include: on-off control, several forms of proportional analog control, digital control, and fuzzy logic control. Related topics such as feedback sensors and stability concerns are studied. Laboratory activities are coordinated with the lecture topics.
Prerequisite: MET 162 and EET 240 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**EET 251 -
Microcontrollers and Interfacing**

IAI: None 1.2
Microcontrollers and Interfacing introduces the student to microcontroller architecture and C programming for embedded control applications. The course deals with the logical development of programs with appropriate software documentation, and the associated hardware interfacing. Professional programming and debugging tools are used throughout the course. Laboratory work includes writing programs and building hardware for various applications.
Prerequisite: EET 135 and EET 142 or consent of instructor.
Credit: 4 semester hours
Lecture: 3 Lab: 3

**EET 254 -
Robotics and Automated Systems**

IAI: None 1.2
Robotics and Automated Systems introduces the student to the mechanical, electrical, and electronic components used in robotics and other automated systems. The student will learn the essential terminology used in robotics and the basic operation of robots in automated manufacturing. The course deals with analog-to-digital (ADC), and digital-to-analog (DAC) conversion for interfacing of the components. The students will be introduced to the programming software used for automated systems. Laboratory work includes interfacing the various components properly, and writing programs, and the robot programming language in group and/or individual projects. The course provides the opportunity for a nationally-recognized Fanuc certification.
Prerequisite: EET 141 and MET 162 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**EET 261 -
Advanced Microcontrollers**

IAI: None 1.2
Advanced Microcontrollers presents microcontrollers for solving basic control problems. Hardware interfacing and software design are studied. The instruction centers on the more popular low-cost microcontrollers. Laboratory activities are coordinated with the lectures and include one or more design projects.
Prerequisite: EET 251
Credit: 3 semester hours
Lecture: 2 Lab: 2

**EET 275 -
Wireless Electronics**

IAI: None 1.2
Wireless Electronics introduces the basic principles of electronic communications, radio frequency identification (RFID), and remote passive and powered sensors such as those based on surface acoustical wave (SAW) devices. Resonant circuits are studied. Amplitude-, frequency-, and phase-modulation and demodulation techniques are covered. Wireless devices defined by IEEE 802 and XBee are studied. Transmission lines and antennas are also explored.
Prerequisite: EET 240 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

COURSE DESCRIPTIONS

EET 277 -**Geothermal, Solar Heating, and Lighting**

IAI: None

Geothermal, Solar Heating and Lighting introduces students to passive and active solar heating, direct and indirect systems, open and closed loops. Geothermal systems for heating and cooling are studied. Various earth loops including horizontal, vertical, pond/lake, and open well-water systems are discussed. Heat pump operation is explored. Solar cooling concepts including reflected cooling, convection cooling, and radiation cooling systems are presented. Solar day lighting including reflected, solar tubes, skylights, and clerestory windows are explained. Various local municipal codes, state and national standards and codes are considered. This course helps you prepare for the Renewable Energy Integrator Certification examination by the Electronics Technicians Association, International. *Prerequisites:* Credit in EET 190 and MET 162, and credit or concurrent enrollment in EET 240, or consent of instructor. *Credit:* 3 semester hours *Lecture:* 2 *Lab:* 2

EET 282 -**EET Capstone Project**

IAI: None

EET Capstone Project is a project-based experience that allows the student to use basic and advanced principles covered in other courses. Students will work individually or in teams to select a project with the consent of the faculty advisor. Project schedule management is emphasized. Project parameters and specifications will be developed. A budget will be established. Approaches to final testing, in order to verify that specifications have been met, will be addressed. *Prerequisite:* EET 240 and EET 251 or consent of instructor. *Credit:* 3 semester hours *Lecture:* 2 *Lab:* 2

EET 285 -**Introduction to Digital Signal Processing**

IAI: None

Introduction to Digital Signal Processing presents fundamental sampled data systems and digital signal processing (DSP) as an alternative to traditional analog techniques. Topics include: Nyquist criteria, convolution and transform techniques, Infinite Impulse Response (IIR) digital filters, and Finite Impulse Response (FIR) digital filters. The required mathematics is covered. Laboratory activities include using signal generators, oscilloscopes, and commercial DSP evaluation board and software. *Prerequisite:* EET 240 and EET 251 or consent of instructor. *Credit:* 3 semester hours *Lecture:* 2 *Lab:* 2

EET 298 -**EET Seminar**

IAI: None

EET 298 is a weekly discussion regarding current events in the electronics industry. Topics may include sensors, integrated circuits, microcontrollers, robotics, alternative energy, power electronic, modeling, and simulation. Students will select topics of interest, research the topics, prepare a written report, and lead a class discussion. *Prerequisite:* EET 240 and EET 251 or consent of instructor. *Credit:* 3 semester hours *Lecture:* 3 *Lab:* 0

EET 299 -**Special Topics in Electronic Engineering Technology**

IAI: None

Special Topics in Electronic Engineering Technology explores specific applications, skills, or interest in modern electronics technology. A special topic requires: adequate and available materials on a specific electronics-related issue, a comprehensive course outline, instructor expertise, student and community interest, and ability to increase skill and/or knowledge in electronic engineering technology. Variable and repeatable credit up to six credit hours may be earned. *Prerequisite:* Determined by the special topic. *Credit:* 1-6 semester hours *Lecture:* 1-6 *Lab:* 0-4

Engineering**EGR****EGR 101 -****Introduction to Engineering**

IAI: None

Introduction to Engineering is a study of engineering and technological systems. The course explores various engineering disciplines, the role of the engineer in society, the engineering approach to problem solving and the engineering design process. Laboratory activities involve reverse-engineering products to find out how they are designed and manufactured. *Prerequisite:* None *Credit:* 2 semester hours *Lecture:* 1 *Lab:* 2

EGR 135 -**Engineering Graphics**

IAI: EGR 941

Engineering Graphics is an introduction to engineering and design. Topics include multi-view orthographic representations, auxiliary projections, dimensioning, section views, basic tolerancing, threads and fasteners, assembly drawings, 2-D production drawings, 3-D solid modeling used for part generation, prototyping and engineering analysis. (Solidworks will be used as modeling software.) *Prerequisite:* MTH 094 or MTH 096S *Credit:* 4 semester hours *Lecture:* 2 *Lab:* 4

EGR 206 - Statics

IAI: EGR 942

Statics is an analysis of real force systems by applying the principles of equilibrium to rigid bodies, simple structures and fluids. Distributed forces, determination of centroids, moments of inertia, analysis of structures, virtual work, friction, and related topics are presented. *Prerequisite:* MTH 235 with C or higher. *Corequisite:* PHY 215 or consent of instructor. *Credit:* 3 semester hours *Lecture:* 3 *Lab:* 0

EGR 207 - Dynamics

IAI: EGR 943

Dynamics is an analysis of motion of particles and the relationship between forces acting on bodies and the changes in motion produced. Particle and planar kinematics, principles of force, mass and acceleration, work and energy, vibration, impulse and momentum, and related topics are presented. *Prerequisite:* EGR 206 *Credit:* 3 semester hours *Lecture:* 3 *Lab:* 0

EGR 221 -**Elementary Mechanics of Deformable Bodies**

IAI: EGR 945

Elementary Mechanics of Deformable Bodies studies the relationship between external forces and the stresses and deformations they produce in a deformable body for both elastic and inelastic behavior. Consideration is given to members subjected to tension and compression, torsion, and bending related to: loading and deflection of beams and shafts, buckling of columns, repeated loads, combined stresses, analysis of stress and strain, Mohr's Circle, and related topics. *Prerequisite:* EGR 206 *Credit:* 3 semester hours *Lecture:* 3 *Lab:* 0

EGR 231 -**Engineering Circuit Analysis**

IAI: EGR 931L

Engineering Circuit Analysis provides an introduction to electric circuits. Circuit topologies including series, parallel, series-parallel, and non-planar circuits are explained. Fundamental circuit elements are studied including resistance, capacitance, self-and mutual-inductance, constant-voltage sources, constant-current sources, and controlled sources. Basic law and theorems are applied. Specifically, Ohm's law, Kirchhoff's Voltage Law and Kirchhoff's Current Law are described and applied. Mesh and nodal analysis are used. DC and sinusoidal steady-state circuits using the phasor concept are introduced. Time-domain and analysis of R-L-C circuits is covered as well as an introduction to Laplace transforms. *Prerequisite:* MTH 235 with minimum grade of "C", PHY 215, and credit or concurrent enrollment in MTH 236 and PHY 225, or consent of instructor. *Credit:* 4 semester hours *Lecture:* 3 *Lab:* 3

COURSE DESCRIPTIONS

**EGR 250 -
Digital Electronics**

IAI: EGR 932L 1.1

Digital Electronics provides an introduction to computer engineering. This course explores combinational logic and Boolean algebra. Logic circuit design and simplifications using Karnaugh maps is studied. Sequential logic including registers, counters, and state machines are covered. State transition diagrams are used to help simplify sequential logic problems. The student will learn how to analyze, design, debug, and implement digital logic solutions.

Prerequisite: Credit in EGR 231 with a "C" or better grade or consent of instructor.

Credit: 4 semester hours

Lecture: 3

Lab: 3

English - Developmental ENG**ENG 082 -
Foundations of Writing**

IAI: None 1.4

In Foundations of Writing, students develop skills in writing and revising brief compositions of a variety of types. Students read and respond to the perspectives of others in their writing, and they attend to the needs of readers by learning to edit and proofread their own work.

Coprerequisite: Students must be concurrently enrolled in RDG 080 or RDG 092 based on the results of the reading placement test.

Credit: 4 semester hours

Lecture: 4

Lab: 0

**ENG 097 -
Essentials of Writing**

IAI: None 1.4

In Essentials of Writing, students practice effective strategies for developing multi-paragraph compositions of a variety of types, often in response to their reading. Students revise and edit their own work, in order to prepare for writing in their college courses.

Prerequisite: None

Credit: 4 semester hours

Lecture: 4

Lab: 0

**ENG 099 -
Introduction to College Writing**

IAI: None 1.4

In Introduction to College Writing, students learn to write focused, coherent, multi-paragraph essays in both personal and persuasive genres. In addition, students read a variety of texts, both to develop critical thinking skills and to provide a context for some writing assignments. Attention is devoted to grammar and usage within the context of students' writing. Students write 12-16 pages of revised prose during the course.

Prerequisite: Students scoring below the cut-off point in the English placement test are required to take ENG 099.

A grade of "C" or better is required in this course to advance to ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

English**ENG****ENG 101 -
Composition I**

IAI: C1 900 1.1

In Composition I, students employ flexible strategies to develop focused, purposeful essays that demonstrate college-level thinking. Students write in a variety of textual forms, including persuasive essays in the latter half of the semester, and learn to address the needs of audiences by increasing their awareness of the rhetorical situations in which they write. Students learn to develop and support their claims effectively, to position their ideas in relation to those of others, and to edit their writing carefully. Students write 16-24 pages of revised prose during the course.

Prerequisite: Sufficiently high placement test score; or a grade of "C" or better in ENG 099

Credit: 3 semester hours

Lecture: 3

Lab: 0

**ENG 103 -
Composition II**

IAI: C1 901R 1.1

In Composition II, the second half of a two-semester writing sequence, students conduct research on academic topics, advance extended arguments, and use sources appropriately and effectively. In doing so, they develop the habits of mind associated with sound scholarship. Students write 16-24 pages of revised prose during the course, including documented multi-source writing in one or more papers for a combined total of at least 2,500 words in final version.

Prerequisite: A grade of "C" or higher in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**ENG 107 -
Grammar and Usage Review**

IAI: None 1.2

Grammar and Usage Review is a review of the conventions and standards in modern written English. Problems most frequently encountered in academic, business, and industrial writing are addressed. The emphasis is on functional applications of contemporary rules and attitudes toward language and intensive editing and proofreading practice. This course does not take the place of ENG 099 and cannot be used as a prerequisite for any other English course.

Prerequisite: None

Credit: 2 semester hours

Lecture: 2

Lab: 0

**ENG 108 -
Introductory Creative Writing**

IAI: None 1.1

Introductory Creative Writing gives the student practice in the creative writing skills needed for effective expression in a variety of genres (e.g., fiction, drama, poetry). Students will draft varied works of creative writing, use critical terminology in the discussion of creative works, and participate in revision processes. A minimum of 25 pages of completed work is recommended.

Prerequisite: A grade of "C" or better in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**ENG 110 -
Introduction to Technical Writing**

IAI: None 1.2

In Introduction to Technical Writing, students, individually and collaboratively, will employ various processes to produce professional caliber technical documents. Throughout the semester students will produce and analyze a number of common technical writing genres, such as: emails, letters, resumes, memos, reports, proposals, technical descriptions, technical definitions, instructions/procedures, and proposals. Students will work toward understanding how to analyze and react to rhetorical situations each genre and writing situation presents, including issues of audience, organization, visual design, style, and the material production of documents. Students will complete research processes, selecting and interacting with sources, culminating in the production of documented, multi-source writing in one or more formal papers totaling at least 2,500 words. During the course students will write a minimum of 16-24 pages.

Prerequisite: ENG 101 with a grade of "C" or higher, or consent of instructor.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**ENG 201 -
Advanced Composition**

IAI: None 1.1

Advanced Composition is intended for the student interested in pursuing additional study of the writing of non-fiction prose. The course involves advanced study of both the theory and practice of stylistic analysis.

Prerequisite: A grade of "C" or higher in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**ENG 204 -
Introduction to Linguistics**

IAI: None 1.1

Introduction to Linguistics is a practical investigation into many facets of the English language in daily use. Topics include phonetics, phonology, morphology, syntax, semantics, pragmatics, dialectology, and history of the English language.

Prerequisite: A grade of "C" or better in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**ENG 206 -
Creative Writing: Poetry**

IAI: None 1.1

Creative Writing: Poetry focuses on students' understanding of the structure and elements of poetry and the writing process. Students will draft varied works of poetry, use critical terminology in the discussion of poetic works, and participate in revision processes. A minimum of 15 pages of completed work is recommended.

Prerequisite: A grade of "C" or higher in RDG 099.

Credit: 3 semester hours

Lecture: 3

Lab: 0

***See update in Catalog Addendum

COURSE DESCRIPTIONS

ENG 207 -**Creative Writing: Fiction**

IAI: None 1.1
Creative Writing: Fiction focuses on students' understanding of the structure and elements of fiction and the writing process. Students will draft varied works of fiction, use critical terminology in the discussion of fictional works, and participate in revision processes. A minimum of 30 pages of completed work is recommended.
Prerequisite: A grade of "C" or better in ENG 101.
Credit: 3 semester hours
Lecture: 3 Lab: 0

ENG 208 -**Creative Writing: Screenwriting**

IAI: None 1.1
Creative Writing: Screenwriting focuses on students understanding the structure and elements of screenwriting and the writing process. Students will draft varied scripts, use critical terminology in the discussion of screenwriting works, and participate in revision processes. A minimum of 30 pages of completed work is recommended.
Prerequisite: ENG 101 with a grade of "C" or higher.
Credit: 3 semester hours
Lecture: 3 Lab: 0

ENG 209 -**Creative Writing: Literary Non-Fiction**

IAI: None 1.1
Creative Writing: Literary Non-Fiction focuses on students understanding the structure, forms and elements of literary non-fiction and the writing process. Students will draft varied works of literary non-fiction, use critical terminology in the discussion of non-fiction works, and participate in revision processes. A minimum of 30 pages of completed work is recommended.
Prerequisite: A grade of "C" or higher in ENG 101.
Credit: 3 semester hours
Lecture: 3 Lab: 0

ENG 210 -**Technical Writing**

IAI: None 1.2
Technical Writing includes document design, visual and graphic elements, word processing/desktop publishing methods, and print production. Typical assignments include articles for publication, proposals, brochures, newsletters, manuals, and media presentations based on students' majors or work experiences.
Prerequisite: ENG 110 or consent of the instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

ENG 220 -**Technical Writing Internship**

IAI: None 1.2
Technical Writing Internship provides approximately 150 hours of writing experience on special projects appropriate to the student's major and work experience. The internship provides further development and exposure to technical writing through supervised field experiences.
Prerequisite: ENG 110, ENG 210 (or concurrent enrollment), and consent of instructor.
Credit: 3 semester hours
Lecture: 1 Lab: 10

Fire Science**FRE****FRE 101 -****Introduction to Fire Protection**

IAI: None 1.2
Introduction to Fire Protection provides an overview to fire protection, career opportunities in fire protection, and related fields; philosophy and history of fire protection/service; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service, fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

FRE 102 -**Fire Apparatus Engineer**

IAI: None 1.2
Fire Apparatus Engineer provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and to solve water supply problems.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

FRE 103 -**Hazardous Materials Operations**

IAI: None 1.2
The Hazardous Materials Operations course provides the student with the basic skills needed to evaluate and work defensively at a hazardous materials incident. Included are the classifications of hazardous materials, types of chemicals, methods of transportation and laws that regulate their use.
Prerequisite: FRE 101 or consent of instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

FRE 106 -**Rescue Practices**

IAI: None 1.2
Rescue Practices explores life-saving practices related to the operations of the fire company as well as the preparedness of the fire department to meet the needs of special rescue situations. The course provides an overview of water rescue, technical rescue, and vehicle extrication.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

FRE 112 -**Vehicle/Machinery Rescue Operations**

IAI: None 1.2
Vehicle/Machinery Rescue Operations is designed to acquaint the student with techniques used in auto and machinery extrication. Emphasis will be on safety of personnel at emergency incidents, scene size-up, and management of the emergency scene, as well as function of the tools utilized in vehicle and machinery extrication. This course meets the requirements as defined by the Office of the Illinois State Fire Marshal, and NFPA 1670.
Prerequisite: FRE 101 or consent of instructor and OSFM - Technical Rescue Awareness Certificate.
Credit: 3 semester hours
Lecture: 2 Lab: 2

FRE 118 -**Building Construction for Fire Protection**

IAI: None 1.2
Building Construction for Fire Protection introduces the components of building construction that relate to fire and life safety. The focus of this course is on firefighter safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at emergencies.
Prerequisite: None
Corequisite: FRE 101
Credit: 3 semester hours
Lecture: 3 Lab: 0

FRE 180 -**Essentials of Firefighting I**

IAI: None 1.2
Essentials of Firefighting I introduces students to basic firefighting skills and equipment. The class includes the following subject areas; orientation, fire behavior, building construction, safety, communications, self-contained breathing apparatus, fire extinguishers, and ropes and knots. This course, combined with Essentials of Firefighting II and III, provide the student with the required training to sit for the Office of the Illinois State Fire Marshal Written Exam for Basic Operations Firefighter.
Prerequisite: FRE 101
Corequisites: FRE 181, 182
Credit: 3 semester hours
Lecture: 2 Lab: 2

COURSE DESCRIPTIONS

**FRE 181 -
Essentials of Firefighting II**

IAI: None 1.2
Essentials of Firefighting II is an intermediate firefighting skills course that provides the student with an understanding of the principles behind the following subject areas: ladders, hose and appliances, nozzles/streams, water supply, forcible entry, and ventilation. The course, when combined with Essentials of Firefighting I and III, provide the student with the required training to sit for the Office of the Illinois State Fire Marshal Written Exam for Basic Operations Firefighter.
Prerequisite: FRE 101
Corequisites: FRE 180, 182
Credit: 3 semester hours
Lecture: 2 Lab: 2

**FRE 182 -
Essentials of Firefighting III**

IAI: None 1.2
Essentials of Firefighting III is an advanced firefighting skills course that combines both previous courses and introduces practical applications. Topics presented are: search and rescue, fire control, loss control, protecting evidence, fire detection/ alarm and suppression systems, prevention/public education, wild land/groundcover firefighting, and firefighter survival. This course, when combined with Essentials of Firefighting I and II, provide the student with the required training to sit for the Office of the Illinois State Fire Marshal Written Exam for Basic Operations Firefighter.
Prerequisite: FRE 101
Corequisites: FRE 180, 181
Credit: 3 semester hours
Lecture: 2 Lab: 2

**FRE 206 -
Management I**

IAI: None 1.2
Management I is an introduction to the organization and management of a fire department and the relationship of government agencies to the fire service. Emphasis is placed on fire service leadership from the perspective of the company officer.
Prerequisite: FRE 101
Credit: 3 semester hours
Lecture: 3 Lab: 0

**FRE 207 -
Management II**

IAI: None 1.2
Management II is an examination of small group communication and conflict resolution techniques. Topics include written communication skills, verbal and non-verbal communication techniques, handling conflicts, small group processes and the respective dynamics associated with the same, and group cohesiveness and personnel morale.
Prerequisite: FRE 206
Credit: 3 semester hours
Lecture: 3 Lab: 0

**FRE 208 -
Fire Prevention Principles**

IAI: None 1.2
Fire Prevention Principles provides fundamental information regarding the history and philosophy of fire prevention, organization and operation of a fire prevention bureau, use of fire codes, identification and correction of fire hazards, and the relationships of fire prevention with built-in fire protection systems, fire investigation, and fire and life-safety education.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**FRE 210 -
Fire Investigation**

IAI: None 1.2
Fire Investigation provides the fundamentals and technical knowledge needed for proper fire scene interpretations, including recognizing and conducting origin and cause, preservation of evidence and documentation, scene security, motives of the firesetter, and types of fire causes.
Prerequisite: FRE 101
Credit: 3 semester hours
Lecture: 3 Lab: 0

**FRE 216 -
Tactics and Strategy I**

IAI: None 1.2
Tactics and Strategy I is designed for fire service personnel who may be responsible for one or two companies at emergency incidents. Company officer leadership, incident safety, pre-fire planning, building construction, firefighting tactics, engine company and truck company operations.
Prerequisite: FRE 101 or consent of the instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**FRE 217 -
Tactics and Strategy II**

IAI: None 1.2
Tactics and Strategy II is designed for fire service personnel who may be responsible for one or two companies at emergency incidents. Company officer leadership, incident safety, pre-fire planning, building construction, firefighting tactics, engine company and truck company operations.
Prerequisite: FRE 216
Credit: 3 semester hours
Lecture: 3 Lab: 0

**FRE 218 -
Instructor I**

IAI: None 1.2
Instructor I will prepare the student to become a fire service instructor. The course is designed to give the student the knowledge and ability to teach from prepared materials. Topics covered include: communications, concepts of learning, instruction and evaluation techniques, the instructor's roles and responsibilities and use of instructional materials.
Prerequisite: FRE 101 or consent of the instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**FRE 219 -
Instructor II**

IAI: None 1.2
Instructor II places emphasis on teaching formalized lessons from materials prepared by the fire service instructor. Course coverage includes: writing performance objectives, developing lesson plans, preparing instructional materials, constructing evaluation devices, demonstrating selected teaching methods, training records and reports, and identification of reference resources.
Prerequisite: FRE 218
Credit: 3 semester hours
Lecture: 3 Lab: 0

**FRE 220 -
Management III**

IAI: None 1.2
Management III is designed to provide the fire officer, who is in charge of multiple fire companies or stations, with information and skills in officer supervision and administrative functions. Subject areas covered will include planning and decision-making, finance and budgeting, risk management, public relations and the news media.
Prerequisite: FRE 207
Credit: 3 semester hours
Lecture: 3 Lab: 0

**FRE 223 -
Emergency Medical Technician**

IAI: None 1.2
Emergency Medical Technician course covers emergency care, handling, and extrication of the critically ill and injured. Topics covered include control of hemorrhage, treatment of shock, fractures, soft tissue injuries, burn victims, poisoning, emergency childbirth, packing and transportation of the sick and injured.
Prerequisite: None
Credit: 9 semester hours
Lecture: 7 Lab: 4

**FRE 225 -
Management IV**

IAI: None 1.2
Management IV course focuses on analyzing and organizing personnel assignments, developing personnel policies, reviewing and approving capital budgets and fiscal financing, implementing public relations programs and management systems for the fire service. Advanced personnel management, organizing health and safety programs and labor relations are other areas of focus in this upper level management course.
Prerequisite: FRE 220
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

**FRE 240 -
Fire Protection Internship**

IAI: None 1.2
Fire Protection Internship provides the student with an opportunity to apply and expand upon newly-acquired skills in the fire service work environment. This course is carried out cooperatively between the student and the host facility. Periodic review sessions will be held to assess the student's progress. Participation requires an interview and selection process.
Prerequisite: FRE 182
Corequisite: FRE 206, 208
Credit: 1-6 semester hours
Lecture: 0 Lab: 1-6

**FRE 250 -
Special Topics in the Fire Service**

IAI: None 1.2
Special Topics in the Fire Science is designed to allow a student to apply other learning experiences toward credit at Rock Valley College. National Fire Academy courses, Illinois Fire Service Institute courses, workshops and seminars are examples of experiences that may be reviewed for credit. A total of four credits will be allowed for this course.
Prerequisite: Enrollment in the Fire Science curriculum.
Credit: 1-4 semester hours
Lecture: 1-4 Lab: 0

**Fitness, Wellness,
and Sport****FWS****FWS 110 -
Fitness Walking**

IAI: None 1.1
Fitness Walking provides individuals with a low-impact alternative to jogging as a means of improving cardiovascular fitness and overall health.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 113 -
Low Impact Aerobics**

IAI: None 1.1
Low Impact Aerobics develops and improves strength, flexibility, and cardiovascular endurance.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 116 -
Step Aerobics**

IAI: None 1.1
Step Aerobics is designed to stimulate and initiate aerobic-fitness awareness through broadening knowledge and experience of movements of the body through the use of the STEP.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 119 -
Cardio Kickboxing**

IAI: None 1.1
Cardio Kickboxing is designed to provide individuals with an aerobic workout. Tae Kwon Do and boxing skills are incorporated into this high-energy exercise session.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 121 -
Cardiovascular Fitness &
Conditioning**

IAI: None 1.1
Cardiovascular Fitness & Conditioning focuses on a variety of modes of exercise intended to develop cardiovascular fitness. Emphasis will be placed on understanding basic program design, implementation, and execution of cardiovascular exercises.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 126 -
Beginning Weight Lifting**

IAI: None 1.1
Beginning Weight Lifting introduces basic and intermediate strategies to developing an appropriate individual strength and resistance program. Emphasis will be placed on understanding basic program design, implementation, and execution of basic resistance exercises.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 127 -
Advanced Weight Lifting**

IAI: None 1.1
Advanced Weight Lifting provides the student with an in-depth study of weightlifting techniques, strategies, and theories. This course will focus on free weights and advanced lifting strategies that are currently used.
Prerequisite: FWS 126
Credit: 2 semester hours
Lecture: 1 Lab: 2

**FWS 131 -
Basketball and Touch Football**

IAI: None 1.1
Basketball and Touch Football acquaints the student with the skills, strategies, and rules of basketball and touch football.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 133 -
Power Volleyball**

IAI: None 1.1
Power Volleyball introduces the student to the following fundamentals of power volleyball: the forearm pass, the floater serve, the overhead set, spiking, blocking, the five-one offensive and two-four defensive patterns.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 135 -
Golf**

IAI: None 1.1
Golf is designed for both the beginning and experienced players. Students will develop the fundamental skills, techniques, and strategy through practice and playing on the golf course.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 137 -
Tennis**

IAI: None 1.1
Tennis is designed to develop and improve the proper skills and fundamentals necessary to enjoy the game of tennis through practice and playing experiences on tennis courts.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 139 -
Soccer**

IAI: None 1.1
Soccer acquaints the beginning student with the fundamental soccer skills of dribbling, passing, kicking, tackling, trapping, heading and goalkeeping. Simple offensive and defensive strategies will be emphasized.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 140 -
Basic Physical Defense for Women**

IAI: None 1.1
This course is a women's only self-defense and risk reduction education program designed to teach realistic ways to lessen the chances of and defend against physical assault.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 141 -
Hiking, Cycling, and Outdoor
Activities**

IAI: None 1.1
Hiking, Cycling, and Outdoor Activities is designed to acquaint the student with these activities. Emphasis will be on an appreciation of nature and enjoying the out-of-doors via a fitness activity. The class will be traveling to various biking and hiking sites.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

**FWS 143 -
Snorkeling**

IAI: None 1.1
Snorkeling is offered in connection with other college travel classes visiting warm water locations. This course is designed to introduce the student to a variety of open water and reef snorkeling experiences by visiting and exploring the numerous sites available in the area.
Prerequisite: None
Credit: 1 semester hour
Lecture: 0 Lab: 2

COURSE DESCRIPTIONS

**FWS 145 -
Scuba Diving**

IAI: None

1.1

Scuba Diving introduces the student to the skills and knowledge necessary for PADI (Professional Association of Diving Instructors) Open Water Diver certification.

Prerequisite: None

Credit: 1 semester hour

Lecture: 0

Lab: 2

**FWS 146 -
Open Water Scuba**

IAI: None

1.1

Open Water Scuba is offered in connection with other college travel classes visiting a warm water location. PADI certification may be started by completing the necessary classroom and pool sessions prior to departure. If desired, final checkout dives may be completed on site in the warm open water. For those with PADI certification, credit is earned by completing a minimum of eight open water dives.

Prerequisite: None

Credit: 1 semester hour

Lecture: 0

Lab: 2

**FWS 150 -
Shoto-kan Karate**

IAI: None

1.1

Shoto-kan Karate is designed to introduce the student to the fundamentals of self-defense. Students will learn the history and philosophy of Shoto-kan Karate as well as develop the basic skills of kicks, blocks and self-defense holds and releases.

Prerequisite: None

Credit: 1 semester hour

Lecture: 0

Lab: 2

**FWS 151 -
Tae Kwon Do**

IAI: None

1.1

Tae Kwon Do is an introduction to a system of techniques for self-defense and counter-attack by the unarmed.

The course promotes skill development in basic Tae Kwon Do techniques.

Prerequisite: None

Credit: 1 semester hour

Lecture: 0

Lab: 2

**FWS 176 -
Intercollegiate Sports I**

IAI: None

1.1

Intercollegiate Sports I is a course for students who are members of one of the college's intercollegiate team sports programs. These include: women's tennis, basketball, softball, volleyball, and soccer; men's baseball, basketball, golf, tennis, and soccer. Students may earn a maximum of two credits for any combination of FWS 176 and FWS 177.

Prerequisite: Permission from respective coach is required to enroll in this class.

Credit: 1 semester hour

Lecture: 0

Lab: 2

**FWS 177 -
Intercollegiate Sports II**

IAI: None

1.1

Intercollegiate Sports II is a course for students who are members of one of the college's intercollegiate sports programs. These include: women's tennis, basketball, softball, volleyball, and soccer; men's baseball, basketball, golf, tennis, and soccer. Students may earn a maximum of two credits for any combination of FWS 176 and FWS 177. Students may not enroll in FWS 177 without completing FWS 176.

Prerequisite: Permission from respective coach is required to enroll in this class.

Credit: 1 semester hour

Lecture: 0

Lab: 2

**FWS 220 -
Introduction to Career Opportunities
in Physical Education, Exercise
Science, and Sport**

IAI: None

1.1

Introduction to Career Opportunities in P.E., Exercise Science, and Sport provides an opportunity for the student to examine career opportunities in physical education, coaching, sports medicine and closely-related fields.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**FWS 221 -
Intro to Teaching Physical Education**

IAI: None

1.1

The Introduction to Teaching Physical Education course is designed to acquaint the student with the physical, psychological and sociological foundations of elementary, middle, and high school physical education. An emphasis is placed on planning and applying pedagogical strategies.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**FWS 223 -
Physical Education for the
Elementary School Teacher**

IAI: None

1.1

Physical Education for the Elementary School Teacher introduces the pre-service teacher to content and methods of teaching age-appropriate physical activities to children, in grades K-6. There will be special emphasis placed on appropriate pedagogical techniques in assessing, designing, and instructing a well-designed and meaningful physical education program.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**FWS 225 -
Principles of Adapted Physical
Education**

IAI: None

1.1

Principles of Adapted Physical Education acquaints the student with the principles of conducting adaptive recreational and physical education programs. It is an in-depth study of the background and foundations of disabilities in the special student and adult.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**FWS 231 -
Contemporary Health Issues**

IAI: None

1.1

Contemporary Health Issues provides health information to students so they can make intelligent decisions concerning their health and the health of significant others.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**FWS 233 -
Community Health**

IAI: None

1.1

Community Health is designed to provide the student with an in-depth study of community health organizations issues such as population growth, environment, poverty, medical care and disease.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**FWS 235 -
Alcohol and Drug Education**

IAI: None

1.1

Alcohol and Drug Education is designed to educate the student about issues relating to all drugs and chemicals used in today's society. Students will learn about prescription drugs, over-the-counter drugs, illicit drugs, and controversial issues surrounding the usage of various forms of chemicals relevant to current issues.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**FWS 236 -
Human Sexuality**

IAI: SW 912

1.1

Human Sexuality introduces topics of human sexual functioning including the physiology, sociology, philosophy and morality of human sexual practices and of love.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**FWS 237 -
Nutrition for Optimum Living**

IAI: None

1.1

Nutrition for Optimum Living explores the function of nutrients and nutrition as it affects health. Attention is given to understanding the importance and interrelationship of the nutrients to achieving optimal health.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

COURSE DESCRIPTIONS

FWS 240 -**Introduction to Athletic Training and Sports Medicine**

IAI: None 1.1

Introduction to Athletic Training and Sports Medicine stresses principles and techniques for the prevention, recognition, treatment and rehabilitation of common athletic injuries. Includes discussion of the team approach of sports medicine in ensuring quality care to the athlete. Supportive taping and wrapping, duties and responsibilities of the athletic trainer, and operations procedure for athletic trainers are also covered. Students are required to complete one hour of independent lab.

Prerequisite: None

Credit: 3 semester hours

Lecture: 2

Lab: 2

FWS 243 - *See update Catalog Addendum
First Aid and General Safety**

IAI: None 1.1

First Aid and General Safety teaches the student emergency care for accident victims until the services of emergency personnel can be obtained. Upon completion of this course, students will be trained in the American Red Cross techniques of adult, infant and small child CPR and standard first aid.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

FWS 250 -**Introduction to Sport Management**

IAI: None 1.1

Introduction to Sport Management will introduce the student to the expanding field of sport management. An overview of the field and specific career opportunities will be covered.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

FWS 253 -**Introduction to Coaching**

IAI: None 1.1

Introduction to Coaching covers the basic principles and practices of coaching by examining sport philosophy, pedagogy, physiology, management, and sports medicine.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

FWS 254 -**ASEP Sport First Aid and CPR**

IAI: None 1.1

ASEP Sport First Aid and CPR is the second course in a two sequence designed to prepare students for the American Sport Effectiveness Program (ASEP) exam. This course acquaints the student with the concepts and theories of sport first aid. This course will also train students in CPR, with practical and classroom components.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

FWS 255 -**Sociology of Sport**

IAI: None 1.1

Sociology of Sport is designed to educate students about the relevance of sport in modern society, the impact of sport on society and the influence which cultural institutions have on sport.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

FWS 256 -**History of Physical Education & Sport**

IAI: None 1.1

History of Physical Education & Sport is the historical development of the physical education field from ancient times to present. The course includes social, political, economic, military, and religious effects on physical education and sports and vice versa.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

FWS 258 -**Sport and Exercise Psychology**

IAI: None 1.1

Sport and Exercise Psychology is an examination of psychological concepts and coaching attitudes and techniques for improving and fostering athletic performance and enjoyment. The course includes psychological motivation, choice and individual participation in appropriate athletic and fitness activities.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

FWS 260 - *See update Catalog Addendum
Introduction to Exercise and Sport Science**

IAI: None 1.1

Introduction to Exercise and Sport Science is designed to introduce students to the various aspects of the discipline including areas of study, technology, certifications, professional organizations as well as the current and future trends in exercise science.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

FWS 261 -**Nutrition for Fitness and Sport**

IAI: None 1.1

Nutrition for Fitness and Sport explores the relationship between nutrition and physical fitness. Topics covered include: adequate diets for athletes, pre-event meals, nutritional demands of aerobic and anaerobic activities, and caloric expenditure for various physical activities.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

FWS 263 -**Nutrition, Exercise and Weight Control**

IAI: None 1.1

Nutrition, Exercise and Weight Control is specifically designed for those students who want to better understand the relationship of dieting and exercise to obesity. Based on a multi-disciplinary approach, this class will explore the physiological, sociological and psychological theories of obesity. The role of exercise and fitness in weight control will be demonstrated through the actual planning and implementation of a specifically-designed exercise program.

Prerequisite: None

Credit: 3 semester hours

Lecture: 2

Lab: 2

FWS 265 -**Personal Fitness and Wellness**

IAI: None 1.1

Personal Fitness and Wellness incorporates the principles and theories of wellness into an individualized fitness program. By combining lecture with activity, all aspects of the students' lifestyles will be examined and assessed. Students will be required to attend one group lab and one independent lab session.

Prerequisite: None

Credit: 3 semester hours

Lecture: 2

Lab: 2

FWS 266 -**Personal Training I - Concepts & Applications**

IAI: None 1.2

This Personal Training I - Concepts & Applications course is the first course in a two sequence designed to prepare students for the National Strength and Conditioning Association Certified Personal Training (NSCA-CPT) exam. This course acquaints the student with the concepts and theories of exercise and its relation to health and physical fitness for personal trainers.

Prerequisite: MTH 094 or MTH 096A or MTH 096S

Credit: 3 semester hours

Lecture: 3

Lab: 0

FWS 267 -**Personal Training II - Concepts & Applications**

IAI: None 1.2

This Personal Training II - Concepts & Applications course is the second course in a two sequence designed to prepare students for the National Strength and Conditioning Association Certified Personal Training (NSCA-CPT) exam. This course acquaints the student with the concepts and theories of exercise and its relation to health and physical fitness for personal trainers.

Prerequisite: FWS 266 or consent of instructor

Credit: 3 semester hours

Lecture: 3

Lab: 0

COURSE DESCRIPTIONS

**FWS 270 -
FWS Practicum I**

IAI: None

1.2

The Fitness, Wellness, and Sport Practicum I is an opportunity for students entering the fields of Exercise Science, Physical Education (Pedagogy), and Sport Management to work directly in the local agencies and schools under the supervision of the college. This course is one of three distinctly different experiences that students will experience before graduation. Students are expected to spend 50-150 hours working and observing Fitness, Wellness and Sport professionals working in the private or public sector, community and school settings.

Prerequisite: FWS 220 or 250 or FWS 260 and consent of department chair.

Credit: 1 - 3 semester hours

Lecture: 1

Lab: 10

**FWS 271 -
FWS Practicum II**

IAI: None

1.2

The Fitness, Wellness, and Sport Practicum II is an opportunity for students entering the fields of Exercise Science, Physical Education (Pedagogy), and Sport Management to work directly in the local agencies and schools under the supervision of the college. This course is the second of three distinctly different experiences that students will experience before graduation. Students are expected to spend 50-150 hours working and observing Fitness, Wellness and Sport professionals working in the private or public sector, community and school settings.

Prerequisite: FWS 220 or 250 or FWS 260, and FWS 270, and consent of department chair.

Credit: 1-3 semester hours

Lecture: 1

Lab: 10

**FWS 272 -
FWS Practicum III**

IAI: None

1.2

The Fitness, Wellness, and Sport Practicum III is an opportunity for students entering the fields of Exercise Science, Physical Education (Pedagogy), and Sport Management to work directly in the local agencies and schools under the supervision of the college. This course is third of three distinctly different experiences that students will experience before graduation. Students are expected to spend 50-150 hours working and observing Fitness, Wellness and Sport professionals working in the private or public sector, community and school settings.

Prerequisite: FWS 220 or 250 or FWS 260 and FWS 270 and 271, and consent of department chair.

Credit: 1-3 semester hours

Lecture: 1

Lab: 10

**FWS 275 -
Personal Training Internship**

IAI: None

1.2

Personal Training Internship provides the student with an opportunity to apply and expand upon newly acquired skills in the personal training work environment. This course is carried out cooperatively between the student and the host facility. Periodic review sessions will be held to assess the student's progress. Participation requires an interview, background check and selection process.

Prerequisite: 12 hours of FWS course work which must include FWS 121 or 126, 127, and both FWS 266 and 267

Credit: 3 semester hours

Lecture: 1

Lab: 4

**FWS 276 -
Athletic Coaching Internship**

IAI: None

1.2

The Athletic Coaching Internship provides the student with an opportunity to apply and expand upon newly acquired skills in the coaching work environment. This course is carried out cooperatively between the student and the host facility. Periodic review sessions will be held to assess the student's progress. Participation requires an interview, background check and selection process.

Prerequisite: 12 hours of FWS course work which must include FWS 121, or 126, 127, and both FWS 253 and 254.

Credit: 3 semester hours

Lecture: 1

Lab: 4

Fluid Power**FLD****FLD 100 -
Introduction to Fluid Power**

IAI: None

1.2

The Introduction to Fluid Power course is designed to provide students with a basic understanding of the concepts and applications of fluid power technology and the necessary skills for further study in the field. The course is an overview of fluid power technology applications; the general concept of fluid power systems; an introduction to energy input, energy output, energy control, and systems auxiliary components; as well as the design and function of components.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

Foreign Language

- See Modern Languages

French**FRE**

- See Modern Languages

Geography**GEO****GEO 130 -
World Regional Geography**

IAI: S4 900N

1.1

World Regional Geography provides an analysis of the physical and human resources of the major world areas. Special attention is given to the economic status of individual nations and the problems and potentialities of their future development.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

Geology**GEL****GEL 101 -
Introduction to Geology**

IAI: P1 907L

1.1

Introduction to Geology is designed as a first or second semester course for both liberal arts and science majors. This course will serve as an introductory course for a student interested in majoring in geology. The focus of this course is on the physical composition of the Earth and the dynamic processes that affect the Earth. Topics covered include plate tectonics, mountain building, volcanoes, earthquakes, glaciers, rivers, minerals, and rocks. This course fulfills laboratory science requirements for students both in and outside the geoscience curriculum.

Prerequisite: Sufficiently high placement test score, or completion of MTH 092, or MTH 096A, or MTH 096S, with a grade of "C" or higher, or equivalent.

Credit: 4 semester hours

Lecture: 3

Lab: 3

**GEL 103 -
Fossils and Earth History**

IAI: P1 905L

1.1

Fossils and Earth History is an introduction to the geological history of our planet and the evolution of life through the study of rocks and fossils. The course explores the immensity of geologic time and surveys the physical and biological changes of the Earth System through time, such as the origins of Earth, origin of life, the age of reptiles, and the formation and breakup of supercontinents. This course fulfills laboratory science requirements for students both inside and outside the curriculum.

Prerequisite: Sufficiently high placement test score, or completion of MTH 092, or MTH 096A, or MTH 096S with a grade of "C" or better, or equivalent.

Credit: 4 semester hours

Lecture: 3

Lab: 3

COURSE DESCRIPTIONS

**GEL 107 -
Geology of the Solar System**

IAI: P1 905 1.1
Geology of the Solar System is an introductory survey of the solar system with an emphasis on data acquired by space probes. Topics covered will include the origin and evolution of planetary interiors, surfaces, and atmospheres, as well as the origin and composition of the asteroids and comets. The possibilities for and consequences of exploiting the various components of our solar system for natural resources will be discussed.
Prerequisite: Sufficiently high placement test score, or completion of MTH 092, or MTH 096A, or MTH 096S with a grade of "C" or better, or equivalent.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**GEL 206 -
Environmental Geology**

IAI: P1 908 1.1
Environmental Geology explores both the constraints imposed by geology on human activities and human impacts on natural processes. Topics include fundamental geologic processes and associated hazards (earthquakes, volcanic eruptions, flooding, landslides), evaluation of geologic resources, and the legal and geologic limitation of resource utilization. The course will explore topics such as waste disposal and land use planning.
Prerequisite: Sufficiently high placement test score, or completion of MTH 092, or MTH 096A, or MTH 096S with a grade of "C" or better, or equivalent.
Credit: 3 semester hours
Lecture: 3 Lab: 0

German**GRM**

- See Modern Languages

Graphic Arts Technology GAT**GAT 101 -
Introduction to Graphic Arts
Technology**

IAI: None 1.2
Introduction to Graphic Arts Technology is a series of lectures, discussions, presentations, and laboratory experiences, designed to orient students to the breadth of the graphic arts industry. Topics discussed include the historical aspects of the industry as well as the current technology utilized in the production of printed matter.
Prerequisite: None
Credit: 4 semester hours
Lecture: 2 Lab: 4

**GAT 105 -
Basic Photography**

IAI: None 1.2
Basic Photography is a systematic approach to mastering the fundamental techniques and concepts of photography. Emphasis is placed on operation of photographic equipment using black and white materials and processing procedures. Photographic principles covered include light and its characteristics, depth-of-field, and composition. Use of these principles leads the student from an original idea to the creation of black and white photographs.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 2

**GAT 110 -
Introduction to Photoshop**

IAI: None 1.2
Introduction to Photoshop will familiarize the student with the composition and editing capabilities of Adobe Photoshop. This course is laboratory-based and each student will be required to complete a variety of activities utilizing the software.
Prerequisite: None
Credit: 2 semester hours
Lecture: 1 Lab: 2

**GAT 115 -
Introduction to Illustrator**

IAI: None 1.2
Introduction to Illustrator orients the student to vector-based graphic design software to create original artwork as well as modify and recreate existing files for production output.
Prerequisite: None
Credit: 2 semester hours
Lecture: 1 Lab: 2

**GAT 150 -
Typography**

IAI: None 1.2
Typography explores the structure, personality and history of type. Fundamental typographic principles, font recognition and analysis of both historical and postmodern design theory will be covered. Emphasis will be on content, form and technique for the effective use of typography in ads, posters, newsletters and other visual communications.
Prerequisite: GAT 101 or consent of the instructor
Credit: 2 semester hours
Lecture: 1 Lab: 2

**GAT 168 -
Graphic Arts Technology Internship**

IAI: None 1.2
Graphic Arts Technology Internship requires a supervised experience in a graphic arts production facility using a cooperative training plan agreed to by the instructor, participating firm, and student. The student must submit an application to the instructor prior to mid-term of the previous semester and requires consent of the instructor or division director. Variable and repeatable credit may be earned up to six hours.
Prerequisite: Current enrollment in the Graphic Arts Technology curriculum, completion of at least 12 credits in GAT courses, and sophomore class standing.
Credit: 1-6 semester hours
Lecture: 0 Lab: 5-30

**GAT 178 -
Fundamentals of Desktop Publishing**

IAI: None 1.2
Fundamentals of Desktop Publishing is a continuation of the computer skills learned in GAT 101. This course will explore the basics of graphic design, typography, layout and technical issues for desktop publishing. This course reinforces the use of current computer software including Adobe Illustrator, Adobe Photoshop, and Adobe InDesign.
Prerequisite: GAT 101 or consent of the instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**GAT 180 -
Introduction to Press Operation**

IAI: None 1.2
Introduction to Press Operation provides the student with an introduction to small offset press operation. Projects will be run on an offset duplicator with instruction in setup, single-color printing, cleanup, and safety. Discussions will include the topics of infeed systems, registration, dampening, and inking systems.
Prerequisite: GAT 101 or consent of the instructor.
Credit: 4 semester hours
Lecture: 2 Lab: 4

**GAT 190 -
Image Generation and Output**

IAI: None 1.2
Image Generation and Output explores the creation and output of digital files for printing and publishing. Instruction and laboratory experience includes the application of current computer software, digital technology, and multiple input and output devices.
Prerequisite: GAT 101
Credit: 2 semester hours
Lecture: 1 Lab: 2

COURSE DESCRIPTIONS

**GAT 211 -
Advanced Photography**

IAI: None 1.2
Advanced Photography studies control of perspective through large format camera movements. The concept of the Zone System, along with a historical perspective of photography, is covered. Other topics include high-contrast processes, hand coloring and optics.
Prerequisite: GAT 105 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**GAT 215 -
Advanced Illustrator**

IAI: None 1.2
Advanced Illustrator builds upon skills learned in GAT 115 such as pen tool techniques, object binding, pathfinders and filters and effects. Additional topics include brushes, patterns, appearance palettes, 3-D effects and live tracing. Projects include technical drawings, artistic renderings and 3-D object creating.
Prerequisite: GAT 115 or consent of instructor
Credit: 2 semester hours
Lecture: 1 Lab: 2

**GAT 220 -
Advanced Photoshop for the
Graphic Arts Industry**

IAI: None 1.2
Advanced Photoshop for the Graphic Arts Industry involves a more intensive study of digital image manipulation. Topics include advanced layering techniques, use of channels, duotones, and output specific to the printing and publishing industry.
Prerequisite: GAT 110 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**GAT 241 -
Intermediate Desktop Publishing**

IAI: None 1.2
Intermediate Desktop Publishing continues from GAT 178 into more advanced concepts and applications of computer-based composition systems for the graphic arts industry. Topics and projects include: creation of multi-page documents, advertisements, product packaging, large format designs, and file and font management.
Prerequisite: GAT 178
Credit: 4 semester hours
Lecture: 2 Lab: 4

**GAT 242 -
Advanced Desktop Publishing**

IAI: None 1.2
Advanced Desktop Publishing continues from GAT 241 to cover more advanced design technologies such as interactive document publishing, and augmented reality. Topics will also include a basic introduction to creating web pages using HTML and CSS and will have students creating their own custom web portfolio.
Prerequisite: GAT 241
Credit: 3 semester hours
Lecture: 2 Lab: 2

**GAT 250 -
Special Topics in Graphics Arts
Technology**

IAI: None 1.2
Special Topics in Graphic Arts Technology explores specific applications, skills, or interest in graphic technology. A special topic requires: adequate and available materials on a specific graphic arts related issue, a comprehensive course outline, instructor expertise, student and community interest, and ability to increase skill and/or knowledge in graphic arts technology. Variable and repeatable credit up to six credit hours may be earned.
This course may be repeated three times.
Prerequisite: Determined by the special topic and consent of instructor.
Credit: 1-6 semester hours
Lecture: 1-6 Lab: 0-4

**GAT 255 -
Color System Management**

IAI: None 1.2
Color System Management applies color theory to the practical management of color in a production environment. Topics include: color theory, color measurement, creating scanner and monitor color profiles, color modes, color separations, and the proper setup of files to use specialty inks and printing techniques.
Prerequisite: GAT 220
Credit: 3 semester hours
Lecture: 2 Lab: 2

**GAT 260 -
Estimating for Graphic Arts
Production**

IAI: None 1.2
Estimating for Graphic Arts Production explores the manual and electronic method for pricing production printing jobs. Major emphasis is on estimating photo lithographic work but other types of production will be discussed. Field trips, class discussion and laboratory case studies will allow the student a variety of estimating experiences.
Prerequisite: GAT 190 and GAT 290, MTH 115 or MTH 120, or consent of instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**GAT 280 -
Press Operation II**

IAI: None 1.2
Press Operation II continues from GAT 180 to cover more intricate applications and build skills utilizing a small offset press. Topics and related student projects include: press measurement techniques, ink density, conductivity, critical registration, multi-color runs, and press maintenance.
Prerequisite: GAT 180
Credit: 4 semester hours
Lecture: 2 Lab: 4

**GAT 290 -
Finishing, Bindery and Variable
Data Applications**

IAI: None 1.2
Finishing, Bindery and Variable Data Applications is an introduction to finishing and binding techniques, the operation of paper drills, saddle stitchers, programmable cutters, and paper folders for a variety of laboratory projects. Also covered is variable data control using a variety of software programs. Lectures and discussions as well as tours will be used to introduce complex finishing techniques not available in our classroom.
Prerequisite: GAT 101 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**GAT 298 -
Independent Study in Graphic Arts**

IAI: None 1.2
Independent Study encourages individual projects or research of special interest related to Graphic Arts Technology. The student must submit an application to the division director prior to mid-term of the prior semester for a specific topic in cooperation with a qualified instructor. Approval of the topic and study plan by the instructor and division director is required. Variable and repeatable credit up to six credit hours may be earned. This course may be repeated three times.
Prerequisite: Current enrollment in the Graphic Arts Technology curriculum, completion of a minimum 21 credits in GAT courses, and sophomore class standing.
Credit: 1-6 semester hours
Lecture: 0 Lab: 5-30

Health**HLT****HLT 101 -
Introduction to Healthcare Careers**

IAI: None 1.2
Introduction to Healthcare Careers provides an introduction to healthcare and healthcare careers. Topics include health, illness, lifestyles and common illnesses; human response to illness and the needs of clients who are experiencing illness, healthcare delivery systems and important issues for healthcare systems and care providers; and employment and careers in healthcare. Cultural diversity issues are addressed as they relate to course topics.
Prerequisite: None
Credit: 2 semester hours
Lecture: 2 Lab: 0

***See update in Catalog Addendum

**HLT 105 -
Phlebotomy**

IAI: None 1.2
Phlebotomy involves teaching of techniques for the purpose of obtaining blood samples by venipuncture, micropuncture and arterial puncture. Medical and laboratory terminology, anatomy of the circulatory systems, interpersonal communication, laboratory safety, and laboratory clerical procedures are studied.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

**HLT 110 -
Medical Terminology**

IAI: None 1.2
Medical Terminology provides study of a wide range of medical terminology. The course is of value to those preparing for careers as health care providers and for diagnostic careers. It is also of value to those preparing for medical office careers, including Medical Office Assistant, Medical Transcriptionist, Medical Coding, and others. Course content includes building medical terms from word parts and specific medical terms relating to body systems, diseases, diagnosis, surgical and medical care, abbreviations, medications, and other medical terms.
Prerequisite: None
Credit: 2 semester hours
Lecture: 2 Lab: 0

History**HST****HST 140 -
History of Western Civilization I**

IAI: S2 902 1.1
History of Western Civilization I includes prehistoric people, the ancient cultures, Greek and Roman civilization, the Middle Ages, the Renaissance and the Reformation. The evolution of people from the earliest times to the 17th century is covered.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 141 -
History of Western Civilization II**

IAI: S2 903 1.1
History of Western Civilization II covers the evolution of Western people from the 17th century to the present. The development of Western institutions of government, the modern state system, international relations, and the cultural and intellectual development of the West are treated.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 142 -
History of the United States to 1865**

IAI: S2 900 1.1
History of the United States to 1865 begins with the background to and development of the American colonies, continues with the American Revolution, Constitution, Federal Period, Age of Jefferson, National Period, and Age of Jackson and concludes with the background to the Civil War and Reconstruction.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 143 -
History of the United States
Since 1865**

IAI: S2 901 1.1
History of the United States Since 1865 begins with the problems of Reconstruction, proceeds to the American Industrial Revolution and its effects—urbanism, culture, politics of the Gilded Ages, Imperialism, Progressivism—continues with the 20th century and the United States' role in World War I, 1920s, Depression, and its role in World War II, and concludes with the United States since World War II.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 144 -
Current History 1945 to the Present**

IAI: None 1.1
Current History 1945 to the Present is a historical analysis of the contemporary world in its national and international setting from 1945 to the present that is divided into 1945-1960, 1960-1972, 1972-1980, 1980-1991, and current events.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 151 -
African History Survey to 1600**

IAI: S2 906N 1.1
African History Survey to 1600 includes the geography, the culture, languages, and the political and social institutions of the African people. Emphasis will be placed upon the birth of man, prehistory, ancient and medieval civilizations and kingdoms, initial contact with Europe and the beginning(s) of the slave trade.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 152 -
African History Survey Since 1600**

IAI: S2 907N 1.1
African History Survey Since 1600 covers the slave trade, roots of European expansion, colonialism and the scramble for Africa, the Berlin Conference and the partitioning, the growth of nationalism, the fight for independence, neocolonialism, and the emergence of the modern African nation.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 162 -
History of Latin America I**

IAI: S2 910N 1.1
History of Latin American I is an introductory survey course that focuses on the political, social and economic history of the principal Latin American nations, including the origins and development of its peoples and cultures from ancient civilizations to the European conquest.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 163 -
History of Latin America II**

IAI: S2 911N 1.1
History of Latin America II is a continuation of History of Latin America I. This course focuses on the political, social, economic and cultural history of the principal Latin American nations from the late Colonial period to the present. Major influences, forces, and personalities will be studied.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 172 -
History of the Middle East to 1452**

IAI: S2 918N 1.1
History of the Middle East to 1452 is an introductory survey of the political, social and economic history of the principal Middle Eastern countries, including the origins and development of the peoples and cultures. The course focuses on major movements, influences and personalities that helped shape the Middle East. Among the more important themes will be long-term cultural and social continuities with the Islamic and ancient Near East, and concepts of religious and political authority.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 173 -
History of the Middle East Since 1453**

IAI: S2 919N 1.1
History of the Middle East Since 1453 is an introductory survey of the political, social and economic history of the principal Middle Eastern countries, including the origins and development of the peoples and cultures. The course focuses on major movements, influences and personalities that helped shape the Middle East. Among the more important themes will be long-term cultural and social continuities with the Islamic tradition, and concepts of religious and political authority.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 182 -
History of Eastern Civilization to
1500**

IAI: S2 908N 1.1
History of Eastern Civilization to 1500 includes the political and cultural history of India, China, Japan and Southeast Asia. The origins, development and importance of the major religions of Asia will be stressed.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

**HST 183 -
History of Eastern Civilization Since 1500**

IAI: S2 909N 1.1
History of Eastern Civilization Since 1500 is a survey of the developments in India, China, Japan, and Southeast Asia since the arrival of the Europeans. The impact of technology from the West upon political ideas, cultural-religious values, and economics will be stressed.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 192 -
History of the World Until 1750**

IAI: S2 912N 1.1
This course provides a survey of world history from the earliest beginnings of humankind until 1750. It will examine the growth and development of the social, political, economic, and cultural institutions of the societies of the world.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 193 -
History of the World Since 1750**

IAI: S2 913N 1.1
This course provides a survey of world history from 1750 until the present. It will examine the social, political, economic, and cultural changes in the societies of the world during that time period.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 210 -
History of Women of the United States**

IAI: None 1.1
History of Women of the United States provides an overview of 400 years of American women's history in all its diversity. Themes will include the private and family experiences of women, the nature of women's work and education, and the political and civic role and activism of women. The grand sweep of American history—colonial settlement and conquest, revolution and civil war, the institution of slavery, industrialization, world wars, and the rise of consumerism, the workings of the welfare state—will provide the backdrop for the story.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 244 -
English History I**

IAI: None 1.1
English History I is a survey of English history from ancient origins to 1688.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HST 245 -
English History II**

IAI: None 1.1
English History II is a survey of English history from 1688 to the present.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

Humanities

See also Literature, Modern Languages, and Philosophy for other courses that satisfy the Humanities requirement for the General Education Core Curriculum (GECC).

**HUM 111 -
Introduction to Humanities I**

IAI: HF 902 1.1
Introduction to Humanities I (from the Ancient World to 1600) is a basic introduction to the humanities including art, music, literature, philosophy, and history from the ancient periods of Egypt and Mesopotamia to the Renaissance. Differing subject matter and issues will be discussed and analyzed with attention directed to the role of humanities in current society.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HUM 112 -
Introduction to Humanities II**

IAI: HF 903 1.1
Introduction to Humanities II (from 1600 to present) is a basic introduction to the humanities including art, music, literature, philosophy, and history from the Renaissance to modern times. Differing subject matter and issues will be discussed and analyzed with attention directed to the role of humanities in current society.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HUM 114 -
Introduction to Humanities III:
Contemporary Western World**

IAI: HF 901 1.1
This course is an interdisciplinary, thematic survey of the history, philosophy, art, music, and literature of the Western World from the beginnings of the 20th century to the present. Using an historical framework extending back to the concept of "modernism" as defined by antiquity through contemporary times, students will examine the connections between earlier concepts of modernism and those of their own time, ultimately recognizing contemporary themes, genres, and relationships within the humanities. Emphasis will be on the relevance of these trends on current society and implications for the future.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HUM 115 -
Cultural Pluralism in America**

IAI: None 1.1
This course is an exploration of various racial and ethnic groups in the United States. The course will examine the history, communication, and dynamics of minority traditions in America including blacks, Hispanics, Asians, and others. Majority-minority relationships will be analyzed.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

HUM**HUM 117 -
Ethnic Traditions in American Theatre**

IAI: F1 909D 1.1
This course involves reading and writing about American plays that dramatize racial and ethnic minorities struggling to construct identities in a society influenced by dominant myths concerning gender, family, success, race, equality, and freedom.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HUM 120 -
Latin American Cultural Expression**

IAI: HF 904N 1.1
Latin American Cultural Expression is an interdisciplinary survey of the significant intellectual and artistic achievements of selected Latin American cultures through works which may include literature, philosophy, visual art, architecture, music, and film. Selected works will show the transformation from a colonial culture following the European model to a gradual development of a national identity and culture. The selected Latin American culture will be announced in the schedule of classes. The course will be taught in English.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HUM 121 -
U.S. Latino/Latina Cultural
Expression**

IAI: HF 906D 1.1
U.S. Latino/Latina Cultural Expression is an interdisciplinary study of the cultural identities of U.S. Latinos/Latinas. Using an historical framework, students will be introduced to the literary, artistic, and sociopolitical contributions from this minority to U.S. culture. The class will explore issues of adaptation, marginalization, changing gender roles, and the search for self and place in a bilingual-bicultural society.
This class will be taught in English.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HUM 122 -
Spanish Cultural Expression**

IAI: HF 902 1.1
Spanish Cultural Expression is a chronologically-organized interdisciplinary survey of the significant intellectual, literary, philosophical, visual art, music and other performing art expressions from the major epochs of modern Spain. This class may include a travel experience where the culture will be studied on-site.
This class will be taught in English.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

**HUM 125 -
Introduction to Non-Western
Humanities**

IAI: HF 904N 1.1
Introduction to Non-Western Humanities is a guided, interdisciplinary exploration of the humanities, focusing on Non-Western perspectives and traditions. Works and issues in art, music, architecture, literature, philosophy, religion and performance will be studied, both within a particular cultural formation (such as Middle Eastern, Asian, African, South American) and also through a comparative examination of their values, motifs and aesthetics with those of Western cultural expression.
Prerequisites: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HUM 210 -
Cultural Expression of Gender in the
Visual and Performing Arts**

IAI: F 2 907D 1.1
Cultural Expression of Gender in the Visual and Performing Arts is the interdisciplinary study of art, architecture, music, theatre performance, and dance that focuses on the experience and construction of gender identity in Western culture.
Prerequisite: None
Recommended: Prior study of or experience in art, architecture, music, theatre performance and/or dance.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HUM 211 -
War and Western Humanities
Through the Middle Ages**

IAI: HF 900 1.1
War and Western Humanities Through the Middle Ages is a survey course which explores the theme of war as represented in the history, art, literature, music and philosophy of the Western World from the earliest civilizations of Mesopotamia and Egypt through the Middle Ages. Special emphasis may be placed on specific conflicts (i.e., The Macedonian Wars, The Peloponnesian War, The Punic Wars, The 100 Years War, etc.) while placing these in the larger context of the theme of humanism and war. The content of the course will lead to considerations of its relevance in the conflicts of the present day and their representations in current art, literature, music, and philosophy.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HUM 212 -
War and Western Humanities from
the Renaissance to the Present**

IAI: HF 901 1.1
War and Western Humanities from the Renaissance to the Present is a survey course which explores the theme of war as represented in the history, art, literature, music and philosophy of the Western World beginning with the Renaissance through modern times. Special emphasis may be placed on specific conflicts (i.e., The Thirty Years War, The French Revolution, The American Revolution, World Wars I and II, Vietnam, etc.) while placing these in the larger context of the theme of humanism and war. The content of the course will lead to considerations of its relevance in the conflicts of the present day and their representations in current art, literature, music and philosophy.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HUM 250 -
Leadership Development Studies**

IAI: None 1.1
This course is a comprehensive analysis of the traits and values inherent in effective leaders. Speeches, biographies, essays, literary classics and films are examined in a collegial, self-directed environment to facilitate class discussions. Phi Theta Kappa, the national community college honor society, provides text materials and certifies the course instructors.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

See updates in Catalog Addendum

Human Services**HSR****HSR 101 -
Introduction to Human Services**

IAI: None 1.2
Introduction to Human Services provides a basic overview of the human service field, professions, philosophical approach to helping, and how human services agencies are organized and function.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HSR 102 -
Introduction to Group Processes**

IAI: None 1.2
Introduction to Group Processes focuses on building knowledge and skills for effective interpersonal relationships in organized groups. Theories of group dynamics and their relevance for human service workers are presented. The course also focuses on the functioning and dynamics of the interdisciplinary team. Students will experience the group process by working in small groups as part of the course. (Offered spring semester.)
Prerequisite: HSR 101 and ENG 101 or instructor permission
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HSR 110 -
Survey of Counseling Theories**

IAI: None 1.2
Survey of Counseling Theories is an introductory examination of the major approaches to counseling and how counseling can be used to help people change problem behaviors. It includes discussion of factors in the healthy personality. Applications to treatment of addictions is also covered. (Offered fall semester.)
Prerequisite: HSR 101 and ENG 101 or instructor permission
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HSR 120 -
Introduction to Developmental
Disabilities**

IAI: None 1.2
Introduction to Developmental Disabilities includes an introductory survey of etiologies, characteristics, treatment and prognosis of developmental disabilities. It covers a discussion of the disabled client's psychosocial, neurological, sensorial, intellectual, and physical abilities and disabilities. Includes discussion of the effect on the family and the role of society as it pertains to the developmentally disabled. (Offered fall semester.)
Prerequisite: HSR 101 and ENG 101 or instructor permission
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HSR 140 -
Survey of Psychiatric Rehabilitation**

IAI: None 1.2
Survey of Psychiatric Rehabilitation focuses on the rehabilitative approach to serving individuals with severe mental illness. The approach is based on the premise that consumers will set goals for the rehabilitation team. The course covers psychiatric disability, current approaches to treatment, the mental health system, vocational and skills training, and family and community support systems.
Prerequisite: HSR 101 and ENG 101 or instructor permission
Credit: 3 semester hours
Lecture: 3 Lab: 0

**HSR 201 -
Interpersonal Behavior**

IAI: None 1.2
Interpersonal Behavior focuses on building knowledge and skills for effective interpersonal relationships. Experientially structured activities provide students with opportunities to practice the skills learned in class. (Offered fall semester.)
Prerequisite: HSR 101 and ENG 101 or instructor permission.
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

***See updates in Catalog Addendum

**HSR 203 -
Family Services**

IAI: None

1.2

Family Services offers an introduction to the multi-problem family and an awareness of the methods used to solve these problems. Included are theories of family dysfunction; how to help families improve how they function; and about systems theories. Addition and co-dependency are also explored. (Offered spring semester.)
Prerequisite: HSR 101 and ENG 101 or instructor permission.
 Credit: 3 semester hours
 Lecture: 3

Lab: 0

**HSR 205 -
Field Placement I**

IAI: None

1.2

Field Placement is on a part-time basis in a supervised experience with a cooperating agency selected by the student and the instructor. Students are to have 300 hours of internship to graduate from the program. The last 100 hours of internship will need to be completed through enrollment in HSR 206 Field Placement II. No more than 100 hours of credit can be given for experiences accumulated prior to entrance in the program. Students may register for 1-4 hours of credit a semester. Fifty hours of internship is required for each hour of credit. At least one of the internships must be a 100-hour placement.
Prerequisites: Students without prior, significant human service experience should not take this course until they attain second semester status (12 credits in the Human Services curriculum).
 Credit: 1-4 semester hours
 Lecture: 1

Lab: 5-10

**HSR 206 -
Field Placement II**

IAI: None

1.2

Students enrolled in HSR 206 Field Placement II will complete their final 100 hours of internship required for graduation from the Human Services Program. Through this experience they will successfully demonstrate their integration of the human services professional competencies by completing a capstone project drawing on their acquired learning from the Human Services Program's coursework. Students will also take a comprehensive examination which draws on key human services theories, concepts, and methods acquired through the Human Services Program coursework.
Prerequisites: Completion of four credits of HSR 205 Field Placement I with a grade of "C" or better, AND Completion of 54 of the required 66 credits towards the A.A.S. degree in Human Services OR enrollment in the final semester of the A.A.S. in the Human Services degree requirements.
 Credit: 2 semester hours
 Lecture: 1

Lab: 10

**HSR 211 -
Interviewing Techniques**

IAI: None

1.2

Interviewing Techniques provides a discussion of the theory and practice of skills needed for effective intake interviewing, information gathering, and assisting professionals in their relations with individual clients.
 (Offered spring semester.)
Prerequisite: HSR 101 and ENG 101 or instructor permission.
 Credit: 3 semester hours
 Lecture: 3

Lab: 0

**HSR 231 -
Substance Abuse Treatment**

IAI: None

1.2

Substance Abuse Treatment explores methods of intervention and treatment in the field of addiction. Issues to be discussed include assessment, data gathering, report writing, charting, treatment plans, and current approaches to individual and group treatment.
Prerequisite: HSR 101 and ENG 101 or instructor permission.
 Credit: 4 semester hours
 Lecture: 4

Lab: 0

**HSR 232 -
Substance Abuse Rules and Regulations**

IAI: None

1.2

Substance Abuse Rules and Regulations explores the governing process concerning substance abuse treatment in the field of addiction. Issues to be discussed include assessment, data gathering, report writing, charting, treatment plans, and current approaches to individual and group treatment.
Prerequisite: HSR 101 and ENG 101 or instructor permission.
 Credit: 3 semester hours
 Lecture: 3

Lab: 0

**HSR 250 -
Special Topics in Human Services**

IAI: None

1.2

Special Topics in Human Services is designed to satisfy specific needs or interests of Human Services majors and/or the community. The course topics change as special needs and interests arise.
Prerequisite: HSR 101 and ENG 101 or instructor permission.
 Credit: 1-6 semester hours
 Lecture: 1-6

Lab: 0

**HSR 260 -
Independent Study in Human Services**

IAI: None

1.2

Independent Study in Human Services is designed to offer students an opportunity to conduct an individual project or research in areas of special interest in human services. Course requirements are based on the nature of the subject under study.
Prerequisite: Enrollment in the Human Services program, the completion of 12 hours of credit at Rock Valley College, and the consent of instructor or division director.
 Credit: 1-6 semester hours
 Lecture: 1-6

Lab: 0

Independent Study**IDS****IDS 299 -
Independent Study**

IAI: None

1.1

Independent Study is an opportunity for students to do extended work in a given liberal arts discipline, with minimal faculty contact. IDS 299 may not be used to provide a substitution for an approved catalog course, nor will it fulfill specific general education requirements toward the A.A./A.S. degrees. Student and sponsoring faculty must file a detailed plan of work and receive both divisional and dean-level approval.
Prerequisite: A 2.5 minimum GPA for 15 college-level credit hours. May be repeated for a maximum of four hours for credit toward A.A./A.S. degrees.
 Credit: 1-4 semester hours.
 Lecture: 1-4

Lab: 0

Journalism**JRN****JRN 105 -
Newspaper Production I**

IAI: None

1.1

Newspaper Production I is a course in which students participate in the production of the college newspaper, *The Valley Forge*, and meet with the instructor/advisor and the editor(s) to learn and apply the principles and practices of newspaper production in a state-of-the-art, computerized newsroom environment.
Prerequisite: None
 Credit: 1 semester hour
 Lecture: 0

Lab: 2

**JRN 110 -
Newspaper Production II**

IAI: None

1.1

Newspaper Production II is a continuation of Journalism 105. Emphasis will be placed upon proofreading and copy editing, headline writing, and the elements of good journalistic style.
Prerequisite: JRN 105
 Credit: 1 semester hour
 Lecture: 0

Lab: 2

**JRN 122 -
Newswriting**

IAI: MC 919

1.1

Newswriting serves as an introduction to the principles and practices of gathering, evaluating, writing, and editing basic news stories. Students are also instructed in principles of ethical journalism while learning newsroom management skills and techniques that are critical in the writing process.
Prerequisite: None
 Credit: 3 semester hours
 Lecture: 3

Lab: 0

COURSE DESCRIPTIONS

**JRN 123 -
Feature Writing and Editing**

IAI: None 1.1
Feature Writing and Editing is an introductory course in preparing feature articles for newspapers and magazines. Students write articles that are generally from two-ten pages long, and they are encouraged to submit their work for publication.
Prerequisite: JRN 122 is recommended but not required.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**JRN 135 -
News Editing**

IAI: None 1.1
News Editing is an introduction to print media editing principles and practices, including headline writing and copy editing skills, revision of material for style, newspaper design theory, principles of photo editing, and typography.
Prerequisite: JRN 122 or consent of instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**JRN 139 -
Literary Magazine Production**

IAI: None 1.1
Literary Magazine Production is a comprehensive, hands-on introduction to the management of a college literary magazine including solicitation and selection of submissions, design, production and distribution. This course may be taken three times for a maximum of 6 credits.
Prerequisite: None
Credit: 2 semester hours
Lecture: 2 Lab: 0

**JRN 146 -
Advanced News Writing**

IAI: None 1.1
Advanced News Writing is a continuation of JRN 122, focusing on investigative reporting, feature writing, series writing, and advanced reporting and writing skills.
Prerequisite: JRN 122 or consent of instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**JRN 205 -
Newspaper Production III**

IAI: None 1.1
Newspaper Production III is a continuation of Journalism 110. Emphasis will be placed upon graphic design theories, principles of page layout and production, and photojournalism.
Prerequisite: JRN 110
Credit: 1 semester hour
Lecture: 0 Lab: 2

**JRN 210 -
Newspaper Production IV**

IAI: None 1.1
Newspaper Production IV is a continuation of Journalism 205. Emphasis will be placed upon editorial practice and opinion writing and advanced design theories.
Prerequisite: JRN 205
Credit: 1 semester hour
Lecture: 0 Lab: 2

Life Science

- See Biology

Literature**LIT****LIT 139 -
Mythology**

IAI: H9 901 1.1
Mythology is an introductory course in reading, analyzing, and discussing the more important myths, studying what distinguishes mythology from other story forms, and noting the influences of mythology on traditional literature. Graded written work (a minimum of 9 -12 typed pages) may include critical responses, essay examinations, formal research papers, critiques, and/or group presentations, in addition to any journals, class notes, or other informal responses.
Prerequisite: Sufficiently high placement score resulting in placement in ENG 101, or grade of "C" or better in ENG 099.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**LIT 140 -
The Bible as Literature**

IAI: H5 901 1.1
The Bible as Literature is an introductory course in reading, analyzing, and discussing the literature of the Bible: the quality and style of its literary forms and its influence on English and American literature. Graded written work (a minimum of 9 -12 typed pages) may include critical responses, essay examinations, formal research papers, critiques, and/or group presentations, in addition to any journals, class notes, or other informal responses.
Prerequisite: Sufficiently high placement score resulting in placement in ENG 101, or grade of "C" or better in ENG 099.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**LIT 141 -
Film as Literature**

IAI: F2 908 1.1
Film as Literature is an introductory course analyzing, examining, and discussing the relationships and interactions between film and literature through comparative study, including literary aspects of film, aural and visual adaptations, and techniques and criticism common to both areas. Graded written work (a minimum of 9 -12 typed pages) may include critical responses, essay examinations, formal research papers, critiques, and/or group presentations, in addition to any journals, class notes, or other informal responses.
Prerequisite: Sufficiently high placement score resulting in placement in ENG 101, or grade of "C" or better in ENG 099.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**LIT 142 -
Exploring Literature: Poetry**

IAI: H3 903 1.1
Exploring Literature: Poetry involves instruction and practice in close reading of poetry, focusing on reading, discussing, and writing effectively about a range of poems; it is not a historical survey. Graded written work (a minimum of 9 -12 typed pages) may include critical responses, essay examinations, formal research papers, critiques, and/or group presentations, in addition to any journals, class notes, or other informal responses.
Prerequisite: Sufficiently high placement score resulting in placement in ENG 101, or grade of "C" or better in ENG 099.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**LIT 143 -
Exploring Literature: Drama**

IAI: H3 902 1.1
Exploring Literature: Drama involves reading and discussion of representative short plays, ranging from classical to modern drama, with some attention to dramatic and theater criticism. Graded written work (a minimum of 9 -12 typed pages) may include critical responses, essay examinations, formal research papers, critiques, and/or group presentations, in addition to any journals, class notes, or other informal responses.
Prerequisite: Sufficiently high placement score resulting in placement in ENG 101, or grade of "C" or better in ENG 099.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**LIT 144 -
Exploring Literature: Fiction**

IAI: H3 901 1.1
Exploring Literature: Fiction involves reading and discussion of representative short stories and novels from a range of literatures, with some attention to critical work on fiction. Graded written work (a minimum of 9 -12 typed pages) may include critical responses, essay examinations, formal research papers, critiques, and/or group presentations, in addition to any journals, class notes, or other informal responses.
Prerequisite: Sufficiently high placement score resulting in placement in ENG 101, or grade of "C" or better in ENG 099.
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

LIT 155 -**Contemporary Literature**

IAI: None

1.1

Contemporary Literature is an introductory course involving reading, analyzing, and discussing contemporary literature, and is designed to provide an awareness of post-1945 literary and philosophical trends in poetry, drama, and fiction. Graded written work (a minimum of 9-12 typed pages) may include critical responses, essay examinations, formal research papers, critiques, and/or group presentations, in addition to any journals, class notes, or other informal responses.

Prerequisite: Sufficiently high placement score resulting in placement in ENG 101, or grade of "C" or better in ENG 099.

Credit: 3 semester hours

Lecture: 3

Lab: 0

LIT 201 -**American Literature - Colonial Days to the Civil War**

IAI: H3 914

1.1

American Literature from the Colonial Days to the Civil War involves a survey of representative texts illustrating the development of American literature from its beginnings to the Civil War, with an emphasis on major literary movements understood in relation to their intellectual, social, and political contexts. Written work includes substantial formal essay assignments (a minimum of 9-12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

Prerequisite: A grade of "C" or better in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

LIT 202 -**American Literature - Civil War to the Present**

IAI: H3 915

1.1

American Literature - Civil War to the Present involves a survey of representative texts illustrating the development of American literature from the Civil War to the present, with an emphasis on major literary movements understood in relation to their intellectual, social, and political contexts. Written work includes substantial formal essay assignments (a minimum of 9-12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

Prerequisite: Grade of "C" or better in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

LIT 205 -**British Literature - Beginning to 1800**

IAI: H3 912

1.1

British Literature - Beginning to 1800 involves a survey of representative texts illustrating the development of British literature from its beginnings to 1800, with an emphasis on major literary movements understood in relation to their intellectual, social, and political contexts. Written work includes substantial formal essay assignments (a minimum of 9-12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

IAI: H3 913

1.1

British Literature from 1800 to the Present involves a survey of representative texts illustrating the development of British literature from 1800 to the present, with an emphasis on major literary movements understood in relation to their intellectual, social, and political contexts. Written work includes substantial formal essay assignments (a minimum of 9-12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

Prerequisite: Grade of "C" or better in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

LIT 210 -**Women's Literature: The Early Years to 1800**

IAI: H3 911D

1.1

Women's Literature: The Early Years to 1800 involves a survey of representative texts illustrating the development of women's literature from its beginnings to 1800, with an emphasis on major literary movements understood in relation to their intellectual, social, and political contexts. Works will be primarily by women, from various communities and traditions, and will consider ways in which women have presented themselves and have been presented by others. Written work includes substantial formal essay assignments (a minimum of 9-12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

Prerequisite: Grade of "C" or better in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

LIT 211 -**Women's Literature: 1800 to Present**

IAI: H3 911D

1.1

Women's Literature: 1800 to Present involves a survey of representative texts illustrating the development of women's literature from 1800 to the present, with an emphasis on major literary movements understood in relation to their intellectual, social, and political contexts. Works will be primarily by women, from various communities and traditions, and will consider ways in which women have presented themselves and have been presented by others. Written work includes substantial formal essay assignments (a minimum of 9-12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

Prerequisite: Grade of "C" or better in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

LIT 241 -**Shakespeare**

IAI: H3 905

1.1

Shakespeare is an introductory course in the works and world of Shakespeare that focuses on reading, discussion, and criticism of the major histories, comedies, tragedies, problem plays and non-dramatic poetry. Written work includes substantial formal essay assignments (a minimum of 9-12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

Prerequisite: Grade of "C" or better in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

LIT 243 -**Western Literature to 1800**

IAI: H3 906

1.1

Western Literature to 1800 is a study of major literary works of Western civilization from Greek epics and drama through selected prose, verse, and drama of the 18th century. Written work includes substantial formal essay assignments (a minimum of 9-12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

Prerequisite: Grade of "C" or better in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

LIT 244 -**Western Literature Since 1800**

IAI: H3 907

1.1

Western Literature Since 1800 is a continuation of the study of major literary works in Western civilization from the Enlightenment through the Romantic period and Realism-Naturalism to the present. Written work includes substantial formal essay assignments (a minimum of 9-12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

Prerequisite: Grade of "C" or better in ENG 101.

Credit: 3 semester hours

Lecture: 3

Lab: 0

COURSE DESCRIPTIONS

LIT 251 -**Non-Western Literature Before 1800**

IAI: H3 908N 1.1

Non-Western Literature Before 1800 involves an introduction to literature in English by writers from Non-Western cultures - Asian, South Asian, African, Caribbean, Middle-Eastern - with an emphasis on the intellectual, social, and political contexts of their works before 1800. Written work includes substantial formal essay assignments (a minimum of 9 -12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

Prerequisite: Grade of "C" or better in ENG 101.
Credit: 3 semester hours

Lecture: 3

Lab: 0

LIT 252 -**Non-Western Literature Since 1800**

IAI: H3 908N 1.1

Non-Western Literature Since 1800 involves an introduction to literature in English by writers from non-Western cultures - Asian, South Asian, African, Caribbean, Middle-Eastern - with an emphasis on the intellectual, social, and political contexts of their works after 1800. Written work includes substantial formal essay assignments (a minimum of 9 -12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

Prerequisite: Grade of "C" or better in ENG 101.
Credit: 3 semester hours

Lecture: 3

Lab: 0

LIT 260 -**Contemporary African Literature**

IAI: H3 908N 1.1

Contemporary African Literature is a survey course designed to introduce students to the post-1945 works of some major African writers. Selected contemporary works representing a cross-section of Africa will be studied. Written work includes substantial formal essay assignments (a minimum of 9 -12 typed pages) and a midterm and final exam, in addition to any journals, class notes, or other informal responses.

Prerequisite: Grade of "C" or better in ENG 101.
Credit: 3 semester hours

Lecture: 3

Lab: 0

Management**MGT****MGT 170 -****Business Communications**

IAI: None 1.2

Business Communications covers the current trends affecting business communication today. Students will demonstrate both verbal and nonverbal skills through a variety of professional documents such as letters, memos, e-mail and reports. Special emphasis is placed on good news, bad news, and persuasive messages using the psychological approach to writing.

Prerequisite: ENG 101 or consent of instructor.

Credit: 3 semester hours

Lecture: 3

Lab: 0

MGT 270 -**Principles of Management**

IAI: None 1.2

Principles of Management introduces the basic management functions of planning, organizing, leading, and controlling. Topics include the organizational triangle, strategic planning, managing human resources, decision-making, communication, quality, innovation, conflict management, and ethics. These principles apply to management in all organizations.

Prerequisite: BUS 101 or consent of the instructor.

Credit: 3 semester hours

Lecture: 3

Lab: 0

MGT 271 -**Human Resource Management**

IAI: None 1.2

Human Resource Management is a study of the basic principles and procedures of personnel administration. Application of management fundamentals to the personnel function - recruitment, selection, training and development, motivation, compensation, and retirement. Various personnel techniques will be stressed.

Prerequisite: BUS 101 and MGT 270 or consent of Dean or instructor.

Credit: 3 semester hours

Lecture: 3

Lab: 0

MGT 274 -**Leadership**

IAI: None 1.2

Students experience theoretical and practical applications of leadership research and development. Using the case study method, students comparatively analyze individual and organizational leadership activities with various leadership theories. Students synthesize findings with current real world activities developing a personal leadership vision. The course builds on business fundamentals while discussing the differences between leadership and management in the modern world. Students will gain a deeper insight into the phenomenon of leadership while developing the personal leadership vision that will provide guidance for present and future career opportunities.

Prerequisite: BUS 101 or consent of the instructor.

Credit: 3 semester hours

Lecture: 3

Lab: 0

MGT 281 -**Women in Management**

IAI: None 1.2

Women in Management provides both practical and theoretical materials to help women who aspire to managerial careers. Discussions center on special issues facing women in management. This course is designed for women wanting to move into management, male and female management students and business people seeking to continue or update their education.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

MGT 282 -**Independent Study in Management**

IAI: None 1.2

Independent Study in Management allows the student to conduct research in specialized management areas. The course requirements will be developed based on the nature of the subject and the student's goals and objectives. Consent of the coordinator is required.

Prerequisite: Completion of 30 semester hours of credit in the business management curriculum at Rock Valley College. A maximum of 3 hours credit can be earned in this course.

Credit: 1-3 semester hours

Lecture: 1-3

Lab: 0

MGT 283 -**Internship in Business Management**

IAI: None 1.2

Internship in Business Management provides a supervised occupational experience in business management. A training plan will be developed by the coordinator in cooperation with the student and the participating business. Consent of the instructor is required.

Prerequisite: Completion of 30 semester hours of credit in the business management curriculum.

Credit: 1-6 semester hours

Lecture: 0

Lab: 3

Manufacturing Engineering Technology MET**MET 100 -****Introductory CAD and Print Reading**

IAI: None 1.2

Introductory CAD and Print Reading is designed for the student without recent high school or industrial drafting experience. The basic concepts required to create and interpret industrial drawings are presented and practiced. This course provides fundamental print reading principles with emphasis on symbols and other pertinent data.

Prerequisite: MTH 092

Credit: 3 semester hours

Lecture: 2

Lab: 2

MET 102 -**Methods of Statistical Process Control (SPC)**

IAI: None 1.2

Methods of Statistical Process Control presents basic statistical concepts, quality tools, common probability distributions, problem-solving techniques, control charts for variable and attribute data, interpretation, Gage R&R, process capability analysis, and acceptance sampling. Instruction and lab exercises integrate management strategies, data planning, cross-functional project teams, and requirements of modern quality standards that lead to successful application of SPC.

Prerequisite: MTH 100 or MTH 120 or MTH 132

Credit: 3 semester hours

Lecture: 2

Lab: 2

COURSE DESCRIPTIONS

**MET 105 -
Materials and Processes**

IAI: None 1.2
Materials and Processes introduces material properties and attributes of metals, plastics, ceramics, composites, and other materials. Survey of processes includes heat treatment, surface processing, particulate processing, casting, molding, forming, joining, material removal and other processing technologies. Theory is illustrated by laboratory experiments and demonstrations along with company visits to view the latest techniques.
Prerequisite: MTH 094 or MTH 096S
Credit: 3 semester hours
Lecture: 2 *Lab:* 2

MET 106 - Metrology

IAI: None 1.2
Metrology introduces the science of measurement for engineering technicians, machinists, and technical personnel through basic measurement principles, selection, operation, and application of English and Metric measuring instruments. Lecture and lab exercises cover basic dimensional metrology, measuring instruments, gaging, high-amplification comparators, surface plate, angular instruments, sine bar, pneumatic gaging, and CMM systems. Related topics introduce data analysis, variable versus attribute, MSA, calibration systems, and modern standards for quality systems and metrology.
Prerequisite: MTH 094 or MTH 096S
Credit: 3 semester hours
Lecture: 2 *Lab:* 2

**MET 108 -
Computer Drafting Using AutoCAD™**

IAI: IND 911 1.2
Computer Drafting Using AutoCAD™ introduces computer graphic concepts, hardware, software, and operating principles of a comprehensive PC-based computer graphics system. The student will use AutoCAD™ software for all course projects. The latest ANSI/ASME standards will be incorporated throughout the course. Lecture and laboratory projects emphasize drafting principles and techniques necessary to produce multi-view, auxiliary, and section drawings with appropriate dimensioning practices.
Prerequisite: MET 100 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 *Lab:* 2

**MET 110 -
Manufacturing Processes I**

IAI: IND 913 1.2
Manufacturing Processes I provides an introduction to machining processes including milling, turning, grinding, drilling, and cutoff operations. Laboratory activities include the fundamentals of machine setup and operations, tooling, precision measurement, process safety, care and maintenance. This course is offered at a regional training center in partnership with Rock Valley College.
Prerequisite: MTH 092
Corequisite: MET 100 or consent of instructor.
Credit: 3 semester hours
Lecture: 2 *Lab:* 2

**MET 111 -
CNC Machine Setup/Operation/
Programming**

IAI: None 1.2
CNC Machine Setup/Operation/Programming studies the setup and operation of computer numerical control (CNC) machine tools. The course is designed to provide knowledge on the latest CNC machines using an online training environment and lab session including turning centers and machining. Exercise and laboratory projects emphasize practical problems, demonstrations, and student operation of CNC equipment.
Prerequisite: MTH 094 or MTH 096S; MET 100, MET 106, and MET 110
Credit: 3 semester hours
Lecture: 2 *Lab:* 2

**MET 118 -
Intermediate AutoCAD™ -
Production Drafting**

IAI: None 1.2
Intermediate AutoCAD™ - Production Drafting extends and builds upon current drafting practices for AutoCAD™ users. Emphasis is placed on the identification and familiarization of techniques that enhance CAD productivity and the production of industrial drawings. This course is intended for students completing a CAD certificate program and is not required for the A.A.S. degree program.
Prerequisite: MET 108
Credit: 3 semester hours
Lecture: 2 *Lab:* 2

**MET 133 -
Graphics/SolidWorks™ CAD I**

IAI: IND 911 1.2
Graphics/SolidWorks CAD I introduces computer graphics concepts, hardware, software, and operating principles of a computer graphics system. The student will use SolidWorks™ software for all course projects. The latest ANSI/ASME standards will be incorporated throughout the course. Lecture and laboratory projects emphasize design principles and techniques necessary to produce solid models, assemblies and multi-view drawings.
Prerequisite: MTH 094 or MTH 096S; MET 100
Credit: 3 semester hours
Lecture: 2 *Lab:* 2

**MET 146 -
Hydraulics, Pneumatics and PLCs**

IAI: None 1.2
Hydraulics, Pneumatics and PLCs introduces the basic concepts of fluid power technology including the function of hydraulic and pneumatic components. Emphasis is placed upon the delineation of basic hydraulic and pneumatic circuits. Basic operations and programming of PLCs is also presented.
Prerequisite: MTH 100 or MTH 120 or MTH 132
Credit: 3 semester hours
Lecture: 2 *Lab:* 2

**MET 162 -
Applied Physics**

IAI: None 1.2
Applied Physics for technical students teaches industrial and technical applications to develop competence in physics and mathematics fundamentals for all technology students. Five major areas of study relating to modern physics for the technician are covered: mechanics, matter and heat, wave motion and sound, electricity and magnetism, and light.
Prerequisite: MTH 100 or MTH 120 or MTH 132
Credit: 4 semester hours
Lecture: 3 *Lab:* 2

**MET 217 -
Statics**

IAI: None 1.2
Statics is an analysis of real force systems by applying the principles of equilibrium to rigid bodies and simple structures. Distributed forces, determination of centroids, analysis of structures, friction and related topics are also presented.
Prerequisite: MTH 100 or MTH 120 or MTH 132
Credit: 3 semester hours
Lecture: 3 *Lab:* 0

**MET 218 -
Strength of Materials**

IAI: None 1.2
Strength of Materials studies the relationship between external forces and the stresses and deformations they produce in a deformable body. Consideration is given to members subjected to tension and compression, torsion and bending related to: loading and deflection of beams and shafts and the buckling of columns. Computer-aided design systems will be incorporated where applicable.
Prerequisite: MET 217
Credit: 3 semester hours
Lecture: 3 *Lab:* 0

**MET 220 -
Mechanisms**

IAI: None 1.2
Mechanisms present the study of existing mechanisms, motion characteristics, and the application of mechanism design to provide desired motions. In the motion study, absolute and relative velocities and accelerations are presented. CAM layout is presented in detail as well as the nomenclature and kinematics of gearing. Computer-aided design systems will be incorporated where applicable.
Prerequisite: MTH 100 or MTH 120 or MTH 132
Credit: 3 semester hours
Lecture: 3 *Lab:* 0

COURSE DESCRIPTIONS

**MET 221 -
Machine Design**

IAI: None

1.2

Machine Design explores factors that influence materials and application of particular machine elements in their environment. Attention is given to various loading conditions, stresses, and deformations, which must be considered in arriving at a satisfactory design. Elements include: gears, power screws, fasteners, bolted joints, springs and environmental considerations. Computer-aided design systems will be incorporated where applicable.

Prerequisite: MET 218

Credit: 3 semester hours

Lecture: 3

Lab: 0

**MET 226 -
CNC/CAM Operations I**

IAI: None

1.2

CNC/CAM Operations I teaches the concepts of Computer Numerical Control for machine tools, tooling, software and operating principles of CNC systems. Students develop part programs using current, industrial CAM software for program generation, editing and tool path verification. Postprocessing and G-M code verification is presented for specific machine tools.

Prerequisite: MET 100

Credit: 3 semester hours

Lecture: 2

Lab: 2

**MET 233 -
Graphics/SolidWorks™ CAD II**

IAI: None

1.2

Graphics/SolidWorks™ CAD II requires a comprehensive background with Solidworks™ software and current drafting practices. Lecture and laboratory projects include: surface, solid modeling, parametrics, and assemblies. Rapid prototyping techniques will be introduced. Emphasis is placed on the techniques used to maximize design and drawing productivity.

Prerequisite: MET 133 or EGR 135

Credit: 3 semester hours

Lecture: 2

Lab: 2

**MET 237 -
Design of Experiments**

IAI: None

1.2

Design of Experiments presents the best of Taguchi and Western experimental design techniques for process quality improvement. Students learn the sequential approach, effective setup, quality tools, statistical and graphical analysis, and reporting of DOE. Lecture and lab exercises make extensive use of practical case studies to apply simple response tables, graphical techniques, and computer analysis for process optimization.

Prerequisite: MET 102, MET 106

Credit: 4 semester hours

Lecture: 3

Lab: 2

**MET 240 -
CNC/CAM Operations II**

IAI: None

1.2

CNC/CAM Operations II is a second course that provides the student with a background in CNC programming using CAM software. Emphasis is placed on the identification and familiarization of techniques that enhance CAM productivity and the production of CNC programs. Students develop part programs using software for program generation, editing and simulation of tool paths.

Prerequisite: MET 226

Credit: 3 semester hours

Lecture: 2

Lab: 2

**MET 243 -
Continuous Improvement
in Manufacturing**

IAI: None

1.2

This course is designed to bring lean manufacturing techniques and training, that are changing the world of manufacturing, into the classroom. Emphasis is placed on continuous improvement, waste elimination, customer focus and elements of lean production.

Prerequisite: MTH 100 or MTH 120 or MTH 132

Credit: 3 semester hours

Lecture: 3

Lab: 0

**MET 247 -
Manufacturing Methods, Process
Planning, and Systems**

IAI: None

1.2

Manufacturing Methods, Process Planning, and Systems studies the techniques, equipment and systems for successful manufacturing production. Students learn to plan an operation sequence, determine tooling requirements, and develop and utilize standard data. Lecture and case studies to improve manufacturing systems employ the principles and practices of Just-In-Time (JIT), Total Quality Management (TQM), Computer Integrated Manufacturing (CIM), and Flexible Manufacturing Systems (FMS).

Prerequisite: MTH 100 or MTH 120 or MTH 132

Credit: 3 semester hours

Lecture: 3

Lab: 0

**MET 249 -
MET Capstone Project**

IAI: None

1.2

This is a capstone course, emphasizing the solving of technical programs using a multidisciplinary engineering technology approach. The instructor or student may propose an area of investigation. Successful solutions will require that the student use an interactive method using varying degrees of analysis, syntheses, and evaluation. Information, such as vendor catalogs, manuals and library references will be used. The project findings will be presented by the student in both oral and written form. This course is intended to be taken the final semester prior to graduation.

Prerequisite: SPH 131, MET 133, MET 146, MET 162, MET 218.

Credit: 3 semester hours

Lecture: 2

Lab: 2

**MET 250 -
Special Topics in Manufacturing**

IAI: None

1.2

Special Topics in Manufacturing teaches the tools and strategies of specific needs or interest in modern manufacturing. A special topic requires: adequate and available materials on a specific manufacturing related issue, a comprehensive course outline, instructor expertise, student and community interest, and ability to increase skill and/or knowledge in manufacturing technology. Variable and repeatable credit up to 6 credit hours may be earned.

Prerequisite: determined by the special topic and consent of instructor.

Credit: 1-6 semester hours

Lecture: 1-6

Lab: 0-4

Marketing**MKT****MKT 260 -
Principles of Marketing**

IAI: None

1.1

Principles of Marketing presents a basic understanding of the principles of marketing and of the operation of our marketing system. Topics include buying motives, habits, demands of consumers, channels of distribution, marketing functions, policies, marketing costs, and governmental relationships.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**MKT 265 -
Salesmanship**

IAI: None

1.2

Salesmanship is the study of personal selling as a part of the marketing process. Consumer behavior, persuasion, the importance of a positive attitude, careers in sales, the sales process, and specific sales techniques are discussed. Optional video-taped presentations and sales projects provide the student with a means of evaluating and improving sales performance.

Prerequisite: MKT 260 or consent of instructor.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**MKT 266 -
Principles of Advertising**

IAI: None

1.2

Principles of Advertising is an introduction to advertising. Why advertising is carried on, how to prepare and present purposeful advertisements, and a review of the various advertising media, as well as when and how to use each to greatest advantage.

Prerequisite: MKT 260 or consent of instructor.

Credit: 3 semester hours

Lecture: 3

Lab: 0

COURSE DESCRIPTIONS

**MKT 281 -
International Marketing**

IAI: None

1.2

International Marketing allows students to gain a broad understanding of the field of international marketing. The course provides insight into how international marketing is conducted, the requisites for effective performance and knowledge of the special problems involved in language, finance and customs. Most importantly, it assists students in understanding international marketing opportunities and how marketing principles and procedures apply to international business.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**MKT 288 -
Customer Relations**

IAI: None

1.2

Customer Relations is a study of principles and methods to keep customers once you have developed them. Today, it costs five times as much to get a new customer as it does to keep an old one. Discussion is held on a practical level. Topics include customer expectations, staff training and management, maintaining good customer relations, turning service opportunities into sales and changing complaints into orders.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**MKT 293 -
Internship - Marketing**

IAI: None

1.2

Internship - Marketing requires the student to work part-time as a marketing intern in a local cooperating business firm. This experience will be supervised by the coordinator of marketing programs. Consent of the Dean is required. Prerequisite: At least six (6) credits in Marketing, previously or concurrently. This course is repeatable three (3) times.

Credit: 1-3 semester hours

Lecture: 0

Lab: 5-15

**MKT 295 -
Independent Study in Marketing**

IAI: None

1.2

Independent Study in Marketing allows the student to conduct research in special marketing related areas based on student goals and objectives. Consent of the Dean of the Business Division is required.

Prerequisite: Enrollment in one of the marketing curriculums. This course is repeatable three (3) times.

Credit: 1-3 semester hours

Lecture: 1-3

Lab: 0

Mass Communication COM**COM 130 -
Introduction to Mass Communication**

IAI: MC 911

1.1

Introduction to Mass Communication will examine the nature and impact of the mass media on our society and provide an overview of the nature, functions, responsibilities, and history of the mass communication industries in a global environment. Students will examine ethical, legal moral, and historical issues created by the use of mass media.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**COM 140 -
Writing for Multimedia**

IAI: MC 922

1.1

Writing for Multimedia is an introduction to the basic writing skills necessary to create messages for the multimedia environment, such as web-based and other digital formats including text, audio, stills, and moving images.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**COM 156 -
Audio Production I**

IAI: MC 915

1.1

Audio Production I is a basic introduction to the equipment, facilities, and terminology of the audio media industry. Students will work on individual and group recording projects including: public service announcements, radio, news and sound effects production. Students will be introduced to sound recording for video and non-linear multi-track audio editing and streaming audio on the web. Students are required to enroll concurrently in COM 157.

Prerequisite: None

Corequisite: COM 157

Credit: 3 semester hours

Lecture: 2

Lab: 2

**COM 157 -
Video Production I**

IAI: MC 916

1.1

Video Production I is a basic introduction to the equipment, facilities, and terminology of the video media industry. Students will work in a multiple camera studio producing: newscasts, public service announcements, commercials and talk shows. Students will also be introduced to the fundamentals of script writing, non-linear video editing, field and studio lighting and field production. Students are required to enroll concurrently with COM 156.

Prerequisite: None

Corequisite: COM 156

Credit: 3 semester hours

Lecture: 2

Lab: 2

**COM 246 -
Music Technology**

IAI: None

1.1

Music technology is a course designed to teach acoustics, sound recording and sound recording technology to students who are majoring in music.

Prerequisites: MUS 111 and MUS 131

Credit: 3 semester hours

Lecture: 1

Lab: 4

**COM 251 -
Film History and Appreciation**

IAI: F2 908

1.1

Film History and Appreciation is a survey of film as an art form and an industry. Particular emphasis is placed on lighting, sound, genre characteristics, image composition, editing, criticism, and social implications.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**COM 252 -
International History of Film**

IAI: F2 909

1.1

International History of Film is a survey of major worldwide film movements, genres, directors and principal films with the purpose of understanding the social, economic, and political situations that have led to the medium's evolution.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**COM 256 -
Advanced Audio Production**

IAI: None

1.1

Advanced Audio Production is designed to give students specialized training in the audio recording industry. Students will work on group projects that include album production, Foley audio production, ADR and advanced non-linear digital multi-track recording. These projects will be completed in the studio and in the field.

Prerequisite: COM 156

Credit: 3 semester hours

Lecture: 1

Lab: 4

**COM 257 -
Advanced Video Production**

IAI: None

1.1

Advanced Video Production is designed to give students specialized training in the video production industry. Students will produce multiple group and independent projects. These projects include: a weekly television production, music videos, video art projects, short films and documentary. This course will provide students with advanced knowledge of non-linear video editing systems and field camera work.

Prerequisite: COM 156 and COM 157 or consent of instructor.

Credit: 3 semester hours

Lecture: 1

Lab: 4

COURSE DESCRIPTIONS

COM 260 -**Advanced Post-Production**

IAI: None 1.2

Advanced Post-Production instructs students in the areas of motion graphics, color grading, compression and other image processing techniques. Students will develop skills in working with industry standard software and will apply those skills to existing media projects.

Prerequisite: COM257

Credit: 3 semester hours

Lecture: 1 Lab: 4

COM 296 -**Documentary Production**

IAI: None 1.1

Documentary Production provides students with an overview of the history of the documentary film genre and with the skills necessary to produce a documentary film. Students will explore interview techniques, lighting, editing, and exhibition venues. The course will culminate in the production of a personal documentary.

Prerequisite: COM 157

Credit: 3 semester hours

Lecture: 3 Lab: 0

COM 297 -**Motion Picture Production**

IAI: None 1.1

Motion Picture Production is an advanced video production course that will allow students to produce a professional quality documentary or fiction film as a group project. The specific subject of the course will vary each year. Categories include sitcom production, fiction film, and documentary. Prerequisite: COM 156/157 and consent of instructor.

Credit: 3 semester hours

Lecture: 1 Lab: 4

COM 298 -**Mass Communication Internship**

IAI: None 1.1

Mass Communication Internship provides elective credit for serving as a student intern for a media production facility including Rock Valley College. Students will learn about production equipment, operation, media selection, media planning, scripting, advertising, promotions and internal methodology.

Prerequisite: Varies with cooperating agency.

Credit: 1-2 semester hours

Lecture: 0 Lab: 2

Mathematics**MTH****MTH 086 -****Basic Math Skills**

IAI: None 1.4

Basic Math Skills is designed for students who need a review of basic mathematical skills in preparation for further studies in mathematics courses. Topics include operations with whole numbers and fractions. Emphasis is placed on accurate calculations; no calculators will be used through the entire module. Study skills will be incorporated throughout the course. Placement into MTH 086 is according to placement test scores or on a voluntary basis. Credit earned does not count towards any degree, nor does it transfer.

Prerequisites: Appropriate math placement score.

Credit: 2 semester hours

Lecture: 2 Lab: 0

MTH 088 -**Prealgebra Part I**

IAI: None 1.4

Prealgebra Part I includes a review of basic arithmetic skills while introducing algebra concepts. Topics include operations with integers, signed fractions, and mixed numbers, solving equations, and problem solving. No calculators will be used through the entire module. Study skills will be incorporated throughout the course. Placement into MTH 088 is according to placement test scores or on a voluntary basis. Credit earned does not count toward any degree, nor does it transfer.

Prerequisite: MTH 086 or equivalent, with a grade of "C" or higher OR appropriate math placement score.

Credit: 2 semester hours

Lecture: 2 Lab: 0

MTH 089 -**Prealgebra Part II**

IAI: None 1.4

Prealgebra Part II continues work in prealgebra concepts. Topics include operations with decimals, ratio, proportion, percent, graphing ordered pairs, introduction to graphing linear equations, geometry, and measurement. Study skills will be incorporated throughout the course. Credit earned does not count toward any degree, nor does it transfer. Prerequisite: MTH 088 with a grade of "C" or higher.

Credit: 2 semester hours

Lecture: 2 Lab: 0

MTH 091 -**Beginning Algebra Part I**

IAI: None 1.4

Beginning Algebra Part I will cover real numbers, solving linear equations and inequalities including applications, and graphing linear equations and inequalities. Study skills will be incorporated throughout the course. Placement into MTH 091 is according to placement test scores or on a voluntary basis. Credit earned does not count toward any degree, nor does it transfer.

Prerequisite: MTH 088 and MTH 089, or equivalent, with a grade of "C" or higher in both OR appropriate math placement score.

Credit: 2 semester hours

Lecture: 2 Lab: 0

MTH 092 -**Beginning Algebra Part II**

IAI: None 1.4

Beginning Algebra Part II continues work in basic algebra concepts. It will cover operations on systems of equations in two variables, polynomials, factoring, dimensional analysis, ratio and proportion. Study skills will be incorporated throughout the course. Credit earned does not count toward any degree, nor does it transfer.

Prerequisite: MTH 091 with a grade of "C" or higher.

Credit: 2 semester hours

Lecture: 2 Lab: 0

MTH 093 -**Intermediate Algebra Part I**

IAI: None 1.4

Intermediate Algebra Part I includes a review of factoring from beginning algebra. The course will also cover rational expressions and equations, linear equations, and an introduction to functions. Placement into MTH 093 is according to placement test scores or on a voluntary basis. Credit earned does not count toward any degree, nor does it transfer.

Prerequisite: MTH 091 and MTH 092, or equivalent, with grades of "C" or higher in both OR appropriate math placement score.

Credit: 2 semester hours

Lecture: 2 Lab: 0

MTH 094 -**Intermediate Algebra Part II**

IAI: None 1.4

Intermediate Algebra Part II covers systems of equations, radicals, and quadratic equations. Credit earned does not count toward any degree, nor does it transfer.

Prerequisite: MTH 093 with a grade of "C" or higher.

Credit: 2 semester hours

Lecture: 2 Lab: 0

MTH 096A -**Mathematical Literacy for College Students**

IAI: None 1.4

Mathematical Literacy for College Students is a one-semester course for non-math and non-science majors integrating numeracy, proportional reasoning, algebraic reasoning, and functions. Students will develop conceptual and procedural tools that support the use of key mathematical concepts in a variety of contexts. Throughout the course, college success content will be integrated with mathematical topics. This course uses online homework. Credit earned does not count toward any degree, nor does it transfer. Upon successful completion of the course, students may take MTH 115, MTH 220, MTH 093-094, or MTH 096S.

Prerequisite: MTH 088 and MTH 089, OR equivalent, with grades of "C" or higher in both OR appropriate placement score.

Credit: 6 semester hours

Lecture: 6 Lab: 0

COURSE DESCRIPTIONS

**MTH 096S -
Combined Beginning and
Intermediate Algebra**

IAI: None 1.4
Combined Beginning and Intermediate Algebra is a one-semester course covering both beginning and intermediate algebra. The topics included are real number operations and properties, linear equations and inequalities, graphing, functions, polynomials, factoring, rational expressions, systems of equations, radical expressions, and quadratic equations. Credit earned does not count toward any degree, nor does it transfer.
Prerequisite: MTH 088 and MTH 089, OR equivalent, with grades of "A" in both OR sufficiently high math placement test score OR consent of instructor.
Credit: 6 semester hours
Lecture: 6 Lab: 0

**MTH 097 -
Elementary Plane Geometry**

IAI: None 1.4
Elementary Plane Geometry is a course in the fundamental concepts of geometry intended for students who lack credit in one year of elementary geometry or desire a review of this subject matter. This course is considered equivalent to a one-year course in high school geometry. The topics included are deductive reasoning and proof, congruent triangles, parallel and perpendicular lines, parallelograms and other polygons, similar triangles, right triangles and the Pythagorean Theorem, circles, perimeter, area, and volume. Credit earned does not count toward any degree, nor does it transfer.
Prerequisite: MTH 091 and MTH 092, OR equivalent, with grades of "C" or higher in both.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MTH 100 -
Technical Mathematics**

IAI: None 1.2
Technical Mathematics is primarily for technology students. It is designed for students with a good algebraic preparation and includes basic study and applications of trigonometry. The course includes a study of exponents, radicals, and logarithms.
Prerequisite: MTH 094 and MTH 097, or equivalent, with grades of "C" or higher in both.
Credit: 5 semester hours
Lecture: 5 Lab: 0

**MTH 115 -
General Education Mathematics**

IAI: M1 904 1.1
General Education Mathematics focuses on mathematical reasoning and the solving of real-life problems, rather than on routine skills and appreciation. Three or four topics are studied in depth, with at least 3 chosen from the following list: geometry, counting techniques and probability, graph theory, logic/set theory, mathematics of finance, and statistics. The use of calculators and computers is strongly encouraged.
Prerequisite: MTH 094 and MTH 097, or MTH 096A, or equivalent, with grades of "C" or higher in each course.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MTH 120 -
College Algebra**

IAI: None 1.1
College Algebra includes a review of intermediate algebra, though it covers the overlapping material more quickly and at a deeper level. The course also develops the concept of a function and its graph, inverse functions, exponential and logarithmic functions and their applications, and systems of linear equations and the matrix methods useful in solving those systems. The course will also cover the theory of equations.
Prerequisite: MTH 094 and MTH 097, or equivalent, with grades of "C" or higher.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MTH 125 -
Plane Trigonometry**

IAI: None 1.1
Plane Trigonometry is a study of trigonometric functions of acute and general angles, inverse functions, graphs, radian measure, trigonometric identities and equations, solutions of right and oblique triangles, powers and roots of complex numbers, and may include analytic geometry.
Prerequisite: MTH 120, or equivalent, with a grade of "C" or higher.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MTH 132 -
College Algebra and Trigonometry**

IAI: None 1.1
College Algebra and Trigonometry is intended for students preparing for MTH 135 and it covers the material of MTH 120 and MTH 125 at a more rapid pace than those individual courses. Among the topics covered in this course are functions and graphs, including linear, polynomial, rational, exponential, and logarithmic functions; complex numbers and theory of equations; trigonometric functions, their basic properties and graphs; identities; inverse trigonometric functions; trigonometric equations; Law of Sines, Law of Cosines; systems of linear equations and the matrix methods useful in solving those systems; and conics. Students may not earn more than six credits for any combination of MTH 120, 125, and 132. A graphing calculator is required for this course.
Prerequisite: MTH 094 and MTH 097, OR equivalent of both courses, with grade of "C" or higher in each course.
Credit: 5 semester hours
Lecture: 5 Lab: 0

**MTH 135 -
Calculus with Analytic Geometry I**

IAI: M1 900-1 1.1
IAI: MTH 901
Calculus with Analytic Geometry I is a first course in calculus. Topics included are: a review of functions, trigonometric functions, inverse functions, and exponential/logarithmic functions; limits, continuity, derivatives, applications of derivatives, and integrals.
Prerequisite: MTH 120 and MTH 125, OR MTH 132, or equivalent, with grades of "C" or higher.
Credit: 5 semester hours
Lecture: 5 Lab: 0

**MTH 160 -
Topics from Finite Mathematics**

IAI: M1 906 1.1
Topics From Finite Mathematics is for students enrolled in computer and information systems, business, or the social sciences. Topics include simultaneous equations, matrices, linear programming, mathematics of finance, sets, probability and statistics. This course is not intended to apply toward a major or minor in mathematics.
Prerequisite: MTH 120, or equivalent, with a grade of "C" or higher.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MTH 164 -
The Computer in Mathematics -
C/C++**

IAI: None 1.1
The Computer in Mathematics C/C++ is a problem-oriented approach using the computer in the study of mathematics. Programs will be written and run to aid understanding of such topics as infinite series, logical relations, approximations, interpolation, graphing and matrices. Problem formulation, algorithm development, and aspects of program testing and debugging will be discussed.
Prerequisite: MTH 135, or equivalent, with a grade of "C" or higher.
Credit: 4 semester hours
Lecture: 4 Lab: 0

**MTH 211 -
Calculus for Business and
Social Sciences**

IAI: M1 900-B 1.1
Calculus for Business and the Social Sciences covers basic concepts of differential and integral calculus with applications in business and social sciences. Topics include differentiation techniques, applications of the derivative, integration techniques, and applications of integration. This course is not intended to apply toward a major or a minor in mathematics. A graphing calculator is required for this course.
Prerequisite: MTH 120, or equivalent, with a grade of "C" or higher.
Credit: 4 semester hours
Lecture: 4 Lab: 0

COURSE DESCRIPTIONS

**MTH 216 -
Mathematics for
Elementary Teachers I**

IAI: None 1.1
Mathematics for Elementary Teachers I is for students intending to major in elementary education. This course includes mathematical reasoning and problem solving using manipulatives, and calculators. Topics include sets, the origin of numbers and numerals, systems of numeration, functions, whole numbers, number theory, integers, rational numbers, and irrational numbers and the real number system.
Prerequisite: MTH 094 and MTH 097, or equivalent, with grades of "C" or higher in both.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MTH 217 -
Mathematics for
Elementary Teachers II**

IAI: M1 903 1.1
Mathematics for Elementary Teachers II is for students intending to major in elementary education. The course includes mathematical reasoning and problem solving using manipulatives, and calculators. Topics include statistics, probability, basic geometric shapes and their properties, measurement, triangle congruence and similarity, coordinate geometry, and transformational geometry.
Prerequisite: MTH 216, or equivalent, with a grade of "C" or higher.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MTH 220 -
Elements of Statistics**

IAI: M1 902 1.1
Elements of Statistics is intended primarily for students enrolled in life science or the social sciences, or others interested in elementary statistics. This course uses the graphing calculator extensively to allow emphasis on conceptual understanding instead of hand calculations. Topics included are measures of central tendency and variability, graphical presentation of data, normal and binomial distributions, t- and chi-square distributions, sampling, and correlation. This course is not intended to apply toward a major or minor in mathematics.
Prerequisite: MTH 094 and MTH 097, OR MTH 096A, or equivalent, with grades of "C" or higher.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MTH 235 -
Calculus with Analytic Geometry II**

IAI: M1 900-2 1.1
IAI: MTH 902
Calculus with Analytic Geometry II is a continuation of MTH 135. Topics included are applications of the definite integral, techniques of integration, conic sections, parametric equations, polar coordinates, infinite series, and Taylor series.
Prerequisite: MTH 135, or equivalent, with a grade of "C" or higher.
Credit: 4 semester hours
Lecture: 4 Lab: 0

**MTH 236 -
Calculus with Analytic Geometry III**

IAI: M1 900-3 1.1
IAI: MTH 903
Calculus with Analytic Geometry III is a continuation of MTH 235. Topics included are analytic geometry of three-dimensions, vectors, partial derivatives, multiple integrals, and vector calculus.
Prerequisite: MTH 235, or equivalent, with a grade of "C" or higher.
Credit: 4 semester hours
Lecture: 4 Lab: 0

**MTH 240 -
Differential Equations**

IAI: MTH 912 1.1
Differential Equations is a course in the formulation, solution, and application of first- and simple higher-order differential equations. Topics included are first- and second-order ordinary differential equation with applications; simultaneous differential equations with applications; solution of differential equations by varied techniques, including Laplace transforms, numeric and/or series methods. Other optional topics include special functions and boundary value problems. (Offered spring semester.)
Prerequisite: MTH 236, or equivalent, with a grade of "C" or higher OR concurrent enrollment in MTH 236.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MTH 250 -
Modern Linear Algebra**

IAI: MTH 911 1.1
Modern Linear Algebra is a study of elementary topics of linear algebra which include: matrix algebra and inversion; solving systems of linear equations; determinants; vector spaces, linear dependence, basis and dimension, subspaces; inner product spaces and orthogonality; linear transformations (including matrices); eigenvalues and eigenvectors. An emphasis will be put on formal methods of mathematical proof throughout the course. (Offered fall semester.)
Prerequisite: MTH 236, or equivalent, with a grade of "C" or higher OR concurrent enrollment in MTH 236.
Credit: 4 semester hours
Lecture: 4 Lab: 0

Modern Languages

In which level of foreign language study should a student enroll?

If a student has taken a foreign language in high school within the last three years, use this simple formula:

- Multiply the number of semesters of high school foreign language study by the numeric equivalent of the grade earned (A=4; B=3; C=1; D=0; F=0).
- Then divide the total by 2.
- If the total is:

0 - 2.5	enroll in 101
3 - 4.5	enroll in 102
5 - 9.5	enroll in 203
10 - 12.5	enroll in 204
13 - 16	enroll in 205

If students place into a course above 101, they may petition to receive the equivalent college credits for the course or courses they did not have to take at RVC. Upon successful completion (a grade of B or better) of the advanced course, students can request retroactive credit for the lower class. Contact the Modern Languages Department for full details.

Finally, if the last semester of high school foreign language study was more than three years ago, or language skills have been acquired from sources other than secondary education, students may take the Rock Valley College Foreign Language Placement/Proficiency Exam. Results on this exam may indicate eligibility to begin an advanced course in that language. Please contact modern language faculty if you have any questions or need assistance.

**FRN 101 -
Beginning French**

IAI: None 1.1
Beginning French emphasizes basic communication skills in French, including listening, speaking, reading and writing. Students will learn about the culture of selected French-speaking areas.
Prerequisite: None
Credit: 4 semester hours
Lecture: 4 Lab: 0

**FRN 102 -
Continuation of Beginning French**

IAI: None 1.1
Continuation of Beginning French builds upon and expands the knowledge acquired in Beginning French.
Prerequisite: FRN 101 with a grade of "C" or higher; or the equivalent by high school credit or proficiency. See above explanation of placement.
Credit: 4 semester hours
Lecture: 4 Lab: 0

COURSE DESCRIPTIONS

**FRN 203 -
Intermediate French**

IAI: None 1.1
Intermediate French is the third semester of the foreign language sequence, and is conducted entirely in French. In addition to reviewing first-year concepts, students will expand their knowledge of the grammatical structures of the language, participate in conversations on studied topics, increase their ability to understand spoken language, and learn more about the culture of the countries where French is spoken. Students will write short compositions, students may be asked to write cultural reports and/or give oral presentations.
Prerequisite: FRN 102 with a grade of "C" or higher; equivalency by high school credit or proficiency.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**FRN 204 -
Continuation of Intermediate French**

IAI: H1 900 1.1
Continuation of Intermediate French is the fourth semester of the foreign language sequence, and is conducted entirely in French. Students will expand their knowledge of the grammatical structures of the language, participate in conversations on studied topics, increase their ability to understand spoken language, and learn more about the culture of the countries where French is spoken. Students will write short compositions, students may be asked to write cultural reports and/or give oral presentations.
Prerequisite: FRN 203 with a grade of "C" or higher; equivalency by high school credit or proficiency.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**GRM 101 -
Beginning German**

IAI: None 1.1
Beginning German emphasizes basic communicative skills in German, including listening, speaking, reading and writing. Students will learn about the culture of selected German-speaking areas.
Prerequisite: None
Credit: 4 semester hours
Lecture: 4 Lab: 0

**GRM 102 -
Continuation of Beginning German**

IAI: None 1.1
Continuation of Beginning German builds upon and expands the knowledge acquired in Beginning German.
Prerequisite: GRM 101 with a grade of "C" or higher; or the equivalent by high school credit or proficiency. See above explanation of placement.
Credit: 4 semester hours
Lecture: 4 Lab: 0

**GRM 203 -
Intermediate German**

IAI: None 1.1
Intermediate German is the third semester of the foreign language sequence, and is conducted entirely in German. In addition to reviewing first-year concepts, students will expand their knowledge of the grammatical structures of the language, participate in conversations on studied topics, increase their ability to understand spoken language, and learn more about the culture of the countries where German is spoken. Students will write short compositions and give an oral presentation.
Prerequisite: GRM 102 with a grade of "C" or higher; equivalency by high school credit or proficiency.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**GRM 204 -
Continuation of Intermediate German**

IAI: H1 900 1.1
Continuation of Intermediate German is the fourth semester of the foreign language sequence, and is conducted entirely in German. Students will expand their knowledge of the grammatical structures of the language, participate in conversations on studied topics, increase their ability to understand spoken language, and learn more about the culture of the countries where German is spoken. Students will write short compositions and give an oral presentation.
Prerequisite: GRM 203 with a grade of "C" or higher; equivalency by high school credit or proficiency.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SPN 101 -
Beginning Spanish**

IAI: None 1.1
Beginning Spanish emphasizes basic communicative skills in Spanish, including listening, speaking, reading and writing. Students will learn about the culture of selected Spanish-speaking countries.
Prerequisite: None
Credit: 4 semester hours
Lecture: 4 Lab: 0

**SPN 102 -
Continuation of Beginning Spanish**

IAI: None 1.1
Continuation of Beginning Spanish builds upon and expands the knowledge acquired in Beginning Spanish.
Prerequisite: SPN 101 with a grade of "C" or higher; or the equivalent by high school credit or proficiency. See above explanation of placement.
Credit: 4 semester hours
Lecture: 4 Lab: 0

**SPN 203 -
Intermediate Spanish**

IAI: None 1.1
Intermediate Spanish is the third semester of Spanish study. Students review and amplify listening, reading, writing, and speaking skills in a cultural context. The class is taught entirely in Spanish. Students may be required to write reports and/or give oral presentations.
Prerequisite: SPN 102 with a grade of "C" or higher; or the equivalent by high school credit or proficiency.
See above explanation of placement.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SPN 204 -
Continuation of Intermediate Spanish**

IAI: H1 900 1.1
Continuation of Intermediate Spanish builds upon and expands the knowledge acquired in the previous three semesters of Spanish study. The class is taught entirely in Spanish. Students may be required to write reports and/or give oral presentations.
Prerequisite: SPN 203 with a grade of "C" or higher; or the equivalent by high school credit or proficiency.
See above explanation of placement.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SPN 205 -
Advanced Spanish Conversation**

IAI: None 1.1
Advanced Spanish Conversation is for students who have successfully completed at least three semesters of college Spanish or the equivalent and wish to continue practicing the language in a conversational context. Students will enlarge their active vocabulary and apply it in a variety of contextual situations. They will learn to describe events and discuss issues of historical, literary, and cultural relevance to the Spanish-speaking world using the correct idiomatic expressions, tenses and grammatical structures. The main focus of the class is conversational but the content will be mostly based on cultural aspects of Spain and Latin America. This class is conducted exclusively in Spanish. Students will give oral presentations. May be taken together with SPN 204.
Prerequisite: 3 semesters of college or 4 years of high school Spanish.
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

**SPN 215 -
Spanish Grammar for
Native/Heritage Speakers**

IAI: None 1.1
This class is for students who grew up speaking Spanish at home, but who have little or no formal study of the language. The purpose is to develop, maintain and enhance proficiency in Spanish by providing a variety of opportunities. It is an intensive course on Spanish grammar with special emphasis given to grammatical forms that tend to present difficulties to native speakers as well as the correction of typical errors created by the influence of the English language. The class will allow students to explore the cultures of the Hispanic world including their own and it will enable them to gain a better understanding of the nature of their own language and culture. Class is conducted exclusively in Spanish.
Prerequisite: To be a native or heritage speaker of Spanish (i.e., of Hispanic descent and use Spanish to communicate at home.) This class cannot be taken in conjunction with the regular Spanish sequence 101-102-203-204, but can be taken INSTEAD of the regular four semester Spanish classes. Permit by instructor needed.
Credit: 3 semester hours
Lecture: 3 Lab: 0

Music**MUS****MUS 101 -
Fundamentals of Music**

IAI: None 1.1
Fundamentals of Music is a study of the basic principles (elements of music including pitch, notation, scales, key signatures and intervals) for students with little or no previous music experience.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MUS 102 -
Introduction to Music Literature**

IAI: F1 900, F1 901 1.1
Introduction to Music Literature is a study of the masterpieces of musical literature through a survey of standard concert repertory and its historical development. This is a non-technical course for students who are not concentrating in music.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MUS 104 -
Introduction to American Music**

IAI: F1 904 1.1
Introduction to American Music is a survey of 20th century American music with some attention given to historical developments that brought about this music. Serious, jazz, musical theater and popular styles will be discussed. Listening to representative examples will be an important part of the class. This is a non-technical course for students who are not concentrating in music.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MUS 105 -
Music for Elementary Teachers**

IAI: None 1.1
Music for Elementary Teachers is a study of basic skills for teaching music in the elementary grades through activities in singing, listening, playing and moving to music. The course stresses understanding music fundamentals and using the piano and other basic instruments.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MUS 106 -
Introduction to Non-Western Music**

IAI: F1 903N 1.1
Introduction to Non-Western Music is a survey of music from Asia, the Middle East, Africa, South America, the Caribbean and Central America. Emphasis will be placed on exploring the cultural, social, religious and historical backgrounds that shaped the music of these regions. Musical instruments from these areas will also be examined. This is a non-technical course for students who are not concentrating in music.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**MUS 111 -
Theory of Music I**

IAI: None 1.1
Theory of Music I is a study of elementary music forms and the basic principles of chord structure and progression including four-part writing of diatonic harmony, sight-singing, dictation and rhythmic drills.
Prerequisite: MUS 101 or equivalent.
Credit: 4 semester hours
Lecture: 3 Lab: 2

**MUS 112 -
Theory of Music II**

IAI: None 1.1
Theory of Music II is a continuation of MUS 111.
Prerequisite: MUS 111 or equivalent.
Credit: 4 semester hours
Lecture: 3 Lab: 2

**MUS 122-130 -
Applied Music for Non-Majors**

IAI: None 1.1
Applied Music for Non-Majors is for students who intend to minor in music and/or participate in one or more of the college music ensembles and therefore, want to improve their musical skills. A weekly one-half hour lesson with the instructor and daily individual practice are required. In addition to the credit hour fee, a private lesson charge will be assessed. Each of the following applied music courses may be taken four times for credit. However, only eight credits in applied music can be counted toward an A.A. or A.S. degree.
Prerequisite: Consent of the course instructor, and consent of a RVC music instructor, is required.
Credit: 1 semester hour
Lecture: .5 Lab: 1

**MUS 122 -
Applied Jazz Guitar for Non Majors**

IAI: None

**MUS 123 -
Applied Piano for Non Majors**

IAI: None

**MUS 124 -
Applied Voice for Non Majors**

IAI: None

**MUS 125 -
Applied Strings for Non Majors**

IAI: None

**MUS 126 -
Applied Brass for Non Majors**

IAI: None

**MUS 127 -
Applied Woodwinds for Non Majors**

IAI: None

**MUS 128 -
Applied Percussion for Non Majors**

IAI: None

**MUS 129 -
Applied Classical Guitar for
Non Majors**

IAI: None

**MUS 130 -
Applied Music for Non Majors**

IAI: None

**MUS 131 -
Class Piano I**

IAI: None 1.1
Class Piano I is for the non-piano major and for those who need or desire basic keyboard skills.
Prerequisite: None
Credit: 2 semester hours
Lecture: 1 Lab: 2

**MUS 132 -
Class Piano II**

IAI: None 1.1
Class Piano II is a continuation of MUS 131.
Prerequisite: MUS 131 or equivalent.
Credit: 2 semester hours
Lecture: 1 Lab: 2

**MUS 133 -
Class Piano III**

IAI: None 1.1
Class Piano III is a continuation of Class Piano II/MUS 132.
Prerequisite: MUS 132
Credit: 2 semester hours
Lecture: 1 Lab: 2

**MUS 134 -
Class Piano IV**

IAI: None 1.1
Class Piano IV is a continuation of Class Piano III/MUS 133.
Prerequisite: MUS 133
Credit: 2 semester hours
Lecture: 1 Lab: 2

COURSE DESCRIPTIONS

**MUS 143 -
Class Voice I**

IAI: None 1.1
Class Voice I is a study of basic exercises and theory needed in developing technique in singing for the non-voice major and student with no previous training. Class discussion and drill are coupled with attention to individual problems and development.
Prerequisite: Previous choral experience is helpful and concurrent enrollment in MUS 191 or 291 is suggested.
Credit: 2 semester hours
Lecture: 2 Lab: 1

**MUS 144 -
Class Voice II**

IAI: None 1.1
Class Voice II is a continuation of MUS 143.
Prerequisite: MUS 143 or equivalent. Concurrent enrollment in MUS 191 or 291 is suggested.
Credit: 2 semester hours
Lecture: 2 Lab: 1

**MUS 191 -
Chorus I**

IAI: None 1.1
Chorus I is open to students who wish to sing standard and contemporary choral literature. Chorus members are expected to perform at concerts and certain other scheduled events. This course may be taken four times for credit.
Prerequisite: Previous singing experience.
Credit: 1 semester hour
Lecture: 0 Lab: 3

**MUS 192 -
Chamber Singers I**

IAI: None 1.1
Chamber Singers I is open by audition to students who wish to perform in a select vocal chamber ensemble. The ensemble sings standard and contemporary vocal chamber music. Members are expected to perform at concerts and certain other scheduled events. This course may be taken four times for credit.
Prerequisite: Satisfactory vocal audition. Concurrent enrollment in MUS 191 or 291 is suggested.
Credit: 1 semester hour
Lecture: 0 Lab: 3

**MUS 193 -
Women's Choir I**

IAI: None 1.1
Women's Choir I is open by audition to (female) students who wish to perform in a select women's vocal chamber ensemble. The ensemble sings standard contemporary choral literature written exclusively for women's voices. Members are expected to perform at concerts and certain other scheduled events. May be repeated three times for credit.
Prerequisite: Satisfactory vocal audition. Concurrent enrollment in MUS 191 or 291 is suggested.
Credit: 1 semester hour
Lecture: 0 Lab: 3

**MUS 194 -
Instrumental Ensemble I (Jazz Ensemble)**

IAI: None 1.1
Instrumental Ensemble I is open to students who wish to perform in Jazz Ensemble or other small instrumental groups. Members are expected to perform at concerts and certain other scheduled events. This course may be taken four times for credit.
Prerequisite: Previous playing experience. For Jazz Ensemble, concurrent enrollment in MUS 195 or 295 by woodwind, brass and percussion players is suggested.
Credit: 1 semester hour
Lecture: 0 Lab: 3

**MUS 195 -
Band I**

IAI: None 1.1
Band I is open to students who play brass, woodwind, or percussion instruments. The band plays standard and contemporary band literature. Band members are expected to perform at concerts and certain other scheduled events. This course may be taken four times for credit.
Prerequisite: Previous instrument playing experience.
Credit: 1 semester hour
Lecture: 0 Lab: 3

**MUS 198 -
Orchestra I**

IAI: None 1.1
Orchestra I is open to students who play orchestral instruments. The orchestra plays standard and contemporary orchestra literature. Orchestra members are expected to perform at concerts and certain other scheduled events. This course may be taken four times for credit.
Prerequisite: Previous instrument playing experience.
Credit: 1 semester hour
Lecture: 0 Lab: 3

**MUS 211 -
Theory of Music III**

IAI: None 1.1
Theory of Music III is a study of advanced theory of music including chromatic harmony. Stylistic differences between 18th century and 19th century practice will be studied. Sight-singing and ear-training work will be continued. Original composition may be encouraged.
Prerequisite: MUS 112 or equivalent.
Credit: 4 semester hours
Lecture: 3 Lab: 2

**MUS 212 -
Theory of Music IV**

IAI: None 1.1
Theory of Music IV is a continuation of MUS 211. Original composition and/or arranging may be required.
Prerequisite: MUS 211 or equivalent.
Credit: 4 semester hours
Lecture: 3 Lab: 2

**MUS 222-230 -
Applied Music for Music Majors**

IAI: None 1.1
Applied Music for Music Majors is for students who intend to major or minor in music. A weekly one hour lesson with the instructor and daily individual practice are required. In addition to the credit hour fee, a private lesson charge will be assessed. Each of the following applied music courses may be repeated for additional credit; music majors should have a minimum of eight credit hours of collegiate-level applied music study to ensure transfer credit status; a total of eight credits in applied music can be counted toward an A.A. or A.S. degree.
Prerequisite: Consent of a RVC music instructor is required.

Note:

- Students studying Applied Piano should have taken MUS 131 and MUS 132 Class Piano I and II or its equivalent in private study.
- Students studying Applied Voice should have taken MUS 143-Class Voice I or its equivalent in private study.

Credit: 2 semester hours

Lecture: 1

Lab: 2

**MUS 222 -
Applied Jazz Guitar for Music Majors**

IAI: None

**MUS 223 -
Applied Piano for Music Majors**

IAI: None

**MUS 224 -
Applied Voice for Music Majors**

IAI: None

**MUS 225 -
Applied Strings for Music Majors**

IAI: None

**MUS 226 -
Applied Brass for Music Majors**

IAI: None

**MUS 227 -
Applied Woodwinds for Music Majors**

IAI: None

**MUS 228 -
Applied Percussion for Music Majors**

IAI: None

**MUS 229 -
Applied Classical Guitar for Music Majors**

IAI: None

**MUS 230 -
Applied Music for Music Majors**

IAI: None

COURSE DESCRIPTIONS

**MUS 251 -
Music Literature I**

IAI: F1 901

1.1

Music Literature I is a study of the music literature of Western Civilization from its origin to 1600. Emphasis will be on representative works of each period using videos, recordings, scores, and live performances. Stylistic difference and comparisons are stressed. The music will be considered in relation to the other fine arts and to the general historical background. The course is designed for students who intend to major in music.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**MUS 252 -
Music Literature II**

IAI: F1 902

1.1

Music Literature II is a continuation of MUS 251 from 1600 to the Late 19th Century.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**MUS 253 -
Music Literature III**

IAI: F1 902

1.1

Music Literature III is a continuation of MUS 252 from 1870 to the present. Emphasis will be placed on representative works and composers by the use of texts and recordings.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**MUS 289 -
Special Topics in Music**

IAI: None

1.1

Special Topics in Music addresses different areas of interest or of need for students majoring or minoring in the music program. The topics selected by the instructor will provide an opportunity for more intensive and directed study beyond what is available in MUS 100-298; these topics may include such studies as jazz history, lyric diction for singers, topics in music history, conducting, and surveys of orchestral music. This course can be repeated three times. Credits earned in this course can be counted toward an A.A. or A.S. degree.

Prerequisite: Consent of RVC music instructor.

Credit: 1-6 semester hours

Lecture: 1-6

Lab: 1-6

**MUS 291 -
Chorus II**

IAI: None

1.1

Chorus II is a continuation of MUS 191 and is open to students who wish to sing. The chorus sings standard and contemporary choral literature. Chorus members are expected to perform at concerts and certain other scheduled events. This course may be taken four times for credit.

Prerequisite: Previous singing experience and satisfactory completion of four semesters of MUS 191.

Credit: 1 semester hour

Lecture: 0

Lab: 3

**MUS 292 -
Chamber Singers II**

IAI: None

1.1

Chamber Singers II is a continuation of MUS 192 and is open by audition to students who wish to perform in a select vocal chamber ensemble. The ensemble sings standard and contemporary vocal chamber music. Members are expected to perform at concerts and certain other scheduled events. This course may be taken four times for credit.

Prerequisite: Satisfactory vocal audition and satisfactory completion of four semesters of MUS 192. Concurrent enrollment in MUS 191 or MUS 291 is suggested.

Credit: 1 semester hour

Lecture: 0

Lab: 3

**MUS 293 -
Women's Choir II**

IAI: None

1.1

Women's Choir II is open by audition to (female) students who wish to perform in a select women's vocal chamber ensemble. The ensemble sings standard contemporary choral literature written exclusively for women's voices. Members are expected to perform at concerts and certain other scheduled events. May be repeated three times for credit.

Prerequisite: Four semesters of successful achievement in MUS 193. Concurrent enrollment in MUS 191 or 291 is suggested.

Credit: 1 semester hour

Lecture: 0

Lab: 3

**MUS 294 -
Instrumental Ensemble II
(Jazz Ensemble)**

IAI: None

1.1

Instrumental Ensemble II is a continuation of MUS 194 and is open to students who wish to perform in Jazz Ensemble or other small instrumental groups. Members are expected to perform at concerts and certain other scheduled events. This course may be taken four times for credit.

Prerequisite: Previous playing experience and satisfactory completion of four semesters of MUS 194. For Jazz Ensemble, concurrent enrollment in MUS 195 or MUS 295 by woodwind, brass and percussion players is suggested.

Credit: 1 semester hour

Lecture: 0

Lab: 3

**MUS 295 -
Band II**

IAI: None

1.1

Band II is a continuation of MUS 195 and is open to students who play brass, woodwind, or percussion instruments. The band plays standard and contemporary band literature. Band members are expected to perform at concerts and certain other scheduled events. This course may be taken four times for credit.

Prerequisite: Previous playing experience and satisfactory completion of four semesters of MUS 195.

Credit: 1 semester hour

Lecture: 0

Lab: 3

**MUS 298 -
Orchestra II**

IAI: None

1.1

Orchestra II is open to students who play orchestral instruments. The orchestra plays standard and contemporary orchestra literature. Orchestra members are expected to perform at concerts and certain other scheduled events. This course may be taken four times for credit.

Prerequisite: Previous playing experience and satisfactory completion of four semesters of MUS 198.

Credit: 1 semester hour

Lecture: 0

Lab: 3

Mythology

- See Literature

Nursing Aide**NAD****NAD 101 -
Nursing Aide**

IAI: None

1.2

Nursing Aide provides an introduction to the principles of patient care. Emphasis is placed on communication and technical skills necessary to function as an important member of the nursing team. Students are given opportunities to develop nursing assistant skills in a variety of laboratory and clinical settings. (Approved by the Illinois Department of Public Health.)

Prerequisites: MTH 086 and completion of one of the following Reading Tests:

1. College Assessment Test
2. TABE Test ***See update in Catalog Addendum
3. ACT Exam

Credit: 7 semester hours

Lecture: 4.5

Lab: 5

Nursing**NRS****NRS 108 -
Pathophysiology Altered
Health Concepts**

IAI: None

1.2

This course introduces mechanisms of disease and illness that affect health in individuals throughout the lifespan. Alterations in physiological processes are examined with an emphasis on client health. Pathophysiology as a foundation for professional nursing is introduced.

Prerequisite: Admission to the Associate Degree Nursing program, BIO 185 or BIO 281 and 282, (highly recommended) and BIO 274.

Credit: 3 semester hours

Lecture: 3

Lab: 0

COURSE DESCRIPTIONS

**NRS 110 -
Core Concepts I for
Professional Nursing**

IAI: None 1.2

This course provides an opportunity to explore the nature and interrelationship of four components of nursing: environment, nurse, person, and health. The student is introduced to the characteristics of the healthcare delivery system, legal aspects, and the use of the nursing process and the Neuman Systems Model to assess an individual client's status, derive nursing diagnosis, plan, implement and evaluate care.

Prerequisite: Admission to the Associate Degree Nursing program, BIO 185 or BIO 281 and 282, (highly recommended), BIO 274 and PSY 170.

Corequisite: FWS 237

Credit: 3 semester hours

Lecture: 3 *Lab:* 0

**NRS 111 -
Core Concepts II for
Professional Nursing**

IAI: None 1.2

This course focuses on the use of the nursing process and the Neuman Systems Model to promote physiologic wellness for individual adult clients. The common physiologic needs generally encountered by the individual client requiring care are addressed. The culminating learning experience integrates pathophysiologic and core concepts for the individual client undergoing the planned trauma of surgery. Laboratory and selected clinical experiences are assigned.

Prerequisite: NRS 108, 110

Corequisite: PNU 107 and FWS 237

Credit: 5 semester hours

Lecture: 2 *Lab:* 6

**NRS 207 -
Pharmacology for Nursing Care**

IAI: None 1.2

This course builds on the principles of pharmacology introduced in PNU 107. Pharmacokinetic factors in drug therapy are examined in relation to the major body systems and management of client health. The pharmacological aspects of nursing care are integrated using the nursing process. Major drug classification prototypes and the related nursing implications are discussed.

Prerequisite: Admission to the Associate Degree Nursing Program or permission of the Dean. PNU 107, NRS 111.

Credit: 2 semester hours

Lecture: 2 *Lab:* 0

**NRS 210 -
Transition to Associate Degree
Nursing**

IAI: None 1.2

This course focuses on the transition of the Licensed Practical Nurse into the Rock Valley College Associate Degree Nursing program. Students examine the philosophy of the associate degree program and major concepts of the role of the registered professional nurse. The course includes an emphasis on application of the nursing process and the Neuman Systems Model for selected health problems. Learning experiences are provided in the laboratory to evaluate the student's knowledge of nursing concepts and performance of selected nursing skills.

Prerequisite: Admission to the LPN Bridge for the Nursing program.

Credit: 3 semester hours

Lecture: 3 *Lab:* 0

**NRS 221 -
Psychiatric Nursing**

IAI: None 1.2

Psychiatric Nursing focuses on the delivery of care through the use of the nursing process to clients and families experiencing psychiatric disorders and maladaptive behaviors.

Emphasis is on the community mental health-illness continuum throughout the lifespan and assisting the client(s) with problem solving in selected community mental health settings.

Laboratory and selected clinical care and community experiences are required.

Prerequisite: NRS 108 and NRS 111

Credits: 5 semester hours

Lecture: 2 *Lab:* 6

**NRS 223 -
Adult Health Nursing I**

IAI: None 1.2

Adult Health Nursing I addresses the concept health care alterations in adults. Emphasis is on assisting clients with health problems related to endocrine, gastrointestinal, metabolic, elimination, and fluid/electrolyte dysfunctions. The use of the nursing process in disease prevention, health promotion, and restorative concepts is integrated. Nursing lab and selected acute care and community agency clinical experiences are required.

Prerequisite: NRS 108 and NRS 111

Credits: 5 semester hours

Lecture: 2 *Lab:* 6

**NRS 225 -
Professional Nursing Role**

IAI: None 1.2

This course focuses on the entry into professional nursing practice and role transition. Emphasis is on ethical-legal issues in professional practice, political-economic issues in the delivery of healthcare and the nurse's role in management of care for the client system.

Prerequisite: NRS 223, 226, 228 or Dean consent.

Credit: 2 semester hours

Lecture: 2 *Lab:* 0

**NRS 226 -
Family & Reproductive
Health Nursing**

IAI: None 1.2

This course focuses on the client needs from conception through the postpartum period. Opportunities are provided to care for the intrapartum, postpartum and newborn client. Emphasis is on the nursing process, health promotion and the prevention of illness. The alterations in health related to the reproductive system are addressed. The role of the perioperative nurse and care during the perioperative period is emphasized. Selected nursing lab and acute care nursing experiences are required.

Prerequisites: NRS 221, NRS 223

Credits: 5 semester hours

Lecture: 2 *Lab:* 6

**NRS 228 -
Child and Family Health Nursing**

IAI: None 1.2

This course focuses on the delivery of care through the use of the nursing process to children and families experiencing alterations in health. Emphasis is on assisting the client system with problem solving in selected community settings. Laboratory and selected clinical experiences are provided.

Prerequisites: NRS 221, NRS 223

Credits: 5 semester hours

Lecture: 2 *Lab:* 6

**NRS 231 -
Adult Health Nursing II**

IAI: None 1.2

Adult Health Nursing II focuses on adult clients as individuals and families with alterations in cardiovascular and pulmonary function. Use of the nursing process in promoting and restoring health and preventing illness is integrated. Opportunities are provided to provide care for clients with a variety of cardiac and pulmonary health alterations. Selected nursing lab and acute care nursing experiences are required.

Prerequisites: NRS 221, NRS 223, NRS 226, NRS 228

Credits: 5 semester hours

Lecture: 2 *Lab:* 6

**NRS 233 -
Adult Health Nursing III**

IAI: None 1.2

This course focuses on adult clients as individuals and families with alterations in cognition, sensation and motion and burn injuries from emergency care through rehabilitation. Application of the nursing process in promoting and restoring health and preventing illness is integrated. Emphasis is on student roles of health promotion, clinical competence, communication and collaboration, and judgment and critical thinking. Laboratory and selected clinical experiences will be provided.

Prerequisites: NRS 221, NRS 223, NRS 226, NRS 228

Credits: 5 semester hours

Lecture: 2 *Lab:* 6

COURSE DESCRIPTIONS

**NRS 250 -
Independent Study in Nursing**

IAI: None

1.2

Independent Study in Nursing is designed for the student who desires to conduct an individual project based on personal goals and objectives in nursing. Course requirements and hours of credit are based on the nature of the subject under study. A maximum of three credits may be earned in this course.

Prerequisite: Completion of first-year nursing courses and consent of the Dean.

Credit: 1-3 semester hours

Lecture: 1-3

Lab: 0

**NRS 251 -
Special Topics in Nursing**

IAI: None

1.2

Special Topics in Nursing is designed to explore topics of special interest in a selected area of nursing. A maximum of four credits may be earned in the course. The course may be repeated three times.

Prerequisite: None

Credit: 1-4 semester hours

Lecture: 1-4

Lab: 0

Office Professional**OFF****OFF 115 -
File Management**

IAI: None

1.2

File Management will provide instruction to anyone needing to know the legal, technical, and social aspects of electronic notebooks, recordkeeping, groupware, document management, knowledge management, or other collaborative systems used in organizations. Students will examine office technological environments and associated strategies for managing electronic records, electronic workflow techniques, and how to establish an effective electronic document retrieval system.

Prerequisites: None

Credits: 2 semester hours

Lecture: 1

Lab: 2

**OFF 118 -
Computer Keyboarding**

IAI: None

1.2

Computer Keyboarding is taught on a computer as an independent study course and/or as a regular short course. The course is designed so that students can acquire the skill to effectively use touch typing to input alphabetical and numerical data into a computer. A pass/fail grading system is used.

Prerequisite: None

Credit: 1 semester hour

Lecture: 0

Lab: 2

**OFF 121 -
Advanced Document
Preparation and Design**

IAI: None

1.2

Microsoft Office Applications are designed to work together in today's complex and fast-paced business environment. In this course, students enrich basic knowledge of Office applications by focusing on content integration and advanced document design. Students use a project-based format to integrate content between Microsoft Word, Excel, PowerPoint, and Access accomplishing tasks that go beyond the capabilities of individual applications. Emphasis is on producing high-quality professional documents.

Prerequisite: PCI 106, grade of "C" or higher.

Credit: 3 semester hours

Lecture: 2

Lab: 2

**OFF 131 -
Independent Study -
Office Software Applications**

IAI: None

1.2

Independent Study - Office Software Applications is designed for those individuals who have software skills but would like the opportunity to complete additional business software applications. It provides the opportunity for students to return periodically to work with new software as it becomes popular in the business community.

Prerequisite: PCI 106 or consent of instructor.

Credit: 1-6 semester hours

Lecture: 0

Lab: 2-12

**OFF 144 -
Insurance Procedures/Medical Office**

IAI: None

1.2

Insurance Procedures/Medical Office is an introduction to the medical insurance industry including types of insurance, coding, standard billing forms and benefit calculations.

Prerequisite: None

Credit: 1 semester hour

Lecture: 1

Lab: 0

**OFF 147 -
Coding**

IAI: None

1.2

Coding is designed to provide the student with basic coding knowledge in both clinical and hospital-based coding utilizing CPT, ICD-9 and DRG coding concepts.

Prerequisite: BIO 171, HLT 110

Credit: 4 semester hours

Lecture: 4

Lab: 0

**OFF 220 -
Advanced Coding**

IAI: None

1.2

Advanced Coding is a course designed to provide the student with advanced, hands-on coding knowledge in both clinical and hospital-based coding utilizing CPT, ICD-9 and DRG coding concepts.

Prerequisite: OFF 147

Credit: 3 semester hours

Lecture: 3

Lab: 0

**OFF 222 -
Office Technology Practicum**

IAI: None

1.2

Using Microsoft Office students create business documents for simulated companies. Students work with realistic workplace projects to integrate business vocabulary, critical thinking strategies, and web-research with advanced document processing skills. This course reviews both Core and Expert MOS Competencies for Microsoft Office Applications.

Prerequisite: OFF 121, Grade of "C" or higher, or consent of instructor.

Credit: 3 semester hours

Lecture: 2

Lab: 2

**OFF 226 -
Professional Development**

IAI: None

1.2

Professional Development is designed for the development of skills and attitudes that allow students to function successfully in the workplace. Emphasis will be placed on interpersonal skills, communication, goal-setting, employment skills, teamwork, image and other timely business topics. In addition, students will create portfolios to showcase professional work.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**OFF 231 -
Office Procedures**

IAI: None

1.2

Office Procedures emphasizes essential business procedures and activities. Topics include human relations, routine and administrative duties, filing and records management, office ethics, decision making, and problem-solving. Students interested in a specialized office career, such as medical or legal, will complete a semester project focusing on that area of interest. Others will complete a similar project of a general office career.

Prerequisite: None, recommended that this course be taken the last semester of attendance.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**OFF 245 -
Introduction to Health
Information Technology**

IAI: None

1.2

Introduction to Health Information Technology provides an overview of the history of health information technology and the evolution of the profession. Study topics include analysis of record content, (stressing accuracy, completeness, confidentiality and correlation of data), and study of numbering and filing systems with emphasis on retention policies, storage methods and computerization.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

COURSE DESCRIPTIONS

**OFF 293 -
Independent Study in Office
Technology**

IAI: None 1.2
Independent Study in Office Technology allows the student to conduct research or develop an individualized project in an area of special interest in office technology. Course requirements are based on the nature of the subject. Consent of the coordinator is required.
Prerequisite: Completion of 30 semester hours of credit in the Office Technology curriculum. Repeat of this course to a maximum of three credits is permissible.
Credit: 1-3 semester hours
Lecture: 1-3 Lab: 0

**OFF 294 -
Office Internship**

IAI: None 1.2
Office Internship enables the student to work in a business setting. The student is responsible for securing the site for a full or part-time office position. The requirements for this course are individualized. Prior to enrolling, students must have approval to enroll from the instructor. This course may be repeated two times.
Prerequisite: 30 hours of credit in the Office Technology curriculum.
Credit: 1-3 semester hours
Lecture: 0 Lab: 5-15

**Personal Computer
Information Specialist PCI****PCI 106 -
Microcomputer Applications/
Windows Based**

IAI: BUS 902 1.2
Microcomputer Applications/Windows Based is a survey of current applications for microcomputers utilizing hands-on experience with popular software packages operating in the Windows environment. Topics include word processing, electronic spreadsheets, database systems, presentation software, Internet Web browser, and some background in microcomputer hardware and operating systems.
Prerequisite: Keyboard proficiency or concurrent enrollment in OFF 118.
Credit: 4 semester hours
Lecture: 3 Lab: 2

**PCI 200 -
Microcomputer Information
Systems Practicum**

IAI: None 1.2
Microcomputer Information Systems Practicum is a course designed to acquaint students with the methodologies involved in designing, developing, and documenting information systems solutions to business problems by using personal computers. The systems development life cycle methodology is presented along with Microsoft Access software. With this background, students will design a solution to their own systems problem.
Prerequisite: PCI 106, PCI 206
Credit: 3 semester hours
Lecture: 2 Lab: 5

**PCI 206 -
Advanced Microcomputer
Applications/Windows Based**

IAI: None 1.2
Advanced Microcomputer Applications/Windows Based is a survey course presenting Windows applications for microcomputers utilizing hands-on experience with popular software packages, specifically Microsoft Word, Microsoft Excel, Microsoft Access, and Microsoft PowerPoint. Topics include word processing, electronic spreadsheets and database systems along with some background in microcomputer hardware and basic Windows concepts. This course is intended to be an extension of PCI 106.
Prerequisite: PCI 106
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PCI 226 -
Post Advanced Microcomputer
Applications/Windows Based**

IAI: None 1.2
Post Advanced Microcomputer Applications/Windows Based is a survey of current applications for microcomputers utilizing hands-on experience with popular software packages in the Windows environment. Topics include high-end advanced training in word processing, electronic spreadsheets, presentation software, and database systems, with an emphasis on customization and automation.
Prerequisite: PCI 106 and PCI 206
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PCI 228 -
MOS Certification Preparation**

IAI: None 1.2
MOS Certification Preparation is a preparatory course for the Microsoft Office Specialist certification exam. Students will choose an exam to take from the following: Word Core, Word Expert, Excel Core, Excel Expert, Access Core, Access Expert, PowerPoint Comprehensive; then they will practice skills necessary to pass the exam. Practice exams which simulate the testing environment will be part of the course. At the end of five weeks, students will take the actual exam. Course fee includes the exam fee. Repeatable up to three times.
Prerequisite: PCI 106 and PCI 206, PCI 226 for expert level exams.
Credit: 1 semester hour
Lecture: 1 Lab: 0

**Personal Computer
Technical Specialist PCT****PCT 110 -
Network Essentials**

IAI: None 1.2
Network Essentials is a course providing an introduction to local area networks (LANs). The course is useful for LAN managers, supervisors of LAN managers, users of LANs, or those considering the purchase and installation of a local area network. Topics include needs analysis, methods to evaluate and determine specifications of hardware and software for purchase, installation, management, and troubleshooting of a local area network system. Microcomputer-based local area networks will be emphasized. Students will install a local area network as part of the course.
Prerequisite: CIS 102
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PCT 111 -
Microsoft Active Directory**

IAI: None 1.2
Microsoft Active Directory provides students with a comprehensive understanding of Active Directory for the current version of Windows Server; and to prepare students for server administration. This course will also help students prepare for the current Windows Active Directory certification exam. The course focuses on designing Active Directory architecture, installing and configuring supporting services, setting up and managing sites and domains, troubleshooting problems and resolving real world scenarios, and managing resources in Active Directory. Students have an opportunity to apply their knowledge through hands-on projects and case study assignments.
Prerequisite: CIS 102
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

**PCT 112 -
Windows Server Fundamentals**

IAI: None 1.2
Windows Server Fundamentals will help develop the skills necessary to implement, install, and manage a Windows 20xx network. It will focus on Microsoft Windows 20xx. Work will begin with the utilities Windows 20xx provides with its software. Implementation of print services, security, login scripts and menus will be demonstrated. Work will be done on network analysis, trouble shooting and understanding how Windows 20xx works.
Prerequisite: PCT 110 or PCT 120
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PCT 113 -
Microsoft Windows Infrastructure**

IAI: None 1.2
Microsoft Windows Infrastructure provides students with a comprehensive understanding of Windows Server Network Infrastructure. It is intended for anyone who wants to learn how to configure and maintain network infrastructure on the current version of Windows Server, as well as for those individuals seeking Microsoft certification. The course begins by examining networking concepts, installing Microsoft Windows Server, and configuring and managing DHCP and DNS server roles. Additional concepts include routing and remote access, configuring file and print services, maintaining and updating Windows Server, securing data transmission, maintaining network health, and maintaining file services. Students have an opportunity to apply their knowledge through hands-on projects and case study assignments.
Prerequisite: CIS 102
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PCT 120 -
Cisco Networking I**

IAI: None 1.2
Cisco Networking I is the first of four courses in the Cisco Networking Academy program. This course's topics include networking standards, networking terminology, protocols, safety, cabling, routers, and addressing. Decision-making and problem-solving techniques are applied to solve network problems. Additional instruction is provided in maintenance and use of software, tools and equipment.
Prerequisite: CIS 102
Credit: 4 semester hours
Lecture: 4 Lab: 0

**PCT 122 -
Cisco Networking II**

IAI: None 1.2
Router Theory and Technologies is the second course of four courses in the Cisco Networking Academy program. Topics included in this course are safety, standards, TCP/IP, routing and administration. Decision-making and problem-solving techniques are applied to solve network problems.
Prerequisite: PCT 120
Credit: 4 semester hours
Lecture: 4 Lab: 0

**PCT 124 -
Cisco Networking III**

IAI: None 1.2
Advanced Routing and Switching is the third course of four courses in the Cisco Networking Academy. Topics included in this course are advanced router configurations, LAN switching, network management and advanced network design.
Prerequisite: PCT 122
Credit: 4 semester hours
Lecture: 4 Lab: 0

**PCT 126 -
Cisco Networking IV**

IAI: None 1.2
Cisco Networking IV/Accessing the WAN is the fourth course in the Cisco Networking Academy program. Topics included in this course are PPP, Frame-Relay, Network Security, IP Addressing (NAT & DHCP), and ACLs.
Prerequisite: PCT 124
Credit: 4 semester hours
Lecture: 4 Lab: 0

**PCT 130 -
Introduction to Network Security Fundamentals**

IAI: None 1.2
Introduction to Network Security Fundamentals is designed for students and professionals interested in understanding the field of network security and how it relates to other areas of Information Technology. This course covers physical security, wireless technologies, Intrusion Detection Systems, Remote Access, web security, E-mail, authentication, cryptography and various attack methodologies such as Denial of Service (DoS), man-in-the-middle and Malware.
Prerequisite: CIS 102 or equivalent computer experience.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PCT 132 -
Advanced Network Security**

IAI: None 1.2
Advanced Network Security is designed for students and professionals interested in continuing their study of network security. Topics included in this course are: Network Defense design, Security Policy design, and configuration of Router IOS firewalls (software), configuring VPN solutions, Intrusion detection & Prevention Systems, Layer 2 Security and IT Security Management.
Prerequisite: PCT 126
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PCT 140 -
IP Telephony I**

IAI: None 1.2
This course is designed for students and professionals interested in studying telephony and its deployment over IP networks. This course's possible topics include, but are not limited to, telecommunication concepts, the Internet and IP networking, packetized voice, IP telephony protocols, analog and digital interfaces and dial-peers.
Prerequisite: PCT 126 or CCNA Certification.
Credit: 4 semester hours
Lecture: 4 Lab: 0

**PCT 142 -
IP Telephony II**

IAI: None 1.2
IP Telephony II is designed for students and professionals interested in studying telephony and its deployment over IP networks. This course's possible topics include, but are not limited to: Cisco CallManager Express Telephony Systems, installation, configuration, monitoring, management, and troubleshooting. The course will also cover QoS on phone and data systems.
Prerequisite: PCT 140
Credit: 4 semester hours
Lecture: 4 Lab: 0

**PCT 210 -
Introduction to TCP/IP**

IAI: None 1.2
Introduction to TCP/IP is designed to help the student install, configure and troubleshoot a reliable TCP/IP network. Topics included in this course are designing, building, configuring and managing TCP/IP network. The student will also implement subnets, configure routers, and explore TCP/IP under Windows NT/2000. Troubleshooting is included.
Prerequisite: PCT 110 or PCT 120
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PCT 211 -
VMware vSphere:
Install, Configure, Manage**

IAI: None 1.2
Through lectures, discussions, demonstrations, and labs, students learn the skills and knowledge necessary to install, configure and manage VMware vSphere environments. With additional effort, students can use this knowledge to pass the VCP Certification Exam and become a VMware Certified Professional. Topics will include installing the VMware ESXi server and VMware vCenter, creating virtualized switches and storage, creating and managing virtual machines, establishing access controls, and performing resource monitoring. Students have an opportunity to apply their knowledge through hands-on projects and case study assignments using the current version of the vSphere software.
Prerequisite: PCT111, PCT112, or PCT113
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PCT 220 -
Advanced Routing**

IAI: None 1.2
Advanced Routing is the first of three courses designed by Cisco Networking Academy to prepare students for CCNP Certification. This course's possible topics include, but are not limited to, EIGRP, OSPF, BGP, IPv6 and manipulating Routing updates.
Prerequisite: PCT 126 or CCNA Certification.
Credit: 4 semester hours
Lecture: 4 Lab: 0

COURSE DESCRIPTIONS

**PCT 222 -
Cisco Networking VI**

IAI: None

1.2

Cisco Networking VI is the second of four courses designed by Cisco to prepare students for CCNP Certification. This course's possible topics include, but are not limited to, Remote network connectivity, IPsec VPNs, Frame Mode MPLS, Cisco SDM will be utilized in the labs. Cisco Device hardening, IOS Threat defense.

Prerequisite: Must have successfully completed PCT 120 - PCT 126 or have equivalent work experience and the CCNA Certification.

Credit: 4 semester hours

Lecture: 4

Lab: 0

**PCT 224 -
Advanced Switching**

IAI: None

1.2

Advanced Switching is the second of three courses designed by Cisco Networking Academy to prepare students for CCNP Certification. This course's possible topics include, but are not limited to, VLANs (Virtual Local Area Networks), spanning tree protocol, redundant links, multilayer switching, HSRP (Hot Standby Router Protocol), multicasting, and restricting access.

Prerequisite: PCT 126 or CCNA Certification.

Credit: 4 semester hours

Lecture: 4

Lab: 0

**PCT 226 -
Troubleshooting**

IAI: None

1.2

Troubleshooting is the last of three courses designed by Cisco Networking Academy to prepare students for CCNP Certification. This course's possible topics include, but are not limited to troubleshooting: campus switched solutions, routing solutions, addressing services, security, and converged networks.

Prerequisite(s): Must have successfully completed PCT 220 and 224 or have equivalent work experience and the CCNA Certification.

Credit: 4 semester hours

Lecture: 4

Lab: 0

**PCT 262 -
Computer Service and Repair**

IAI: None

1.2

Computer Service and Repair is a course designed to teach the student how to install new machines in a stand-alone or networked environment. Preventive maintenance tasks, troubleshooting techniques, and emergency problem handling will also be presented along with equipment testing and the installation of systems and application software.

Prerequisite: CIS 102 and EET 100

Credit: 3 semester hours

Lecture: 2

Lab: 2

**PCT 270 -
Introduction to UNIX/Linux**

IAI: None

1.2

Introduction to UNIX/Linux introduces the student to the features of the UNIX/Linux operating system. Topics covered are the functions of a multi-user operating system, file system structure, basic system commands, how to configure user environments, as well as an introduction to shell programming. The student will learn the basic skills needed to function in the UNIX/Linux system environment.

Prerequisite: CIS 102; Recommended: CIS 276.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**PCT 275 -
Cisco Firewall Design**

IAI: None

1.2

This course is designed for students and professionals interested in continuing their study of network security. This course's possible topics include, but are not limited to, ACLs, ASA firewalls, ASA firewall AAA authentication and ASA VPNs.

Prerequisite: PCT 126

Credit: 4 semester hours

Lecture: 4

Lab: 0

**PCT 290 -
Special Topics in PC Technology**

IAI: None

1.2

Special Topics in PC Technology will cover leading edge topics in the networking arena. This course will often be taught by professionals from the business world. This course may be repeated three times.

Prerequisite: Consult the schedule of classes for the current semester to determine prerequisites and other requirements or contact the instructor.

Credit: 1-6 semester hours

Lecture: 1-6

Lab: 0

**PCT 291 -
Internship/Field Project**

IAI: None

1.2

Internship/Field Project requires a supervised experience in a networking position in a local cooperating business or non-profit organization using a cooperative training plan agreed to by the instructor, participating firm, and student. The student must submit an application to the instructor. Consent of the division director is required. Variable credit may be earned up to six hours.

Prerequisite: Current enrollment in the Personal Computer Technical Specialist curriculum, completion of at least 12 hours in PCT courses, and sophomore class standing.

Credit: 1-6 semester hours

Lecture: 0

Lab: 5-30

Philosophy**PHL****PHL 150 -
Introduction to Philosophy**

IAI: H4 900

1.1

Introduction to Philosophy is a survey of a selection of major philosophical issues. These may include: the nature of human beings, the possibility and limits of human knowledge, human freedom and responsibility, the nature of religion, the nature of beauty, and the nature of morality. The course will include a survey of philosophers, their works and some of the philosophical methods and tools used in their theorizing.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**PHL 151 -
Introduction to Non-Western
Philosophy**

IAI: H4 903N

1.1

Introduction to Non-Western Philosophy provides a survey of Non-Western philosophical questions, methods and concepts especially in the areas of metaphysics, epistemology, ethics, theology, the philosophy of mind and social/political philosophy. The perspectives of several Non-Western philosophers will be examined, including those from traditions found in Africa, India, Eastern Asia.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**PHL 153 -
Medical Ethics**

IAI: None

1.1

Medical Ethics provides an examination of a selection of moral issues that arise in healthcare contexts. These may include: truth-telling and the patient, obligations to treat in times of epidemic, universal entitlement to healthcare, assisted suicide, the AIDS crisis, healthcare reform, surrogate motherhood, and genetic engineering. Also included will be a brief examination of metaethical theories and principles to be used in analyzing the individual moral issues.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**PHL 154 -
Introduction to Religion**

IAI: H5 900

1.1

Introduction to Religion is an introduction to the concept of religion within society, treating the nature, origin, beliefs, practices and roles that religion plays.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

COURSE DESCRIPTIONS

**PHL 155 -
World Religions**

IAI: H5 904N 1.1
World Religions is a survey of the major religions of the world. This course will include a philosophical examination of the histories and selected teachings, practices and institutions of major Eastern and Western religions, such as Buddhism, Christianity, Confucianism, Hinduism, Islam, Jainism, Judaism, Shinto, Sikhism, and Taoism.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PHL 156 -
Religion in American Society**

IAI: H5 905 1.1
A survey of the contribution of religion to American culture, including the differences between rural and urban society; the development of religious freedom and the rise of "secular religion." Examines the emergence of new forms of belief and practice and the variety of religious issues confronting American society today.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PHL 157 -
Foundational Religious Texts**

IAI: H5 901 1.1
Foundational Religious Texts is the humanistic study of one or more of the foundational documents of the world's major religions, such as the Hebrew Bible, the New Testament, the Qur'an (Koran), or the Vedas.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PHL 255 -
Logic**

IAI: H4 906 1.1
Logic is an examination of the nature of reason and argumentation. The course will focus on developing formal and informal tools and techniques for evaluating arguments and for sharpening one's own reasoning skills. Topics covered may include: nature of thought, language and meaning, definitions, argument recognition, argument interpretation, informal fallacies, syllogistic and propositional logic.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PHL 256 -
Contemporary Moral Issues**

IAI: H4 904 1.1
Contemporary Moral Issues combines an extensive treatment of different theories of morality with an application of these theories to a selected group of particular moral issues dominant in contemporary culture. These may include such issues as war, torture and terrorism, same-sex rights, technology, immigration, capital punishment, poverty and affluence, rights to privacy, racism, sexism, violence and weapons, and animal rights.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PHL 260 -
Philosophy of Religion**

IAI: H4 905 1.1
Philosophy of Religion provides a critical examination of the central philosophical issues associated with religion. Topics may include such things as the existence and nature of a deity, good and evil, miracles, souls, life after death, and revelations and may include such relationships as those between myth and religion, religious experience and justification, faith and knowledge, and between religious beliefs and moral conduct.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

Phlebotomy Technician PLB**PLB 101 - ***See update in Catalog Addendum**

IAI: None (ICCB Approval Pending) 5
Phlebotomy covers the techniques for obtaining blood samples by venipuncture and dermal capillary procedures. Medical and laboratory terminology, anatomy of the circulatory systems, interpersonal communication, laboratory safety, legal guidelines and professional skills will be covered. During the laboratory component, the student will practice various blood collection procedures after receiving instruction and demonstration. To successfully complete PLB 101, students must complete at least 50 successful venipunctures: 30 taken from artificial arm and 20 from fellow students. Resume preparation, interviewing and job seeking skills will be covered.
Prerequisite: Currently enrolled in, or have completed HLT 110 with a C or higher, or equivalent, or consent of the Phlebotomy Coordinator. Admission to the Phlebotomy Technician Program required.
Credit: 5 semester hours
Lecture: 2 Lab: 6

**PLB 102 -
Phlebotomy - Clinical**

IAI: None (ICCB Approval Pending) 1.2
Phlebotomy Clinical provides skill application in a medical setting. Discussion topics include student reaction to supervised clinical experiences, professional issues related to the student's clinical rotation and/or the field of phlebotomy, communication skills appropriate for a diverse patient population, and application of customer service skills. The students will be given a list of skills to complete and document during the clinical experience and a review of safety and infection control practices and the use of universal precautions will be discussed. Specific course requirements are stated in the Phlebotomy Technician Handbook. Upon successful completion, the student will be eligible to take the phlebotomy certification examination.
Prerequisite: PLB 101 Phlebotomy Technician with a C or higher, or consent of the Phlebotomy Coordinator. Admission to the Phlebotomy Technician Program required.
Current CPR Certification, Physical exam (<6mo), Proof of current vaccines and active titers, negative TB test, Drug Test and Criminal Background: both clean.
Credit: 4 semester hours
Lecture: 1 Lab: 6

Physical Geography PGE**PGE 100 -
Physical Geography**

IAI: P1 909 1.1
Physical Geography is an introduction to the geographical features of the Earth's natural environment. The course examines the physical, chemical and biological processes that shape these features and control their spatial distribution; the dependence of human society on the natural environment; and the ways in which humans intentionally and unintentionally modify the natural environment.
Prerequisite: Sufficiently high placement test score, or completion of MTH 092 or MTH 096A or MTH 096S with a grade of "C" or better, or equivalent.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**PGE 102 -
Physical Geography With Lab**

IAI: P1 909L 1.1
Physical Geography With Lab is an introduction to the geographical features of the Earth's natural environment. The course examines the physical, chemical and biological processes that shape these features and control their spatial distribution; the dependence of human society on the natural environment; and the ways in which humans intentionally and unintentionally modify the natural environment. The lab component of the course provides hands-on application of these geographic concepts using exercises, experiments and the interpretation of topographic maps and aerial photographs.
Prerequisite: One year of high school algebra or its equivalent. Sufficiently high placement test score, or completion of MTH 092 or MTH 096A or MTH 096S with a grade of "C" or better, or equivalent.
Credit: 4 semester hours
Lecture: 3 Lab: 3

COURSE DESCRIPTIONS

**PGE 240 -
Global Climate Change**

IAI: P1 905

1.1

Global Climate Change is a multidisciplinary scientific analysis of Earth's continually changing climate. The course examines the climatic responses of major systems (ice, water, air, land, flora, and fauna) throughout geologic history, emphasizing the most recent 20,000 years. Focus is on observation, hypothesis-building, and hypothesis-testing. Current ideas concerning impact of humankind on climate and future impact of climate change on humans are investigated. Recommended: One high school- or college-level earth science or environmental biology course. Prerequisite: Completion of MTH 220 with a grade of "C" or better, or consent of the instructor.

Credit: 3 semester hours

Lecture: 3

Lab: 0

Physics**PHY****PHY 201 -
Mechanics and Heat**

IAI: P1 900L

1.1

Mechanics and Heat is an algebra/trigonometry-based study of physics. Topics covered include kinematics, Newton's Laws, momentum, rotational motion, energy, wave motion, and heat. This course is designed to meet the requirements of many liberal arts, architectural, and pre-professional students. Prerequisite: MTH 125 or equivalent with a minimum grade of "C."

Credit: 5 semester hours

Lecture: 4

Lab: 3

**PHY 202 -
Waves, Electricity, Light, and Modern Physics**

IAI: None

1.1

Waves, Electricity, Light, and Modern Physics is a continuation of PHY 201. Topics studied include electricity and magnetism, light and optics, and modern physics.

Prerequisite: PHY 201 or equivalent.

Credit: 5 semester hours

Lecture: 4

Lab: 3

**PHY 215 -
Mechanics, Wave Motion, and Thermodynamics**

IAI: P2 900L

1.1

Mechanics, Wave Motion, and Thermodynamics is a calculus-based study of the kinematics and dynamics of the motion of rigid bodies, wave propagation, and thermodynamics. Topics covered include accelerated motion, Newton's Laws, momentum, energy, rotational motion, gravitation, wave propagation, sound, and heat. PHY 215 and 225 are required of all students majoring in engineering, chemistry or physics. The class will meet for three hours of lecture, one hour required discussion, and three hours of laboratory per week.

Prerequisite: MTH 135 with a minimum grade of "C", concurrent enrollments in MTH 235.

Recommended one year of high school physics, or PHY 201.

Credit: 5 semester hours

Lecture: 4

Lab: 3

**PHY 225 -
Electricity, Magnetism, Light, and Modern Physics**

IAI: None

1.1

Electricity, Magnetism, Light, and Modern Physics is a continuation of PHY 215. Topics studied include electric fields, electric currents, AC electric circuits, electromagnetism, relativity, optics, light and selected topics from modern physics. The class will meet for three hours of lecture, one hour required discussion and three hours of laboratory per week.

Prerequisite: MTH 235 with a minimum grade of "C", PHY 215, and concurrent enrollment or credit in MTH 236.

Credit: 5 semester hours

Lecture: 4

Lab: 3

Political Science**PSC****PSC 160 -
American National Government**

IAI: S5 900

1.1

American National Government is an introduction to the national government, including its structure, powers, and relationship to the American people. Topics include the legislative, executive, and judicial branches, civil rights and civil liberties, political parties and interest groups. Current events are emphasized throughout the course.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**PSC 161 -
State and Local Government**

IAI: S5 902

1.1

State and Local Government is an introduction to state and local government in the U.S., with emphasis on Illinois state government and the local governments in the Rock Valley College area. Topics include the legislative, executive, and judicial branches of state government, the urban crisis, and the many and varied local governments in this area. Current events are emphasized throughout the course.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**PSC 210 -
Introduction to the Legal System**

IAI: None

1.1

Introduction to the Legal System is an introduction to the sources, types, functions, and methods of public law and the legal system.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**PSC 211 -
The American Presidency**

IAI: None

1.1

The American Presidency is a survey of the constitutional basis, historical development, and systematic study of the executive branch.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**PSC 269 -
International Relations**

IAI: S5 904N

1.1

International Relations is an examination of the major factors which affect international relations with special emphasis on the political, historical, and economic elements. The material will be analyzed from the viewpoint of the United States and our foreign policy.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

**PSC 280 -
Introduction to Political Philosophy**

IAI: PLS 913

1.1

Introduction to Political Philosophy is a survey of major political philosophers and concepts in the history of political thought. The course focuses on classical and modern theorists, emphasizing such concepts as justice, equality, power, liberty, and rights.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

Practical Nursing**PNU****PNU 103 -
Practical Nursing: Fundamentals**

IAI: None

1.2

Practical Nursing: Fundamentals introduces nursing principles, techniques, and interventions and focuses on the use of the nursing process to meet the needs of clients utilizing a holistic care centered approach. Therapeutic communication skills are integrated throughout the course.

The clinical nursing laboratory and selected clinical experiences in community settings are provided concurrently.

Prerequisite: Admission to the Practical Nursing program and BIO 185.

Corequisite: PSY 170, PNU 107, FWS 237

Credit: 7 semester hours

Lecture: 4

Lab: 6

**PNU 107 -
Basic Principles of Pharmacology for Nursing**

IAI: None

1.2

This course introduces concepts of basic pharmacology. The principles of medication administration and calculation of dosages are emphasized. Practice for medication administration assignments will be required. Prerequisite: Admission to the Practical Nursing or the Associate Degree Nursing program and MTH 093 and MTH 094, or MTH 096A or MTH 096S.

Credit: 1 semester hour

Lecture: 1

Lab: 0

COURSE DESCRIPTIONS

PNU 120 -**Nursing Throughout the Lifespan: Mental Health**

IAI: None 1.2
 Nursing Throughout the Lifespan: Mental Health focuses on the use of the nursing process to meet the needs of the client experiencing mental disorders. The mental health aspects of growth and development are presented, as are common mental disorders specific to the child and through the middle adult years.
Prerequisite: PNU 103, PNU 107, PSY 170
Corequisite: ENG 101
Credit: 1 semester hour
Lecture: 1 Lab: 0

PNU 140 -**Nursing Throughout the Lifespan: Conception Through Adolescence**

IAI: None 1.2
 This course focuses on the use of the nursing process to meet the needs of the client from conception through adolescence utilizing a holistic care centered approach. Selected clinical experiences in community settings are provided concurrently.
Prerequisite: PNU 103, PNU 107, PSY 170
Corequisite: ENG 101, PNU 120
Credit: 6 semester hours
Lecture: 3 Lab: 6

PNU 160 -**Nursing Throughout the Lifespan: Young Adult Through Middle Adulthood**

IAI: None 1.2
 Nursing Throughout the Lifespan: Young Adult through Middle Adulthood focuses on the use of the nursing process to meet the needs of the client from young adulthood through middle adulthood utilizing a holistic care centered approach. The use of the nursing process in disease prevention, health promotion, and restorative concepts is integrated. The normal physiologic and psychosocial aspects of growth and development are presented as are common illnesses specific to the young adult through middle years. Selected clinical experiences in community settings are provided concurrently.
Prerequisite: PNU 103, PNU 107, PSY 170
Corequisite: ENG 101, PNU 120
Credit: 6 semester hours
Lecture: 3 Lab: 6

PNU 201 -**Nursing Throughout the Lifespan: Geriatric**

IAI: None 1.2
 Nursing Throughout the Lifespan: Geriatric focuses on the use of the nursing process to meet the needs of the elderly utilizing a holistic care centered approach. The normal physiologic and psychosocial aspects of aging are presented as are common illnesses affecting the elderly. Selected clinical experiences in community settings are provided concurrently.
Prerequisite: PNU 160
Credit: 6 semester hours
Lecture: 3 Lab: 6

Psychology

Students who plan to major in psychology are strongly urged to take MTH 220 - Elements of Statistics.

PSY 170 -**General Psychology**

IAI: S6 900 1.1
 General Psychology is an introduction to the entire area of psychology through a presentation of historical and current theory and research. Topics include research methods, biology of behavior, sensation and perception, learning, memory, development, motivation, personality, and social and abnormal behavior.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

PSY 225 -**Child Development**

IAI: S6 903 1.1
 Child Development introduces the theory, research, and changes dealing with human development from the time of conception to adolescence. Topics included are genetic factors, prenatal development, perceptual system changes, motor system development, language acquisition, social learning, cultural influences, and common problems relevant to the developmental processes.
Prerequisite: A grade of "C" or better in ENG 101 and PSY 170, or instructor consent.
Credit: 3 semester hours
Lecture: 3 Lab: 0

PSY 250 -**Psychology of Personality**

IAI: PSY 907 1.1
 Psychology of Personality is a scientific study of the origins of individual differences in thought, emotion and behavior. Topics covered will include: research methods; personality assessment; the psychoanalytical and neopsychoanalytical approaches; the trait approach; the humanistic approach; the cognitive approach; the biological approach; and the behavioral/social learning approach.
Prerequisite: A grade of "C" or better in ENG 101 and PSY 170, or instructor consent.
Credit: 3 semester hours
Lecture: 3 Lab: 0

PSY 270 -**Lifespan Developmental Psychology**

IAI: S6 902 1.1
 Lifespan Developmental Psychology reviews aspects and changes which occur during a person's life from the time of prenatal development through death
Prerequisite: A grade of "C" or better in ENG 101 and PSY 170, or instructor consent.
Credit: 3 semester hours
Lecture: 3 Lab: 0

PSY**PSY 271 -****Educational Psychology**

IAI: None 1.1
 Educational Psychology investigates the application of psychological principles and research to the process and techniques of teaching and learning. Special emphasis is given to formal education from both the perspective of student and instructor.
Prerequisite: A grade of "C" or better in ENG 101 and PSY 170, or instructor consent.
Credit: 3 semester hours
Lecture: 3 Lab: 0

PSY 275 -**Social Psychology**

IAI: S8 900 1.1
 Social Psychology is the study of behavior between people. The course will introduce theory and research on topics such as the self, social cognition, attitudes, prejudice and discrimination, interpersonal attraction, social influence, prosocial behavior, aggression, and group dynamics.
Prerequisite: A grade of "C" or better in ENG 101 and PSY 170, or instructor consent.
Credit: 3 semester hours
Lecture: 3 Lab: 0

PSY 276 -**Abnormal Psychology**

IAI: None 1.1
 Abnormal Psychology is the study of psychopathology, its causes, its symptoms, and its treatment. Topics covered include theories of abnormal behavior, diagnosis and classification of problems, types of abnormality, individual and societal costs, intervention and treatment.
Prerequisite: A grade of "C" or better in ENG 101 and PSY 170, or instructor consent.
Credit: 3 semester hours
Lecture: 3 Lab: 0

Reading**RDG**

Students in Developmental Reading courses are limited to a specific list of college level courses until they complete the reading series. A complete list of course options for student enrolled in any Developmental Reading Course is available at: RockValleyCollege.edu/ReadingCourseOptions.

RDG 080 -**Basic Reading Skills**

IAI: None 1.4
 Basic Reading Skills helps students improve their reading skills to the level necessary for entrance to Reading 096. Emphasis is on vocabulary development, comprehension, and study strategies. Placement based on entrance assessment scores.
Prerequisite: None
Credit: 5 semester hours
Lecture: 5 Lab: 0

COURSE DESCRIPTIONS

**RDG 092 -
Reading for Bilingual Students**

IAI: None

1.4

Reading for Bilingual Students is designed for students whose first language is not English. The intent of this course is to help students improve their reading skills in English to the level necessary to succeed in RDG 099. The course will focus on comprehension, vocabulary improvement and the ability to select skills and strategies appropriate to a specific reading task. Placement based on assessment scores.

Prerequisite: None

Credit: 4 semester hours

Lecture: 4

Lab: 0

**RDG 096 -
Essentials of Reading**

IAI: None

1.4

Essentials of Reading is intended to help students improve their reading skills to the level necessary for entrance to Reading 099. Emphasis is on improvement of vocabulary, comprehension, study strategies, and time management. Special placement based on entrance assessment scores.

Prerequisite: None

Credit: 4 semester hours

Lecture: 4

Lab: 0

**RDG 099 -
Reading for Academic Purposes**

IAI: None

1.4

Reading for Academic Purposes emphasizes the development of reading strategies to enhance the comprehension and critical thinking of college-level material. Topics include vocabulary development, extracting implied meaning, drawing conclusions, and analyzing college texts. Placement is according to entrance assessment. RDG 099 may also be taken on a voluntary basis for students who did not test into the reading program.

Prerequisite: None

Credit: 4 semester hours

Lecture: 4

Lab: 0

**RDG 101 -
College Reading**

IAI: None

1.7

College Reading focuses on reading flexibility, critical reading techniques, lecture processing skills, and test cycle evaluation. The course includes developing time management skills and applying study skills to individual student's college course material.

Prerequisite: Placement is voluntary to students who are not mandated into RDG 080, 096, 099. This course is highly recommended for students who have marginal assessment scores, are on academic probation, or need to develop successful study strategies.

Credit: 2 semester hours

Lecture: 2

Lab: 0

Respiratory Care**RSP****RSP 111 -
Applied Sciences**

IAI: None

1.2

Applied Sciences provides a foundation in the basic sciences relevant to respiratory care.

Areas covered include chemistry, physics, microbiology, and mathematics.

(Offered fall semester.)

Prerequisite: Admission to the Respiratory Care program.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**RSP 112 -
Patient Assessment**

IAI: None

1.2

Patient Assessment provides an understanding of how the patient assessment procedures of medical record review, patient interview, and physical examination are performed and how this information with radiological examination and laboratory assessment can be used to evaluate a patient's health status and response to treatment. (Offered fall semester.)

Prerequisite: Admission to the Respiratory Care program. Completion of BIO 185, or BIO 281 & BIO 282 with a minimum grade of "C" or higher.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**RSP 113 -
Cardiopulmonary Anatomy
and Physiology**

IAI: None

1.2

Cardiopulmonary Anatomy and Physiology provides an in-depth study of pulmonary and cardiovascular anatomy and physiology. Ventilation, circulation, blood gas transport, and acid-base balance are closely examined. Kidney function and fetal pulmonary and cardiovascular development are also studied. (Offered fall semester.)

Prerequisite: BIO 185, or BIO 281 & BIO 282 with a minimum grade of "C," or instructor permission.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**RSP 114 -
Clinical Medicine**

IAI: None

1.2

Clinical Medicine is an overview of diseases of the cardiopulmonary and related systems requiring medical and/or surgical intervention. Each pathological process will be discussed with regard to etiology, pathophysiology, diagnosis, treatment and prognosis. (Offered spring semester.)

Prerequisite: RSP 113

Credit: 3 semester hours

Lecture: 3

Lab: 0

**RSP 121 -
Respiratory Care Practices and
Procedures I**

IAI: None

1.2

Respiratory Care Practices and Procedures I provides classroom instruction and laboratory practice for the equipment used to provide general respiratory care. Classroom instruction and laboratory practice is provided for many general respiratory care procedures. (Offered fall semester.)

Prerequisite: Admission to the Respiratory Care program.

Credit: 5 semester hours

Lecture: 4

Lab: 2

**RSP 122 -
Respiratory Care Practices
and Procedures II**

IAI: None

1.2

Respiratory Care Practices and Procedures II provides a continuation and completion of classroom instruction and laboratory practice for general respiratory care procedures.

Following this, there is instruction and discussion on the integrated processes of patient assessment and care planning for general respiratory care procedures. (Offered spring semester.)

Prerequisite: RSP 121 with minimum grade of "C."

Credit: 5 semester hours

Lecture: 4

Lab: 2

**RSP 123 -
Respiratory Pharmacology**

IAI: None

1.2

Respiratory Pharmacology is an introduction to the theory and use of medications, with emphasis on those used in cardiorespiratory care. Content will include dosages, actions, indications, contraindications and hazards of drugs, and drug dose calculations. Normal physiology and pathophysiology are reviewed to clarify the role of medications in the treatment of disease processes. (Offered spring semester.)

Prerequisite: Admission to the Respiratory Care program.

Credit: 3 semester hours

Lecture: 3

Lab: 0

**RSP 131 -
Clinical Practice I**

IAI: None

1.2

Clinical Practice I is an introduction to the respiratory care profession and general healthcare-related concepts. Instruction is provided for clinical practices that can affect the safety of both patients and practitioners. The expectations for student performance in the clinical setting are discussed. Students will be involved in hospital orientation and introductory patient care activities toward the end of the course. (Offered fall semester.)

Prerequisite: Admission to the Respiratory Care program.

Credit: 2 semester hours

Lecture: 2

Lab: 4

COURSE DESCRIPTIONS

**RSP 132 -
Clinical Practice II**

IAI: None 1.2
Clinical Practice II provides supervised observation, practice, and evaluation of patient assessment and general respiratory care procedures in the clinical setting. (Offered spring semester.)
Prerequisite: RSP 131 with minimum grade of "C."
Credit: 3 semester hours
Lecture: 0 Lab: 16

**RSP 221 -
Respiratory Care Practices
and Procedures III**

IAI: None 1.2
Respiratory Care Practices and Procedures III provides classroom instruction and laboratory practice for continuous mechanical ventilation and an introduction to critical care procedures. (Offered summer semester.)
Prerequisite: RSP 122 with a minimum grade of "C."
Credit: 3 semester hours
Lecture: 2 Lab: 2

**RSP 222 -
Cardiopulmonary Testing
and Rehabilitation**

IAI: None 1.2
Cardiopulmonary Testing and Rehabilitation provides the student with an in-depth study of pulmonary function testing in the lecture and laboratory setting including types of tests, test results analysis, diagnostic value of the analysis, pulmonary function testing equipment, and the standards for equipment and test performance. Additional areas of study include pulmonary and cardiac stress testing, pulmonary rehabilitation, performing an electrocardiogram, cardiac arrhythmia recognition, sampling arterial blood, blood gas analyzer function, and the quality assurance standards for blood gas analyzers. Field trips into local hospitals may be included. (Offered summer semester.)
Prerequisite: Enrollment in the Respiratory Care program.
Credit: 3 semester hours
Lecture: 2 Lab: 2

**RSP 223 -
Respiratory Care Practices
and Procedures IV**

IAI: None 1.2
Respiratory Care Practices and Procedures IV provides an in-depth study in the lecture and laboratory setting of mechanical ventilatory support and its use in respiratory care as well as the critical application of advanced principles involved in patient care. Emphasis is on the physiological principles involved in patient care as well as the clinical application of these principles to adult patients. The use of the pulmonary artery catheter, end-tidal carbon dioxide measurement and other monitoring procedures will be studied as they are applied to advanced cardiopulmonary monitoring. Airway management options will be discussed and adult and infant intubation will be practiced on mannequins. Fundamental principles of respiratory home care will be presented. (Offered fall semester.)
Prerequisite: RSP 221 with minimum grade of "C."
Credit: 4 semester hours
Lecture: 3 Lab: 2

**RSP 224 -
Neonatal and Pediatric
Respiratory Care**

IAI: None 1.2
Neonatal and Pediatric Respiratory Care provides the student with information related to fetal development, neonatal assessment before birth, during the delivery process, and after delivery; and cardiopulmonary care of the sick newborn including, but not limited to, airway management, oxygen therapy, and mechanical ventilation. Additional discussion will include assessment and cardiopulmonary care of the sick pediatric patient. Guest lecturers may be brought in to present topics related to the high risk nursery. (Offered fall semester.)
Prerequisite: Enrollment in the Respiratory Care program or instructor permission.
Credit: 2 semester hours
Lecture: 2 Lab: 0

**RSP 225 -
Respiratory Care Seminar**

IAI: None 1.2
Respiratory Care Seminar has a format that allows for a variety of pertinent, current respiratory care and healthcare topics to be presented as needed. Set topics will include preparation for the National Board for Respiratory Care's Entry Level Exam, Written Registry Exam, and Clinical Simulation Exam; critical thinking, clinical practice guidelines, and therapist-driven protocols. Guest speakers may be brought in from the area healthcare providers to share their expertise. (Offered spring semester.)
Prerequisite: Enrollment in the Respiratory Care program or instructor permission.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**RSP 231 -
Clinical Practice III**

IAI: None 1.2
Clinical Practice III provides supervised observation, practice, and evaluation of more advanced respiratory care skills. These skills include administration of respiratory care procedures and mechanical ventilation to critically ill patients and the use of advanced patient assessment procedures. (Offered fall semester.)
Prerequisite: RSP 222 with minimum grade of "C."
Credit: 3 semester hours
Lecture: 0 Lab: 16

**RSP 232 -
Clinical Practice IV**

IAI: None 1.2
Clinical Practice IV provides a continuation of supervised observation, practice, and evaluation of the skills learned in RSP 231. Increasing emphasis is placed on the assessment and management of critically ill patients. Additionally, there are other scheduled experiences in respiratory care. (Offered spring semester.)
Prerequisite: RSP 231 with minimum grade of "C."
Credit: 3 semester hours
Lecture: 0 Lab: 16

**RSP 250 -
Special Topics in Respiratory Care**

IAI: None 1.2
Special Topics in Respiratory Care is designed to satisfy specific needs or interests of Respiratory Care majors and/or the healthcare community. Exact course requirements and hours of credit are based on the nature of the topics under study. A maximum of four credit hours can be earned.
Prerequisite: Previous course work in Respiratory Care and/or instructor permission.
Credit: 1-4 semester hours
Lecture: 1-4 Lab: 0

Sociology**SOC****SOC 190 -
Introduction to Sociology**

IAI: S7 900 1.1
Introduction to Sociology includes a scientific study of the major concepts and principles of social behavior. Using core sociological theories, this course focuses on the patterns of social group interactions, institutions and structures and the relationship between these elements of society.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SOC 290 -
Social Problems**

IAI: S7 901 1.1
Social Problems is a course designed to introduce students to a variety of current social problems and develop the sociological perspective through analysis of these issues. More specifically, the course will focus on how sociologists define, study, and interpret social problems. Students will utilize theories, concepts, and current research to examine the causes, prevalence, and consequences of specific problems. In addition, this course will employ strategies to empower students to identify, understand, and act toward intervention and creative solutions to social problems.
Prerequisite: SOC 190 or consent of the instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SOC 291 -
Criminology**

IAI: CRJ 912 1.1
Criminology is a study of crime as a form of deviant behavior. It includes a survey of schools and theories of criminology with special emphasis on crime in relation to social structure and social institutions. Special attention is given to career criminals, "white collar crime," and the treatment of criminals in the justice system.
Prerequisite: SOC 190 or consent of the instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

**SOC 292 -
Sociology of Deviance**

IAI: None 1.1
Sociology of Deviance examines the sociological study of the origins, causes and control of deviance and deviant behavior which is seen as a labeling process. Emphasis is placed on individual and group deviance, resulting from societal norms and values. Primary areas to be covered include drug abuse, sexual deviance, marginal deviance, and career deviance.
Prerequisite: SOC 190 or consent of the instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SOC 293 -
The Aging Process**

IAI: None 1.1
The Aging Process is a basic introduction to the field of gerontology. The process of aging will be viewed from several theoretical perspectives. Special emphasis will be placed on the role of the aged in Western society.
Prerequisite: SOC 190 or consent of the instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SOC 294 -
Urban Sociology**

IAI: None 1.1
Urban Sociology examines the historical and contemporary development of cities and urban life. Using empirical and theoretical research, the course analyzes how people experience cities, how institutions and structures operate in cities, and urban social problems. Course topics are applied to urban environments locally, nationally, and globally.
Prerequisite: SOC 190 or consent of the instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SOC 295 -
Racial and Ethnic Relations**

IAI: S7 903D 1.1
Racial and Ethnic Relations examines the social construction of racial and ethnic group identities, institutions, and stratification systems from a national and global perspective. Using empirical and theoretical research, the course analyzes the impact of socio-historical processes on contemporary patterns of racial-ethnic prejudice and discrimination.
Prerequisite: SOC 190 or consent of the instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SOC 298 -
Sociology of Sex and Gender**

IAI: S7 904D 1.1
Sociology of Sex and Gender will focus on the multifaceted similarities and diversities between sex and gender within various environments and social situations. The course will focus on the social construction of gender and its impact on men and women in the workplace, family environment, personal, and intimate relationships.
Prerequisite: SOC 190 or equivalent.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SOC 299 -
Marriage and the Family**

IAI: S7 902 1.1
Marriage and the Family is a study of the institutions of marriage and the family. The course will be presented from an interdisciplinary perspective with major emphasis on the American family and marriage.
Prerequisite: SOC 190 or consent of the instructor.
Credit: 3 semester hours
Lecture: 3 Lab: 0

Spanish

- See Modern Languages

Speech**SPH 131 -
Fundamentals of Communication**

IAI: C2 900 1.1
Fundamentals of Communication is a beginning course in the theory and practice of speech communication. Attention is given to listening, interpersonal and group communication, and public speaking. Students will develop more confidence and skill in oral communication.
Prerequisite: ENG 101-Ready, grade of "C" or higher in ENG 099.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SPH 132 -
Public Speaking**

IAI: None 1.1
Public Speaking prepares students for effective public address through development of important rhetorical skills, including audience analysis, research, content development, attention devices, and delivery. Students will prepare oral presentations which apply advanced rhetorical theory.
Prerequisite: ENG 101-Ready, grade of "C" or higher in ENG 099.
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SPH 142 -
Gender Communication**

IAI: None 1.1
Gender Communication is an introductory examination of the communication differences between men and women. Students will become more aware of how:
(1) gender roles influence communication and
(2) how gender expectancies are constructed through communication.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SPH 201 -
Interpersonal Communication**

IAI: None 1.1
Interpersonal Communication examines the ways in which people relate with each other. Relationships in family, work and social contexts will be examined in order to improve communication skills for satisfying encounters.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SPH 202 -
Intercultural Communication**

IAI: None 1.1
Intercultural Communication is a study of communication among people who have different cultural backgrounds. The course will focus on the impact of verbal and nonverbal communications, belief systems, use of power, masculine and feminine roles, and language on intercultural communication. Students will develop communication skills to overcome intercultural barriers.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SPH 204 -
Nonverbal Communication**

IAI: None 1.1
This course is the study of how humans communicate through the use of body movements, touching, vocal variations, and the use of space, time and objects or artifacts. The course will discuss the effects of gender and culture on nonverbal communication.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

**SPH 211 -
Group Leadership**

IAI: None 1.1
Group Leadership is a study of leadership techniques and their interrelationship with group dynamics. Students will participate in varied group analyses and problem-solving discussions.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

SPH 230 - *See update in Catalog Addendum
Fundamentals of Oral Interpretation
of Literature**

IAI: TA 916 1.1
Fundamentals of Oral Interpretation of Literature is a basic introduction to the experience of literature through reading aloud and listening to varied genres of prose, poetry, and drama. Interrelationships between literature, reader, and listener are examined to improve oral recitation.
Prerequisite: None
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

SPH 299 -**Communication Education Internship**

IAI: None 1.1

Communication Education Internship provides exceptional communications students the opportunity to team-teach a speech course with a full-time faculty member. The student attends all class sessions, prepares lectures, manages class exercises, and offers oral and written reviews of oral performances. The goal of this internship is preparation for a career in communication education. Students may earn a maximum of four credits (i.e., over two semesters). This may be repeated one time.

Prerequisite: Instructor consent

Credit: 2 semester hours

Lecture: 0

Lab: 2

Statistics

- See Mathematics

Student Development**STU****STU 100 -****Planning for Success**

IAI: None 1.1

This course is required for all new students intending to pursue an Associate of Arts, Associate in Science, or Associate in Engineering Science degree.

Planning for Success is designed to introduce and connect the student to the RVC community and to assist the student in the active development of academic and personal goals. Students will work with instructors to learn strategies for their transition into college. Students are expected to engage in building the skills needed for college success. Course discussions will include academic preparation, self-awareness, and RVC community resources. Course restricted to students with 30 or fewer college level credits, or with consent of the Dean of Advising and Retention.

Prerequisite: None

Credit: 1 semester hour

Lecture: 1

Lab: 0

STU 101 -**Career Planning**

IAI: None 1.1

Career Planning is designed to help students improve their life/career planning. Participants will acquire skills for discovering who they are, what they want, and how they can reach their goals. At the conclusion of the program, participants should be able to take more control of their lives. Credit earned is elective credit and will apply to graduation and transfer.

Prerequisite: None

Credit: 2 semester hours

Lecture: 2

Lab: 0

STU 299 -**Service Learning**

IAI: None 1.1

This course teaches the student to apply academic theories about social change through voluntary participation in community service.

Prerequisite: Instructor consent

Credit: 1-3 semester hours

Lecture: 0

Lab: 1-3

Surgical Technology**SRG****SRG 101 -****Surgical Technology I - Central Service Principles and Practice**

IAI: None 1.2

Surgical Technology I - Central Service Principles and Practice is an introduction to the role and function of the central service department/technician. Emphasis is placed on principles and practice related to asepsis, sterilization, disinfection of commonly used equipment and supplies, processing and care of instruments, care and maintenance of equipment, distribution of supplies and inventory control. Clinical experience in central service is required in conjunction with eight hours weekly of on-campus laboratory instruction. Clinical site instruction off campus is six hours weekly for this 8-week course.

Prerequisite: Admission to the Surgical Technology program.

Prerequisite: BIO 185, HLT 110, BIO 274, ENG 101, and Basic Computer course or computer proficiency.

Credit: 4 semester hours

Lecture: 2

Lab: 4

SRG 102 -**Surgical Technology II - Principles and Practice**

IAI: None 1.2

Surgical Technology II - Principles and Practice introduces the student to the healthcare environment and the role of the surgical technologist. Basic patient care concepts and principles for developing competencies required to assist in surgery are examined. Emphasis is placed on basic surgical procedures, which includes the preoperative, intraoperative and postoperative phases commonly performed in the operating room setting. Selected clinical experiences provided concurrently for eight weeks, during this 16-week course.

Prerequisite: SRG 101

Credit: 6 semester hours

Lecture: 2

Lab: 8

SRG 103 -**Surgical Technology III - Principles and Practice Specialty**

IAI: None 1.2

Surgical Technology III - Principles and Practice Specialty will allow the advanced student in surgical technology to apply their knowledge of the diagnosis, operative pathology, objectives, role of the technologist, use of selected equipment, supplies, drugs, sequence and complications of various selected surgeries. Emphasis is placed on the surgical specialties of general and rectal; obstetric and gynecologic; genitourinary; ophthalmic; ear, nose, and throat; oral and maxillofacial; head and neck; plastic; and peripheral vascular. Selected clinical experiences are provided concurrently, during this 8-week course.

Prerequisite: SRG 102

Corequisite: SRG 104, SRG 106

Credit: 5 semester hours

Lecture: 2

Lab: 6

SRG 104 -**Surgical Technology IV - Principles and Practice Specialty**

IAI: None 1.2

Surgical Technology IV - Principles and Practice Specialty is a continuation of SRG 103. This course will allow the advanced student in surgical technology to apply their knowledge of the diagnosis, operative pathology, objectives, role of the technologist, use of selected equipment, supplies, drugs, sequence, and complications of various selected surgeries. Emphasis is placed on the surgical specialties of general pediatrics, orthopedic, neurosurgery, cardiothoracic, trauma, and procurement/transplant. Selected clinical experiences are provided concurrently, during this 8-week course.

Prerequisite: SRG 102

Corequisite: SRG 103, 106

Credit: 5 semester hours

Lecture: 2

Lab: 6

SRG 105 -**Surgical Technology V - Internship**

IAI: None 1.2

Surgical Technology V - Internship provides 24 to 40 hours a week for 300 hours of experience working in the surgical technologist's role in selected clinical facilities during Summer Sessions I, II, & III.

Prerequisite: SRG 103, 104, 106

Credit: 4 semester hours

Lecture: 0

Lab: 20

COURSE DESCRIPTIONS

SRG 106 -**Surgical Technology Seminar**

IAI: None

1.2

Surgical Technology Seminar reviews the history of surgical technology as it influences current practice. Emphasis is on the changing role and responsibilities of the surgical technologist and regarding relationships and opportunities within the occupation. Current surgical technology issues are discussed with topics including surgical technology education, ethics, economic issues, and changing aspects of the healthcare-environment and new health care laws, during this 16-week course.

Prerequisite: SRG 102

Corequisite: SRG 103, 104

Credit: 2 semester hours

Lecture: 2

Lab: 0

Theatre**THE****THE 110 -****Theatre Practicum I**

IAI: None

1.1

Theatre Practicum I is designed to give the student practical experience in costuming, stage management, lighting, scene construction, prop construction, and box office management that is not available in a standard classroom setting. Students will increase their efficiency, enjoyment and understanding of the various methods of producing theatrical productions using actual production requirements as a learning tool.

Prerequisite: None

Credit: 1 semester hour

Lecture: 1

Lab: 1

THE 111 -**Theatre Practicum II**

IAI: None

1.1

Theatre Practicum II is designed to continue to give the student practical experience in costuming, stage management, lighting, scene construction, prop construction, and box office management that is not available in a standard classroom setting. Students will increase their efficiency, enjoyment and understanding of the various methods of producing theatrical productions using actual production requirements as a learning tool.

Prerequisite: THE 110

Credit: 1 semester hour

Lecture: 1

Lab: 1

THE 121 -**Performance of Literature**

IAI: TA 916

1.1

Performance of Literature is designed to increase the student's understanding of the study and performance of literature, such as essays, letters, novels, poetry and short stories with an emphasis on using voice and movement to interpret the works and communicate that interpretation to an audience. Students will study literary theory, literary analysis, the relationship between the text and the performer and the development of movement and vocal skills. The emphasis is on developing the student's interpretation skills through the performance of selected literature.

Prerequisite: None

Credit: 3 semester hours

Lecture: 1

Lab: 4

THE 133 -**Introduction to Theatre**

IAI: F1 907

1.1

Introduction to Theatre is designed to acquaint students with the theoretical principles of acting, directing, scene design, set construction, costuming, make-up, lighting for the stage, and sound. A survey of theater history and dramatic literature provides a basis for informed critical viewing and for future studies in theater.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

THE 134 -**Stagecraft and Theatre Lighting**

IAI: None

1.1

Stagecraft and Theatre Lighting is an introductory course in the principles, procedures, and practices of technical theatrical production using practical experiences in conjunction with departmental presentations. Basic methods of safe scenery construction, scene painting, lighting equipment, and property building are explored. The class emphasis is on safety in a scenic shop.

Prerequisite: None

Credit: 3 semester hours

Lecture: 2

Lab: 2

THE 135 -**Acting I**

IAI: TA 914

1.1

Acting I is an introduction to the basic elements of acting as an art form. The course centers on exercises to develop the expressiveness of the body and voice combined with a study of the mental and emotional processes of the actor. The class emphasis is on basic performance skill development.

Prerequisite: None

Credit: 3 semester hours

Lecture: 1

Lab: 4

THE 136 -**Directing**

IAI: None

1.1

Directing is an introductory course in the art of directing for the theatre using a problem-solving approach in surveying the director's responsibilities. Particular attention is focused on the organizational, managerial, and planning functions of the director. The class emphasis is on practical directing problem-solving.

Prerequisite: None

Credit: 3 semester hours

Lecture: 1

Lab: 4

THE 137 -**Costuming**

IAI: None

1.1

Costuming is an introductory course in the design and construction of theatrical costumes. The course is designed to give students a basic understanding of historical costuming, basic safety procedures, techniques of costume and accessory construction, machine and tool use. The course also includes an introduction to sewing – both hand and machine, cutting, draping and pattern drafting and costume shop organization. Practical experience is gained through the construction of costumes for productions.

Prerequisite: None

Credit: 3 semester hours

Lecture: 1

Lab: 4

THE 210 -**Theatre Practicum III**

IAI: None

1.1

Theatre Practicum III is designed to continue to give the student practical experience in costuming, stage management, lighting, scene construction, prop construction, and box office management that is not available in a standard classroom setting. Students will increase their efficiency, enjoyment and understanding of the various methods of producing theatrical productions using actual production requirements as a learning tool.

Prerequisite: THE 111

Credit: 1 semester hour

Lecture: 1

Lab: 1

THE 211 -**Theatre Practicum IV**

IAI: None

1.1

Theatre Practicum IV is designed to continue to give the student practical experience in costuming, stage management, lighting, scene construction, prop construction, and box office management that is not available in a standard classroom setting. Students will increase their efficiency, enjoyment and understanding of the various methods of producing theatrical productions using actual production requirements as a learning tool. Upon completion of the four Practicum credits, the student will have a portfolio review in preparation for transfer to a baccalaureate program.

Prerequisite: THE 210

Credit: 1 semester hour

Lecture: 1

Lab: 1

COURSE DESCRIPTIONS

**THE 220 -
Summer Theatre Workshop**

IAI: None 1.1
Summer Theatre Workshop is an introduction to the unique challenges of outdoor theatre. Students will receive an overview of the production process through a series of lectures and will then select one or more major areas of emphasis. Students will be exposed to production theory through class presentations and readings. Practical experience will be gained through production assignments.
Prerequisite: None
Credit: 3 semester hours
Lecture: 1 Lab: 4

**THE 234 -
Design for the Theatre**

IAI: TA 911 1.1
Design for the Theatre is an introductory design class concentrating on scenic, lighting and property design. The students will take projects from initial design conceptualization through working drawings. Basic drafting—both manual and CAD, mechanical perspective rendering, model construction and lighting theory will be explored in relationship to various dramatic scripts. The class is designed to give the student an introduction to all aspects of theatrical design.
Prerequisite: None
Credit: 3 semester hours
Lecture: 1 Lab: 4

**THE 235 -
Acting II**

IAI: None 1.1
Acting II builds upon the skills developed in the basic acting course. It focuses on the development of characterization skills, communication with other actors on stage, and the ability to handle various styles of dramatic literature. The class emphasizes scene work, character-building and character definition with performance outcomes.
Prerequisite: THE 135
Credit: 3 semester hours
Lecture: 1 Lab: 4

**THE 236 -
Directing II**

IAI: None 1.1
Directing II builds on the skills developed in the basic directing course. It focuses on the development of stage movement through picturization, script analysis, period research, conceptual communication and the actual production of a one-act play. The class emphasis is on directorial communication and conceptualization with a performance as the final outcome.
Prerequisite: THE 136
Credit: 3 semester hours
Lecture: 1 Lab: 4

**THE 237 -
Stage Makeup**

IAI: None 1.1
Stage Makeup is an introductory course in the basics of designing, applying, and creating theatrical makeup. It will introduce the student to the principles of light, shade and color as they relate to makeup. Students will study character makeup, fantasy makeup, various modern mediums, prosthetics, mask making, facial hair and practical applications. The course emphasis is on both design and application.
Prerequisite: None
Credit: 3 semester hours
Lecture: 1 Lab: 4

**Web Programming
& Design****WEB****WEB 101 -
Programming Related
to the Internet**

IAI: None 1.2
Programming Related to the Internet is designed for students and professionals interested in learning how to design and develop Web pages and Websites. The course covers Web design, copyright, and marketing topics, as well as HTML programming and HTML code generators. Additionally students will learn about Web graphics and scripting languages used to create exciting Web pages.
Prerequisite: CIS 102 or equivalent computer experience.
Credit: 4 semester hours
Lecture: 3 Lab: 2

**WEB 102 -
Advanced Programming
Related to the Internet**

IAI: None 1.2
This course is designed for students and professionals interested in extending their knowledge of Web programming tools. The emphasis of this course is to introduce Web application development. This course includes cascading style sheets, HTML, and the latest web technologies. This course also introduces both client and server-side scripting.
Prerequisite: WEB 101 or equivalent Web development skills.
Credit: 4 semester hours
Lecture: 3 Lab: 2

**WEB 111 -
Introduction to Multimedia**

IAI: None 1.2
Introduction to Multimedia is a course that will acquaint the student with multimedia design principles as well as multimedia creation and manipulation. This class introduces multimedia hardware and software used most often by web developers creating web pages which include multimedia elements.
Prerequisite: WEB 101
Credit: 3 semester hours
Lecture: 3 Lab: 0

**WEB 112 -
Advanced Multimedia**

IAI: None 1.2
Advanced Multimedia Authoring is a continuation of WEB 111 - Introduction to Multimedia. WEB 112 - Advanced Multimedia will enhance the skills of the experienced multimedia user. Advanced scripting techniques will be covered to provide more user interaction. The Internet will be used to access resources. A multimedia project utilizing advanced scripting will be required.
Prerequisite: WEB 101, WEB 111
Credit: 3 semester hours
Lecture: 3 Lab: 0

**WEB 225 -
Digital Photography**

IAI: None 1.2
Digital Photography introduces basic digital imaging applications. Emphasis is placed on color theory, calibration, scanning, enhancement, importing and exporting graphic images. Methods of conversion to digital format will be explored. Appropriate computer software related to the subject will be utilized.
Prerequisite: None
Credit: 3 semester hours
Lecture: 2 Lab: 2

**WEB 230 -
Web Rapid Application Development**

IAI: None 1.2
Web Rapid Application Development uses a currently popular RAD tool such as Macromedia's ColdFusion scripting language to teach the development of dynamic database driven web applications. Students will be instructed in the development of a structured process for building web applications for doing business on the web. The students will be required to build a mock e-commerce website from the ground up. They must develop the process flow of their mock business, construct the product database, and develop pages for displaying the product information including building a shopping cart for the "purchase" of items.
Prerequisite: WEB 101, WEB 102, and completion or current enrollment in CIS 254 or CIS 130.
Credit: 4 semester hours
Lecture: 3 Lab: 2

**WEB 231 -
Web Design and Production**

IAI: None 1.2
Web Design and Production is designed to educate students in the construction of websites that incorporate print design styles and principles for developing a targeted Internet marketing solution. Students will be taken through a complete web development project, from initial concept to completed site. They will be expected to complete a project of their own choosing, real or imaginary, that encompasses all aspects of the production cycle of a web project; initial concept, quoting, project planning, process flow, page design, marketing considerations, usability, and quality control.
Prerequisite: Successful completion of WEB 101 and WEB 102.
Credit: 3 semester hours
Lecture: 3 Lab: 0

COURSE DESCRIPTIONS

WEB 233 -**Web Programming Using Client-Side Scripting**

IAI: None

1.2

Web Programming Using Client-Side Scripting is designed to educate students in the construction of dynamic websites. Students will be expected to build a website that includes complex programming logic and control structures as well as a variety of visual effects.

Prerequisite: Must have completed WEB 101 and WEB 102 or have equivalent web development experience, as well as CIS 180, or equivalent introductory programming experience.

Credit: 4 semester hours

Lecture: 3

Lab: 2

WEB 234 -**PHP Programming**

IAI: None

1.2

PHP Programming will cover the basics of PHP and MySQL database design, advanced database connectivity techniques, and focus on building personal, business, and e-commerce applications. Students will learn basic and advanced object-oriented programming techniques, using libraries and frameworks, and integrating PHP and AJAX applications. These are the techniques necessary to prepare students to build server-side enterprise web applications.

Prerequisite: WEB 101

Credit: 4 semester hours

Lecture: 3

Lab: 2

WEB 235 -**Web Programming Using Server-Side Scripting**

IAI: None

1.2

Web Programming Using Server-Side Scripting is designed to educate students in the construction of web pages which require processing on the server. Students will be expected to build a website that includes complex programming logic and control structures as well as a variety of data structures.

Prerequisite: Must have completed WEB 101 and WEB 102, or have equivalent web development experience, as well as CIS 180, or equivalent introductory programming experience.

Credit: 4 semester hours

Lecture: 3

Lab: 2

WEB 290 -**Special Topics in Web Information Technology**

IAI: None

1.2

Special Topics in Web Information Technology will cover leading edge topics in the web information technology arena. These special topics might include new server technologies or new web development technologies.

This course may often be taught by experts from the business world who work with the technology which the course covers. Exact course requirements are based on the nature of the topics under study. The course may be repeated three times.

Prerequisite: Will vary depending on course topic.

Credit: 1-6 semester hours

Lecture: 1-6

Lab: 0

WEB 291 -**Internship/Field Experience**

IAI: None

1.2

Internship/Field Experience requires students to work part-time in the field of web Development in a local cooperating business firm or non-for-profit organization. This experience will be supervised by a faculty advisor or division director is required.

Prerequisite: WEB 101 and WEB 102 required. Completion of WEB 230, WEB 233, and WEB 235 recommended.

Credit: 1-6 semester hours

Lecture: 0

Lab: 5-30

Welding**WLD****WLD 100 -****Introduction to Welding**

IAI: None

1.2

Introduction to Welding is designed for beginning welders. It covers the basic theory and provides hands-on lab practice of Shielded Metal Arc Welding (Stick), Gas Metal Arc Welding (MIG), Gas Tungsten Arc Welding (Tig), Oxyfuel (Gas) welding and cutting processes. Special emphasis is placed on welding shop and process safety. This course prepares the student to enter the welding skills courses.

Prerequisite: None

Credit: 3 semester hours

Lecture: 2

Lab: 2

WLD 150 -**Blueprint Reading for Welders**

IAI: None

1.2

Blueprint Reading for Welders course is designed for welders or those in the welding field, such as welding inspection, metal fabrication, set-up, assemblers and testing.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

WLD 152 -**Arithmetic for Welders**

IAI: None

1.2

Arithmetic for Welders teaches basic mathematic skills and provides practical exercises useful in the welding field. The topics are presented in a step-by-step approach with examples that broaden understanding of whole numbers, common fractions, decimal fractions, measurement, volume, weight, and bending metal, and percentage and the metric system.

Prerequisite: None

Credit: 3 semester hours

Lecture: 3

Lab: 0

WLD 153 -**Arc Welding: Flat**

IAI: None

1.2

Arc Welding: Flat covers electric welding on plate in the flat position. Safety rules and equipment usage are emphasized. An introduction to oxygen acetylene cutting is covered.

Prerequisite: WLD 100 or consent of instructor.

Credit: 3 semester hours

Lecture: 1 Lab: 4

WLD 154 -**Arc Welding: Vertical**

IAI: None

1.2

Arc Welding: Vertical covers electric welding on plate in the vertical position. Safety rules and equipment usage are emphasized. An introduction to oxygen acetylene cutting is covered.

Prerequisite: WLD 153, or consent of instructor.

Credit: 3 semester hours

Lecture: 1

Lab: 4

WLD 155 -**Arc Welding: Horizontal**

IAI: None

1.2

Arc Welding: Horizontal covers electric welding on plate in the horizontal position. Safety rules and equipment usage will be emphasized. Oxygen acetylene burning will also be covered.

Prerequisite: WLD 153, or consent of instructor.

Credit: 3 semester hours

Lecture: 1

Lab: 4

WLD 156 -**Arc Welding: Overhead**

IAI: None

1.2

Arc Welding: Overhead covers electric welding on plate in the overhead position. Safety rules and equipment usage will be emphasized. Oxygen acetylene cutting will also be covered.

Prerequisite: WLD 153, or consent of instructor

Credit: 3 semester hours

Lecture: 1

Lab: 4

WLD 157 -**M.I.G. Welding**

IAI: None

1.2

M.I.G. Welding covers M.I.G. (wire) welding in all positions on plate. Safety rules and equipment will be emphasized.

Prerequisite: WLD 100 or consent of instructor.

Credit: 3 semester hours

Lecture: 1

Lab: 4

WLD 158 -**T.I.G. Welding**

IAI: None

1.2

T.I.G. Welding covers T.I.G. welding in all positions on plate. Safety rules and equipment will be emphasized.

Prerequisite: WLD 100 or consent of instructor.

Credit: 3 semester hours

Lecture: 1

Lab: 4

WLD 159 -**Arc Welding: Bellhole/Pipe**

IAI: None

1.2

Arc Welding: Bellhole/Pipe covers pipe welding in the Bellhole (5G) position. Safety rules and equipment are emphasized. Pipe cutting with oxygen and acetylene will be included.

Prerequisite: WLD 156 or consent of instructor.

Credit: 3 semester hours

Lecture: 1

Lab: 4

COURSE DESCRIPTIONS

WLD 161 -**Arc Welding: Arkansas/Pipe**

IAI: None

1.2

Arc Welding: Arkansas/Pipe covers pipe welding in the Arkansas Bellhole (6G) position. Safety rules and equipment are emphasized. Pipe cutting with oxygen and acetylene will be included.

Prerequisite: WLD 156 or consent of instructor.

Credit: 3 semester hours

Lecture: 1

Lab: 4

WLD 175 -**Certification Qualification Preparation**

IAI: None

1.2

Certification Qualification Preparation is designed to prepare an experienced welder for the certification test in A.W.S. D1.1 on plate, or pipe on mild steel only. A.W.S. standards will be followed. The requirements for maintenance of certification will be discussed.

Prerequisite: Consent of the welding coordinator.

Credit: 3 semester hours

Lecture: 1

Lab: 4

WLD 180 -**Independent Study in Welding**

IAI: None

1.2

Independent Study in Welding allows students to develop specific course goals and objectives based on their needs and previous welding experience. Students will work with the welding instructor to determine course goals.

This course may be repeated three times.

Prerequisite: Industrial experience or completion of welding courses in the processes area of study, or consent of instructor.

Credit: 1-5 semester hours

Lecture: 1-2

Lab: 1-6

WLD 181 -**Special Topics Welding**

IAI: None

1.2

Special Topics Welding is designed to satisfy topics or special interest in a particular area of welding. Topics will vary from semester to semester. This course may be repeated three times.

Prerequisite: Consent of the instructor is required.

Credit: 1-3 semester hours

Lecture: 1-3

Lab: 1-4

WLD 182 -**Internship In Welding Technology**

IAI: None

1.2

Internship in Welding Technology enables students to work part-time as interns in a local manufacturing facility or governmental agency involved in welding/fabrication. Work will be done under the supervision of a college administrator/faculty member. It is the student's responsibility to secure a part-time or full-time job. Prior approval must be obtained from the welding administrator or faculty member. The number of work hours is variable. *Prerequisite:* At least 12 credits in Welding Technology Certification program, previously or concurrently. Students may repeat this course up to a maximum of six credit hours.

Credit: 1-6 semester hours

Lecture: 0

Lab: 5-30

ROCK VALLEY COLLEGE

History (continued from page 42)

In early 2014, Dr. Becherer retired following a decade of service. In April 2014, Mike Mastroianni was named the sixth president of Rock Valley College. A lifelong resident of the Rockford area and an RVC alumnus, President Mastroianni's professional background included leadership positions in human resources, ownership of a human resources management firm, and teaching before joining Rock Valley College as instructor and administrator of the Management Institute (now known as the Business and Professional Institute). He advanced within RVC as Dean, Associate Vice President, and finally as Vice President of Career and Technical Education and Outreach. Mastroianni leads the college with extensive community connections and an understanding of RVC itself.

STATS | Since opening for classes September 29, 1965, RVC has grown from a small community college with 35 faculty members and 1,100 students to an institution in 2015 of approximately 160 full-time faculty members, 250 part-time adjunct faculty (teaching credit classes) and nearly 8,000 students.

Today, RVC's district is comprised of Winnebago and Boone counties, and parts of Stephenson, Ogle, McHenry, and DeKalb counties.

CURRENT FACILITIES | In addition to the Main Campus, the College offers degrees and related programs at owned facilities in Rockford, Illinois, in Winnebago County:

- **Stenstrom Center for Career Education (SCCE)**, 4151 Samuelson Road, home to several health and technical programs, as well as general education classes (next to Rockford Jefferson High School).
- **Aviation Center**, currently located at 6349 Falcon Road at the Chicago-Rockford International Airport, the aviation maintenance program will move into a new facility in late 2015: 6045 Cessna Drive.
- **Bell School Road Center**, 3350 N. Bell School Road, home of the College's Center for Learning in Retirement (CLR) program.
- **Learning and Opportunity Center (LOC)**, 303 N. Main Street in the Supply Core Building.
- **Illinois Employment Training Center**, 303 N. Main Street in the Supply Core Building, employment and training programs. The College is involved in workplace training programs, innovative cooperative programs with area high schools and state-of-the-market technology programs for business and industry.

Rock Valley College also holds Community and Continuing Education (CCE) classes at more than 30 sites throughout its district.

Rock Valley College continues to grow and strengthen lifelong learning opportunities and to develop innovative partnerships that offer social, economic, and cultural enrichment to the community.

For more information about Rock Valley College, visit the College's website at: RockValleyCollege.edu.

COMMUNITY OUTREACH

ROCK
VALLEY
COLLEGE

COMMUNITY OUTREACH

Community Outreach

Community Outreach at Rock Valley College offers district residents a variety of informal programs that are cultural and recreational, as well as educational. These programs are an outreach arm of the College and are intended for persons of all ages. Programs include:

- Business Outreach
- Center for Learning in Retirement (CLR)
- Community Education, Continuing Education
- Employment and Grant Programs
- Procurement Technical Assistance Center (PTAC)
- Small Business Development Center (SBDC)
- Starlight and Studio Theatres
- Traffic Safety

Business Outreach

Business & Professional Institute (BPI) (815) 921-2066

Through the Business & Professional Institute, Rock Valley College offers training, consulting, and specialized resources that are designed to meet the needs of business and industry. Many of the workshops and conferences are held in the Woodward Technology Center (WTC), on the Main Campus, a state-of-the-art facility designed to provide clients with comfort and the latest technology. The BPI also offers on-site training sessions, customized training and programs in the following areas:

- Leadership and Supervisor Training
- Computer Training
- Customer Service and Sales Training
- Quality and Safety Training
- Fanuc Robotics Training
- Blueprint Reading
- Geometric Dimensioning and Tolerancing (GD&T) Training
- Truck Driver Training

For more information visit: RockValleyCollege.edu/BPI.

TechWorks (815) 921-2192

TechWorks provides a 170-hour Fast-Track skills training that leads to: two (2) NIMS credentials. TechWorks has credentialed more than 400 students. Our training partners include Rock Valley College, Sandvik Coromant, NIMS, Mori Seiki, Doosan, and YCM and we work to give each individual the skills for advanced manufacturing. For additional information, please call (815) 921-2192 (located at Stenstrom Center, 4151 Samuelson Road).

Office of Employment & Grants (815) 921-2200

Rock Valley College Office of Employment and Grants is located at The Workforce Connection (303 N. Main Street, in the Supply Core Building).

This office offers a variety of grant program services to Rockford and the surrounding area for:

- Dislocated Workers Program (RockValleyCollege.edu/DWP)
- Refugee and Immigrant Services (RockValleyCollege.edu/Community/Refugee.cfm)

Services vary from program to program, but generally assist eligible participants with:

- Career Testing and Counseling
- Job Readiness Skills
- Job Search Assistance

Several programs offer on-the-job training opportunities and financial assistance for vocational training.

For more information visit: RockValleyCollege.edu/Community.

PTAC & SBDC at 605 Fulton Ave.*

PTAC & SBDC are still part of Rock Valley College through December 31, 2015.

**As of this College Catalog printing, February 15, 2015.*

Procurement Technical Assistance Center (PTAC) (815) 921-2091

The Illinois Procurement Technical Assistance Center at Rock Valley College, located at 605 Fulton Avenue in Rockford, is part of a nationwide program to provide businesses with the marketing know-how and technical tools they need to obtain and perform successfully on federal, state and local government contracts and subcontracts. The mission includes creating and retaining jobs, fostering competition and lower costs for the government, helping to sustain our industrial base and armed forces readiness. The government marketplace poses unique challenges that can overwhelm a small business that does not have the proper resources.

The PTAC offers assistance to our local businesses with one-on-one counseling services and specialized training.

For details go to: RockValleyCollege.edu/PTAC.

Small Business Development Center (SBDC) (815) 921-2081

The Illinois Small Business Development Center (SBDC) of Rock Valley College (RVC) is Winnebago, Ogle, Stephenson, and Boone counties' central resource for business development and creation, also located at 605 Fulton Avenue in Rockford.

The SBDC leverages a large network of resources to ensure the success of existing and start-up businesses that create jobs and grow our region's economy.

No matter the size of your business, the SBDC network can provide guidance in the following areas:

- Legal Structure
- Sales/Marketing
- Operations
- Accounting/Finance
- Commercialization
- Market Research
- Human Resources
- Patents
- Licensing
- Business Planning

For details go to: RockValleyCollege.edu/SBDC.

COMMUNITY OUTREACH

ROCK VALLEY COLLEGE

Join us in the Rock Valley College year-long 50th Anniversary celebration - check out "50th Fridays" on the RVC blog: RVCInsider.com and use **#RVC50** to share your memories and photos with us on social media all year long.

Community Education Outreach

Center for Learning in Retirement (CLR), Community and Continuing Education (CCE), and the Traffic Safety Program are managed within Community Education Outreach.

Center for Learning in Retirement (CLR) (815) 921-3931

The Center for Learning in Retirement is a membership organization, open to retired and semi-retired adults (over the age of 50), who enjoy intellectual stimulation and the opportunity to meet new friends. There are short-term courses, often led by members, covering a wide range of topics, including art, computers, history, sciences, special interests, and more. There are no tests, no grades, and no homework!

Most classes are held at the Bell School Road Center, on the corner of Bell School and Spring Brook Roads. Some classes are held on the Main Campus of Rock Valley College, like the Golden Eagles Fitness Program and other various sites off campus. Looking for fun and adventure? There are day trips each month to museums, arboretums, art exhibits, and the theater, scheduled social events, and extended trips.

For more information concerning this exciting lifelong learning opportunity, call (815) 921-3931 or visit: RockValleyCollege.edu/CLR.

Traffic Safety (815) 921-3940

The Rock Valley College Traffic Safety Program provides driver improvement training for a variety of individual, employer-supported, and court-supervised participants.

Supervision Program: The College joins regional courts, local governments, and law enforcement agencies to provide an educational option for minor traffic violations. Motorists, who choose class instead of court can keep the violation off their public driving record, avoid higher insurance premiums, and learn effective defensive driving techniques. Classes are offered throughout the seven-county service region.

Employers: Workplace leaders committed to employee and work place safety choose tailored courses. Participation in driver improvement programs can result in increased productivity, fewer accidents and lower insurance premiums. Classes are designed to coordinate with workplace schedules and locations.

Personal Interest: Individuals attend the program for personal interest and self-development.

For more information visit: RockValleyCollege.edu/TrafficSafety.

Community & Continuing Education (CCE) (815) 921-3900

CCE strives to offer a large and varied selection of educational opportunities. Whether you are seeking personal enrichment or development, we have programs that will fit your busy lifestyle.

Courses are offered at the RVC Main Campus (3301 N. Mulford Road), Bell School Road Center (3350 N. Bell School Road), online, and many other convenient locations.

For more information, please visit: RockValleyCollege.edu/CCE.

COMMUNITY EDUCATION

Encouraging life-long learning at any age!

Community Education offers courses that help you learn a new hobby or skill, enjoy leisure and recreational activities and benefit from personal enrichment experiences. Designed as non-credit courses, there are no entrance exams and no diploma requirements. We offer classes and workshops for all ages.

CONTINUING EDUCATION

Enhance your skills, your career, your life!

Continuing Education offers courses and programs to help you upgrade your skills with non-degree credit, state and national certification and licensing courses in business, healthcare, professional development and technology areas. Designed as short-term, non-degree alternatives, these programs do not require an entrance exam for admission. **Note:** Financial Aid does not apply to Continuing Education courses.

WHIZ KIDS

Challenging minds since 1980!

Rock Valley College Whiz Kids provides youth with a variety of academic enrichment opportunities. Through creative teaching strategies, materials, and curricula, Rock Valley College Whiz Kids offers unique, hands-on activities with inventive modes of participation. Students have fun using their imaginations, perfecting their talents, and gaining confidence in academic areas. Parents like this program because it provides a positive and stimulating environment for their children. We like it because we enjoy the kids and love to see learning in action!

COMMUNITY OUTREACH

Theatre & Arts Park (815) 921-2160

For more information: RockValleyCollege.edu/Community/Theatre

Starlight Theatre

Since 1967, when *Finian's Rainbow* was staged on the College lawn, Rock Valley College has brought affordable, outdoor summer musical theatre to residents of the district. Today, performances are in the college's state-of-the-art Bengt Sjostrom Theatre, which the Chicago Tribune's architecture critic calls "an engineering wonder." The building, designed by leading female architect and MacArthur fellowship recipient Jeanne Gang, features a one-of-a-kind articulated, opening, 70-foot star-shaped roof.

Starlight Theatre is one of the nation's largest professionally-produced community theatres. The oldest continuously operating theatre in Rockford, Starlight Theatre offers amateur actors, singers, and dancers an opportunity to work under the direction of professional artistic and technical directors. It attracts hundreds of volunteer performers, crew members and audiences of nearly 40,000 each season. Starlight produces big, 1930s-scale musicals with casts sometimes reaching into the hundreds! More than 140 shows have taken the Starlight stage, including: Sir Andrew Lloyd Weber's *The Phantom of the Opera* and *Joseph and the Amazing Technicolor Dreamcoat*, a new production of Boubil and Schönberg's *Les Misérables*, Disney's *Geppetto & Son* and *Beauty & the Beast*, *Jesus Christ Superstar*, and many more!

Starlight also boasts a distinguished roster of alums including some of the nation's most gifted performers and technicians: Rockford's New American Theatre founder J. R. Sullivan; Broadway star and voice of Walt Disney's *The Little Mermaid*, Jodi Mazorrati Benson; Broadway and London's West End Star, Marin Mazzie; Art Director of Hollywood's *How The Grinch Stole Christmas*, Dan Webster; Chairman of NBC Entertainment, Bob Greenblatt; and Broadway Director and Star, Joe Mantello; among many others.

Studio Theatre

Located in the original barn from the Spring Brook Farm, during the fall and spring semesters, Rock Valley College sponsors a Studio Theatre program, which gives students and area actors the opportunity to perform both musicals and straight plays with guest professionals. Performances are held in the College's Studio Theatre. The indoor program is committed to producing the entire Shakespearean Canon of plays and also has an original works program, which finds talented playwrights and commissions new plays. Previous World Premieres include *Lent, the Musical*, *Pearl's Jam*, *Crossing Bridges*, *The Lake*, *Kite's Book: Tales of an 18th Century Hitman* and a regional favorite, *Christmas with the Conroys*. March is Murder Mystery Month in the Studio, as the theatre has committed to staging all of the great plays by Dame Agatha Christie. The Studio has also committed itself to completing all of Steven Sondheim's musical works.

A STARLIGHT IS BORN

In the fall of 1967, a group of Rock Valley College students wanted to bring their community to the corner of Spring Brook and Mulford Roads. They hoped to encourage the public to appreciate the beauty of their college's farm setting. With the permission of Reuben Johnson, acting Dean of Community Services, the students decided that the best way to accomplish this goal was to perform a musical nestled beside the beautiful farm pond.

They chose the production *Finian's Rainbow*, which explores the overcoming of racial barriers through hard work and a little bit of magic. The show opened on the lawn beside the farm pond on the RVC campus on Thursday, August 3, 1967 at 8:30 pm. Opening night was a greater success than anyone had ever imagined. People from the community came out with their lawn chairs and watched the amazing production. It had two more performances on August 4 & 5 and tickets were \$1.50 or \$.75 for children under 12. It was billed as Rockford's "first all-community musical."

Times have changed a bit since 1967. The performance space is no longer a makeshift stage, but a genuine theatre has since been built, remodeled, and remodeled again, most recently in 2002-2003, when the roof was added to complete the Bengt Sjostrom Starlight Theatre. Now, audiences no longer bring their own chairs and blankets, but sit in its comfortable 1,140-seat bowl. But it's not just the venue that's grown. Over the past 48 summers, Starlight has become an integral part of the college's Community Outreach initiatives, not to mention a cornerstone of Rockford's summer community. Volunteer casts and crews totaling 23,287 people have been drawn to RVC, where they have each given of themselves for our community's enrichment, and in the process have shared their joy of performing with more than 1,189,000 attendees!

The Theatre Department is always looking for more talented community members to join in the fun. Call the Box Office to find out how you can get involved!

 - M.Ed., Colorado State University

Bravo, Anita I.

Associate Professor,
History
 - B.A., State University of
 New York, Binghamton
 - M.A., University of Illinois at Urbana-Champaign
 - Ph.D., University of Illinois at Urbana-Champaign

Brinkley, Jason F.

Instructor,
Physical Sciences
 - A.S., Elgin Community College
 - B.S., Northern Illinois University
 - Ph.D., Northern Illinois University

Calvagna, Frank

Professor,
Chemistry
 - A.S., Rock Valley College
 - B.S., Northern Illinois University
 - Ph.D., Northern Illinois University

Carlson, Mary C.

Professor,
Nursing
 - B.S., Northern Illinois University
 - M.S., Northern Illinois University

Chamberlain, Jeremy E.

Associate Professor,
Mathematics
 - B.S., Montana State University
 - M.S., Northern Illinois University
 - Ph.D., Northern Illinois University

Check, Catherine

Professor,
Physics and Chemistry
 - B.S., University of Texas at San Antonio
 - M.S., University of Texas at San Antonio
 - M.S., Northern Illinois University
 - Ph.D., Northern Illinois University

Clark, Robert S.

Associate Professor,
Mathematics
 - A.A., Cuyahoga Community College
 - B.A., Cleveland State University
 - M.S., Cleveland State University

Clark, Thomas R.

Associate Professor and Academic Chair,
Manufacturing and Engineering Technology
 - B.S., Bradley University
 - M.S., Northern Illinois University

Cline, Mary K.

Instructor,
Business
 - B.A., Hofstra University
 - M.S., J.A., University of Phoenix
 - M.A.C., Florida Atlantic University
 - C.F.E., Association of Certified Fraud Examiners
 - P.I., State of Illinois

Coffman, D. Franklin

Professor,
Composition and Literature
 - B.A., Millikin University
 - M.A., University of Illinois at Urbana-Champaign
 - M.S., University of Illinois at Urbana-Champaign

Commisso, Melissa A.

Associate Professor,
Psychology
 - A.S., Sauk Valley Community College
 - B.A., Northern Illinois University
 - M.A., Northern Illinois University
 - Ph.D., Northern Illinois University

Conley, James M.

Professor and Academic Chair,
Computers and Information Systems
 - B.S., Northern Illinois University
 - M.S., Northern Illinois University

Constant, Laura

Assistant Professor,
Life Sciences
 - B.S., Northern Illinois University
 - M.S., University of Illinois at Chicago

Cooper, Sharon

Professor,
Business
 - B.S., University of Iowa
 - M.B.A., Rockford University

Countryman, Kevin

Coordinator,
Fire Science
 - A.A.S., John Wood College
 - Office State Fire Marshall (OSFM)
 Certified Fire Officer I & II, CFO

Courtney, Karen

Professor,
Composition and Literature
 - B.A., Northwestern University
 - M.S., Northwestern University
 - M.A., Catholic University of America
 - Ph.D., Northern Illinois University

Crane, Jerome E.

Associate Professor,
Sociology
 - B.S., Northern Arizona University
 - M.A., Northern Arizona University
 - M.Ed., Northern Arizona University

D'Alonzo, Robert

Professor,
Humanities
 - BSFS, Georgetown University
 - M.A., University of California - Riverside
 - Ph.D., University of California - Riverside

Danzl-Tauer, Lynnette M.

Professor and Academic Chair,
Life Sciences
 - B.A., College of St. Benedict
 - M.S., Purdue University
 - Ph.D., Purdue University

Dinwiddie, Crystal M.

Assistant Professor,
Sociology
 - A.A., Rock Valley College
 - B.A., University of Illinois at Urbana-Champaign
 - M.A., University of Chicago

Donahue, Stephen

Professor,
Composition and Literature
 - B.A., University of Southern Maine
 - M.A., McNeese State University
 - M.F.A., McNeese State University
 - D.A., Idaho State University

Easton, Amy

Associate Professor,
Nursing
 - RN Diploma, Rockford Memorial School
 of Nursing
 - B.S., St. Francis University
 - M.S., St. Anthony College of Nursing

ADMINISTRATION & ACADEMIC AFFAIRS

Eckert, Brent

Associate Professor,
Technical Services Librarian
- B.A., Kalamazoo College
- M.I.L.S., University of Michigan

Eckstaine, Kaye

Assistant Professor,
Clinical Skills, Nursing
- RN Diploma, Rapid City Regional Hospital
School of Nursing
- B.S.N., South Dakota State University
- M.S., Northern Illinois University

Emerson, Sylvia

Professor,
Computers and Information Systems
- B.B.A., Iowa State University
- M.S.Ed., Northern Illinois University
- M.S., Northern Illinois University

Etlinger, Sarah

Assistant Professor,
Composition and Literature
- B.A., Skidmore College
- MA., Syracuse University
- Ph.D., University of Wisconsin-Milwaukee

Etminan, Jalil (Joe)

Professor,
Engineering and Technology
- B.S., Alabama Agricultural
and Mechanical University
- M.S., Alabama Agricultural
and Mechanical University
- M.S., Northern Illinois University

Figiel-Krueger, Maria

Associate Professor,
Reference Librarian
- A.A., Rock Valley College
- B.A., Rockford University
- M.S., University of Illinois at Urbana-Champaign

Fischer-Carlson, Lynn

Professor,
Art
- A.A., Rock Valley College
- B.F.A., Illinois State University
- M.F.A., Northern Illinois University

Fisher, Erin M.

Professor,
Psychology
- A.A., Rock Valley College
- B.A., Northern Illinois University
- M.S.Ed., Northern Illinois University

Fleeman, Stephen R.

Associate Professor and Academic Chair,
Electronic Engineering Technology
- B.S., Purdue University
- M.S., Purdue University

Flynn, Mary

Associate Professor,
Developmental Reading/Writing
- A.A., Rock Valley College
- B.A., Illinois State University
- M.A.T., St. Xavier University
- M.A. Ed., Northern Illinois University

Foes, Heather R.

Associate Professor,
Mathematics
- B.S., Illinois State University
- M.S., Illinois State University

Fundora, Danielle F.

Instructor,
Philosophy
- B.A., University of Notre Dame
- M.A. Arizona State University
- Ph.D. Arizona State University

Fustin, Scott

Associate Professor,
Graphic Arts Technology
- A.A., Rock Valley College
- B.F.A., Northern Illinois University
- M.S., University of Phoenix

Gallagher, Christopher M.

Instructor,
Manufacturing Engineering Technology
- B.S., Western Washington University
- M.S., Black Hills State University

Gardner, Scott

Professor,
Business
- B.S.E., Arkansas State University
- M.S.E., Arkansas State University
- Ed.S., Arkansas State University

GeRue, Gerald

Professor and Academic Chair,
Business Administration
- A.A.S., Rock Valley College
- B.S., Concordia University of Wisconsin
- M.B.A., Concordia University of Wisconsin
- Ph.D., Capella University

Gilbert, Theresa Paulette

Professor,
Composition and Literature
- B.A., Illinois Wesleyan University
- M.A., Stanford University

Goral, Alicia J.

Assistant Professor,
Nursing
- RN Diploma, Rockford Memorial School
of Nursing
- B.S., Alverno College
- M.S., Medical College of Wisconsin -
School of Nursing

Guensburg, Thomas E.

Professor,
Geology
- B.A., Southern Illinois University Carbondale
- M.S., Southern Illinois University Carbondale
- Ph.D., University of Illinois at Urbana-Champaign

Gunsul, Paul

Associate Professor,
Mathematics
- B.A., Judson University
- M.S., Western Illinois University
- Ph.D., Northern Illinois University

Guo, Tao

Professor,
Mathematics
- B.S., Beijing University of Chemistry
and Technology, China
- M.S., University of Iowa

Hansen, Liz

Associate Professor,
Chemistry
- B.S., Southern Illinois University Carbondale
- M.S., University of Missouri
- Ph.D., University of Missouri

Hanson, Sharon

Coordinator,
Phlebotomy Program
- B.A., Concordia University
- ASPT
- ASCP

Hatten, Timothy L.

NSCA Certified Strength & Conditioning Specialist
NSCA Certified Personal Trainer
Professor, Fitness, Wellness, and Sport
- A.S., Wabash Valley College
- B.S., Quincy University
- B.A., Quincy University
- M.S., Mississippi State University
- Ph.D., University of Mississippi

Haverly, Joseph E.

Associate Professor,
Life Sciences
- B.A., Blackburn University
- M.S., Washington State University

Hazen, Tracy

Assistant Professor,
Speech
- B.S., Illinois State University
- M.A., Eastern Illinois University

Heck, Joann

Assistant Professor,
Composition and Literature
- A.A., Rock Valley College
- B.A., Northern Illinois University
- M.A., Northern Illinois University

Heckman, Greg

Assistant Professor
Aviation Maintenance Technology
- A.S., Sauk Valley College
- B.S., University of Wisconsin - Platteville
- FAA certified Airframe and Powerplant
mechanic with Inspection Authorization

Henert, Shaine

Professor and Academic Chair,
Fitness, Wellness, and Sport
- A.S., Sauk Valley College
- B.S., Illinois State University
- M.S., Michigan State University
- Ph.D., University of Minnesota

Henrickson, Shu-Huei

Professor,
Composition and Literature
- B.A., Providence University, Taichung, Taiwan
- M.A., North Dakota State University

Hergert, Deena K.

Associate Professor,
Life Sciences
- B.S., Winona State University
- M.S., University of Wisconsin - Eau Claire

Hergert, Rodger S.

Professor,
Mathematics
- B.S., Jacksonville University
- M.S., University of Wisconsin - Milwaukee
